Authority

Oregon Revised Statute (ORS) 536.750 establishes the process in which a water right holder may submit a request to temporarily transfer the use, place of use or point of diversion of water in the event of a declaration of drought, without complying with the notice and waiting requirements under ORS 540.520. Oregon Administrative Rule (OAR) Chapter 690, Division 019 implements the statutes and provides the Department's procedures and criteria for evaluating drought transfer applications.

Applicant

AMY GIBSON DBA GIBSON FARMS
PO BOX 245
SILETZ, OR 97380

Findings of Fact

1. On August 27, 2021, AMY GIBSON DBA GIBSON FARMS filed an application to temporarily change the place of use and change the point of diversion under Certificate 21623 for the remainder of the 2021 irrigation season or the term of the Governor's declared drought, whichever is shorter. The Department assigned the application number T-13807.
2. Notice of the application for transfer was published on September 7, 2021, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. The portion of the right to be temporarily transferred is as follows:
Certificate: 21623 in the name of E. E. COLVIN (perfected under Permit S-21904)
Use: IRRIGATION of 20.6 ACRES
Priority Date: NOVEMBER 24, 1952
Rate: 0.16 CUBIC FOOT PER SECOND

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year and shall be still further limited to a diversion of not to exceed 0.42 cubic foot per second.

Temporary Drought Transfer Review Criteria

7. Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right are present.
9. The Governor issued an executive order on July 20, 2021, declaring a state of drought emergency in Lincoln County due to drought and extreme weather conditions, which is still in effect and the water right proposed for transfer is on lands included in the area covered by the drought order.
10. The proposed changes would not result in enlargement of the rights.
11. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under OAR 690-019-055(3) if injury to existing water rights is shown and cannot be mitigated to the satisfaction of the Director and injured parties.

Conclusions of Law

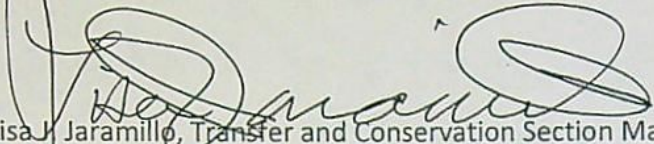

The temporary changes in place of use and point of diversion proposed in Temporary Drought Transfer Application T-13807 is consistent with the requirements of ORS 536.750 and OAR 690-019-0055.

Now, therefore, it is ORDERED:

1. The temporary changes in place of use and point of diversion proposed in Temporary Drought Transfer Application T-13807 is approved.
2. The former places of use **shall not** be irrigated as part of these water rights during the remainder of the 2021 irrigation season or until the end of the Governor's declared drought, whichever occurs first.
3. The approval of this temporary drought transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
4. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 21623. The use shall revert to the authorized place of use at the end of the 2021 irrigation season.
5. The proposed changes in place of use and point of diversion shall revert to the authorized place of use and point of diversion at the end of the 2021 irrigation season or the end of the Governor's declared drought, whichever occurs first.

6. The use of the remaining water right described by Certificate 21623 shall continue to be in accordance with the terms and conditions of Certificate 21623.

Part 2 of 5 – Temporary Transfer Application Map Checklist

RECEIVED

AUG 27 2021

OWRD

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A If more than three water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS			
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
2	Enter the cfs for the portions of the rights to be transferred (see example below*): <u>0.161 (2a)</u> Subtract 1.0 from the number in 2a above: <u>0.00 (2b)</u> If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » » If 2b is greater than 0, round up to the nearest whole number: _____ (2c) and multiply 2c by \$50, then enter on line 2 » » » » » » » » » » » »	2	\$0.00
3	Add entries on lines 1 through 2 above » » » » » » » » » » Transfer Fee:	3	\$200.00

*Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:
 1. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac = 0.56 cfs).
 2. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
 3. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land.** The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

(ATTACHMENT 1):

Gibson Farms would like to request a Temporary Drought Transfer for the duration of the Governor-Declared Drought Emergency Declaration in Lincoln County invoked by Executive Order No. 21-25, or one year, whichever is shorter. We would like to change Place of Use (POU) and Point of Diversion (POD) from a portion of Certificate #21623 (Priority Date 1952), which we own and operate, to a portion of Certificate #46891 (Priority Date 1971), which we own and operate.

Due to low summer streamflows in the Siletz Basin, OWRD has regulated off junior water rights in our reach of the Siletz River, including Certificate #46891.

This Drought Temporary Transfer would allow us to provide the minimum irrigation necessary to sustain approximately 20 acres of cultivated perennial blueberry plants that have been established since 1948.

Thank you for your consideration,

--Alan Fujishin, Agent
Gibson Farms, Siletz

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

(ATTACHMENT 1):

Gibson Farms would like to request a Temporary Drought Transfer for the duration of the Governor-Declared Drought Emergency Declaration in Lincoln County invoked by Executive Order No. 21-25, or one year, whichever is shorter. We would like to change Place of Use (POU) and Point of Diversion (POD) from a portion of Certificate #21623 (Priority Date 1952), which we own and operate, to a portion of Certificate #46891 (Priority Date 1971), which we own and operate.

Due to low summer streamflows in the Siletz Basin, OWRD has regulated off junior water rights in our reach of the Siletz River, including Certificate #46891.

This Drought Temporary Transfer would allow us to provide the minimum irrigation necessary to sustain approximately 20 acres of cultivated perennial blueberry plants that have been established since 1948.

Thank you for your consideration,

--Alan Fujishin, Agent
Gibson Farms, Siletz

Checked by Joan

Date 8/31/21

A temporary transfer must be for a change in place of use. A temporary change in POD/POA or APOD/APOA cannot be accepted as a stand-alone change.

A change in POD/POA can accompany the temporary change in place of use, only if the proposed temporary POD/POA is supplying water to the proposed temporary place of use.
