**FINAL ORDER ON RECONSIDERATION**

Reference: T-13843

Enclosed is an Order on Reconsideration as recorded in Special Order Vol. 125, Page 687, issued to withdraw and supersede the final order recorded in Special Order Vol. 125 Page 232. The final order recorded in Special Order Vol. 125 Page 232 is of no further force or effect.

If you have any questions please contact Arla Davis by telephone at (503) 979-3129 or by e-mail at [Arla.L.Davis@water.oregon.gov](mailto:Arla.L.Davis@water.oregon.gov).

STATE OF OREGON

In the Matter of Permit Amendment ) RECONSIDERATION OF A FINAL ORDER  
T-13843, Linn County ) RECORDED IN SPECIAL ORDER VOLUME  
 ) 125, PAGES 232-233, WITHDRAWING A  
 ) FINAL ORDER

**Authority**

Oregon Revised Statute (ORS) 537.211 establishes the process in which a water right permit holder may submit a request to change the point of appropriation and/or place of use authorized under an existing water right permit.

**Applicant**

MID VALLEY FARMS, INC.  
c/o RYAN GLASER  
31915 SEVEN MILE LANE  
TANGENT, OR 97389

**Findings of Fact**

1. On October 13, 2021, MID VALLEY FARMS, INC., c/o RYAN GLASER, filed an application to change the points of appropriation under Permit G-16927. The Department assigned the application number T-13843.
2. On September 29, 2017, the Department approved an extension of time for complete application of water to October 1, 2022.
3. Notice of the application for the permit amendment was published in the Department's weekly notice on October 26, 2021, and in the Albany Democrat-Herald newspaper on May 5 and 12, 2022, pursuant to ORS 540.520(5). No comments were filed in response to the notices.
4. On June 8, 2022, The Department issued a Final Order to Approve Permit Amendment Application T-13843, recorded at Special Order Volume 125, Pages 232-233.
5. On July 18, 2022, The Department received a request for reconsideration from Schroeder Law Offices, who represent the applicant Mid Valley Farms, Inc., c/o Ryan Glaser. The letter identified a scrivener's error in the table on the final order describing Well 2 as being located in the SE1/4 NE1/4, Sec. 21, T12S, R3W, WM. The correct location of Well 2 is the NE1/4 NE1/4, Sec. 21, T12S, R3W, WM.

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 and OAR 690-01-0005 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

6. Permit Amendment Application T-13843 proposes to move the authorized points of appropriation between 70 feet and 1.36 miles from the existing points of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
12 S	3 W	WM	21	NE NE	WELL 1 - 1269 FEET SOUTH AND 558 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	21	NE NE	WELL 2 - 1269 FEET SOUTH AND 948 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	20	NE NE	WELL 7 - 1269 FEET SOUTH AND 252 FEET WEST FROM THE NE CORNER OF SECTION 21

***Permit Amendment Review Criteria***

7. The change would not result in injury to other water rights.
8. The change does not enlarge the permit.
9. The change does not alter any other terms of the permit.

**Conclusions of Law**

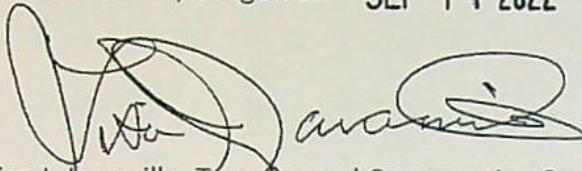

The change in points of appropriation proposed by Permit Amendment Application T-13843 is consistent with the requirements of ORS 537.211.

Now, therefore, it is ORDERED:

1. The reconsideration order recorded at Special Order Volume 125, Pages 232-233, is withdrawn and is of no further force or effect and is superseded by this order.
2. The change in points of appropriation proposed by Permit Amendment Application T-13843 is approved.
3. Permit G-18759, in the name of MID VALLEY FARMS, c/o RYAN GLASER, is issued to replace Permit G-16927, and incorporates the amendments approved by this order and the extension of time. Permit G-16927, in the name of RYAN GLASER, G FIVE LLC, DENNIS GLASER, AND MID VALLEY FARMS INC., is no longer of any force or effect.
4. The quantity of water diverted at the new points of appropriation (WELL 1, WELL 2, AND WELL 7), shall not exceed the quantity of water lawfully available at the original points of appropriation (WELL 1, WELL 2, AND WELL 7).
5. Water shall be acquired from the same aquifer as the original points of appropriation.

6. All other terms and conditions of Permit G-18759 remain the same.

**OWRD**

**RE: Request for Reconsideration to Amend Error on Final Order Approving  
Permit Amendment T-13843**

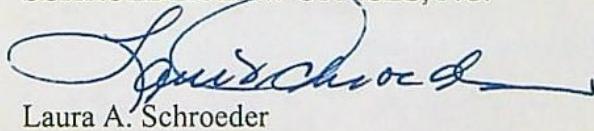

Dear Director Byler:

We represent Mid Valley Farms, Inc., and Ryan Glaser regarding Transfer Application T-13843. On October 13, 2021, Mid Valley Farms, Inc., and Ryan Glaser, filed an application to change the points of appropriation under Permit G-16927, attached for reference. On June 8, 2022, the Oregon Water Resources Department ("OWRD") issued its Final Order Approving a Change in Points of Appropriation ("Final Order") and issued G-18759 in place of Permit G-16927.

We have reviewed the Final Order and identified an error in the description of the new point of appropriation for Well 2: Section 4 of the Final Order provides that the new point of appropriation for Well 2 as Township 12 South, Range 3 West, Section 21, **SE NE**, but the correct location is Township 12 South, Range 3 West, Section 21, **NE NE**. Permit G-18759 lists the correct, updated location for Well 2 and the permit is attached for your reference.

Pursuant to OAR **137-004-0080**, we request that OWRD reconsider the Final Order and issue a corrected Final Order to include the correct description for Well 2. Since the Final Order was issued on June 8, 2022, this request is submitted within the permitted time frame, which requires filing by August 7, 2022. Please let us know if any additional information is needed for OWRD to reconsider and to reissue a corrected Final Order for T-13843.

Very truly yours,  
SCHROEDER LAW OFFICES, P.C.

Laura A. Schroeder

## STATE OF OREGON

## COUNTY OF LINN

## PERMIT TO APPROPRIATE THE PUBLIC WATERS

RECEIVED

THIS PERMIT IS HEREBY ISSUED TO

JUL 18 2022

MID VALLEY FARMS INC.  
 c/o RYAN GLASER  
 31915 SEVEN MILE LANE  
 TANGENT, OR 97389

OWRD

This superseding permit is issued to describe an amendment for a change in points of appropriation proposed under Permit Amendment Application T-13843 and approved by Special Order Volume 125, Page 232 entered JUN 08 2022 and to describe an extension of time for complete application of water approved September 29, 2017. This permit supersedes Permit G-16927.

