ORDER ON WITHDRAWN APPLICATION

Reference: Transfer Application T-13912

The above referenced transfer application was withdrawn from the record of the Water Resources Department on February 29, 2024, by Special Order Volume 129, Page 832 (copy enclosed).

The transfer application is no further force or effect.

If you have any questions related to the withdrawal of this transfer, you may contact your caseworker, Arla Davis, by telephone at (503) 979-3129 or by e-mail at Arla.l.davis@water.oregon.gov.

Sincerely,

Elyse D. Richman
Water Right Services Support
Transfers and Conservation Section

cc: Kenneth C. Thiemann, Watermaster Dist. # 21 (via email)
County of Gilliam, Local Government
Irrigation District: Rock Creek Water Control District

Enclosure

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application)	FINAL ORDER WITHDRAWING
T-13912, GILLIAM County)	TEMPORARY CHANGES IN PLACE OF USE,
)	ADDITIONAL POINTS OF DIVERSION, AND
)	ADDITIONAL POINTS OF APPROPRIATION

Authority

Oregon Revised Statute (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to temporarily transfer the place of use and, if necessary to convey the water to the temporary place of use, the point of appropriation authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

ROBERT AND CATHY WEATHERFORD
17140 MIDDLE ROCK CREEK LN
ARLINGTON, OR 97812

MAR 1 10 31 AM

Findings of Fact

1. On February 4, 2022, ROBERT AND CATHY WEATHERFORD, filed an application to temporarily change the place of use and add an additional point of appropriation under Certificate 91937, add an additional point of diversion under Certificate 37916, and add an additional point of appropriation under Certificate 57271, for a period of 6 years. The Department assigned the application number T-13912.
2. Notice of the application for transfer was published on February 15, 2022, pursuant to OAR 690-380-4000.
3. On February 13, 2024, the Department notified the applicant via email of deficiencies in the application, specifically Temporary Transfer applications must include a change to the Place of Use for all Certificates proposed for transfer. Temporary Transfer Application T-13912 does not propose to change the places of use under Certificates 57271 and 37916. In addition, the applicant requested for the term of Temporary Transfers T-13912 to be 6

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

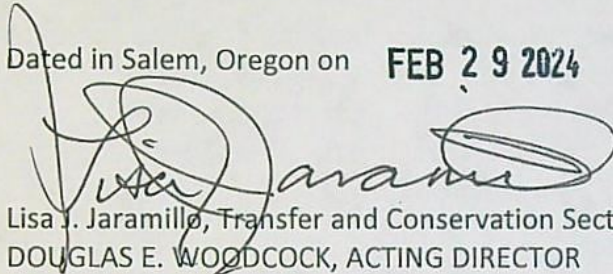

years. Pursuant to OAR 690-380-8000, the Department can only approve Temporary Transfers for up to 5 years.

4. On February 14, 2024, the agent for the applicant requested via email that Temporary Transfer Application T-13912 be withdrawn.

Now, therefore, it is ORDERED:

Temporary Transfer Application T-13912 in the name of ROBERT AND CATHY WEATHERFORD, is withdrawn and of no further force or effect.

Dated in Salem, Oregon on **FEB 29 2024**

You don't often get email from toll@aks-eng.com. [Learn why this is important](#)

Arla,

Robert Weatherford (Weatherford Ranches) is sitting here at my desk, and I am sending this response for him.

Today we are mailing to OWRD 2 permanent water right transfers to take care of this issue of moving water rights around. Robert has been working with Ken Thiemann, watermaster, also to get the land and sources in a version that will work for the ranch. Weatherford Ranches would like to withdraw Temporary Transfer 13912 and have refunded any unused portion of the fees submitted.

If it matters Tenneson Engineering has been assigned as Agent for Weatherford Ranches on the 2 permanent transfer applications.

If you have any questions that I might be able to answer, please contact me.

