In the Matter of Transfer Application	)	FINAL ORDER APPROVING AN
T-13786, Crook County	)	EMERGENCY USE DROUGHT TEMPORARY
	)	CHANGE IN PLACE OF USE AND
	)	ADDITIONAL POINTS OF APPROPRIATION

Authority

Oregon Revised Statute (ORS) 536.750 establishes the process in which a water right holder may submit a request to temporarily transfer the use, place of use or point of diversion of water in the event of a declaration of drought, without complying with the notice and waiting requirements under ORS 540.520. Oregon Administrative Rule (OAR) Chapter 690, Division 019 implements the statutes and provides the Department's procedures and criteria for evaluating drought transfer applications.

Applicant

SCOTT C. JOHNSON
PO BOX 1
POWELL BUTTE, OR 97753

Findings of Fact

1. On August 5, 2021, SCOTT C. JOHNSON filed an application to temporarily change the place of use and for additional points of appropriation under Certificate 93255 for the remainder of the 2021 irrigation season or the term of the Governor's declared drought, whichever is shorter. The Department assigned the application number T-13786.
2. Notice of the application for transfer was published on August 17, 2021, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.

3. The portion of the right to be temporarily transferred is as follows:

Certificate: 93255 in the name of RODNEY S. JOHNSON (perfected under Permit G-7909)
Use: IRRIGATION of 19.7 ACRES
Priority Date: JANUARY 25, 1978
Rate: 0.246 CUBIC FOOT PER SECOND

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

5. Additional points of appropriation are necessary to convey the water to the proposed temporary place of use. Temporary Transfer Application T-13786 proposes additional points of appropriation as follows:

Temporary Drought Transfer Review Criteria

6. Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
7. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right are present.
8. The Governor issued an executive order on June 8, 2021, declaring a state of drought emergency in Crook County due to drought and extreme weather conditions, which is still in effect and the water right proposed for transfer is on lands included in the area covered by the drought order.
9. The proposed changes would not result in enlargement of the rights.
10. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under OAR 690-019-055(3) if injury to existing water rights is shown and cannot be mitigated to the satisfaction of the Director and injured parties.

Conclusions of Law

The temporary change in place of use and additional points of appropriation proposed in Temporary Drought Transfer Application T-13786 are consistent with the requirements of ORS 536.750 and OAR 690-019-0055.

Now, therefore, it is ORDERED:

1. The temporary change in place of use and additional points of appropriation proposed in Temporary Drought Transfer Application T-13786 are approved.
2. The former place of use **shall not** be irrigated as part of this water right during the remainder of the 2021 irrigation season or until the end of the Governor's declared drought, whichever occurs first.
3. The approval of this temporary drought transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
4. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 93255. The use shall revert to the authorized place of use at the end of the 2021 irrigation season.
5. The proposed change in place of use and additional points of appropriation shall revert to the authorized place of use and points of appropriation at the end of the 2021 irrigation season or the end of the Governor's declared drought, whichever occurs first.

6. The use of the remaining water right described by Certificate 93255 shall continue to be in accordance with the terms and conditions of Certificate 93255.

Part 2 of 5 – Temporary Transfer Application Map Checklist

RECEIVED

AUG 05 2021

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

OWRD

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☐ ☒ N/A If more than three water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

2		2	
3	Add entries on lines 1 through 2 above » » » » » » » » » » Transfer Fee:	3	

1. Divide total authorized cfs by total acres in the water right (for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$); then multiply by the number of acres to be transferred to get the transfer cfs ($\times 45 \text{ ac} = 0.56 \text{ cfs}$).
2. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$)
3. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

Will all of the proposed changes affect the entire water right?

- ☐ Yes Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- ☒ No Complete all of Table 2 to describe the portion of the water right to be changed.

Do you have questions about how to fill-out the tables?
Contact the Department at 503-986-0900 and ask for Transfer Staff.

List only the part of the right that will be changed. For the acreage in each $\frac{1}{4}$, list the change proposed. If more than one change, specify the acreage associated with each change. If more than one POD/POA, specify the acreage associated with each POD/POA.

Additional remarks:

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

RECEIVED

AUG 05 2021

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

OWRD

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- ☒ Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

STATE OF OREGON

COUNTY OF CROOK

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

RODNEY S JOHNSON
RT 1 BOX 420
POWELL BUTTE, OR 97753

confirms the right to use the waters of TWO WELL(S) in the CROOKED RIVER BASIN for IRRIGATION of 20.0 ACRES.

This right was perfected under Permit G-7909. The date of priority is JANUARY 25, 1978. The right is limited to not more than 0.25 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the wells.