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-17488

SOURCE OF WATER: WELL 1, WELL 2, WELL 3, WELL 4 (LINN 59840), WELL 5, WELL 6, AND WELL 7 IN LAKE CREEK BASIN

PURPOSE OR USE: IRRIGATION OF 884.5 ACRES

MAXIMUM RATE: 3.0 CUBIC FEET PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: SEPTEMBER 14, 2011

WELL LOCATIONS:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
12 S	3 W	WM	20	NE NE	54	WELL 6 - 100 FEET SOUTH AND 250 FEET EAST FROM THE SE CORNER LOVELL KNIGHTON DLC 54
12 S	3 W	WM	20	NW NE	54	WELL 4 - 100 FEET SOUTH AND 450 FEET WEST FROM THE SE CORNER LOVELL KNIGHTON DLC 54
12 S	3 W	WM	20	NW NE	54	WELL 5 - 100 FEET SOUTH AND 800 FEET WEST FROM THE SE CORNER LOVELL KNIGHTON DLC 54
12 S	3 W	WM	21	NE NE		WELL 1 - 1269 FEET SOUTH AND 558 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	21	NE NE		WELL 2 - 1269 FEET SOUTH AND 948 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	21	NE NE		WELL 7 - 1269 FEET SOUTH AND 252 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	21	SE NE		WELL 3 - 1980 FEET SOUTH AND 100 FEET WEST FROM THE NE CORNER OF SECTION 21

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

12 S	3 W	WM	22	SE NW	40.00

Permit Amendment T-13843 Conditions:

The quantity of water diverted at the new points of appropriation (WELL 1, WELL 2, AND WELL 7), shall not exceed the quantity of water lawfully available at the original points of appropriation (WELL 1, WELL 2, AND WELL 7).

Water shall be acquired from the same aquifer as the original points of appropriation.

Original Permit Conditions:

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation. The permittee shall maintain the meters or measuring devices in good working order.

RECEIVED

JUL 18 2022

OWRD

- B. The permittee shall keep a complete record of the amount of water diverted each month, and shall submit a report which includes the recorded report water-use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- C. The permittee shall allow the watermaster access to the meters or measuring devices; provided however, where any meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to obtain, from a qualified individual (see below), and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

**Before Use of Water Takes Place**

**Initial and Annual Measurements**

The Department requires the permittee to report an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

**After Use of Water has Begun**

**Seven Consecutive Annual Measurements**

Following the first year of water use, the user shall report seven consecutive annual static water level measurements. The first of these seven annual measurements will establish the reference level against which future annual measurements will be compared. Based on an analysis of the data collected, the Director may require the user to obtain and report additional annual static water level measurements beyond the seven year minimum reporting period. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- A. Identify each well with its associated measurement; and
- B. Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- C. Specify the method used to obtain each well measurement; and
- D. Certify the accuracy of all measurements and calculations reported to the Department.

RECEIVED

JUL 18 2022

OWRD

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if any of the following events occur:

- A. Annual water level measurements reveal an average water level decline of three or more feet per year for five consecutive years; or
- B. Annual water level measurements reveal a water level decline of 15 or more feet in fewer than five consecutive years; or
- C. Annual water level measurements reveal a water level decline of 25 or more feet; or
- D. Hydraulic interference leads to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

Prior to using water from any well listed on this permit, the permittee shall ensure that the well has been assigned an OWRD Well Identification Number (Well ID tag), which shall be permanently attached to the well. The Well ID shall be used as a reference in any correspondence regarding the well, including any reports of water use, water level, or pump test data.

#### STANDARD CONDITIONS

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

If the number, location, source, or construction of any well deviates from that proposed in the permit application or required by permit conditions, this permit may be subject to cancellation, unless the Department authorizes the change in writing.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well(s) shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

If the riparian area is disturbed in the process of developing a point of appropriation, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of downstream waters decreases to the point that those waters no longer meet state or federal water quality standards due to reduced flows.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Prior to receiving a certificate of water right, the permit holder shall submit to the Water Resources Department the results of a pump test meeting the Department's standards for each point of appropriation (well), unless an exemption has been obtained in writing under OAR 690-217. The Director may require water-level or pump-test data every ten years thereafter.

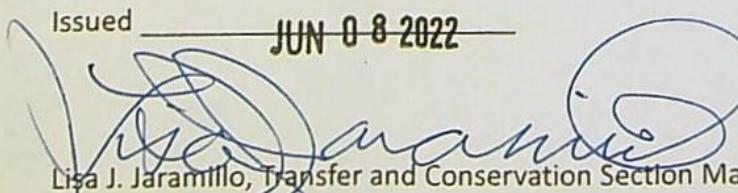

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

Completion of construction and application of the water was to be made on or before June 14, 2017, when the permit was originally issued on June 14, 2012. By Extension of Time Final Order Dated September 29, 2017, the completion of construction and application of water was extended to October 1, 2022. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.

Issued JUN 08 2022

N/A Affidavit(s) of Consent are required from all permit holder(s) of record if the permit is not assigned to the applicant **or** other permit holders of record that are not listed as applicants.

N/A Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.

N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.

N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500 feet from the surface water source and more than 1000 feet upstream or downstream from the point of diversion. (ORS 540.531(2) or (3)).

DEMISSION

Your permit amendment application will be returned if any of the map requirements listed below are not met.

SS03-31-2021

ORWQ

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does not have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

RECEIVED

N/A If more than three permits are involved, separate maps for each permit. OCT 13 2021

Permanent quality printed with dark ink on good quality paper. OWRD

The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.

A north arrow, a legend, and scale.

The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.

Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.

Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.

Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.

Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.

Existing place of use that includes separate hachuring for each water use permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the permit is being changed, a separate hachuring is needed for the portion of the permit left unchanged.

N/A If you are proposing a change in place of use, show the proposed place of use with hachuring that includes separate hachuring for each permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.

Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water use permit.

