Transfer Cover Sheet

Water Resources Department

725 Summer St NE, Suite A Salem, OR 97301 (503) 986-0900 Fax (503) 986-0904

October 11, 2021

STEVE SHARP 36975 SULLIVAN LN RICHLAND, OR 97870

REFERENCE: Temporary Drought Transfer Application T-13797

Enclosed is a copy of the final order approving your TEMPORARY DROUGHT water right transfer application.

The temporary change shall be effective upon issuance of this final order. Please note, the use shall revert back to the original authorized place of use at the end of the 2021 irrigation season or the end of the Governor's declared drought, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Corey Courchane, by telephone at (503) 979-3917 or by e-mail at <a href="mailto:Corey.A.Courchane@oregon.gov">Corey.A.Courchane@oregon.gov</a>.

Sincerely,

Stacy H. Phillips

# BEFORE THE WATER RESOURCES DEPARTMENT OF THE STATE OF OREGON

In the Matter of Transfer Application	)	FINAL ORDER APPROVING AN
T-13797, Baker County	)	EMERGENCY USE DROUGHT TEMPORARY
	)	CHANGE IN PLACES OF USE AND CHANGE
	)	IN POINTS OF DIVERSION

#### Authority

Oregon Revised Statute (ORS) 536.750 establishes the process in which a water right holder may submit a request to temporarily transfer the use, place of use or point of diversion of water in the event of a declaration of drought, without complying with the notice and waiting requirements under ORS 540.520. Oregon Administrative Rule (OAR) Chapter 690, Division 019 implements the statutes and provides the Department's procedures and criteria for evaluating drought transfer applications.

#### Applicant

STEVE SHARP 36975 SULLIVAN LN RICHLAND, OR 97870

#### **Findings of Fact**

- On August 12, 2021, STEVE SHARP filed an application to temporarily change the places of use and change the points of diversion under Certificates 75362, 83363, 85561, and 89274 for the remainder of the 2021 irrigation season or the term of the Governor's declared drought, whichever is shorter. The Department assigned the application number T-13797.
- Notice of the application for transfer was published on August 31, 2021, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
- 3. The portion of the first right to be temporarily transferred is as follows:

Certificate: 75362 in the name of DRY GULCH DITCH COMPANY (perfected under

Permit E-16)

Use: IRRIGATION of 33.3 ACRES

Priority Date: JULY 22, 1909

Rate: 0.42 CUBIC FOOT PER SECOND

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

The amount of water used for irrigation shall be limited to a diversion of Limit/Duty:

ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent, for

each acre irrigated during the irrigation season of each year.

Source:

EAGLE CREEK, tributary of POWDER RIVER

#### Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
85	45 E	WM	20	NE NW	#21 DRY GULCH DITCH - 75 FEET SOUTH AND 1550 FEET EAST FROM THE NW CORNER OF SECTION 20

#### Authorized Place of Use:

		IRRIGA	IIOIV		
Twp	Rng	Mer	Sec	Q-Q	Acres
95	45 E	WM	18	NENW	21.3
9 S	45 E	WM	18	NW NW	7.0
95	45 E	WM	18	SW NW	5.0
				Total	33.3

4. Temporary Transfer Application T-13797 proposes to temporarily change the place of use of the right to:

		IRRIGA	HON		
Twp	Rng	Mer	Sec	Q-Q	Acres
95	45 E	WM	24	SE SW	12.0
95	45 E	WM	24	SW SE	21.3
				Total	33.3

5. A change in point of diversion is necessary to convey the water to the proposed temporary place of use. Temporary Transfer Application T-13797 proposes to move the authorized point of diversion approximately 5.4 miles downstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
95	45 E	WM	10	SE NW	KAY YOUNG DITCH - 940 FEET NORTH AND 190 FEET WEST FROM THE C1/4 CORNER OF SECTION 10

6. The portion of the second right to be temporarily transferred is as follows:

Certificate:

83363 in the name of PAUL KNOBLAUCH (confirmed by POWDER RIVER and

POWDER RIVER, CONSOLIDATED Decrees)

Use:

**IRRIGATION of 28.7 ACRES** 

Priority Date: 1881

Rate:

ONE-FORTIETH OF ONE CUBIC FOOT PER SECOND PER ACRE

Source:

EAGLE CREEK, tributary to the POWDER RIVER

#### Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q
	Not specif	ied in ce	rtificate	

#### Authorized Place of Use:

		IRRIGAT	TION		
Twp	Rng	Mer	Sec	Q-Q	Acres
95	45 E	WM	24	SW SE	28.7

7. The Department received information from the applicant that better describes the location of the authorized point of diversion for Certificate 83363 as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
9 S	45 E	WM	10	SE NW	KAY YOUNG DITCH - 940 FEET NORTH AND 190 FEET WEST FROM THE C1/4 CORNER OF SECTION 10

 Temporary Transfer Application T-13797 proposes to temporarily change the place of use of the right to:

Twp	Rng	Mer	Sec	Q-Q	Acres
9 \$	45 E	WM	18	NE NW	21.3
95	45 E	WM	18	NW NW	7.4
				Total	28.7

 A change in point of diversion is necessary to convey the water to the proposed temporary place of use. Temporary Transfer Application T-13797 proposes to move the authorized point of diversion approximately 5.4 miles upstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
0.0	45 E	WM	20	NENW	DRY GULCH DITCH - 75 FEET SOUTH AND 1550 FEET
0.3	43 L	00101	20	IVE IVV	EAST FROM THE NW CORNER OF SECTION 20

10. The portion of the third right to be temporarily transferred is as follows:

Certificate: 85561 in the name of DRY GULCH DITCH COMPANY (confirmed by POWDER

RIVER Decree)

Use: IRRIGATION of 10.4 ACRES

Priority Date: 1894 for 10.4 ACRES

Rate: 0.26 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured

under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second per acre, or its equivalent, and shall be subject to all other conditions and limitations contained in said

decree.

