Blanco Bogs
Attn: Alex Ells
PO Box 41
Port Orford OR 97465

On February 18, 2021, the Water Resources Department received the Claim of Beneficial Use (COBU) for the following Transfer(s):

T-12924

The COBU included a report and map. The Department hopes to review your submittal within approximately 2 - 4 years. At that time we will review these items and provide a final certificate, proposed certificate, or a request for additional information.

If you are interested in having your COBU reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at:

<https://www.oregon.gov/OWRD/programs/WaterRights/RA/Pages/Certificate.aspx>

For all other questions please call our Customer Service phone: (503) 986-0900.

If you sell the property, please contact the Department, or have the new owners contact the Department about the need to file an assignment.

OWRD

A fee of \$200 must accompany this form for any Transfer final orders including a water right with a priority date of July 9, 1987, or later.

Example – A transfer involves 5 rights and one of the rights has a priority date of July 9, 1987, or later, the fee is required.

SECTION 1 GENERAL INFORMATION

Type of Authorized Change

This Claim is being submitted for a transfer where the only authorized change was a change in point(s) of appropriation or additional point(s) of appropriation, or a combination of both. **YES NO** If additional changes were authorized, you will need to select a different form.

1. File Information

APPLICATION # T-12924

2. Property Owner (current owner information)

APPLICANT/BUSINESS NAME Blanco Bogs (Alex Ells)		PHONE NO. 541 332-7805	ADDITIONAL CONTACT NO.	
ADDRESS P.O. Box 41				
CITY Port Orford	STATE OR	ZIP 97465	E-MAIL	

If the current property owner is not the transfer holder of record, it is recommended that an assignment be filed with the Department. **Each** transfer holder of record must sign this form.

3. Transfer holder of record (this may, or may not, be the current property owner)

TRANSFER HOLDER OF RECORD Same

OWRD

The facts contained in this Claim of Beneficial Use are true and correct to the best of my knowledge. I request that the Department issue a water right certificate.

SIGNATURE	PRINT OR TYPE NAME	TITLE	DATE
	Alex Ells	President	2/10, 21

SECTION 3

CLAIM DESCRIPTION

Note: The Claim only needs to describe the new or additional point(s) of appropriation. This Claim does not need to provide information for the original point(s) of appropriation unless the original point of appropriation is either a new or additional point of appropriation on another right involved in this transfer.

1. New or additional point of appropriation name or number:

POINT OF APPROPRIATION (POA) NAME OR NUMBER (CORRESPOND TO MAP)	WELL LOG ID # FOR ALL WORK PERFORMED ON THE WELL (IF APPLICABLE)	WELL TAG # (IF APPLICABLE)	SOURCE (IF LISTED IN TRANSFER FINAL ORDER)
Well 2	CURR 52713	L-122732	Well #2

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, or deepening)

If well logs are available, items A and B below can be deleted

2. Variations:

Was the use developed differently from what was authorized by the transfer final order, or extension final? **NO**

If yes, describe below.

(e.g. "The order allowed three new/additional points of appropriation. The water user only developed one of the points.")

3. Claim Summary:

NEW OR ADDITIONAL POA NAME OR #	MAXIMUM RATE AUTHORIZED	CALCULATED THEORETICAL RATE BASED ON SYSTEM	AMOUNT OF WATER MEASURED
Well 2	0.41	0.22	0.20

SECTION 4

SYSTEM DESCRIPTION

RECEIVED

FEB 18 2021

Are there multiple new or additional Points of Appropriation (POA)?

NO

If "YES" you will need to copy and complete a separate Section 4.

OWRD

POA Name or Number this section describes (only needed if there is more than one):

A. POA System Information

Provide the following information concerning the point of appropriation. Information provided must describe the equipment used to appropriate water from the point of appropriation.

1. Pump Information

MANUFACTURER	MODEL	SERIAL NUMBER	TYPE (CENTRIFUGAL, TURBINE OR SUBMERSIBLE)	INTAKE SIZE	DISCHARGE SIZE
Berkeley	Unknown	Unknown	Submersible	Unknown	Unknown

2. Motor Information

MANUFACTURER	HORSEPOWER
Franklin?	3 HP

3. Theoretical Pump Capacity

HORSEPOWER	OPERATING PSI	LIFT FROM SOURCE TO PUMP *IF A WELL, THE WATER LEVEL DURING PUMPING	LIFT FROM PUMP TO PLACE OF USE	TOTAL PUMP OUTPUT (IN CFS)
3	20±	40±	5	0.22

4. Provide pump calculations:

RECEIVED

$$Q \text{ CFS} = \frac{(\text{hp}) (\text{Pump efficiency})}{\text{Total head in feet}} \quad \text{Well \#2} \quad Q = \frac{(3)(7.04)}{50.8+40+5} = \frac{21.12}{95.8} = 0.22$$

FEB 18 2021

OWRD

5. Measured Pump Capacity (using meter if meter was present and system was operating)

INITIAL METER READING	ENDING METER READING	DURATION OF TIME OBSERVED	TOTAL PUMP OUTPUT (IN CFS)
		As well being used	91 GPM = 0.20

Reminder: For pump calculations use the reference information at the end of this document.

B. Groundwater Source Information (Well and Sump)

3. Is the appropriation from a dug well (sump)?

NO

If "NO", items 4 through 6 relating to this section may be deleted.

Reminder: Construction standards for sumps can be found in OAR 690-210-0400.

C. Additional notes or comments related to the system:

SECTION 5
CONDITIONS

All conditions contained in the transfer final order, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Describe how the water user has complied with each of the development timelines established in the transfer final order and any extensions of time issued for the transfer:

	DATE FROM TRANSFER	DATE THE NEW AND/OR ADDITIONAL POA(S) WERE READY FOR USE *THIS DATE MUST FALL BETWEEN THE "ISSUANCE DATE" AND THE "COMPLETENESS DATE"
ISSUANCE DATE	11/4/2019	
COMPLETENESS DATE FROM ORDER (C)	10/1/2021	Well drilled 9/14/2016. Pump/Meter installed in 2020 Well used for cranberry operations & supp'l cranberry @ Agricultural use

* MUST BE WITHIN PERIOD BETWEEN TRANSFER FINAL ORDER, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETE THE CHANGE

RECEIVED

FEB 18 2021

NO

OWRD

2. Is there an extension final order(s)?

If "NO", you may delete the following table.

3. Measurement Conditions:

a. Does the transfer final order, or any extension final order require the installation of a meter or other approved measuring device? YES

If "NO", items b through f relating to this section may be deleted.

Reminder: If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of appropriation.

b. Has a meter been installed? YES

c. Meter Information

POA NAME OR #	MANUFACTURER	SERIAL #	CONDITION (WORKING OR NOT)	CURRENT METER READING	DATE INSTALLED
Well 2	Assured Automation	8932-6	working	209987 Gal	2020

If a meter has been installed, items d through f relating to this section may be deleted.

4. Recording and reporting conditions

a. Is the water user required to report the water use to the Department? NO

If "NO", item b relating to this section may be deleted.

5. Other conditions required by the transfer final order or extension final order:

a. Were there special well construction standards? NO

b. Was submittal of a ground water monitoring plan required? NO

c. Other conditions? YES

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

Meters are installed at all POA's

**SECTION 6
ATTACHMENTS**

OWRD

Provide a list of any additional documents you are attaching to this report:

ATTACHMENT NAME	DESCRIPTION

**SECTION 7
CLAIM OF BENEFICIAL USE MAP**

The Claim of Beneficial Use Map must be submitted with this claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on polyester film at a scale of 1" = 1320 feet, 1" = 400 feet, or the original full-size scale of the county assessor map for the location.

For the purpose of this Claim, the map identifying the location of the place of use does not require a new survey. The location of the place of use identified on the Claim map should be based on the original right of record at the time the transfer final order was issued. In transfers approved for additional points of appropriation, the original points must be identified the map based on the original right of record at the time the transfer final order was issued.

Provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

Used Curry Co. GIS for base map. 5/1/15 Google aerial and 2005 FSA aerial photo scaled and overlaid For assumed best fit. Adjusted to previous COBU and FPS maps. Orientation adjusted to recorded Survey 31-73

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application) FINAL ORDER APPROVING OF AN
T-12924, Curry County) ADDITIONAL POINT OF
) APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

Applicant

BLANCO BOGS (ALEX ELLS)
PO BOX 41
PORT ORFORD, OR 97465

Findings of Fact

1. On May 16, 2018, BLANCO BOGS (ALEX ELLS) filed an application for an additional point of appropriation under Certificate 90058. The Department assigned the application number T-12924.
2. Notice of the application for transfer was published on May 22, 2018, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On May 31, 2019, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12924 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of July 1, 2019, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
4. On September 12, 2019 the Department issued a Preliminary Determination proposing to approve Transfer T-12924 and mailed a copy to the applicant. Additionally, notice of the

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Preliminary Determination for the transfer application was published on the Department's weekly notice on September 17, 2019 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

5. The right to be transferred is as follows:

Certificate: 90058 in the name of BLANCO BOGS (perfected under Permit G-12993)

Use: IRRIGATION AND AGRICULTURAL USES ON 37.1 ACRES FOR CRANBERRY OPERATIONS AND SUPPLEMENTAL IRRIGATION AND AGRICULTURAL USE ON 33.0 ACRES FOR CRANBERRY OPERATIONS.

Priority Date: SEPTEMBER 18, 1991

Rate: 0.61 CUBIC FOOT PER SECOND (CFS), BEING 0.41 CFS FROM THE WELL AND 0.20 FROM THE SUMP

Limit/Duty: The amount of water diverted for CRANBERRY OPERATIONS, together with amounts secured under any other rights existing for the same lands, is limited as follows: For temperature control, 0.15 cubic foot per second per acre; For flood harvesting or pest control, 0.05 cubic foot per second per acre; For irrigation of cranberries, ONE-FORTIETH of one cubic foot per second and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

Period of Use: The period of allowed use for water from the well is year round for agricultural use and March 1 through October 31 for irrigation. The period of allowed use for water from the sump is November 1 through April 30 and during the month of July for agricultural use and March 1 through April 30 and during the month of July for irrigation.

6. Transfer Application T-12924 proposes to add the authorized point of appropriation, with approximate distances from the existing point of appropriation as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Approximate Distances (miles)	
						WELL 1	SUMP
31 S	15 W	WM	32	NE SW	WELL 2 - 1735 FEET NORTH AND 2570 FEET EAST FROM SW THE CORNER OF SECTION 32	0.13	0.11

Transfer Review Criteria (OAR 690-380-4010)

- Water has been used within the last five years prior to the submittal of Transfer Application T-12924 according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12924.
- The proposed change would not result in enlargement of the right.
- The proposed change would not result in injury to other water rights.
- All other application requirements are met.

Conclusions of Law

The additional point of appropriation proposed in Transfer Application T-12924 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

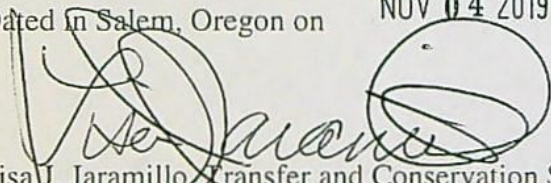

Now, therefore, it is ORDERED:

- The additional point of appropriation proposed in Transfer Application T-12924 is approved.
- The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 90058 and any related decree.
- Water right Certificate 90058 is cancelled.
- The quantity of water diverted at the additional point of appropriation (Well 2), together with that diverted at the original points of appropriation (Well 1 and Sump), shall not exceed

the quantity of water lawfully available at the original points of appropriation (Well 1 and Sump).

5. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
6. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
7. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2021**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
8. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

REFERENCE: Transfer Application T-12924

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Kelly Starnes, by telephone at (503) 986-0886 or by e-mail at Patrick.K.Starnes@oregon.gov.

Applicant

BLANCO BOGS (ALEX ELLS)

PO BOX 41

PORT ORFORD, OR 97465

SUBJECT: Water Right Transfer Application T-12924

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-12924. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at scott.a.grew@oregon.gov or 503-986-0890 if I may be of assistance.

Sincerely,

Transfer Specialist

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)	PRELIMINARY DETERMINATION
T-12924, Curry County)	PROPOSING APPROVAL OF AN
)	ADDITIONAL POINT OF
)	APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

BLANCO BOGS (ALEX ELLS)
PO BOX 41
PORT ORFORD, OR 97465

Findings of Fact

1. On May 16, 2018, BLANCO BOGS (ALEX ELLS) filed an application for an additional point of appropriation under Certificate 90058. The Department assigned the application number T-12924.
2. Notice of the application for transfer was published on May 22, 2018, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On May 31, 2019, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-12924 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of July 1, 2019, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

4. The right to be transferred is as follows:

Certificate: 90058 in the name of BLANCO BOGS (perfected under Permit G-12993)
Use: IRRIGATION AND AGRICULTURAL USES ON 37.1 ACRES FOR CRANBERRY OPERATIONS AND SUPPLEMENTAL IRRIGATION AND AGRICULTURAL USE ON 33.0 ACRES FOR CRANBERRY OPERATIONS.

Priority Date: SEPTEMBER 18, 1991

Rate: 0.61 CUBIC FOOT PER SECOND (CFS), BEING 0.41 CFS FROM THE WELL AND 0.20 FROM THE SUMP

Limit/Duty: The amount of water diverted for CRANBERRY OPERATIONS, together with amounts secured under any other rights existing for the same lands, is limited as follows: For temperature control, 0.15 cubic foot per second per acre; For flood harvesting or pest control, 0.05 cubic foot per second per acre; For irrigation of cranberries, ONE-FORTIETH of one cubic foot per second and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

Period of Use: The period of allowed use for water from the well is year round for agricultural use and March 1 through October 31 for irrigation. The period of allowed use for water from the sump is November 1 through April 30 and during the month of July for agricultural use and March 1 through April 30 and during the month of July for irrigation.

31 S	15 W	WM	32	NW SE		5.0
32 S	15 W	WM	5	NW NW	4	9.3
Total						33.0

5. Transfer Application T-12924 proposes to add the authorized point of appropriation, with approximate distances from the existing point of appropriation as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Approximate Distances (miles)	
						WELL 1	SUMP
31 S	15 W	WM	32	NE SW	WELL 2 - 1735 FEET NORTH AND 2570 FEET EAST FROM SW CORNER, SECTION 32	0.13	0.11

Transfer Review Criteria (OAR 690-380-4010)

- Water has been used within the last five years prior to the submittal of Transfer Application T-12924 according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12924.
- The proposed change would not result in enlargement of the right.
- The proposed change would not result in injury to other water rights.
- All other application requirements are met.

Determination and Proposed Action

The additional point of appropriation proposed in Transfer Application T-12924 appears to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

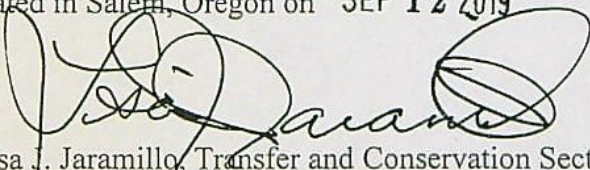

If Transfer Application T-12924 is approved, the final order will include the following:

- The additional point of appropriation proposed in Transfer Application T-12924 is approved.*
- The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 90058 and any related decree.*
- Water right Certificate 90058 is cancelled.*
- The quantity of water diverted at the additional point of appropriation (Well 2), together with that diverted at the original points of appropriation (Well 1 and Sump), shall not*

exceed the quantity of water lawfully available at the original points of appropriation (Well 1 and Sump).

5. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).*
 - b. *The water user shall maintain the meters or measuring devices in good working order.*
 - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
6. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
7. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2020**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
8. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

Determination and Conclusions of Law (Cont'd)

Based on review of the record, the proposed change(s) would not result in injury to other water rights.

Or, if denial

The proposed change(s) would result in the routing of return flows around at least one diversion of other existing water rights, resulting in injury to those rights. **Or**

An instream water right, Certificate XXXXX, exists for the reach of the river in which the authorized point of diversion would be moved upstream, and streamflows within the reach are frequently below the levels allocated under the instream water right. Thus, the instream water right would be injured as a result of the proposed change in point of diversion.

The proposed change(s) would not result in injury to other water rights.

Or

The proposed change would result in injury to other water rights.

Or

The proposed change would result in injury to the instream water right. [See consent to injury]

The application is complete. **Or**

The application is incomplete

All other application requirements are met. **Or**

The application is incomplete because ...