N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Revised 7/1/2021

JUL 18 2022

\*Example for Line 5a calculation to transfer 45.0 acres of Primary Permit S-12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Permit S-87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each permit involved as follows:
  - a. Divide total authorized cfs by total acres in the permit (for S-12345,  $1.25 \text{ cfs} \div 100 \text{ ac}$ ); then multiply by the number of acres to be changed to get the application cfs ( $x 45 \text{ ac} = 0.56 \text{ cfs}$ ).
  - b. If the water right permit does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For S-87654,  $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$ )
2. Add cfs for the portions of permits on all the land included in the application; however do not count cfs for supplemental permits on acreage for which you have already calculated the cfs fee for the primary permit on the same land. The fee should be assessed only once for each "on the ground" acre included in the application. (In this example, blank 5a would be only 0.56 cfs, since both permits serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

## Part 4 of 5 – Applicant Information and Signature

## Applicant Information

APPLICANT/BUSINESS NAME Mid Valley Farms, Inc. c/o Ryan Glaser			PHONE NO. 541-928-8036	ADDITIONAL CONTACT NO. 541-936-0530
ADDRESS 31915 Seven Mile Lane			FAX NO.	
CITY Tangent	STATE OR	ZIP 97389	E-MAIL	
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.				

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME Schroeder Law Offices, Attn: Sarah Liljefelt			PHONE NO. 503-281-4100	ADDITIONAL CONTACT NO.
ADDRESS 1915 NE Cesar E Chavez Blvd			FAX NO.	
CITY Portland	STATE OR	ZIP 97212	E-MAIL counsel@water-law.com	
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.				

Explain in your own words what you propose to accomplish with this permit amendment; and why:  
Move Well #2 to a better place for development of the groundwater resource.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Is the applicant the permit holder of record?  Yes  No

If NO, include either:

- A completed assignment form (with required statutory assignment fee), assigning all or a portion of the permit to the applicant(s), OR
- An affidavit of consent from the permit holder(s) of record that gives permission for the applicant to amend the permit.

Has the Completion ("C") Date of the permit(s) in this application expired?  Yes  No

If YES, this application will not be accepted by the Department.

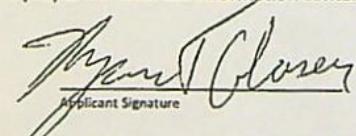

If NO, what are the completion dates of the permit(s)? 10/1/2022

- If the permit completion date expires while the Permit Amendment Application is pending, the Department will not approve the Permit Amendment Application until an Extension of Time Application is approved for the permit.
- You may consider using the Reimbursement Authority process to expedite the processing of this Permit Amendment Application if the completion date of the permit expires within 6 months of the date of filing this application.

By my signature below, I confirm that I understand:

- Prior to Department approval of the permit amendment, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the permit is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Albany Democrat-Herald or Corvallis Gazette-Times

I (we) affirm that the information contained in this application is true and accurate.

Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):

 Place of Use (POU) Point of Appropriation/Well (POA) Point of Diversion (POD) Additional Point of Appropriation (APOA)

Additional Point of Diversion (APOD)

Surface water POD to Ground Water POA  
(SW/GW)

**Will all of the proposed changes affect the entire water use permit?**

Yes Complete only the proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.

No Complete all of Table 2 to describe the portion of the permit to be changed.

**For a change in place of use:**

**Does the permit holder of record own or control the land TO which the place of use is being moved?**

Yes  No

If NO, the landowner of the land TO which the place of use is being moved must be assigned to the permit as a permit holder of record by submitting a completed Request for Assignment form and the required statutory fee for an assignment.

**Is the proposed place of use contiguous to the authorized place of use?**  Yes  No

The permitted place of use can be moved only to lands that are contiguous to the authorized place of use unless the change to non-contiguous lands is in furtherance of mitigation or conservation efforts undertaken for the purposes of benefiting a species listed as sensitive, threatened, or endangered under ORS 496.171 to 496.192 or the federal Endangered Species Act of 1973 (16 U.S.C. 1531 to 1544), as determined by the listing agency. Contiguous land being either adjacent land or land separated from the land to which a permit is authorized by roads, utility corridors, irrigation ditches or publicly owned rights of way.

Are there other water rights certificates, water use permits or ground water registrations associated with the "from" or "to" lands?  Yes  No

If YES, list the other certificate, permit, or ground water registration numbers: \_\_\_\_\_

 If the permit(s) are for irrigation or supplemental irrigation use, other water rights existing on the same land for irrigation that are subject to transfer must either change concurrently or be cancelled. Any change to a water right certificate or ground water registration must be filed separately in a water right transfer application or ground water registration modification application, respectively.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Enclosure

BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE  
STATE OF OREGON

In the Matter of Permit Amendment ) FINAL ORDER APPROVING  
T-13843, Linn County ) A CHANGE IN POINTS OF APPROPRIATION

**Authority**

Oregon Revised Statute (ORS) 537.211 establishes the process in which a water right permit holder may submit a request to change the point of appropriation and/or place of use authorized under an existing water right permit.

**Applicant**

MID VALLEY FARMS, INC.  
c/o RYAN GLASER  
31915 SEVEN MILE LANE  
TANGENT, OR 97389

**Findings of Fact**

1. On October 13, 2021, MID VALLEY FARMS, INC., c/o RYAN GLASER, filed an application to change the points of appropriation under Permit G-16927. The Department assigned the application number T-13843.
2. On September 29, 2017, the Department approved an extension of time for complete application of water to October 1, 2022.
3. Notice of the application for the permit amendment was published in the Department's weekly notice on October 26, 2021, and in the Albany Democrat-Herald newspaper on May 5 and 12, 2022, pursuant to ORS 540.520(5). No comments were filed in response to the notices.
4. Permit Amendment Application T-13843 proposes to move the authorized points of appropriation between 70 feet and 1.36 miles from the existing points of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
12 S	3 W	WM	21	NE NE	WELL 1 - 1269 FEET SOUTH AND 558 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	21	SE NE	WELL 2 - 1269 FEET SOUTH AND 948 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	20	NE NE	WELL 7 - 1269 FEET SOUTH AND 252 FEET WEST FROM THE NE CORNER OF SECTION 21

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 and OAR 690-01-0005 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

**Permit Amendment Review Criteria**

5. The change would not result in injury to other water rights.
6. The change does not enlarge the permit.
7. The change does not alter any other terms of the permit.

**Conclusions of Law**

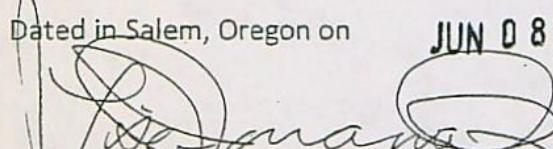

The change in points of appropriation proposed by Permit Amendment Application T-13843 is consistent with the requirements of ORS 537.211.