Source: EAGLE CREEK (AKA EAGLE CREEK AND LITTLE EAGLE CREEK), tributary of

POWDER RIVER

#### Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances

95	45 E	WM	18	SW NW Total	

11. Temporary Transfer Application T-13797 proposes to temporarily change the place of use of the right to:

	Rng	Mer	Sec	Q-Q	Acres
9 S	45 E	WM	24	SE SW	3.0
95	45 E	WM	24	SW SE	7.4

12. A change in point of diversion is necessary to convey the water to the proposed temporary place of use. Temporary Transfer Application T-13797 proposes to move the authorized point of diversion approximately 5.4 miles downstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
9 \$	45 E	WM	10	SE NW	DRY GULCH DITCH - 940 FEET NORTH AND 190 FEET WEST FROM THE C1/4 CORNER OF SECTION 10

13. The portion of the fourth right to be temporarily transferred is as follows:

Certificate: 89274 in the name of BOB AND VINA MORRISON (confirmed by POWDER

RIVER Decree)

Use: IRRIGATION of 15.0 ACRES

Priority Date: 1885

Rate: ONE

ONE-FORTIETH OF ONE CUBIC FOOT PER SECOND PER ACRE

Source: EAGLE CREEK, tributary to POWDER RIVER

#### Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
9 5	45 E	WM	10	SE NW	KAY YOUNG DITCH - 940 FEET NORTH AND 190 FEET WEST FROM THE C1/4 CORNER OF SECTION 10

#### Authorized Place of Use:

		IRRIGAT	TION		
Twp	Rng	Mer	Sec	Q-Q	Acres
95	45 E	WM	24	SE SW	15.0

14. Temporary Transfer Application T-13797 proposes to temporarily change the place of use of the right to:

		IRRIGAT	TION		
Twp	Rng	Mer	Sec	Q-Q	Acres
95	45 E	WM	18	NW NW	4.5
95	45 E	WM	18	SW NW	10.5
				Total	15.0

15. A change in point of diversion is necessary to convey the water to the proposed temporary place of use. Temporary Transfer Application T-13797 proposes to move the authorized point of diversion approximately 5.4 miles upstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
8 S	45 E	WM	20	NE NW	DRY GULCH DITCH - 75 FEET SOUTH AND 1550 FEET EAST FROM THE NW CORNER OF SECTION 20

#### Temporary Drought Transfer Review Criteria

- 16. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights are present.
- 18. The Governor issued an executive order on May 10, 2021, declaring a state of drought emergency in Baker County due to drought and extreme weather conditions, which is still in effect and the water right proposed for transfer is on lands included in the area covered by the drought order.
- 19. The proposed changes would not result in enlargement of the rights.
- 20. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under OAR 690-019-055(3) if injury to existing water rights is shown and cannot be mitigated to the satisfaction of the Director and injured parties.

#### Conclusions of Law

The temporary change in places of use and points of diversion proposed in Temporary Drought Transfer Application T-13797 is are consistent with the requirements of ORS 536.750 and OAR 690-019-0055.

#### Now, therefore, it is ORDERED:

 The temporary change in places of use and points of diversion proposed in Temporary Drought Transfer Application T-13797 is approved.

- The former places of use shall not be irrigated as part of these water rights during the remainder of the 2021 irrigation season or until the end of the Governor's declared drought, whichever occurs first.
- The approval of this temporary drought transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
- 4. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 75362, 83363, 85561, and 89274. The use shall revert to the authorized places of use at the end of the 2021 irrigation season.
- The proposed change in places of use and points of diversion shall revert to the authorized places of use and points of diversion at the end of the 2021 irrigation season or the end of the Governor's declared drought, whichever occurs first.
- The use of the remaining water rights described by Certificate 75362, 83363, 85561, and 89274 shall continue to be in accordance with the terms and conditions of Certificates 75362, 83363, 85561, and 89274.

Dated in Salem, Oregon on

OCT 1-1 2021

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for

THOMAS M BYLER, DIRECTOR

Oregon Water Resources Department

Mailing Date: OCT 1 2 2021

#### BEFORE THE WATER RESOURCES DEPARTMENT OF THE STATE OF OREGON

In the Matter of Transfer Application T-13797, Baker County

FINAL ORDER APPROVING AN EMERGENCY USE DROUGHT TEMPORARY CHANGE IN PLACES OF USE AND CHANGE IN POINTS OF DIVERSION

#### Authority

Oregon Revised Statute (ORS) 536.750 establishes the process in which a water right holder may submit a request to temporarily transfer the use, place of use or point of diversion of water in the event of a declaration of drought, without complying with the notice and waiting requirements under ORS 540.520. Oregon Administrative Rule (OAR) Chapter 690, Division 019 implements the statutes and provides the Department's procedures and criteria for evaluating drought transfer applications.