Ensure all conditions are carried forward in Order section.

Determination and Conclusions of Law

FINDINGS	DETERMINATION AND PROPOSED ACTION / CONCLUSIONS OF LAW
Based on review of the evidence submitted, the Department finds the water right(s) has/have been used [within the last five years] or [within the five-year period prior to submittal of the transfer application] according to the terms and conditions of the right(s) and the right(s) is/are not subject to forfeiture.	The right(s) has/have been used [within the past five years] or [within the five-year period prior to submittal of the transfer application] according to the terms and conditions of the right(s). or Confirming water right Certificate XXXXX was issued within the last five years prior to submission of Transfer Application T-XXXXX.
Based on the information submitted [and Department records], a diversion structure and ditch sufficient to use the full amount of water allowed under the existing right(s) were present within the five-year period prior to submittal of the transfer application: or Based on the information submitted [and Department records], a pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right(s) were present within the five-year period prior to submittal of the transfer application.	The Applicant is ready, willing, and able to use the full quantity of water under the right. There is no evidence in the record to suggest the right is subject to forfeiture.
[As conditioned,] the proposed change(s) would not result in enlargement of the right. Or, if denial The lands currently irrigated under the right would continue to receive water from the same source resulting in enlargement of the right(s).	The proposed change(s) will not enlarge the right. Or The proposed change(s) would result in enlargement of the right.

STATE OF OREGON

COUNTY OF CURRY

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

BLANCO BOGS
PO BOX 41
PORT ORFORD OR 97465

confirms the right to use the waters of ONE WELL AND ONE SUMP IN SIXES RIVER BASIN for IRRIGATION AND AGRICULTURAL USES ON 37.1 ACRES FOR CRANBERRY OPERATIONS AND SUPPLEMENTAL IRRIGATION AND AGRICULTURAL USE ON 33.0 ACRES FOR CRANBERRY OPERATIONS.

This right was perfected under Permit G-12993. The date of priority is SEPTEMBER 18, 1991. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.61 CUBIC FOOT PER SECOND (CFS), BEING 0.41 CFS FROM THE WELL AND 0.20 FROM THE SUMP, or its equivalent in case of rotation, measured at the well/sump.

The period of allowed use for water from the well is year round for agricultural use and March 1 through October 31 for irrigation.

The period of allowed use for water from the sump is November 1 through April 30 and during the month of July for agricultural use and March 1 through April 30 and during the month of July for irrigation.

The points of appropriation are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
31 S	15 W	WM	32	NE SW	WELL - 2560 FEET NORTH AND 2430 FEET EAST FROM SW CORNER, SECTION 32
31 S	15 W	WM	32	NE SW	SUMP - 1600 FEET NORTH AND 2015 FEET EAST FROM SW CORNER, SECTION 32

The amount of water diverted for CRANBERRY OPERATIONS, together with amounts secured under any other rights existing for the same lands, is limited as follows: For temperature control, 0.15 cubic foot per second per acre; For flood harvesting or pest control, 0.05 cubic foot per second per acre; For irrigation of cranberries, ONE-FORTIETH of one cubic foot per second and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

Entrusted

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

A description of the place of use is as follows:

CRANBERRY OPERATIONS					
Twp	Rng	Mer	Sec	Q-Q	Acres
31 S	15 W	WM	32	NE SW	16.4
31 S	15 W	WM	32	NW SW	0.6
31 S	15 W	WM	32	SW SW	2.2
31 S	15 W	WM	32	NW SE	1.7
31 S	15 W	WM	32	SW SE	16.2

SUPPLEMENTAL CRANBERRY OPERATIONS						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
31 S	15 W	WM	32	NW SW		14.3
31 S	15 W	WM	32	SW SW		4.4
31 S	15 W	WM	32	NW SE		5.0
32 S	15 W	WM	5	NW NW	4	9.3

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or measuring device in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Groundwater production from the well shall be from no shallower than 60 feet below land surface.

Based on an analysis of the data collected, the Director may require that the user obtain and report additional annual static water level measurements. The static water levels shall be measured in the month of March. The additional measurements may be required in a different month other than March. Reports shall be submitted to the Department within 30 days of measurement. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The reference level for the well, against which any future measurements will be compared, is 7.66 feet below land surface.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a useable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the wells at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

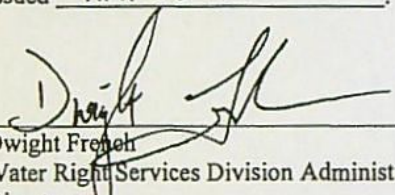

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued APR 10 2015

Dwight French
Water Right Services Division Administrator, for
Director
Oregon Water Resources Department

Application for Permanent Water Right Transfer

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Water Rights to be Transferred: **How many water rights are to be transferred? 1 List them here: 90058**
Please include a separate Part 5 for each water right. (See instructions on page 6)

Attachments:

- Completed Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

RECEIVED

Part 2 of 5 – Transfer Application Map Checklist

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 4 of 5 – Applicant Information and Signature

Applicant Information

APPLICANT/BUSINESS NAME Blanco Bogs (Alex Ells)		PHONE NO. (541) 332-5971	ADDITIONAL CONTACT NO.
ADDRESS P.O. Box 41		FAX NO.	
CITY Port Orford	STATE OR	ZIP 97465	E-MAIL
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME		PHONE NO.	ADDITIONAL CONTACT NO.
ADDRESS		FAX NO.	
CITY	STATE	ZIP	E-MAIL
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Explain in your own words what you propose to accomplish with this transfer application, and why:
To add an additional well to minimize ground water use impact and to make delivering water more efficient.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

- Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

I understand that prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Curry Coastal Pilot.

I (we) affirm that the information contained in this application is true and accurate.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No *If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? Yes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see:

<http://www.oregon.gov/owrd/docs/transfer-propertytransactions.pdf>

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab; toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "Allow only this type of editing in the document: **Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

MAY 16 2018

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 90058

Description of Water Delivery System

System capacity: 0.41 (well-1) cubic feet per second (cfs) **OR**
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **Well-1 – 5 HP submersible pump delivers water via a 3 inch pipeline which interconnects to other various sized lines from other sources. System is controlled by valves to isolate which source is being used for which bogs. Water is applied to bogs by sprinklers and open discharge. Water from sump is delivered using 5 centrifugal pumps (3 x 20HP, 40 HP & 5 HP – capacity 1839 GPM,**

Will all of the proposed changes affect the entire water right?

- Yes** Complete only the Proposed (“to” or “on” lands) section of Table 2 on the next page. Use the “CODES” listed above to describe the proposed changes.
- No** Complete all of Table 2 to describe the portion of the water right to be changed.

RECEIVED

Please use and attach additional pages of Table 2 as needed.
See page 6 for instructions.

Do you have questions about how to fill-out the tables?
Contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Changes to Water Right Certificate # 90058

List the change proposed for the acreage in each 1/4 1/4. If more than one change is proposed, specify the acreage associated with each change.
If there is more than one POD/POA involved in the proposed changes, specify the acreage associated with each POD/POA.

AUTHORIZED (the "from" or "off" lands) The listing that appears on the certificate BEFORE PROPOSED CHANGES List only that part or portion of the water right that will be changed.											Proposed Changes (see "CODES" from previous page)	PROPOSED (the "to" or "on" lands) The listing as it would appear AFTER PROPOSED CHANGES are made.

Additional remarks: _____.

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

 Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;
Surface water primary Certificate # _____.