Now, therefore, it is ORDERED:

1. The change in points of appropriation proposed by Permit Amendment Application T-13843 is approved.
2. Permit G-18759, in the name of MID VALLEY FARMS, c/o RYAN GLASER, is issued to replace Permit G-16927, and incorporates the amendments approved by this order and the extension of time. Permit G-16927, in the name of RYAN GLASER, G FIVE LLC, DENNIS GLASER, AND MID VALLEY FARMS INC., is no longer of any force or effect.
3. The quantity of water diverted at the new points of appropriation (WELL 1, WELL 2, AND WELL 7), shall not exceed the quantity of water lawfully available at the original points of appropriation (WELL 1, WELL 2, AND WELL 7).
4. Water shall be acquired from the same aquifer as the original points of appropriation.
5. All other terms and conditions of Permit G-18759 remain the same.

Dated in Salem, Oregon on

**JUN 08 2022**

  
Lisa J. Jaramillo, Transfer and Conservation Section Manager, for  
THOMAS M BYLER, DIRECTOR  
Oregon Water Resources Department

STATE OF OREGON

COUNTY OF LINN

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

MID VALLEY FARMS INC.  
c/o RYAN GLASER  
31915 SEVEN MILE LANE  
TANGENT, OR 97389

This superseding permit is issued to describe an amendment for a change in points of appropriation proposed under Permit Amendment Application T-13843 and approved by Special Order Volume 125, Page 232 entered JUN 08 2022 and to describe an extension of time for complete application of water approved September 29, 2017. This permit supersedes Permit G-16927.

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-17488

SOURCE OF WATER: WELL 1, WELL 2, WELL 3, WELL 4 (LINN 59840), WELL 5, WELL 6, AND WELL 7 IN LAKE CREEK BASIN

PURPOSE OR USE: IRRIGATION OF 884.5 ACRES

MAXIMUM RATE: 3.0 CUBIC FEET PER SECOND

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: SEPTEMBER 14, 2011

WELL LOCATIONS:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
12 S	3 W	WM	20	NE NE	54	WELL 6 - 100 FEET SOUTH AND 250 FEET EAST FROM THE SE CORNER LOVELL KNIGHTON DLC 54
12 S	3 W	WM	20	NW NE	54	WELL 4 - 100 FEET SOUTH AND 450 FEET WEST FROM THE SE CORNER LOVELL KNIGHTON DLC 54
12 S	3 W	WM	20	NW NE	54	WELL 5 - 100 FEET SOUTH AND 800 FEET WEST FROM THE SE CORNER LOVELL KNIGHTON DLC 54
12 S	3 W	WM	21	NE NE		WELL 1 - 1269 FEET SOUTH AND 558 FEET WEST FROM THE NE CORNER OF SECTION 21
12 S	3 W	WM	21	NE NE		WELL 2 - 1269 FEET SOUTH AND 948 FEET WEST FROM THE NE CORNER OF SECTION 21

12 S	3 W	WM	22	SW NW	28.50
12 S	3 W	WM	22	SE NW	40.00

**Permit Amendment T-13843 Conditions:**

The quantity of water diverted at the new points of appropriation (WELL 1, WELL 2, AND WELL 7), shall not exceed the quantity of water lawfully available at the original points of appropriation (WELL 1, WELL 2, AND WELL 7).

Water shall be acquired from the same aquifer as the original points of appropriation.

**Original Permit Conditions:**

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation. The permittee shall maintain the meters or measuring devices in good working order.

- B. The permittee shall keep a complete record of the amount of water diverted each month, and shall submit a report which includes the recorded report water-use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- C. The permittee shall allow the watermaster access to the meters or measuring devices; provided however, where any meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to obtain, from a qualified individual (see below), and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

#### **Before Use of Water Takes Place**

##### Initial and Annual Measurements

The Department requires the permittee to report an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

#### **After Use of Water has Begun**

##### Seven Consecutive Annual Measurements

Following the first year of water use, the user shall report seven consecutive annual static water level measurements. The first of these seven annual measurements will establish the reference level against which future annual measurements will be compared. Based on an analysis of the data collected, the Director may require the user to obtain and report additional annual static water level measurements beyond the seven year minimum reporting period. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- A. Identify each well with its associated measurement; and
- B. Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- C. Specify the method used to obtain each well measurement; and
- D. Certify the accuracy of all measurements and calculations reported to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if any of the following events occur:

- A. Annual water level measurements reveal an average water level decline of three or more feet per year for five consecutive years; or
- B. Annual water level measurements reveal a water level decline of 15 or more feet in fewer than five consecutive years; or
- C. Annual water level measurements reveal a water level decline of 25 or more feet; or
- D. Hydraulic interference leads to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

Prior to using water from any well listed on this permit, the permittee shall ensure that the well has been assigned an OWRD Well Identification Number (Well ID tag), which shall be permanently attached to the well. The Well ID shall be used as a reference in any correspondence regarding the well, including any reports of water use, water level, or pump test data.

#### STANDARD CONDITIONS

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

If the number, location, source, or construction of any well deviates from that proposed in the permit application or required by permit conditions, this permit may be subject to cancellation, unless the Department authorizes the change in writing.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well(s) shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The wells shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

If the riparian area is disturbed in the process of developing a point of appropriation, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of downstream waters decreases to the point that those waters no longer meet state or federal water quality standards due to reduced flows.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Prior to receiving a certificate of water right, the permit holder shall submit to the Water Resources Department the results of a pump test meeting the Department's standards for each point of appropriation (well), unless an exemption has been obtained in writing under OAR 690-217. The Director may require water-level or pump-test data every ten years thereafter.

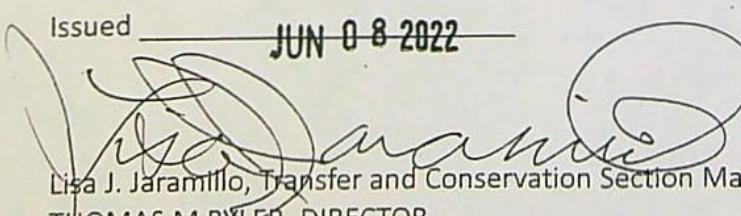

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

Completion of construction and application of the water was to be made on or before June 14, 2017, when the permit was originally issued on June 14, 2012. By Extension of Time Final Order Dated September 29, 2017, the completion of construction and application of water was extended to October 1, 2022. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.

SUBJECT: Permit Amendment Application T-13843

Your Permit Amendment application requires publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the permit is located. The Department will publish the notice in the Albany Democratic Herald newspaper upon receiving your payment for the notice.