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
15 S	14 E	WM	35	SE SE	WELL 1: 60 FEET NORTH AND 190 FEET WEST FROM THE SE CORNER OF SECTION 35
15 S	14 E	WM	35	SE SE	WELL 2: 250 FEET NORTH AND 360 FEET WEST FROM THE SE CORNER OF SECTION 35

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
15 S	14 E	WM	35	SW SE	6.4
15 S	14 E	WM	35	SE SE	13.6
Total					20.0

This certificate is issued to describe the right NOT modified by provisions of an order of the Water Resources Director, entered JUN 28 2019, and recorded in Special Order Volume 113, Pages ~~380-382~~, approving a partial cancellation the right evidenced by Certificate 60424. This certificate supersedes Certificate 60424.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed JUN 28 2019.

A handwritten signature in black ink, appearing to read "Dwight French", with a long horizontal flourish extending to the right.

Part 2 of 5 – Temporary Transfer Application Map Checklist

RECEIVED

AUG 05 2021

OWRD

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☐ ☒ N/A If more than three water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS			
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*): _____ (2a) Subtract 1.0 from the number in 2a above: _____ (2b) If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » » If 2b is greater than 0, round up to the nearest whole number: _____ (2c) and multiply 2c by \$50, then enter on line 2 » » » » » » » » »		
2		2	
3	Add entries on lines 1 through 2 above » » » » » » » » » » Transfer Fee:	3	

***Example for Line 2a calculation** to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. Divide total authorized cfs by total acres in the water right (for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$); then multiply by the number of acres to be transferred to get the transfer cfs ($\times 45 \text{ ac} = 0.56 \text{ cfs}$).
2. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$)
3. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

RECEIVED
AUG 05 2021

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

OWRD

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- ☒ Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):
- ☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

EXECUTIVE ORDER NO. 21-13

OWRD

**DETERMINATION OF A STATE OF DROUGHT EMERGENCY IN
CROOK, HARNEY, MALHEUR, SHERMAN, AND WALLOWA
COUNTIES DUE TO LACK OF PRECIPITATION AND UNUSUALLY
LOW SNOWPACK AND STREAMFLOW.**

At the request of Crook County (by Resolution and Order 2021-24 dated May 5, 2021), Harney County (by Resolution 2021-06 dated May 5, 2021), Malheur County (by Resolution R21-20 dated May 19, 2021), Sherman County (by Resolution C.3-65-202- dated May 19, 2021) and Wallowa County (by Resolution 2021-18 dated May 21, 2021), and based on the recommendations of the Drought Readiness Council and the Water Supply Availability Committee, and pursuant to ORS 536.740, I find the lack of precipitation, low snowpack, low reservoir levels, and low streamflow have caused or will cause natural and economic disaster conditions in these five counties.

Forecasted water supply conditions and precipitation levels are not expected to improve. Drought is likely to have a significant economic impact on the farm, ranch, vineyard, recreation, and natural resources sectors, as well as an impact on drinking water, fish and wildlife, and other natural resources dependent on adequate precipitation, stored water, and streamflow in these areas. Extreme conditions are expected to affect local growers, increase the potential for fire, shorten the growing season, and decrease water supplies.

Conditions continue to be monitored by the State's natural resource and public safety agencies, including the Oregon Water Resources Department, the Oregon Office of Emergency Management, the Oregon Office of the State Fire Marshal, and the Oregon Department of Forestry's Fire Protection Division.

Preparation and resiliency to drought are vital to the health and safety of persons, property, and the economic security of the citizens and businesses of these counties. I, therefore, declare that a severe, continuing drought emergency exists and is likely to continue to exist in Crook, Harney, Malheur, Sherman, and Wallowa Counties.

NOW, THEREFORE, IT IS HEREBY DIRECTED AND ORDERED:

- I. The Oregon Department of Agriculture is directed to coordinate and provide assistance in seeking federal resources to mitigate drought conditions and assist in agricultural recovery in Crook, Harney, Malheur, Sherman, and Wallowa Counties.
- II. The Oregon Water Resources Department and the Water Resources Commission are directed to coordinate and provide assistance to water users in Crook, Harney, Malheur, Sherman, and Wallowa Counties as the Department and Commission determine necessary and appropriate in accordance with ORS 536.700 to 536.780.

- III. The Oregon Water Resources Department is directed to seek information from the Oregon Department of Fish and Wildlife to help understand the impacts of water availability on Oregon's fish and wildlife, as necessary and appropriate in accordance with ORS 536.700 to 536.780.
- IV. The Office of Emergency Management is directed to coordinate and assist as needed with assessment and mitigation activities to address current and projected conditions in Crook, Harney, Malheur, Sherman, and Wallowa Counties.
- V. All other state agencies are directed to coordinate with the above agencies and provide appropriate state resources as needed to assist affected political subdivisions and water users in Crook, Harney, Malheur, Sherman, and Wallowa Counties.
- VI. This Executive Order expires on December 31, 2021.