RECEIVED

MAY 16 2018

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

OWRD

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well: OWRD Well ID Tag No. L-	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well-specific rate (cfs or gpm). If less than full rate of water right

Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

OWRD

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

B. Description of Proposed Use

OWRD

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
 Water Right Transfer
 Permit Amendment or Ground Water Registration Modification
 Limited Water Use License
 Allocation of Conserved Water
 Exchange of Water

Source of water: Reservoir/Pond
 Ground Water
 Surface Water (name) _____

Estimated quantity of water needed: 0.41
 cubic feet per second
 gallons per minute
 acre-feet

Intended use of water: Irrigation
 Commercial
 Industrial
 Domestic for _____ household(s)
 Municipal
 Quasi-Municipal
 Instream
 Other Cranberry Operations

Briefly describe:

We are adding an additional well to a water right certificate to facilitate growing cranberries. This will increase the efficiency of our water use and allow alternating between wells or pump a portion from each.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

Watermaster Review Form: Water Right Transfer

Transfer Application: T-12924

Review Due Date: 5/25/2018

Applicant Name: Blanco Bogs

Proposed Changes: POU POD POA USE OTHER

Reviewer(s): G. Wacker

Date of Review: May. 25, 2018

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? Yes No If "yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? Yes No
 Generally characterize the frequency of any regulation or explain why regulation has not occurred: _____
3. Have headgate notices been issued for the source that serves the transferred right(s)?
 Yes No Records not available.
4. In your estimation, after the proposed change would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized?
 Yes No If "Yes", explain: _____
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? Yes No If "Yes", describe how the rights would be affected and list the rights most affected: _____
6. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most: _____ N/A
7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses: _____ N/A
8. For instream transfers that propose protection of a reach beyond the mouth of the source stream: N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? Yes No
9. For POU changes: N/A Is it likely the original place of use would continue to receive water from the same source? Yes No If "Yes", explain: _____

10. For POU or USE changes: N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? Yes No If "Yes", explain: _____
11. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?
 Yes No If "Yes", explain: _____
12. What alternatives may be available for addressing any issues identified above: _____
13. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? No Yes, as checked below:
- A Headgate should be required prior to diverting water.
- Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of page 3)
- a. Before water use may begin under this order, the water user shall install a totalizing flow meter*, or, with prior approval of the Director, another suitable measuring device, at each point of diversion/appropriation (new and existing) or at each new point of diversion/appropriation.*
- b. The water user shall maintain the meters or measuring devices in good working order.*
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
- Reservoir water use measurement: (if this condition is selected, also fill in the top sections of page 3)
- a. Before water use may begin under this order, the water user shall install staff gages*, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*
- b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.*

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

Groundwater Transfer Review Summary Form

Transfer/PA # T- 12924

GW Reviewer Joe Kemper Date Review Completed: 3/21/2019

Summary of Enlargement (Same Source) Review:

The proposed transfer fails to keep the original place of use from receiving water from the same source.

Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled.

Summary of Well Construction Assessment:

The proposed POA does not have a well log.

The proposed POA does not appear to meet current well construction standards. Route through Well Construction and Compliance Section.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Oregon Water Resources Department

 www.wrd.state.or.us

Ground Water Review Form:

- Water Right Transfer
- Permit Amendment
- GR Modification
- Other

Application: T-12924

Applicant Name: Blanco Bogs

- Proposed Changes: POA APOA SW→GW RA
 USE POU OTHER

Reviewer(s): Joe Kemper

Date of Review: 3/21/2019

Date Reviewed by GW Mgr. and Returned to WRSD: 3/28/19

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other _____

-
1. Basic description of the changes proposed in this transfer: The applicant wants to add an APOA (CURR 52713) to the current POAs (CURR 984 & Sump 1) on Certificate 90058. There are no proposed changes to place, character, or timing of use. This review assumes that the APOA will have the same maximum rate, character, and timing of use as Well 1.
 2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
 Yes No Comments: Well 1 and Sump 1 access water-bearing sands and gravels of the Pioneer Terrace, a laterally extensive Pleistocene-aged marine terrace. APOA 1 would also access the aquifer system hosted in the Pioneer Terrace.
 3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
 Yes No
 b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____
 4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?
 Yes No Comments: see below
 b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

Yes No If yes, explain: The closest permitted well (CURR 1722) is 900 feet from APOA 1 and 1500 feet from Well 1. The resulting increase in well-to-well interference is modeled using the Theis (1935) solution using a reasonable range of parameters for the local hydrogeology (see Figure 2). Assuming APOA 1 pumps exclusively at the maximum rate for an entire year, interference is expected to increase 1-5 feet. As this scenario maximizes potential interference, the proposed change is not expected to injure other groundwater rights.

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

Yes No Comments: The APOA is a closer distance as Well 1 (~3500 feet vs ~4000 feet) to the nearest mapped perennial stream.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: Unnamed trib. to Sixes River Minimal Significant

Provide context for minimal/significant impact: The Jenkins (1968) analytical model is used with parameters representative of the local hydrogeology to estimate stream depletion increase when moving a well from approximately 600 feet closer to the stream. Calculated impacts were approximately 10% higher for the closer well at the end of a year of pumping. Impacts to the nearby surface water source are expected to be minimal.

6. What conditions or other changes in the application are necessary to address any potential issues identified above: NA
7. Any additional comments: NA

The reference level for the well, against which any future measurements will be compared, is 7.66 feet below land surface.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a useable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the wells at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

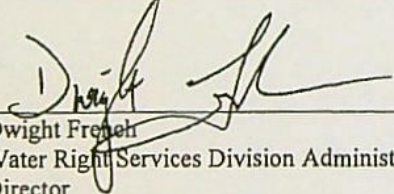

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued APR 10 2015

REFERENCE: Transfer T-12924

We have received your packet containing the property profiles for several taxlots however they do not meet the criteria outlined in the Draft Preliminary Determination cover letter and Oregon Administrative Rule 690-380-4010. See below.

1. A report of landownership for the lands to which the water right(s) are appurtenant (the FROM lands) is required. **The report must be prepared by a title company and meet the criteria below.** (Reports may be called by various names, such as Customer Service Report, Property Analysis Report (PAR), List Pack, Lot Book Report, etc.)
 - a) The title company's report must either be:
 - i) prepared within 3 months of the draft Preliminary Determination showing current ownership, or
 - ii) prepared within 3 months of recording of a water right conveyance agreement, or
 - iii) prepared at any time, but showing ownership at the time a water right conveyance agreement was recorded.
 - b) **The ownership report shall include:**
 - i) **Date the ownership report was generated or prepared; and**
 - ii) **List of owners at that time; and**
 - iii) **Legal description of the property where the water right to be transferred is currently located.**
 - c) You will need to submit a notarized statement of consent from any landowner listed in the ownership report who is not already included in the transfer application, or other information such as a water right conveyance agreement, if applicable.
- Please submit the Landownership Reports **by July 19, 2019** to Scott Grew, Water Resources Department, 725 Summer St. NE, Suite A, Salem, OR 97301-1266. If not received by **July 19, 2019** the Department will prepare a Preliminary Determination to Deny. If you have any questions, please call me at 503-986-0890.

Sincerely,

Scott Grew

1993 INSTRUMENT 93 01149

BARGAIN AND SALE DEED (INDIVIDUAL)

OWRD

Robert G. McKenzie Jr. convey(s)

to Blanco Bogs, Inc., an Oregon Corporation

all that real property situated in Curry County, State of Oregon, described as:

An undivided one-half interest in the following described property:

All that real property situated in Curry County, State of Oregon described as a strip of land beginning at the NW corner, of NE Quarter of the SE Quarter of Section 32, Township 31 South, Range 15 West, Willamette Meridian, also known as Lot 6000, being the further most NW corner of property deeded unto grantor herein; thence South along said grantor's West boundary line to a point being the said grantor's most Southwesterly corner, a distance of 1,320 feet more or less; thence East 50 feet along said grantor's Southern most boundary to a point; thence North parallel to said Westerly boundary to a point 50 feet East of the point of beginning; thence Westerly along said Northerly boundary to the point of beginning.

Subject to any and all easements of record.

The true and actual consideration for this transfer is \$ Nil

This is being recorded to convey the remaining 1/2 interest in the above stated strip of land. This is to correct the legal description of that parcel conveyed in #91-2157. Dated this 10 day of February, 1993.

THIS INSTRUMENT WILL NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY APPROVED USES.

Robert G. McKenzie Jr. X Robert G. McKenzie, Jr.

STATE OF OREGON, County of Curry) ss.

February 10, 1993 personally appeared the above-named

Robert G. McKenzie, Jr. and acknowledged the foregoing

instrument to be his voluntary act and deed.

Before me:

Norma Anderson Notary Public for Oregon My commission expires: 10-7-94

BARGAIN AND SALE DEED

CHARLES C. ELLS, as to an undivided one-half interest, and ALEXANDER C. ELLS and GWENDOLYN M. ELLS, husband and wife, as to an undivided one-half interest, grantors, convey to BLANCO BOGS, INC., an Oregon corporation, grantee, all of the real property, situated in Curry County, Oregon, described as follows:

PARCEL I:

The NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 5, Township 32 South, Range 15 West of the Willamette Meridian.