At this time you need to:

1. Submit a check for \$317.66 (to cover cost\* of publication of the notice), made out to the Oregon Water Resources Department.
2. Write "for T-13843 NOTICE" on the front of your check and submit it with the tracking stub at the bottom of this letter.

\*PLEASE NOTE: As outlined in OAR 690-380-4020(3), publication costs include both the direct cost of the notice and indirect processing costs (not to exceed 20% of the direct costs) for processing.

Mail the check to 725 Summer St. NE, Suite A, Salem, OR 97301-1266, no later than May 20, 2022.

Upon receipt of your check, processing will continue on the permit amendment application. If we do not receive payment for newspaper notice by May 20, 2022, a Final Order may be issued denying the application as incomplete.

Please do not hesitate to contact me at 503-979-3129 or [arla.l.davis@water.oregon.gov](mailto:arla.l.davis@water.oregon.gov) if I may be of assistance.

TANGENT, OR 97389

**SUBJECT:** Permit Amendment Application T-13843

Your Permit Amendment application requires publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the permit is located. The Department will publish the notice in the Albany Democratic Herald newspaper upon receiving your payment for the notice.

At this time you need to:

1. Submit a check for **\$317.66** (to cover cost\* of publication of the notice), made out to the Oregon Water Resources Department.
2. Write **"for T-13843 NOTICE"** on the front of your check and submit it with the tracking stub at the bottom of this letter.

**\*PLEASE NOTE:** As outlined in OAR 690-380-4020(3), publication costs include both the direct cost of the notice and indirect processing costs (not to exceed 20% of the direct costs) for processing.

Mail the check to 725 Summer St. NE, Suite A, Salem, OR 97301-1266, no later than **May 20, 2022**.

Upon receipt of your check, processing will continue on the permit amendment application. If we do not receive payment for newspaper notice by May 20, 2022, a Final Order may be issued denying the application as incomplete.

Please do not hesitate to contact me at 503-979-3129 or [arla.l.davis@water.oregon.gov](mailto:arla.l.davis@water.oregon.gov) if I may be of assistance.

Sincerely,

*Arla L Davis*

## Notice of Permit Amendment T-13843

T-13843 filed by Mid Valley Farms c/o Ryan Glaser, 31915 Seven Mile Lane, Tangent, OR 97389, proposes a change in point of appropriation under Permit G-16927. The permit allows the use of 3.0 cubic feet per second from seven wells in Sects. 20 and 21, T12S, R3W, WM for irrigation in Sects. 15, 16, 17, 20, 21, and 22, T12S, R3W, WM. The applicant proposes to move the points of appropriation in Sects. 20 and 21, T12S, R3W, WM. The Water Resources Department has concluded that the proposed permit amendment appears to be consistent with the requirements of ORS 537.211. The last date of newspaper publication is 5/12/2022.

**Subject:** Transfer Application for Cory and Janis Shelman

Good Morning,

Denise thank you for calling me back. Below is the information for the application. The missing amount of fees is \$2870.00.

Application for Permanent WR transfer Application for Certificates 20703 and 20698:

Base Fee: \$1360

Total WR in application: 2 – fee for more than 1 right – \$610.00

Total CFS for transfer: 10.433835 – we would round up – 11.0 cfs – 1.0 = 10.0 cfs x 410 = \$4100.00

Total is \$6070

The amount received with application was \$3200 and is described below:

Base Fee: \$1360

Total WR in application: 2 – fee for more than 1 right – \$610.00

Total CFS for transfer: 4 – 1.0 = 3.0 cfs x 410 = \$1230

Total is \$3200

SECTION 22

TOWNSHIP 12 SOUTH, RANGE 3 WEST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation. The permittee shall maintain the meters or measuring devices in good working order.
- B. The permittee shall keep a complete record of the amount of water diverted each month, and shall submit a report which includes the recorded report water-use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- C. The permittee shall allow the watermaster access to the meters or measuring devices; provided however, where any meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

To monitor the effect of water use from the well(s) authorized under this permit, the Department requires the water user to obtain, from a qualified individual (see below), and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

Measurements must be made according to the following schedule:

**Before Use of Water Takes Place**

**Initial and Annual Measurements**

The Department requires the permittee to report an initial water level measurement in the month specified above once well construction is complete and annually thereafter until use of water begins; and

**After Use of Water has Begun**

**Seven Consecutive Annual Measurements**

Following the first year of water use, the user shall report seven consecutive annual static water level measurements. The first of these seven annual measurements will establish the reference level against which future annual measurements will be compared. Based on an analysis of the data collected, the Director may require the user to obtain and report additional annual static water level measurements beyond the seven year minimum reporting period. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- A. Identify each well with its associated measurement; and
- B. Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- C. Specify the method used to obtain each well measurement; and
- D. Certify the accuracy of all measurements and calculations reported to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if any of the following events occur:

- A. Annual water level measurements reveal an average water level decline of three or more feet per year for five consecutive years; or
- B. Annual water level measurements reveal a water level decline of 15 or more feet in fewer than five consecutive years; or
- C. Annual water level measurements reveal a water level decline of 25 or more feet; or

D. Hydraulic interference leads to a decline of 25 or more feet in any neighboring well with senior priority.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the permittee's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this permit. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

Prior to using water from any well listed on this permit, the permittee shall ensure that the well has been assigned an OWRD Well Identification Number (Well ID tag), which shall be permanently attached to the well. The Well ID shall be used as a reference in any correspondence regarding the well, including any reports of water use, water level, or pump test data.

#### STANDARD CONDITIONS

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

If the number, location, source, or construction of any well deviates from that proposed in the permit application or required by permit conditions, this permit may be subject to cancellation, unless the Department authorizes the change in writing.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well(s) shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The wells shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

If the riparian area is disturbed in the process of developing a point of appropriation, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of downstream waters decreases to the point that those waters no longer meet state or federal water quality standards due to reduced flows.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Prior to receiving a certificate of water right, the permit holder shall submit to the Water Resources Department the results of a pump test meeting the Department's standards for each point of appropriation (well), unless an exemption has been obtained in writing under OAR 690-217. The Director may require water-level or pump-test data every ten years thereafter.

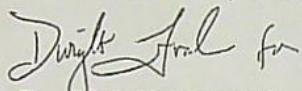

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

Completion of construction and application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.

Issued June 17, 2012

E. Timothy Wallin, Water Rights Program Manager  
for Phillip C. Ward, Director

**Watermaster Review Form:  
Water Right Transfer**

Oregon Water Resources Department

Transfer Application: T-13843

Review Due Date:

Applicant Name: RYAN GLASER, MID VALLEY FARMS INC.

