# **Authority**

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

# **Applicant**

HBF ENTERPRISES 23301 SW MCKIBBEN RD. SHERIDAN, OR 97378

# **Receiving Landowner**

# **Findings of Fact**

- 1. On March 17, 2023, HBF Enterprises filed an application for additional points of diversion under Certificate 45979, to change the point of diversion and for additional points of diversion under Certificate 56862, and for additional points of diversion, and to change the point of diversion and a change in a portion of the place of use under Certificate 57371. The Department assigned the application number T-14190.
- 2. Both the applicant and the receiving landowner will be responsible for the completion of the changes under Certificates 45979, 56862 and 57371.
- 3. Notice of the application for transfer was published on March 21, 2023, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.

# Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2), 690-380-2110(2), and 690-380-2200]

- 15. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- 16. A water delivery system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-14190.
- 17. The water rights are subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
- 18. The proposed points of diversion divert water from the same source of surface water as the authorized points of diversion, as required by OAR 690-380-2110(2).
- 19. The proposed changes would not result in enlargement of the rights.
- 20. The proposed changes would not result in injury to other existing water rights.

21. All other application requirements are met.

# **Determination and Proposed Action**

If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-14190 is approved, the final order will include the following:

- The change in points of diversion, additional points of diversion, and change in place of use proposed in Transfer Application T-14190 are approved.
- 2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 45979, 56862, and 57371, and any related decree.

- 4. Water right Certificates 45979, 56862, and 57371 are cancelled. A new certificate will be issued describing that portion of Certificate 57371 not affected by this transfer.
- 5. Under Certificate 56862, the quantity of water diverted at the new point of diversion (POD A) shall not exceed the quantity of water lawfully available at the original point of diversion (POD 2).
- Under Certificate 57371, the quantity of water diverted at the new point of diversion (POD
   A) shall not exceed the quantity of water lawfully available at the original point of diversion (POD 1).
- 7. Under Certificate 45979, the quantity of water diverted at the new additional points of diversion (POD 1 and POD 2), together with that diverted at the original point of diversion (POD 3), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 3).
- 8. Under Certificate 56862, the quantity of water diverted at the new additional points of diversion (POD 1 and POD 3), together with that diverted at the original point of diversion (POD 2), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 2).

- 10. Water shall be acquired from the same source of surface water as the original points of diversion.
- 11. The former place of use of the transferred right shall no longer receive water under the right.
- 12. Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.
- 13. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2026**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.

SUBJECT: Water Right Transfer Application T-14190

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-14190. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me, at <u>corey.a.courchane@water.oregon.gov</u> or (503) 979-3917, if I may be of assistance.

Sincerely,

Corey Courchane