ALSO: The W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 32, Township 31 South, Range 15 West of the Willamette Meridian.

PARCEL II:

The NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32, Township 32 South, Range 15 West of the Willamette Meridian, excluding that portion lying within the Sixes Airport County Road.

ALSO, that portion of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32, Township 31 South, Range 15 West of the Willamette Meridian, described as follows:

Beginning at the existing center of said Section 32, which is a spike in the center of the Sixes Airport County Road and which spike lies due South of the North half corner of said Section 32, run thence East, 426.03 feet; thence South 0° 57' 10" West, to the South boundary line of the said NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32; thence Westerly along the said South boundary line to the West boundary line of the said NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32; thence Northerly along the said West boundary line, to the point of beginning; excluding that portion lying within the Sixes Airport County Road.

The consideration for this conveyance is other value given.

This instrument will not allow use of the property described in this instrument in violation of applicable land use laws and regulations. Before signing or accepting this instrument the person acquiring fee title to the property should check with the appropriate city or county planning department to verify approved uses.

ROBERT G. MCKENZIE III and GLORIA J. MCKENZIE, as tenants by the entirety, as to an undivided one-half (1/2) interest and ROBERT G. MCKENZIE, JR. and BEVERLY J. MCKENZIE as tenants by the entirety, as to an undivided one-half (1/2) interest, hereinafter called grantor, convey(s) to BLANCO BOGS, INC., an Oregon corporation all that real property situated in the County of CURRY, State of Oregon, described as:

A tract of land described as the Southwest Quarter (SW1/4) of the Southeast Quarter (SE1/4) of Section Thirty-two (32), Township Thirty-one (31) South, Range Fifteen (15) West of the Willamette Meridian, Curry County, Oregon. TOGETHER WITH those certain roadway easements as disclosed by instrument, including the terms and provisions thereof, recorded June 14, 1973 in Book of Records 29, Page 796 and November 15, 1982 in Book of Records 94, Page 424.

Map No. 31-15-12; TL 2600 (83551)

and covenant(s) that grantor is the owner of the above described property free of all encumbrances except:

as shown on Exhibit "A" attached

and will warrant and defend the same against all persons who may lawfully claim the same, except as shown above.

The true and actual consideration for this transfer is \$52,000.00.

Dated this 16th day of April, 1991.

Robert G. McKenzie III
ROBERT G. MCKENZIE III

Gloria J. McKenzie
GLORIA J. MCKENZIE

Robert G. McKenzie Jr.
ROBERT G. MCKENZIE, JR.

Beverly J. McKenzie
BEVERLY J. MCKENZIE

THIS INSTRUMENT WILL NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY APPROVED USES.

STATE OF OREGON, County of CURRY) ss.

April 16, 1991 personally appeared the above named ROBERT G. MCKENZIE III, GLORIA J. MCKENZIE, ROBERT G. MCKENZIE, JR. and BEVERLY J. MCKENZIE and acknowledged the foregoing instrument to be their voluntary act and deed.

Before me:

Sandra L. Todd
Notary Public for Oregon
My Commission Expires: 10-5-93

The dollar amount should include cash plus all encumbrances existing against the property to which the property remains subject or which the purchaser agrees to pay or assume.

<p>WARRANTY DEED (INDIVIDUAL) ROBERT G. MCKENZIE III GLORIA J. MCKENZIE TO BLANCO BOGS, INC.</p>	<p>SPACE RESERVED FOR RECORDER'S USE</p>
<p>Send tax statements to: Blanco Bogs, Inc. P.O. Box 41 Fort Orford, OR 97465</p>	

EXHIBIT "A"

The rights of the public in and to that portion of the herein described property lying within the limits of public roads or highways.

An easement created by instrument, including the terms and provisions thereof,

Dated : July 25, 1988
Recorded : August 8, 1988 BR: 147 Page 76-7
In Favor of : Charles C. Ells, et al
For : Roadway and water pipeline

As disclosed by the assessment and tax roll, the premises herein have been specially assessed for farm use. If the land becomes disqualified for this special assessment under the statutes, an additional tax, plus interest and penalty, will be levied for the number of years in which this special assessment was in effect for the land.

Reference: Water Right Transfer Application T-12924

Your water right transfer is in the first of three phases of processing. Enclosed is a draft of the Department's Preliminary Determination regarding Transfer Application T-12924. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be approved.

Items needed before the next phase of processing...

1. Please review the draft carefully to see if it accurately reflects the changes you intend to make, and to become familiar with all proposed conditions. **You will need to respond in writing** by the deadline provided below, whether you agree with the proposed action and conditions. Also we will appreciate having you let us know if there are typographical errors that need to be corrected.
2. A report of landownership for the lands to which the water right(s) are appurtenant (the FROM lands) is required. **The report must be prepared by a title company and meet the criteria below.** (*Reports may be called by various names, such as Customer Service Report, Property Analysis Report (PAR), List Pack, Lot Book Report, etc.*)
 - a) The title company's report must either be:
 - i) prepared within 3 months of the draft Preliminary Determination showing current ownership, or
 - ii) prepared within 3 months of recording of a water right conveyance agreement, or
 - iii) prepared at any time, but showing ownership at the time a water right conveyance agreement was recorded.
 - b) The ownership report shall include:
 - i) Date the ownership report was generated or prepared; and
 - ii) List of owners at that time; and
 - iii) Legal description of the property where the water right to be transferred is currently located.
 - c) You will need to submit a notarized statement of consent from any landowner listed in the ownership report who is not already included in the transfer application, or other information such as a water right conveyance agreement, if applicable.

Conditions to your water right...

The Watermaster has required a water measurement device(s) at the new diversion point(s) prior to diversion of water. Enclosed is a contact information sheet to assist you in pursuing additional information or approval of the required (or alternate) device(s).

Please note the proposed date by which all conditions must be met: October 1, 2020. If the required completion date is insufficient to comply with any of the conditions, you may extend the date at no cost to you during this stage of processing. Please let me know by the comment deadline so we can make the proper arrangements to get you the time you need.

What happens next...

Once the preliminary determination is issued a publication period is required. The Department will publish a notice in their weekly publication, which opens a 30-day period in which the transfer can be protested.

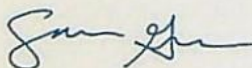

Issuance of the Preliminary Determination will occur shortly after we receive:

1. your written response to the conditions and proposed action in the draft Preliminary Determination (e-mail is acceptable); and
2. report of ownership, and affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application

If we do not receive the items listed above by July 1, 2019, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me at scott.a.grew@oregon.gov or 503-986-0890 if I may be of assistance.

Sincerely,

Transfer Specialist
Transfer and Conservation Section

STATE OF OREGON**

In the Matter of Transfer Application)
T-12924, Curry County)

D R A F T

PRELIMINARY DETERMINATION
PROPOSING APPROVAL OF AN
ADDITIONAL POINT OF
APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

BLANCO BOGS (ALEX ELLS)
PO BOX 41
PORT ORFORD, OR 97465

Findings of Fact

1. On May 16, 2018, BLANCO BOGS (ALEX ELLS) filed an application for an additional point of appropriation under Certificate 90058. The Department assigned the application number T-12924.
2. Notice of the application for transfer was published on May 22, 2018, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. The right to be transferred is as follows:

Certificate: 90058 in the name of BLANCO BOGS (perfected under Permit G-12993)
Use: IRRIGATION AND AGRICULTURAL USES ON 37.1 ACRES FOR CRANBERRY OPERATIONS AND SUPPLEMENTAL IRRIGATION AND AGRICULTURAL USE ON 33.0 ACRES FOR CRANBERRY OPERATIONS.

Priority Date: SEPTEMBER 18, 1991

Rate: 0.61 CUBIC FOOT PER SECOND (CFS), BEING 0.41 CFS FROM THE WELL AND 0.20 FROM THE SUMP

Limit/Duty: The amount of water diverted for CRANBERRY OPERATIONS, together with amounts secured under any other rights existing for the same lands, is limited as follows: For temperature control, 0.15 cubic foot per second per acre; For flood harvesting or pest control, 0.05 cubic foot per second per

acre; For irrigation of cranberries, ONE-FORTIETH of one cubic foot per second and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

Period of Use: The period of allowed use for water from the well is year round for agricultural use and March 1 through October 31 for irrigation. The period of allowed use for water from the sump is November 1 through April 30 and during the month of July for agricultural use and March 1 through April 30 and during the month of July for irrigation.