Proposed Changes:  POU  POD  POA  USE  OTHER

Reviewer(s): L Blakely

Date of Review: 10/29/2021

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable?  Yes  No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights?  Yes  No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
3. Have headgate notices been issued for the source that serves the transferred right(s)?  
 Yes  No  Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized?  Yes  No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected?  Yes  No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here  if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

N/A Would the quantity be measurable into the receiving stream consistent with OAR 690-077-0015(8)?  Yes  No

9. For POU changes:  N/A Is it likely the original place of use would continue to receive water from the same source?  Yes  No If "Yes", explain:

10. For POU or USE changes:  N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

Yes  No If "Yes", explain:

11. For POU changes that involve micro-irrigation:  N/A

a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

Yes  No If "Yes", explain:

b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

Yes  No If "Yes", answer the following:

i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer?  Yes  No If "Yes", explain:

ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry?  Yes  No If "No", explain:

iii. Did the applicant comply with and meet all of the conditions of the temporary transfer?  Yes  No If "No", explain:

iv. Do you have any other observations regarding the temporary transfer?

Yes  No If "Yes", describe:

v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer?  Yes  No If "No", explain:

c. To the best of your knowledge, if this transfer is approved, does it appear that:

i. "Injury" will occur to other water rights that share the same source?

Yes  No If "Yes", explain:

ii. "Enlargement" of the water right being transferred will occur?

Yes  No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

Yes  No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights?  No  Yes, as checked and provided below:

For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

A Headgate should be required prior to diverting water.

Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a totalizing flow meter\*, or, with prior approval of the Director, another suitable measuring device,  at each point of diversion/appropriation (new and existing) OR  at each new point of diversion/appropriation  with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

*b. The water user shall maintain the meters or measuring devices in good working order.*

*c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install staff gages\*, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

*b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.*

\* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

Weir  
 Parshall Flume  
 Other: \_\_\_\_\_

Submerged Orifice  
 Flow Restrictor

**Oregon Water Resources Department****Measurement Condition Information for the Applicant***(To be sent with the Draft Preliminary Determination or Final Order)*

Transfer #: T-

In order to avoid enlargement of the right or injury to other rights, a will be required to be installed prior to diversion of water, as a condition of this transfer:

*at each point of diversion/appropriation (new and existing) OR*  
 *at each new point of diversion/appropriation.*

For additional information, or to obtain approval of a different type of measurement device, the applicant should contact the area Watermaster:

Watermaster name:

District:

Address:

City/State/Zip:

Phone:

Email:

*Note: If a device other than the one specified in the Preliminary Determination or Final Order is approved by the Watermaster, fill out and mail the form below to the Salem office.*

\*\*\*\*\*

**Approval of an Alternate Measurement Device** T-  
*(to be filled out after consultation with the applicant, or after a site visit)*

On behalf of the Director, I authorize use of the following suitable alternate measurement device:

# Groundwater Transfer Review Summary Form

Transfer/PA # T- 13843

GW Reviewer Phillip I. Marcy Date Review Completed: 10/22/2021

## Summary of Same Source Review:

- The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

## Summary of Injury Review:

- The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

## Summary of GW-SW Transfer Similarity Review:

- The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

*This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.*

Oregon Water Resources Department  
725 Summer Street NE, Suite A

## Ground Water Review Form:

- Water Right Transfer
- Permit Amendment
- GR Modification
- Other

Application: T-13843

Applicant Name: Mid Valley Farms, Inc.

Proposed Changes:  POA       APOA       SW→GW       RA  
 USE       POU       OTHER

Reviewer(s): Phillip I. Marcy

Date of Review: 10/22/2021

Date Reviewed by GW Mgr. and Returned to WRSD: JTI 10/22/21

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other \_\_\_\_\_

---

1. Basic description of the changes proposed in this transfer: The applicant proposes to change the authorized location of POA "Well 2" and appears to update locations for two of the wells (Wells 1 and 7) that have been constructed under permit G-16927. Upon further investigation, however, the proposed change to the location of Well 7 appears to have been intended for Well 4, based upon legal description provided.
2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?  
 Yes     No    Comments: All completed, authorized, and proposed POA wells are designed to produce from alluvium.
3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?  
 Yes     No    The right produces solely from alluvium.  
b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): NA
4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another ground water right?  
 Yes     No    Comments: The proposed locations for wells 1, 2, and 7 are in close proximity to their authorized locations, and do not move the burden of pumping significantly closer to any nearby right.  
b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

Yes  No If yes, explain: NA

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

Yes  No Comments: The proposed locations for wells 1, 2, and 7 are in close proximity to their authorized locations, and do not move the burden of pumping significantly closer to any nearby surface water.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: NA  Minimal  Significant