Done at Salem, Oregon, this 8th day of June, 2021.

IN THE COUNTY COURT OF THE STATE OF OREGON
FOR THE COUNTY OF CROOK

IN THE MATTER OF:
DECLARATION OF LOCAL DROUGHT
AND REQUEST TO DECLARE A STATE OF
DROUGHT EMERGENCY FOR CROOK
COUNTY, OREGON

RESOLUTION
AND ORDER 2021-24

WHEREAS, on this 5th day of May 2021, the Crook County Court finds that the Crook County agricultural and livestock industries, recreation, and related economies are suffering widespread and severe economic damage, potential injuries, and loss of property resulting from extreme weather conditions within the county; and

WHEREAS, annual water supplies available for irrigators and ranchers within Crook County are a function of winter snowpack for water storage in Ochoco and Prineville Reservoirs and natural flows in the Crooked River and its tributaries; and

WHEREAS, seasonal precipitation, from October 1, 2020 to present is less than 70% of the average, and April precipitation is less than 50% of the average, with National Drought Mitigation Center reports that Crook County is in D3 (Extreme Drought) in the west portion of the County and D2 (Severe Drought) in the east portion of the County as of April 22, 2021; and

WHEREAS, Prineville Reservoir storage is roughly one-third below the average and Ochoco Reservoir is roughly two-thirds below average storage; and

WHEREAS, Ochoco Reservoir's 11,700 acre-feet of storage is at or near the all-time low since constant record keeping began in 1980, with expected 2020-21 run-off at less than a third of the yearly average; and

WHEREAS, Prineville Airport has recorded just 2.62 inches of precipitation this crop water year (September to present), with a historical average in the area of around 10 inches; and

WHEREAS, the extended weather forecast for Crook County for the next three months projects a 33-40% chance of higher than normal temperatures and 40-50% chance of below average precipitation; and

WHEREAS, the above conditions result in loss of economic stability, pasture shortages, decrease in feed production, shortened growing season, reduction in recreational opportunities, and decreased water supplies for Crook County agricultural and livestock producers; and

WHEREAS, the Crook County Court determines that extraordinary measures must be taken to alleviate suffering of people and livestock and to protect or mitigate economic loss, and to be responsive to the threat of wildfires.

NOW, THEREFORE, BE IT PROCLAIMED by the Crook County Court that:

OWRD

1. A severe, continuing drought is declared within Crook County.
2. Crook County drought Emergency Management Plan has been implemented.
3. Pursuant to ORS 536.720, we find that appropriate response is beyond the capability of Crook County. We are declaring a state of emergency for the purpose of assessment, evaluation and acquiring the ability to provide appropriate available resources.
4. **Request:** The Honorable Kate Brown, Governor of Oregon, declare a Drought Emergency for all of Crook County under the provisions of ORS 536.740 due to severe and continuing drought conditions beginning at this time and continuing for an unknown period of time; and direct the Oregon Department of Water Resources to make available in Crook County: Temporary Transfers of Water Rights, and Emergency Water Use Permits, and Use of Existing Right Option/Agreement; and other federal and state drought assistance and programs as needed.
5. This proclamation shall take effect immediately from and after its issuance.

BE IT FURTHER ORDERED that this Order be filed in the Crook County Clerk's Office and that it be effective when so filed.

Adopted this 5th day of May 2021.

Regular Temporary Water Right Transfer Application Checklist

Checked by

John

Date

8/12/21

A temporary transfer must be for a change in place of use. A temporary change in POD/POA or APOD/APOA cannot be accepted as a stand-alone change.

A change in POD/POA can accompany the temporary change in place of use, only if the proposed temporary POD/POA is supplying water to the proposed temporary place of use.

(If OK, check box to left; if not, fill in the blank)

- ☒ 1. Page 1 of application: Are all attachments that have been checked actually included?
If not, what is missing? _____
- ☒ 2. Are fees included and correct?
If not, the correct fee would be: 200.00, so the amount missing is: over pay
- ☒ 3. Part 4 of application: Have all the applicants listed at the top of the page signed at the bottom?
If not, whose signature is missing? _____
- ☒ 4. Are all listed certificates shown by WRIS as non-cancelled?
If not, which are cancelled? _____
For each cancelled certificate, if there has been a remaining right certificate issued that covers the lands in the left side of Table 2, list its number _____ and check the #4 box at left on this checklist.
- ☒ 5. If any certificate is in the name of a "district", is a Supplemental Form D from that district enclosed?
☒ N/A ☐ Form D needed from _____ (district)
6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.

If #1, #2, #3, #4 or #5 on this checklist is deficient, the application cannot be accepted. It should be returned and the deficiencies listed in the "staff" section at the bottom of Application Page 1, unless the applicant or agent can resolve the deficiencies within 2-3 days.