Source: ONE WELL and ONE SUMP in SIXES RIVER BASIN

Authorized Points of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
31 S	15 W	WM	32	NE SW	WELL - 2560 FEET NORTH AND 2430 FEET EAST FROM THE SW CORNER OF SECTION 32
31 S	15 W	WM	32	NE SW	SUMP - 1600 FEET NORTH AND 2015 FEET EAST FROM THE SW CORNER OF SECTION 32

Authorized Place of Use:

CRANBERRY OPERATIONS					
Twp	Rng	Mer	Sec	Q-Q	Acres
31 S	15 W	WM	32	NE SW	16.4
31 S	15 W	WM	32	NW SW	0.6
31 S	15 W	WM	32	SW SW	2.2
31 S	15 W	WM	32	NW SE	1.7
31 S	15 W	WM	32	SW SE	16.2
Total					37.1

SUPPLEMENTAL CRANBERRY OPERATIONS						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
31 S	15 W	WM	32	NW SW		14.3
31 S	15 W	WM	32	SW SW		4.4
31 S	15 W	WM	32	NW SE		5.0
32 S	15 W	WM	5	NW NW	4	9.3
Total						33.0

4. Transfer Application T-12924 proposes to add the authorized point of appropriation, with approximate distances from the existing point of appropriation as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Approximate Distances (miles)	
31 S	15 W	WM	32	NE SW	1735 FEET NORTH AND 2570 FEET EAST FROM SW CORNER, SECTION 32	WELL 1	SUMP
						0.13	0.11

Transfer Review Criteria (OAR 690-380-4010)

5. Water has been used within the last five years prior to the submittal of Transfer Application T-12924 according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

6. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12924.
7. The proposed change would not result in enlargement of the right.
8. The proposed change would not result in injury to other water rights.
9. All other application requirements are met.

Determination and Proposed Action

The additional point of appropriation proposed in Transfer Application T-12924 appears to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-12924 is approved, the final order will include the following:

1. *The additional point of appropriation proposed in Transfer Application T-12924 is approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 90058 and any related decree.*
3. *Water right Certificate 90058 is cancelled.*
4. *The quantity of water diverted at the additional point of appropriation (Well 2), together with that diverted at the original points of appropriation (Well 1 and Sump), shall not exceed the quantity of water lawfully available at the original points of appropriation (Well 1 and Sump).*
5. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).*
 - b. *The water user shall maintain the meters or measuring devices in good working order.*
 - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
6. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*

7. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2020**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
8. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

Dated in Salem, Oregon on

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
Thomas M. Byler, Director
Oregon Water Resources Department

This draft Preliminary Determination was prepared by Scott Grew. If you have questions about the information in this document, you may reach him at 503-986-0890 or scott.a.grew@oregon.gov

Groundwater Transfer Review Summary Form

Transfer/PA # T- 12924

GW Reviewer Joe Kemp Date Review Completed: 3/21/2019

Summary of Enlargement (Same Source) Review:

The proposed transfer fails to keep the original place of use from receiving water from the same source.

Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled.

Summary of Well Construction Assessment:

The proposed POA does not have a well log.

The proposed POA does not appear to meet current well construction standards. Route through Well Construction and Compliance Section.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Oregon Water Resources Department

 www.wrd.state.or.us

Ground Water Review Form:

- Water Right Transfer
- Permit Amendment
- GR Modification
- Other

Application: T-12924

Applicant Name: Blanco Bogs

Proposed Changes: POA APOA SW→GW RA
 USE POU OTHER

Reviewer(s): Joe Kemper

Date of Review: 3/21/2019

Date Reviewed by GW Mgr. and Returned to WRSD: 3/28/19

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other _____

1. Basic description of the changes proposed in this transfer: The applicant wants to add an APOA (CURR 52713) to the current POAs (CURR 984 & Sump 1) on Certificate 90058. There are no proposed changes to place, character, or timing of use. This review assumes that the APOA will have the same maximum rate, character, and timing of use as Well 1.
2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
 Yes No Comments: Well 1 and Sump 1 access water-bearing sands and gravels of the Pioneer Terrace, a laterally extensive Pleistocene-aged marine terrace. APOA 1 would also access the aquifer system hosted in the Pioneer Terrace.
3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
 Yes No
 b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____
4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?
 Yes No Comments: see below
 b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

Yes No If yes, explain: The closest permitted well (CURR 1722) is 900 feet from APOA 1 and 1500 feet from Well 1. The resulting increase in well-to-well interference is modeled using the Theis (1935) solution using a reasonable range of parameters for the local hydrogeology (see Figure 2). Assuming APOA 1 pumps exclusively at the maximum rate for an entire year, interference is expected to increase 1-5 feet. As this scenario maximizes potential interference, the proposed change is not expected to injure other groundwater rights.

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

Yes No Comments: The APOA is a closer distance as Well 1 (~3500 feet vs ~4000 feet) to the nearest mapped perennial stream.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: Unnamed trib. to Sixes River Minimal Significant

Provide context for minimal/significant impact: The Jenkins (1968) analytical model is used with parameters representative of the local hydrogeology to estimate stream depletion increase when moving a well from approximately 600 feet closer to the stream. Calculated impacts were approximately 10% higher for the closer well at the end of a year of pumping. Impacts to the nearby surface water source are expected to be minimal.

6. What conditions or other changes in the application are necessary to address any potential issues identified above: NA
7. Any additional comments: NA

Watermaster Review Form: Water Right Transfer

Transfer Application: T-12924

Review Due Date: 5/25/2018

Applicant Name: Blanco Bogs

Proposed Changes: POU POD POA USE OTHER

Reviewer(s): G. Wacker

Date of Review: May. 25, 2018

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? Yes No If "yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? Yes No Generally characterize the frequency of any regulation or explain why regulation has not occurred: _____
3. Have headgate notices been issued for the source that serves the transferred right(s)? Yes No Records not available.
4. In your estimation, after the proposed change would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? Yes No If "Yes", explain: _____
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? Yes No If "Yes", describe how the rights would be affected and list the rights most affected: _____
6. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most: _____. N/A
7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses: _____. N/A
8. For instream transfers that propose protection of a reach beyond the mouth of the source stream: N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? Yes No
9. For POU changes: N/A Is it likely the original place of use would continue to receive water from the same source? Yes No If "Yes", explain: _____

10. For POU or USE changes: N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? Yes No If "Yes", explain: _____
11. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"? Yes No If "Yes", explain: _____
12. What alternatives may be available for addressing any issues identified above: _____
13. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? No Yes, as checked below:
- A Headgate should be required prior to diverting water.
- Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of page 3)
- a. *Before water use may begin under this order, the water user shall install a totalizing flow meter*, or, with prior approval of the Director, another suitable measuring device, at each point of diversion/appropriation (new and existing) or at each new point of diversion/appropriation.*
- b. *The water user shall maintain the meters or measuring devices in good working order.*
- c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
- Reservoir water use measurement: (if this condition is selected, also fill in the top sections of page 3)
- a. *Before water use may begin under this order, the water user shall install staff gages*, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*
- b. *Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.*

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

- Weir Submerged Orifice
- Parshall Flume Flow Restrictor
- Other: _____

PORT ORFORD, OR 97465

Reference: Application T- 12924

On May 16, 2018, we received your water right Transfer application. The application was accompanied by \$1570.00. Our receipt number 126670 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to our groundwater staff to determine whether the proposed well accesses the same source of water as the original well.

Your application will be examined to determine whether additional information is needed. We will notify you if further information or corrections to the application or map are required.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of appropriation until a final order approving the transfer application has been issued by the Department.