#### Applicant

STEVE SHARP 36975 SULLIVAN LN RICHLAND, OR 97870

#### **Findings of Fact**

- 1. On August 12, 2021, STEVE SHARP filed an application to temporarily change the places of use and change the points of diversion under Certificates 75362, 83363, 85561, and 89274 for the remainder of the 2021 irrigation season or the term of the Governor's declared drought, whichever is shorter. The Department assigned the application number T-13797.
- 2. Notice of the application for transfer was published on August 31, 2021, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
- 3. The portion of the first right to be temporarily transferred is as follows:

Certificate:

. . .

75362 in the name of DRY GULCH DITCH COMPANY (perfected under

Permit E-16)

Use:

**IRRIGATION of 33.3 ACRES** 

Priority Date: JULY 22, 1909

Rate:

0.42 CUBIC FOOT PER SECOND

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Limit/Duty:

The amount of water used for irrigation shall be limited to a diversion of

ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent, for

each acre irrigated during the irrigation season of each year.

85	45 E	WM	20	NE NW	DRY GULCH DITCH - 75 FEET SOUTH AND 1550 FEET EAST FROM THE NW CORNER OF SECTION 20

#### Temporary Drought Transfer Review Criteria

- 16. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights are present.
- 18. The Governor issued an executive order on May 10, 2021, declaring a state of drought emergency in Baker County due to drought and extreme weather conditions, which is still in effect and the water right proposed for transfer is on lands included in the area covered by the drought order.
- 19. The proposed changes would not result in enlargement of the rights.
- 20. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under OAR 690-019-055(3) if injury to existing water rights is shown and cannot be mitigated to the satisfaction of the Director and injured parties.

#### Conclusions of Law

The temporary change in places of use and points of diversion proposed in Temporary Drought Transfer Application T-13797 is are consistent with the requirements of ORS 536.750 and OAR 690-019-0055.

#### Now, therefore, it is ORDERED:

 The temporary change in places of use and points of diversion proposed in Temporary Drought Transfer Application T-13797 is approved.

- The former places of use shall not be irrigated as part of these water rights during the remainder of the 2021 irrigation season or until the end of the Governor's declared drought, whichever occurs first.
- The approval of this temporary drought transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
- 4. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 75362, 83363, 85561, and 89274. The use shall revert to the authorized places of use at the end of the 2021 irrigation season.
- The proposed change in places of use and points of diversion shall revert to the authorized places of use and points of diversion at the end of the 2021 irrigation season or the end of the Governor's declared drought, whichever occurs first.
- The use of the remaining water rights described by Certificate 75362, 83363, 85561, and 89274 shall continue to be in accordance with the terms and conditions of Certificates 75362, 83363, 85561, and 89274.

. Your temporary transfer application will be returned if any of the map requirements listed OWRD below are not met. Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. V If more than three water rights are involved, separate maps are needed for each water right. V Permanent quality printed with dark ink on good quality paper. The size of the map can be  $8\frac{1}{2} \times 11$  inches,  $8\frac{1}{2} \times 14$  inches,  $11 \times 17$  inches, or up to  $30 \times 30$ inches. For 30 x 30 inch maps, one extra copy is required. A north arrow, a legend, and scale. The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department. Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. P D N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example - 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example - 42.53764°).

#### Part 3 of 5 - Fee Worksheet

If one or more boxes is checked, multiply line 5 by 0.5 and enter on line 6 »	6	
7	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » » » » »	7	

	FEE WORKSHEET fOR TEMPORARY DROUGHT TRANSFERS	743	器似色。但
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*):		
	Subtract 1.0 from the number in 2a above:93(2b)		
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »		
	If 2b is greater than 0, round up to the nearest whole number: 1.0 (2c) and		
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » » » »	2	\$60
3	Add entries on lines 1 through 2 above » » » » » » » » » » » » » » » » » » »	30	\$2505

<sup>\*</sup>Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

<sup>1.</sup> Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs  $\div$ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

<sup>2.</sup> If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

<sup>3.</sup> Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

#### INSTRUCTIONS for editing the Application Form

To add lines to tables within the forms or to copy and paste additional Part 5 pages, please save the application form to your computer. Unlock the document by using one of the following instructions for your Microsoft Word software version:

RECEIVED

#### Microsoft Word 2003

AUG 1 2 2021

Unlock the document by one of the following:

OWRD

- Using the Tools menu => click Unprotect Document;
   OR
- Using the Forms toolbar => click on the Protect/Unprotect icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the Tools menu => click Protect Document;
   OR
- Using the Forms toolbar => click on the Protect/Unprotect icon.

Once the application has been unlocked, you may:

- add rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

checkboxes to work.

#### Microsoft Word 2007

- Unlock the document by clicking the Review tab, then click Protect Document, then click
   Stop Protect
- To relock the document, click Editing Restrictions, then click Allow Only This Type of Editing, select Filling In Forms from the drop-down menu, then check Yes, Start Enforcing Protection.

#### Microsoft Word 2010

- Unlock the document by clicking the Review tab; toggle the Restrict Editing icon at the upper right, then click Stop Protect at the bottom right. Then uncheck the "Allow only this type of editing in the document: Filling in forms" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the Editing Restrictions/Allow Only This Type of Editing/Filling In
  Forms box from the drop-down menu, then check Yes, Start Enforcing Protection. You do not need to
  assign a password for the editing restrictions.