Stream: NA  Minimal  Significant

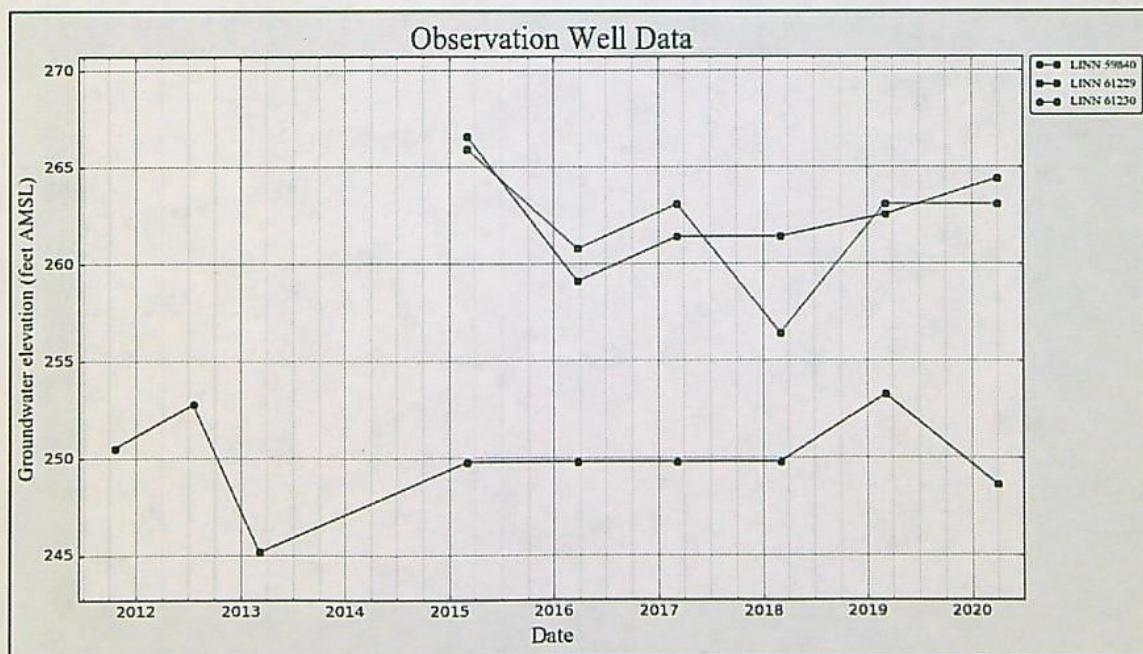

Provide context for minimal/significant impact: NA

6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

Yes  No Comments: NA

7. What conditions or other changes in the application are necessary to address any potential issues identified above: The proposed change to the location of "Well 7" in the application should be applied to POA 4 (LINN 61230), from 1320'S, 200'W fr NE cor, S 21 to 1269'S, 252'W fr NE cor, S 21.

8. Any additional comments: \_\_\_\_\_

Permit condition water level measurements from the applicant's wells suggest groundwater elevations remain reasonably stable in the alluvial aquifer at this location.

# Application for Permit Amendment

## Part 1 of 5 – Minimum Requirements Checklist

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem, Oregon 97301-1266  
(503) 986-0900  
[www.oregon.gov/OWRD](http://www.oregon.gov/OWRD)

This permit amendment application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

RECEIVED

OCT 13 2021

OWRD

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at:  
[http://apps.wrd.state.or.us/apps/misc/wrd\\_fee\\_calculator](http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator).
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Permits to be Amended: **Number of permits to be amended: 1**  
**List the Permits here: G-16927**  
Please include a separate Part 5 for each permit. (See instructions on page 6)
- Completed Permit Amendment Application Map (Does not have to be prepared by a Certified Water Right Examiner).
- N/A Request for Assignment Form and statutory fee. The request for assignment form has to be completed if the applicant is **not** the permit holder of record and needs to be assigned to the permit; **or** the landowner of the proposed place of use is **not** the permit holder of record and needs to be assigned to the permit (the Request for Assignment Form is available online at <https://www.oregon.gov/OWRD/Forms/Pages/default.aspx>). Assignment is not needed if the applicant is the permit holder of record.
- N/A Affidavit(s) of Consent are required from all permit holder(s) of record if the permit is not assigned to the applicant **or** other permit holders of record that are not listed as applicants.
- N/A Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500 feet from the surface water source and more than 1000 feet upstream or downstream from the point of diversion. (ORS 540.531(2) or (3)).

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

Application fee not enclosed/insufficient  Map not included or incomplete

Land Use Form not enclosed or incomplete

Additional signature(s) required

Part \_\_\_\_\_ is incomplete

Other/Explanation \_\_\_\_\_

Staff: \_\_\_\_\_ 503- \_\_\_\_\_

Date: \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_

## Part 2 of 5 – Permit Amendment Map Checklist

Your permit amendment application will be returned if any of the map requirements listed below are not met.

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does not have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

RECEIVED

- N/A If more than three permits are involved, separate maps for each permit. OCT 13 2021
- Permanent quality printed with dark ink on good quality paper. OWRD
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water use permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the permit is being changed, a separate hachuring is needed for the portion of the permit left unchanged.
- N/A If you are proposing a change in place of use, show the proposed place of use with hachuring that includes separate hachuring for each permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water use permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

### Part 3 of 5 – Fee Worksheet

\*Example for Line 5a calculation to transfer 45.0 acres of Primary Permit S-12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Permit S-87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each permit involved as follows:
  - a. Divide total authorized cfs by total acres in the permit (for S-12345,  $1.25 \text{ cfs} \div 100 \text{ ac}$ ); then multiply by the number of acres to be changed to get the application cfs ( $x 45 \text{ ac} = 0.56 \text{ cfs}$ ).
  - b. If the water right permit does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For S-87654,  $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$ )
2. Add cfs for the portions of permits on all the land included in the application; however **do not count cfs for supplemental permits on acreage for which you have already calculated the cfs fee for the primary permit on the same land**. The fee should be assessed only once for each "on the ground" acre included in the application. (*In this example, blank 5a would be only 0.56 cfs, since both permits serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0*).

## Part 4 of 5 – Applicant Information and Signature

## Applicant Information

APPLICANT/BUSINESS NAME Mid Valley Farms, Inc. c/o Ryan Glaser		PHONE NO. 541-928-8036	ADDITIONAL CONTACT NO. 541-936-0530
ADDRESS 31915 Seven Mile Lane		FAX NO.	
CITY Tangent	STATE OR	ZIP 97389	E-MAIL
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME Schroeder Law Offices, Attn: Sarah Liljefelt		PHONE NO. 503-281-4100	ADDITIONAL CONTACT NO.
ADDRESS 1915 NE Cesar E Chavez Blvd		FAX NO.	
CITY Portland	STATE OR	ZIP 97212	E-MAIL counsel@water-law.com
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.			

Explain in your own words what you propose to accomplish with this permit amendment; and why:  
Move Well #2 to a better place for development of the groundwater resource.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Is the applicant the permit holder of record?  Yes  No

If NO, include either:

- A completed assignment form (with required statutory assignment fee), assigning all or a portion of the permit to the applicant(s), OR
- An affidavit of consent from the permit holder(s) of record that gives permission for the applicant to amend the permit.

Has the Completion ("C") Date of the permit(s) in this application expired?  Yes  No

If YES, this application will not be accepted by the Department.

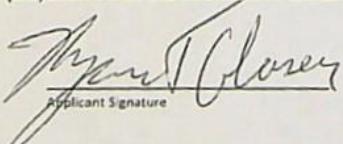

If NO, what are the completion dates of the permit(s)? 10/1/2022

- If the permit completion date expires while the Permit Amendment Application is pending, the Department will not approve the Permit Amendment Application until an Extension of Time Application is approved for the permit.
- You may consider using the Reimbursement Authority process to expedite the processing of this Permit Amendment Application if the completion date of the permit expires within 6 months of the date of filing this application.

By my signature below, I confirm that I understand:

- Prior to Department approval of the permit amendment, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the permit is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Albany Democrat-Herald or Corvallis Gazette-Times

I (we) affirm that the information contained in this application is true and accurate.

Please use and attach additional pages of Table 2 as needed.  
See page 6 for instructions.