In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

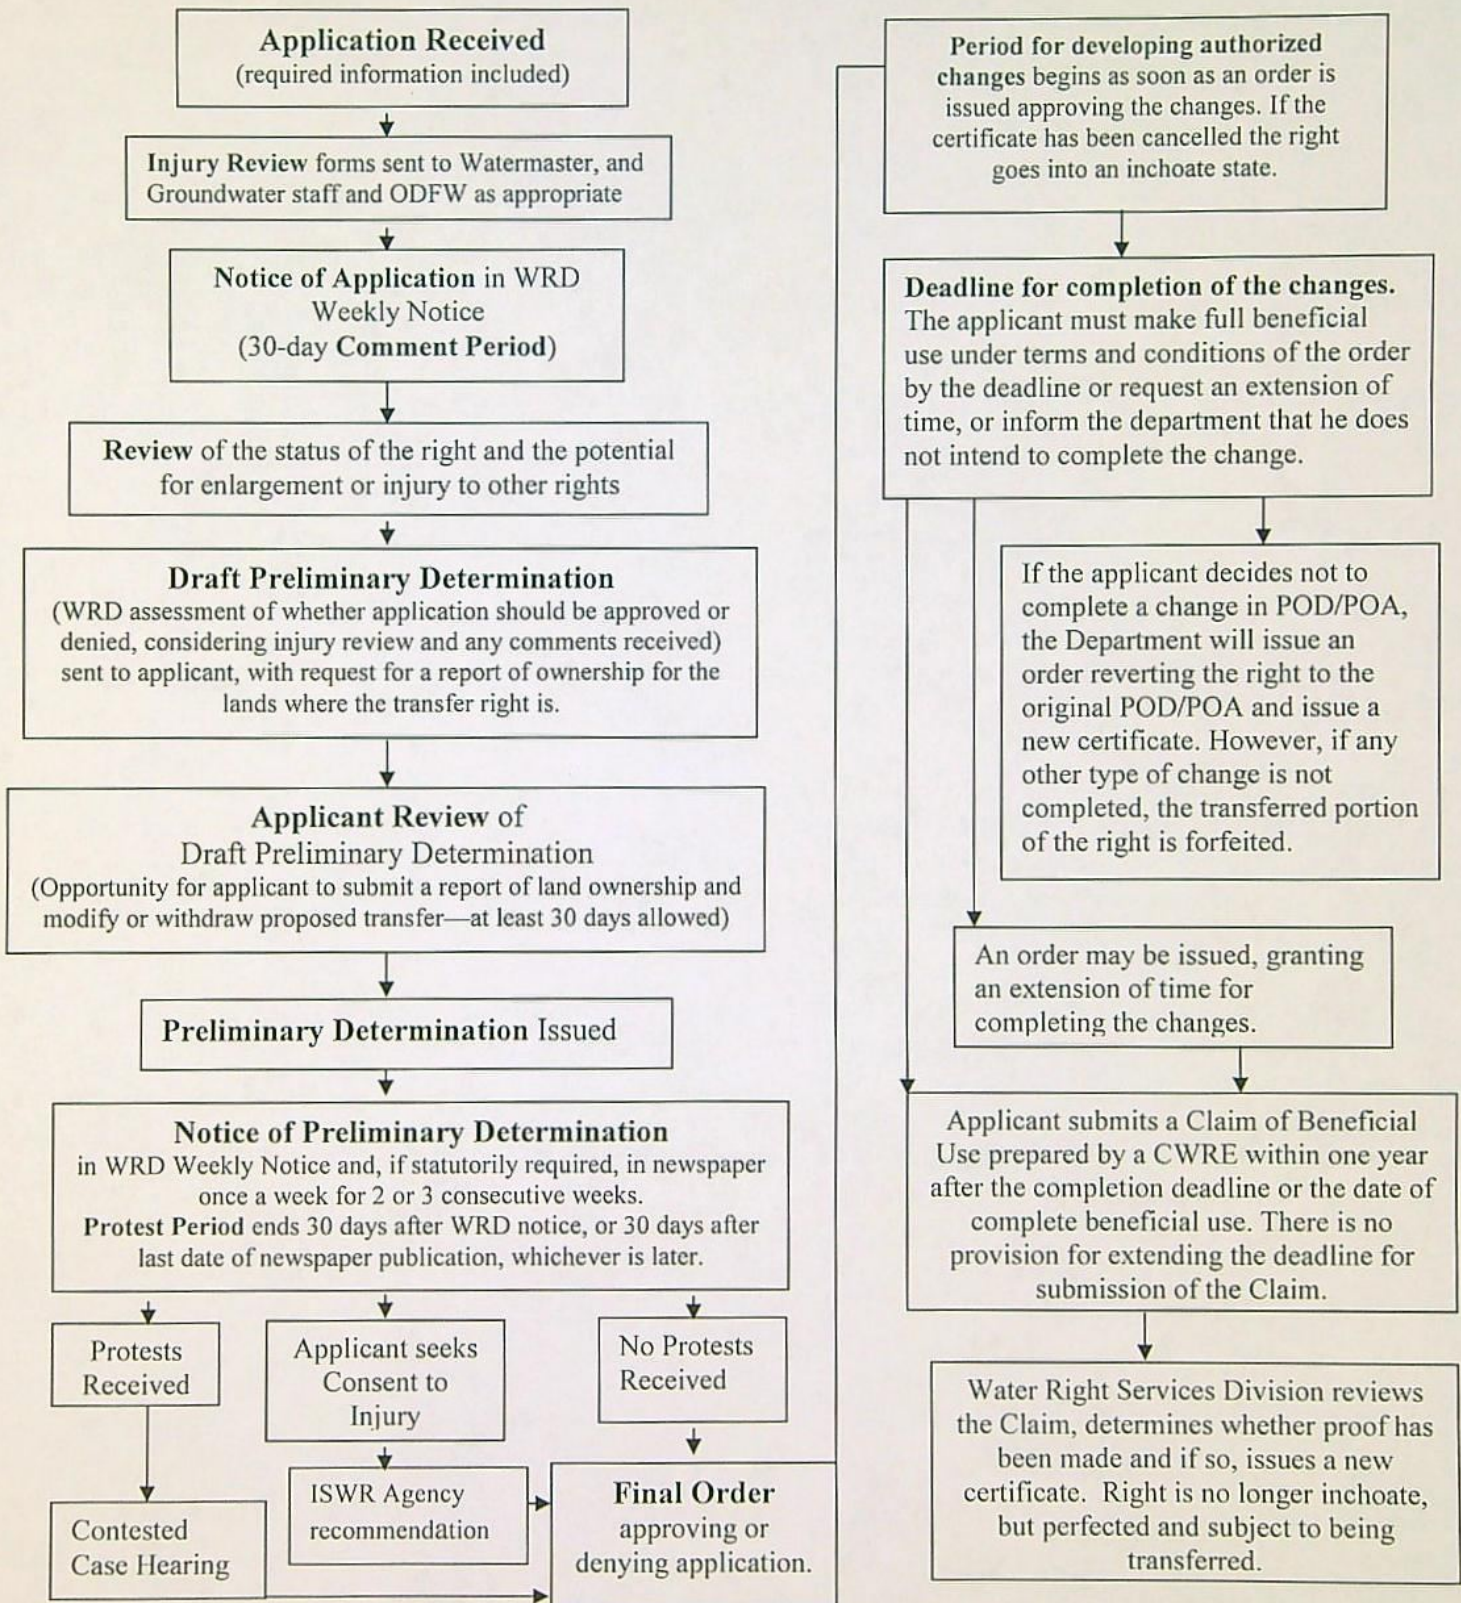

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0807.

1. Page 1 of application: Are all attachments that have been checked actually included?
If not, what is missing? _____

2. Are fees included and correct? Fee paid: 1590
If not, the correct fee would be: _____, so the amount missing is: _____

▶ If a Government Action POD change (see: Page 5): NO CHARGE

*NOTE: [POD/APOD, POA/APOA, SW to GW, Gov. Action] are all counted as one type
POU is counted as one type
[USE *or* (Supplemental to Primary)] are counted as one type

3. Page 3 of application: Have all the applicants listed at the top of the page signed?
If no, whose signature is missing? _____

4. Are all listed certificates or permits shown by WRIS as non-cancelled?
If no, which are cancelled? _____
For each cancelled certificate, if there has been a remaining right certificate issued that covers the lands in the left side of Table 2, list its number _____ and check the #4 box at left on this checklist.

5. If any certificate is in the name of a "district", is a Supplemental Form D from that district enclosed?
 N/A Form D needed from _____ (district)

6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application and assign it a numbered transfer folder. Put this check sheet in the transfer folder. If #1, #2, #3, #4 or #5 on this checklist is deficient, the application cannot be accepted. It should be returned and the **deficiencies listed in the "staff" section at the bottom of Application Page 1**, unless the applicant or agent can resolve the deficiencies within 2-3 days.