#### Other Alternatives:

- Photocopy pages or tables in Part 5, -mark-through any non-applicable information, insert/attach
  photocopied pages to document in the appropriate location, and manually amend page numbers as
  necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc.
   You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

#### Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form. RECEIVED Water Right Certificate # 1536.2 Description of Water Delivery System AUG 1 2 2021 System capacity: cubic feet per second (cfs) OR OWRD gallons per minute (gpm) Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Open Ditch Table 1. TACS

#### STATE OF OREGON

#### COUNTY OF BAKER

#### CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DRY GULCH DITCH COMPANY ROUTE 1, BOX 102A RICHLAND, OR 97870

confirms the right to use the waters of EAGLE CREEK, tributary of POWDER RIVER, for IRRIGATION of 1665,00 ACRES and SUPPLEMENTAL IRRIGATION of 425.90 ACRES.

The date of priority is JULY 22, 1909.

The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 26.14 CUBIC FEET PER SECOND or the equivalent is according. rotation.

The point of diversion is located as follows:

Dry Gulch Ditch

NE¼ NW¼, Section 20, T8S, R45E, W.M.; 1550' East and 75' South from the Northwest corner of Section 20, T8S, R45E, W.M.

The amount of water used for irrigation shall be limited to a diversion of ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent, for each acre irrigated during the irrigation season of each year.

The supplemental portion of this right shall be limited to any deficiency in the available supply of any prior right for the same land.

The use shall conform to any reasonable rotation system as may be ordered by the proper state

A description of the place of use to which this right is appurtenant is as follows:

Acres	1/4	1/4	Sec	Twp South	Rng East	Tax Lot	Use

Locations are based on the Willamette Meridian.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

This certificate, together with Certificate 75356, supersedes Certificate 54105 and confirms an order of the Water Resources Director entered on FEB 16 1999 approving a petition by Dry Gulch Ditch Company under ORS 541.329 for mapping water rights within a district.

WITNESS the signature of the Water Resources Director, affixed 2/16/99

Muttu Ruft

Water	Right	Certificate	#
-------	-------	-------------	---

For Place of Use Changes

Are there other water right certificates of pround water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: <u>C-7</u>5354

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well\_log/Default.aspx)

AND/OR

OWRD

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

#### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (In feet)	Static water level of fi completed well (in feet)	Source agulfer (sand, gravel, basalt, etc.)	Well-specific rate (cfs or gpm). If less than full rate of water right

. ..

## Part 5 of 5 - Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

#### STATE OF OREGON

#### COUNTY OF BAKER

#### CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

DRY GULCH DITCH COMPANY ROUTE 1, BOX 102A RICHLAND, OR 97870

confirms the right to use the waters of EAGLE CREEK (AKA EAGLE CREEK AND LITTLE EAGLE) CREEK) tributary of POWDER RIVER for IRRIGATION of 637.20 ACRES.

This right was confirmed by decree of the Circuit Court of the State of Oregon for BAKER COUNTY. The decree is of record at Salem, in the Order Record of the WATER RESOURCES DIRECTOR, in Volume 6, at Page 291.

The dates of priority are 1891 for 63.50 ACRES, 1894 for 571.70 ACRES and 1905 for 2.00 ACRES.

The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 15.93 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source. 10.4 ac. 0 1/40 = 0.26 cs

The point of diversion is located as follows:

TWP	RNG	MER	SEC	Q-Q	MEASURED DISTANCES
8 S	45 E	W.M.	20	NE NW	#21 Dry Gulch Ditch: 1550 feet East and 75 feet South from NW Corner of Section 20

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second per acre. or its equivalent, and shall be subject to all other conditions and limitations contained in said decree.

A description of the place of use to which this right is appurtenant is as follows:

PRIORITY DATE	TWP	RNG	MER	SEC	Q-Q	ACRES	TAX LOT
1891	98	45 E	W.M.	20	NE NE	1.90	400
1891	9 S	45 E	W.M.	21	NE NE	5.10	100

1891	9 S	45 E	W.M.	21	SE NE	18.60	800
1891	98	45 E	W.M.	21	NW NW	7.10	400

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2) Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within60 days following the date the petition was filed, the petition shall be deemed denied.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

This certificate corrects scrivener errors in the certificate recorded at page 75363, State Record of Water Right Certificates. Certificate75363 incorrectly labeled superseding certificates.

Certificate 75363 confirmed an order of the director entered on February 16, 1999, approving a petition by Dry Gulch Ditch Company under ORS 541.329 for mapping water rights within a district. This corrected certificate supersedes certificates 4642 and 52926; together with Certificate 75355, supersedes certificates 4734 and 11577; together with certificates 75355 and 75850 supersedes Certificate 4613; together with certificates 75355 and 75852 supersedes Certificate 49640; and together with certificates 75355 and 75851 supersedes Certificate 49633.

WITNESS the signature of the Water Resources Director, affixed fure 18, 2009.

Phillip C. Ward, Director A

Please use and attach additional pages of Table 2 as needed. See page 6 for instructions.

Do you have questions about how to fill-out the tables? Contact the Department at 503-986-0900 and ask for Transfer Staff.

Temporary Transfer Application - Page 8 of 10

TACS

#### For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No SuPP.

If YES, list the certificate, water use permit, or ground water registration numbers: <u>C - 7</u>5354

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

-	_	_	_	100	E	_	
11-3			_			2 B	
-	_	1000	_			1 2	

AUG 1 2 2021

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well\_log/Default.aspx)

#### OWRD

#### AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

#### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Temporary Transfer Application – Page 8 of 10

TACS

#### STATE OF OREGON

#### COUNTY OF BAKER

#### CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

BOB AND VINA MORRISON HC 70 BOX 1580 ANTLERS OK 74523

confirms the right to use the waters of EAGLE CREEK, tributary to POWDER RIVER, for IRRIGATION of 19.5 ACRES.