Do you have questions about how to fill-out the tables?  
Contact the Department at 503-986-0900 and ask for Transfer

**Table 2. Description of Changes to Water Use Permit # G-16927**

List the change proposed for the acreage in each  $\frac{1}{4}$   $\frac{1}{4}$ . If more than one change is proposed, specify the acreage associated with each change.  
If there is more than one POD/POA involved in the proposed changes, specify the acreage associated with each POD/POA.

AUTHORIZED (the "from" or "off" lands) The listing that appears on the certificate BEFORE PROPOSED CHANGES List only that part or portion of the water right that will be changed.									Proposed Changes (see "CODES" from previous page)	PROPOSED (the "to" or "on" lands) The listing as it would appear AFTER PROPOSED CHANGES are made.

Well 7	<input type="checkbox"/> Authorized <input checked="" type="checkbox"/> Proposed	LINN 61230	12 S	3 W	21	NE NE	100	1269 feet south and 252 feet west from NE corner Section 21

Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):

Place of Use (POU)  
 Point of Diversion (POD)

Point of Appropriation/Well (POA)  
 Additional Point of Appropriation (APOA)

Additional Point of Diversion (APOD)

Surface water POD to Ground Water POA  
(SW/GW)

Will all of the proposed changes affect the entire water use permit?

Yes Complete only the proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.

No Complete all of Table 2 to describe the portion of the permit to be changed.

For a change in place of use:

Does the permit holder of record own or control the land TO which the place of use is being moved?

Yes  No

If NO, the landowner of the land TO which the place of use is being moved must be assigned to the permit as a permit holder of record by submitting a completed Request for Assignment form and the required statutory fee for an assignment.

Is the proposed place of use contiguous to the authorized place of use?  Yes  No

The permitted place of use can be moved only to lands that are contiguous to the authorized place of use unless the change to non-contiguous lands is in furtherance of mitigation or conservation efforts undertaken for the purposes of benefiting a species listed as sensitive, threatened, or endangered under ORS 496.171 to 496.192 or the federal Endangered Species Act of 1973 (16 U.S.C. 1531 to 1544), as determined by the listing agency. Contiguous land being either adjacent land or land separated from the land to which a permit is authorized by roads, utility corridors, irrigation ditches or publicly owned rights of way.

RECEIVED

OCT 13 2021

13843

OWRD

Are there other water rights certificates, water use permits or ground water registrations associated with the "from" or "to" lands?  Yes  No

If YES, list the other certificate, permit, or ground water registration numbers: \_\_\_\_\_

If the permit(s) are for irrigation or supplemental irrigation use, other water rights existing on the same land for irrigation that are subject to transfer must either change concurrently or be cancelled. Any change to a water right certificate or ground water registration must be filed separately in a water right transfer application or ground water registration modification application, respectively.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Linn County

## B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

Permit to Use or Store Water    Water Right Transfer    Permit Amendment or Ground Water Registration Modification  
 Limited Water Use License    Allocation of Conserved Water    Exchange of Water

Source of water:  Reservoir/Pond    Ground Water    Surface Water (name) \_\_\_\_\_

Estimated quantity of water needed: 3    cubic feet per second    gallons per minute    acre-feet

Intended use of water:  Irrigation    Commercial    Industrial    Domestic for \_\_\_\_\_ household(s)  
 Municipal    Quasi-Municipal    Instream    Other \_\_\_\_\_

Briefly describe:

Permit amendment to change location of wells under existing water right permit; land use previously approved 9/1/11 by Deborah Pinkerton, Senior Planner, Linn County.

OCT 13 2021

## For Local Government Use Only

OWRD

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): *LCC 928.310(B)(1)*

Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being Pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being Pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being Pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being Pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

# Permit Amendment Application Checklist

Checked by Aila

Date 10/15/21

App # 6-17488

Permit # 6-16927

## Permit Amendments are authorized for changes in POD/POA, APOD/APOA, or POU.

(If OK, check box to left; if not, fill in the blank)

1. Is the name of the Permit Amendment applicant the same as the Water Right Permit holder(s) of record?

If not, one of the following must be included with the application:

- a) An affidavit of consent from all Permit holder(s) or the other Permit holders that have not signed the Permit Amendment application form, consenting to the proposed Permit Amendment application; OR,
- b) A completed Request for Assignment form (and statutory fee) to move all (or portion) of the permit into the Permit Amendment applicant's name.

If not, what is missing? \_\_\_\_\_

2. Page 1 of application: Are all attachments that have been checked actually included?

If not, what is missing? \_\_\_\_\_

3. Are fees included and correct? Fee Paid: 2660.00

If not, the correct fee would be: \_\_\_\_\_, so the amount missing is: \_\_\_\_\_

4. Part 4 of application: Have all the applicants listed at the top of the page signed at the bottom?

If not, whose signature is missing? \_\_\_\_\_

5. Are the Permit completion date(s) current? 10/1/2022

If the Permit completion date has expired, we **CANNOT** accept the application.

6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.

If #1, #2, #3, #4 or #5 on this checklist is deficient, the application **CANNOT** be accepted.

It should be returned and the **deficiencies listed in the "staff" section at the bottom of Application Page 1**, unless the applicant or agent can resolve the deficiencies within 2-3 days.

Today's Date: Friday, October 15, 2021

**Fee Calculation**

Base Fee (includes one type of change to one permit for up to 1 cfs)

**\$1,360.00**

Fill in information below-- Check each box that applies.

## Types of Change Proposed:

 Place of Use Point of Diversion (POD)/Appropriation (POA); and/or Additional POD/POA; and/or SW POD to GW POD **\$0.00**

Enter total number of permits included in application.

1

**\$0.00** Check this box if you propose to add or change a well location, or change from a surface water POD to a well.**\$480.00**

Enter total number of groundwater wells (POAs) included in permit amendment.

3

**\$820.00** Check this box if you propose to change the place of use for a NON-irrigation permit. Check this box if you propose to change the place of use for an irrigation permit.

Total Transfer CFS(rounded up to the next whole cfs):

**\$0.00**

Subtotal:

**\$2,660.00**

Check each box that applies.

 The transfer is necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932. The transfer is endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat.

Discount

Permit Amendment Fee:

**\$2,660.00**

Reference: Application T-13843

On October 13, 2021, OWRD received your water right Permit Amendment Application. The application was accompanied by \$2660.00. Our receipt number 136598 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to our groundwater staff to determine whether the proposed well accesses the same source of water as the original well.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of appropriation until a final order approving the application has been issued by the Department.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 979-9931.