Permanent Water Right Transfer:
Certificate 90058

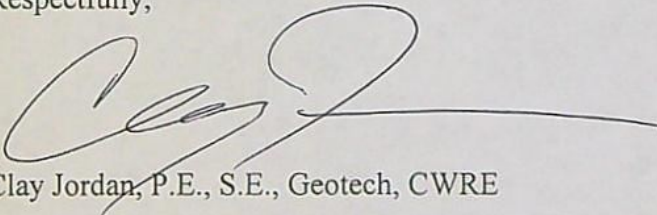

May 12, 2018

Transfer Section:

Inclosed are the Water Right Transfer form, stamped and signed map, Land Use Information form, Evidence of Use Affidavit, Certificate 90058, two water well reports and a check #7986 in the sum of \$1,570 made out to the Department.

If there are any questions please officially contact the applicant with a copy to me.

Respectfully,

Clay Jordan, P.E., S.E., Geotech, CWRE

 Salem, Oregon 97301-1266
 (503) 986-0900

Application for Permanent Water Right Transfer

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Water Rights to be Transferred: **How many water rights are to be transferred? 1 List them here: 90058**
Please include a separate Part 5 for each water right. (See instructions on page 6)

Attachments:

- Completed Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.)
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability.

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

- Application fee not enclosed/insufficient Map not included or incomplete
- Land Use Form not enclosed or incomplete
- Additional signature(s) required Part ____ is incomplete

RECEIVED

Part 2 of 5 – Transfer Application Map Checklist

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 4 of 5 – Applicant Information and Signature

BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.				

Explain in your own words what you propose to accomplish with this transfer application, and why: To add an additional well to minimize ground water use impact and to make delivering water more efficient.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

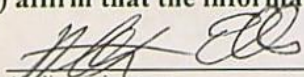

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); **OR**
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; **OR**
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

I understand that prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Curry Coastal Pilot.

I (we) affirm that the information contained in this application is true and accurate.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No *If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? Yes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see: <http://www.oregon.gov/owrd/docs/transfer-propertytransactions.pdf>

INSTRUCTIONS for editing the Application Form

To add additional lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;
- OR**
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab; toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the “**Allow only this type of editing** in the document: **Filling in forms**” in the “Editing restrictions” section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark-through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Once the application has been unlocked, you may:

- add additional rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

RECEIVED

MAY 16 2018

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

CERTIFICATE # 90058

Description of Water Delivery System

System capacity: **0.41 (well-1)** cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **Well-1 – 5 HP submersible pump delivers water via a 3 inch pipeline which interconnects to other various sized lines from other sources. System is controlled by valves to isolate which source is being used for which bogs. Water is applied to bogs by sprinklers and open discharge. Water from sump is delivered using 5 centrifugal pumps (3 x 20HP, 40 HP & 5 HP – capacity 1839 GPM,**

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)
 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Additional remarks: _____

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

 Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;
Surface water primary Certificate # _____.

RECEIVED
MAY 16 2018

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

OWRD

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.
Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well: OWRD Well ID Tag No. L-	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well -specific rate (cfs or gpm). Land Use Information Form

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.wrd.state.or.us

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

OWRD

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

B. Description of Proposed Use

OWRD

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
 Water Right Transfer
 Permit Amendment or Ground Water Registration Modification
 Limited Water Use License
 Allocation of Conserved Water
 Exchange of Water

Source of water: Reservoir/Pond
 Ground Water
 Surface Water (name) _____

Estimated quantity of water needed: 0.41
 cubic feet per second
 gallons per minute
 acre-feet

Intended use of water: Irrigation
 Commercial
 Industrial
 Domestic for _____ household(s)
 Municipal
 Quasi-Municipal
 Instream
 Other Cranberry Operations

Briefly describe:

We are adding an additional well to a water right certificate to facilitate growing cranberries. This will increase the efficiency of our water use and allow alternating between wells or pump a portion from each.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

Per 3.051 (7) farming is an outright use in FG (Forest Grazing)

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

BLANCO BOGS
PO BOX 41
PORT ORFORD OR 97465

confirms the right to use the waters of ONE WELL AND ONE SUMP IN SIXES RIVER BASIN for IRRIGATION AND AGRICULTURAL USES ON 37.1 ACRES FOR CRANBERRY OPERATIONS AND SUPPLEMENTAL IRRIGATION AND AGRICULTURAL USE ON 33.0 ACRES FOR CRANBERRY OPERATIONS.

This right was perfected under Permit G-12993. The date of priority is SEPTEMBER 18, 1991. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.61 CUBIC FOOT PER SECOND (CFS), BEING 0.41 CFS FROM THE WELL AND 0.20 FROM THE SUMP, or its equivalent in case of rotation, measured at the well/sump.

The period of allowed use for water from the well is year round for agricultural use and March 1 through October 31 for irrigation.

The period of allowed use for water from the sump is November 1 through April 30 and during the month of July for agricultural use and March 1 through April 30 and during the month of July for irrigation.

The points of appropriation are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
31 S	15 W	WM	32	NE SW	WELL - 2560 FEET NORTH AND 2430 FEET EAST FROM SW CORNER, SECTION 32
31 S	15 W	WM	32	NE SW	SUMP - 1600 FEET NORTH AND 2015 FEET EAST FROM SW CORNER, SECTION 32

The amount of water diverted for CRANBERRY OPERATIONS, together with amounts secured under any other rights existing for the same lands, is limited as follows: For temperature control, 0.15 cubic foot per second per acre; For flood harvesting or pest control, 0.05 cubic foot per second per acre; For irrigation of cranberries, ONE-FORTIETH of one cubic foot per second and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

A description of the place of use is as follows:

CRANBERRY OPERATIONS					
Twp	Rng	Mer	Sec	Q-Q	Acres
31 S	15 W	WM	32	NE SW	16.4
31 S	15 W	WM	32	NW SW	0.6
31 S	15 W	WM	32	SW SW	2.2
31 S	15 W	WM	32	NW SE	1.7
31 S	15 W	WM	32	SW SE	16.2

SUPPLEMENTAL CRANBERRY OPERATIONS						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
31 S	15 W	WM	32	NW SW		14.3
31 S	15 W	WM	32	SW SW		4.4
31 S	15 W	WM	32	NW SE		5.0
32 S	15 W	WM	5	NW NW	4	9.3

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or measuring device in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Groundwater production from the well shall be from no shallower than 60 feet below land surface.

Based on an analysis of the data collected, the Director may require that the user obtain and report additional annual static water level measurements. The static water levels shall be measured in the month of March. The additional measurements may be required in a different month other than March. Reports shall be submitted to the Department within 30 days of measurement. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The reference level for the well, against which any future measurements will be compared, is 7.66 feet below land surface.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a useable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the wells at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

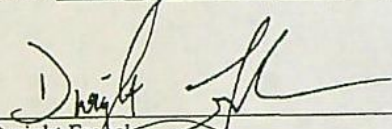

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

31 S	15 W	WM	32	NE SW	SUMP - 1600 FEET NORTH AND 2015 FEET EAST FROM SW CORNER, SECTION 32

The amount of water diverted for CRANBERRY OPERATIONS, together with amounts secured under any other rights existing for the same lands, is limited as follows: For temperature control, 0.15 cubic foot per second per acre; For flood harvesting or pest control, 0.05 cubic foot per second per acre; For irrigation of cranberries, ONE-FORTIETH of one cubic foot per second and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year. For the irrigation of any other crop, the amount of water diverted is limited to ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 2.5 acre feet per acre during the irrigation season of each year.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

A description of the place of use is as follows:

CRANBERRY OPERATIONS

31 S	15 W	WM	32	NW SE		5.0
32 S	15 W	WM	5	NW NW	4	9.3

Measurement, recording and reporting conditions:

- A. The water user shall maintain the meter or measuring device in good working order.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Groundwater production from the well shall be from no shallower than 60 feet below land surface.

Based on an analysis of the data collected, the Director may require that the user obtain and report additional annual static water level measurements. The static water levels shall be measured in the month of March. The additional measurements may be required in a different month other than March. Reports shall be submitted to the Department within 30 days of measurement. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The reference level for the well, against which any future measurements will be compared, is 7.66 feet below land surface.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a useable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the wells at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

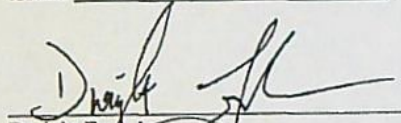

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued APR 10 2015

Dwight French
Water Right Services Division Administrator, for