This right was confirmed by decree of the Circuit Court of the State of Oregon for Baker County. The decree is of record at Salem, in the Order Record of the Water Resources Director in Volume 6, at Page 291. The date of priority is 1885.

The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed ONE-FORTIETH OF ONE CUBIC FOOT PER SECOND PER ACRE, or its equivalent in case of rotation, measured at the point of diversion.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
9 S	45 E	WM	10	SE NW	KAY YOUNG DITCH - 940 FEET NORTH AND 190 FEET WEST FROM C1/4 CORNER, SECTION 10

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
9 S	45 E	WM	24	SE SW	19.5

I.5.0

The quantity of water diverted at the new point of diversion, together with that diverted at the old point of diversion (NEWT YOUNG DITCH), shall not exceed the quantity of water lawfully available from the original point of diversion.

The water user shall maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water used.

Within one year after receiving written notification from the Oregon Department of Fish and Wildlife (ODFW) that a fish screening and/or by-pass device is required, the water user shall install a screen and/or by-pass device, as appropriate, at the new point of diversion. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW criteria. Once installed, the water user shall continue to maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW operational and maintenance standards.

#### NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

T-9979-cf-49435.klk

Page 1 of 2

Certificate 89274

The right to the use of the water for the above purpose is restricted to beneficial use on place of use described, and is subject to all other conditions and limitations contained in said decree.

This certificate is issued to confirm a change in POINT OF DIVERSION approved by an order of the Water Resources Director entered JULY 20, 2007 at Special Order Volume 72, Page 671, approving Transfer Application 9979, together with Certificate 83363, supercedes Certificate 49435, State Record of Water Right Certificates.

#### For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \$\sqrt{9}\$ Yes \( \) No

If YES, list the certificate, water use permit, or ground water registration numbers: <u>C-7</u>5354

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

RECEIVED

AUG 1 2 2028

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well\_log/Default.aspx)

OWRD .

### AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

## Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Temporary Transfer Application - Page 8 of 10

TACS

#### STATE OF OREGON

#### COUNTY OF BAKER

#### CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

PAUL KNOBLAUCH RICHLAND, OR 97870

confirms the right to use the waters of EAGLE CREEK, tributary to the POWDER RIVER, for IRRIGATION of 150.6 ACRES.

This right was confirmed by decree of the Circuit Court of the State of Oregon for Baker County. The decree is of record at Salem, in the Order Record of the Water Resources Director in Volume 6, at Page 291. The date of priority is 1881.

The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed ONE-FORTIETH OF ONE CUBIC FOOT PER SECOND PER ACRE, or its equivalent in case of rotation, measured at the point of diversion and shall be subject to all other conditions and limitations contained in said decree.

A description of the place of use to which this right is appurtenant is as follows:

		IRRIGA	TION		
Twp	Rng	Mer	Sec	Q-Q	Acres
98	45 E	WM	24	SENW	40.0
9 S	45 E	WM	24	NE SW	30.6
9 S	45 E	WM	24	NW SE	40.0
9 S	45 E	WM	24	SW SE	40.0

I 28:7

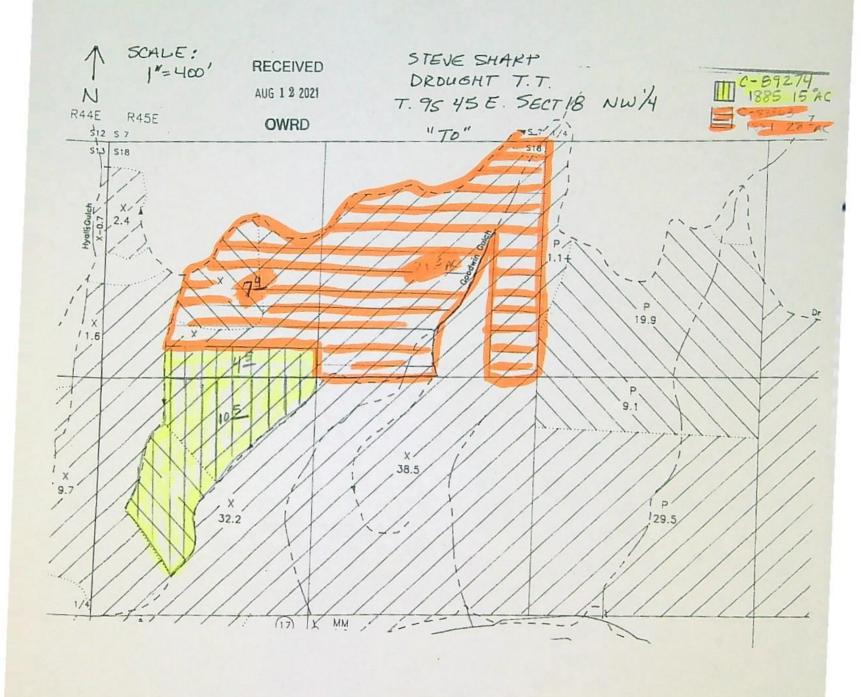

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

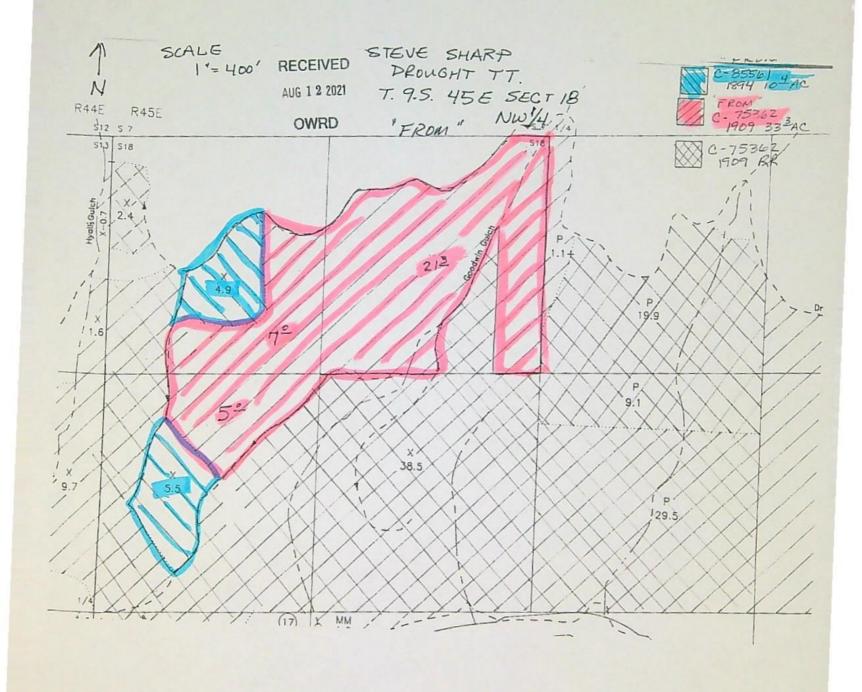

This certificate describes that portion of the water right confirmed by Certificate 49435, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered JUL 2 0 2007 approving Transfer Application T-9979 for a change in point of diversion and partial cancellation of a water right.

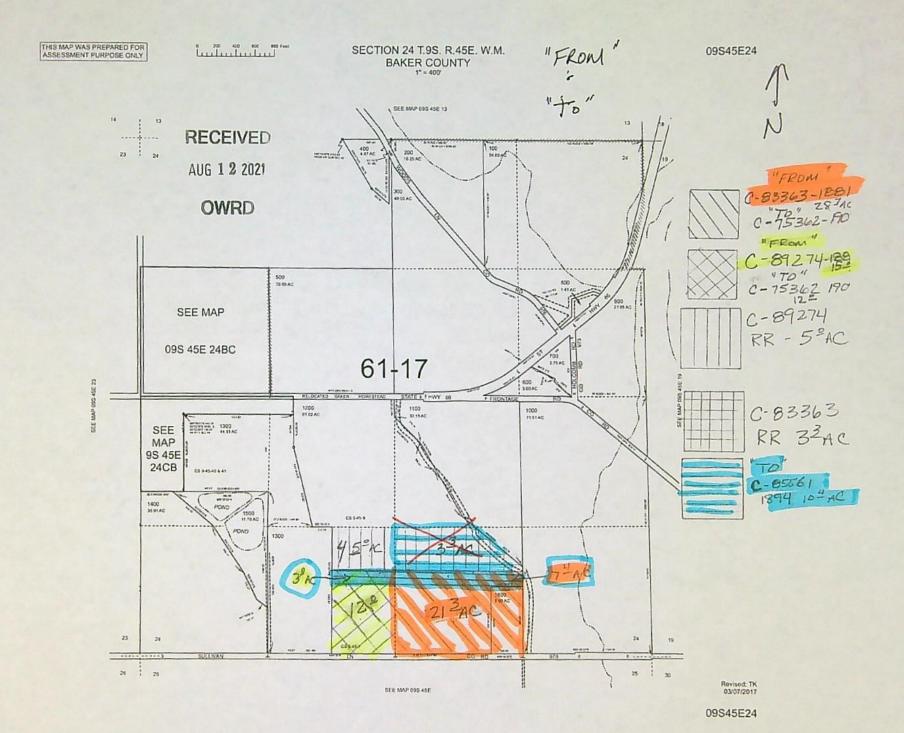

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

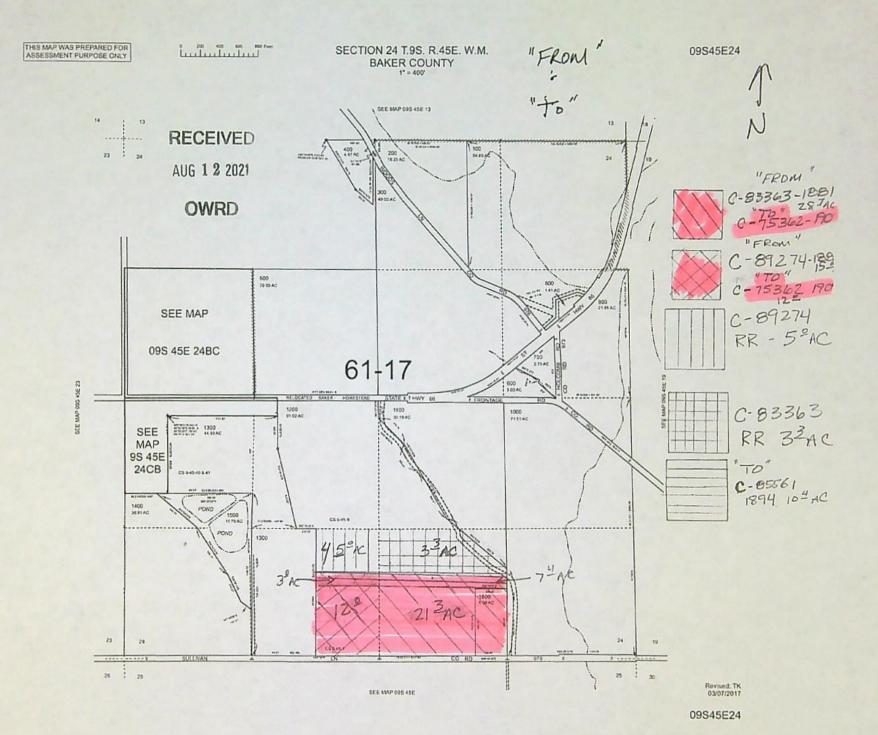

WITNESS the signature of the Water Resources Director, affixed \_\_\_\_\_\_ JUL 2 0 2007

Phillip C. Ward, Director

# Watermaster Review Form: Water Right Transfer

Oregon Water Resources Department 725 Summer St NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

Transfer Application: T-13797

Review Due Date:

Applica	ant Name: Steve Sharp
Propos	sed Changes: POU POD POA USE OTHER
Reviev	ver(s): Marcy Osborn Date of Review: 09/01/2021
1.	Do you have <u>evidence</u> that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? Yes No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2.	Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights?   Yes   No Generally characterize the frequency of any regulation or explain why regulation has not occurred: Eagle Creek is regulated every year.
3.	Have headgate notices been issued for the source that serves the transferred right(s)?  Yes No Records not available.
4.	In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized?  Yes  No  If "Yes", explain:
5.	In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? Yes No If "Yes", describe how the rights would be affected and list the rights most affected:

6.	Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:
7.	N/A  For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:
8.	N/A  For instream transfers that propose protection of a reach beyond the mouth of the source stream:  N/A Would the quantity be measureable into the receiving stream consistent with  OAR 690-077-0015(8)?  Yes  No
9.	For POU changes: N/A Is it likely the original place of use would continue to receive water from the same source? Yes No If "Yes", explain:
10	For POU or USE changes: N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?  Yes No If "Yes", explain:
11	<ul> <li>For POU changes that involve micro-irrigation:         N/A         <ul> <li>Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?</li></ul></li></ul>

b.		porary transfer of this nature been previously filed and approved on the same lands as thereof) as those lands involved in this transfer?
	Yes	No If "Yes", answer the following:
		i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? Yes No If "Yes", explain:
		ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? Yes No If "No", explain:
		iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? Yes No If "No", explain:
		iv. Do you have any other observations regarding the temporary transfer?  Yes No If "Yes", describe:
		v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? Yes No If "No", explain:
	c. To the	best of your knowledge, if this transfer is approved, does it appear that:  i. "Injury" will occur to other water rights that share the same source?
		Yes No If "Yes", explain:
		ii. "Enlargement" of the water right being transferred will occur?  Yes No If "Yes", explain:

TACS

determining whether the change "can be effected without injury to other rights"?
Yes No If "Yes", explain:
Tes (Explain)
13. What alternatives may be available for addressing any issues identified above:
14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to
other rights?  No Yes, as checked and provided below:
For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions
necessary to prevent injury/enlargement:
A Headgate should be required prior to diverting water.
Measurement Devices for POD or POA: (if this condition is selected, also fill in the top
sections of Page 4)
a. Before water use may begin under this order, the water user shall install a totalizing flow meter*,
or, with prior approval of the Director, another suitable measuring device, at each point of
diversion/appropriation (new and existing) OR at each new point of diversion/appropriation  with the exception that water rights issued to the Bureau of Reclamation or an irrigation
district (or similar entity) are not subject to this condition.
b. The water user shall maintain the meters or measuring devices in good working order.
c. The water user shall allow the Watermaster access to the meters or measuring devices; provided
however, where the meters or measuring devices are located within a private structure, the  Watermaster shall request access upon reasonable notice.
Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)
a. Before water use may begin under this order, the water user shall install staff gages*,
or, with prior approval of the Director, other suitable measuring devices, that measure the entire
range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.
b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other
suitable measuring devices must be installed upstream and downstream of the reservoir, and, an
adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or
other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.
* The following alternative device(s) should be substituted for the bold, underlined device in the above
selected condition:
Weir Submerged Orifice Flow Restrictor
Parshall Flume Flow Restrictor Other:
Ottlet.

Salem, OR 97301-1266

· Your temporary transfer application will be returned if any of the map requirements listed OWRD below are not met. Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. □ N/A If more than three water rights are involved, separate maps are needed for each water right. Permanent quality printed with dark ink on good quality paper. The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required. A north arrow, a legend, and scale. The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department. Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. □ N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.

□ Ø N/A

V

V

If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32′15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

#### Part 3 of 5 - Fee Worksheet

	FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS		
1	Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$950.00
	Number of water rights included in transfer: (2a)		
	Subtract 1 from the number in 3a above: (2b) If only one water right this will be		
	0 .		
2	Multiply line 2b by \$310.00 and enter » » » » » » » » » » » »	2	
	Do you propose to change the place of use for a non-irrigation use?		RECEIVE
	□ No: enter 0 on line 3 » » » » » » » » » » » » » » » » »		
	☐ Yes: enter the cfs for the portions of the rights to be transferred: (3a)		AUG 1 2 202
	Subtract 1.0 from the number in 3a above:(3b)		
	If 3b is 0, enter 0 on line 3 » » » » » » » » » » » » » » » »		OWRD
	If 3b is greater than 0, round up to the nearest whole number:(3c) and		
3	multiply 4c by \$210.00, then enter on line 3	3	
	Do you propose to change the place of use for an irrigation use?		
	□ No: enter 0 on line 4 » » » » » » » » » » » » » » » » »		
	☐ Yes: enter the number of acres in the footprint of the place of use for the		
	portions of the rights to be transferred:(4a)		
4	Multiply the number of acres in 4a above by \$2.70 and enter on line 4 » »	4	
5	Add entries on lines 1 through 4 above » » » » » » » » » Subtotal:	5	
	Is this transfer:		
	necessary to complete a project funded by the Oregon Watershed		
	Enhancement Board (OWEB) under ORS 541.932?		
	endorsed in writing by ODFW as a change that will result in a net benefit to		
	fish and wildlife habitat?		
	If one or more boxes is checked, multiply line 5 by 0.5 and enter on line 6 »		770
6	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » »	6	
7	Subtract line 6 from line 5 » » » » » » » » » » » » Transfer Fee:	7	

	FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS										
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00								
Enter the cfs for the portions of the rights to be transferred (see example below*):											
	1.0f3(2a)										
	Subtract 1.0 from the number in 2a above:										
	If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » »										
	If 2b is greater than 0, round up to the nearest whole number: 1.0 (2c) and										
2	multiply 2c by \$50, then enter on line 2 » » » » » » » » »	2	\$60								
3	Add entries on lines 1 through 2 above » » » » » » » » » Transfer Fee:	30	\$2505								

<sup>\*</sup>Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

<sup>1.</sup> Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs  $\div$ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

<sup>2.</sup> If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

<sup>3.</sup> Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

### INSTRUCTIONS for editing the Application Form

To add lines to tables within the forms or to copy and paste additional Part 5 pages, please save the application form to your computer. Unlock the document by using one of the following instructions for your Microsoft Word software version:

RECEIVED

#### Microsoft Word 2003

AUG 1 2 2021

Unlock the document by one of the following:

OWRD

- Using the Tools menu => click Unprotect Document;
   OR
- Using the Forms toolbar => click on the Protect/Unprotect icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the Tools menu => click Protect Document;
   OR
- Using the Forms toolbar => click on the Protect/Unprotect icon.

Once the application has been unlocked, you may:

- add rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

checkboxes to work.

#### Microsoft Word 2007

- Unlock the document by clicking the Review tab, then click Protect Document, then click Stop Protect
- To relock the document, click Editing Restrictions, then click Allow Only This Type of Editing, select
   Filling In Forms from the drop-down menu, then check Yes, Start Enforcing Protection.

#### Microsoft Word 2010

- Unlock the document by clicking the Review tab; toggle the Restrict Editing icon at the upper right, then click Stop Protect at the bottom right. Then uncheck the "Allow only this type of editing in the document: Filling in forms" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the Editing Restrictions/Allow Only This Type of Editing/Filling In
  Forms box from the drop-down menu, then check Yes, Start Enforcing Protection. You do not need to
  assign a password for the editing restrictions.

#### Other Alternatives:

- Photocopy pages or tables in Part 5, mark through any non-applicable information, insert/attach
  photocopied pages to document in the appropriate location, and manually amend page numbers as
  necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc.
   You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

AUG 1 2 \_U21

Water	Right	Certificate	#	
		The state of the s		

For Place of Use Changes

Are there other water right certificates of pround water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers:  $\underline{c-7}5354$ 

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: <a href="http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx">http://apps.wrd.state.or.us/apps/gw/well-log/Default.aspx</a>)

AND/OR

RECEIVED

AUG 1 2 2021

OWRD

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well -specific rate (cfs or gpm). If less than full rate of water right

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

Additional remarks:

## For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \$\sqrt{1}\$ Yes \( \sigma \) No

If YES, list the certificate, water use permit, or ground water registration numbers:  $\underline{c-75354}$ 

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated
with the corresponding well(s) in Table 1 above and on the accompanying
application map. (Tip: You may search for well logs on the Department's web page at:
http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

### AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

# Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well -specific rate (cfs or gpm). <u>if</u> less than full rate of water right

# Land Use Information Form

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

RECEIVED

AUG 1 2 2021

# NOTE TO APPLICANTS

OWRD

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

### This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and <u>all</u> of the following apply:
  - The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

# NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

Regular Temporary Water Right Transfer Application Checklist

Checked by Date 8-18-21

# A temporary transfer <u>must</u> be for a <u>change in place of use</u>. A temporary change in POD/POA or APOD/APOA cannot be accepted as a stand-alone change.

A change in POD/POA can accompany the temporary change in place of use, <u>only</u> if the proposed temporary POD/POA is supplying water to the proposed temporary place of use.

(If OK	, ch	eck box to left; if not, fill in the blank)
D'		Page 1 of application: Are all attachments that have been checked actually included?  If not, what is missing?
d	2.	Are fees included and correct?  If not, the correct fee would be: 250, so the amount missing is:
V	3.	Part 4 of application: Have all the applicants listed at the top of the page signed at the bottom?  If not, whose signature is missing?
✓	4.	Are all listed certificates shown by WRIS as non-cancelled?  If not, which are cancelled?
	5.	If any certificate is in the name of a "district", is a Supplemental Form D from that district enclosed?  N/A
	б.	If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.
		If #1, #2, #3, #4 or #5 on this checklist is deficient, the application cannot be accepted. It should be returned and the deficiencies listed in the "staff" section at the bottom of Application Page 1, unless the applicant or age can resolve the deficiencies within 2-3 days.