Good Morning,

I am the caseworker assigned to Temporary Transfer Application T-13912. I firstly would like to apologize for the time it has taken for me to finish my initial review of the application. We have been very short staffed in the Department until recently and I am only now able to complete the processing of this application. In my review I have found some deficiencies that will need to be addressed/corrected before I am able to move forward with an approval at this time. Based on the information included in Temporary Transfer Application T-13912, I will have to deny the application for the reasons below:

1. Temporary Transfers are for changes in Place of Use (POU) **ONLY**. What this means is that **every** Certificate included in a Temporary Transfer **must** include a change to the POU. Based on the application submitted to the Department, there is only a place of use change being made to Certificate 57271 and Certificate 37916 and 91937 do not have changes in Place of Use, only additional point of appropriation (APOA) under Certificate 37916 and an additional point of diversion (APOD) under Certificate 91937. Temporary Transfers require a change to the Place of Use of **ALL** certificates included in the transfer. APOA, APOD changes can only be made if it is necessary to convey the water to the Proposed POU. You must either remove Certificates 37916 and 91937 from the application or you must include a change to the POU of both certificates. I have included the Oregon Administrative Rule below, which includes this language.
2. A Temporary Transfer can only be approved for a 5 years period of time. You have requested the transfer start in 2022 and end in 2027. This is actually 6 years. Would you like the Temporary Transfer Application to extend from 2022 to 2026 or from 2023 to 2027?
3. In a previous email dated 3/16/22 between you and your original caseworker (Corey Courchane, cc'd on this email) assigned to Temporary Transfer Application T-13912, you mentioned "The creek that certificate 37916 draws from, and the same drawn upon from under certificates 29965 and 47505, goes dry very early in the irrigation season. Thus we need supplemental water from one of the wells to cover this ground to realize its potential economic value." And go on to explain "The third is that we purchased 18.3 acres that is covered by certificate 37916 and that certificate only covers surface irrigation. As described above, to ensure that we can use the land effectively we need both surface and supplemental irrigation. With this in mind we transferred the irrigation rates under 37916 to an area vacated in this temporary transfer under certificate 91937. We then transferred the primary water rights for 18.3 acres under certificate 29965 and supplemental for the same acreage under certificates 91937 and 57271 to the area vacated by the transfer of certificate 37916. This gave us a primary from the stream as well as supplemental from the wells on those 18.3 acres." I am uncertain if this is a change in source being requested and will need to have further conversations to ensure I am understanding this statement. It may be that there is enlargement (change to the source authorized under the Certificate) which is not a legal use of the water.

I think a conversation (phone) is needed to iron out the intent of this application and to hopefully work towards an approval of Temporary Transfer Application T-13912 or potentially a withdrawal. Please let me know some times that may work for you to have a conversation. If you would like the watermaster Ken Thiemann (cc'd on this email) to be included in that meeting please let me know.

OAR 690-380-8000 - Temporary Transfers

Any person who holds a water use subject to transfer may request that the Department approve:

(1) For a period of not to exceed five years, a temporary transfer of:

(a) Place of use and, if necessary to convey the water to the new temporary place of use, point of diversion or appropriation; or

(b) Character of use of a right to store water, or

(2) For a period of not to exceed 25 years, a temporary transfer in the Deschutes River Basin of place of use, type of use, and point of diversion or appropriation if necessary to convey water to the new temporary place of use, of all or a portion of a water right.

Subject: Re: Robert and Cathy Weatherford, T-13912
Attachments: 2022 Weatherford Temp Transfer app - Work Space.doc

Corey,

In the big picture, the reason for the temporary transfer is that a part of our ranch that is in CRP was previously irrigated. Some of that ground is coming up for CRP renewal in the near future. With this in mind we are taking this opportunity to assess what ground we would like to irrigate and what ground we would like to leave under CRP, as well as looking at the cost differential of irrigating land at different elevations. This is an ongoing process and will take another year to finalize.

We also bought a piece of ground from the neighbor that has 18.3 acres covered by a surface water right certificate 37916. The creek that certificate 37916 draws from, and the same drawn upon from under certificates 29965 and 47505, goes dry very early in the irrigation season. Thus we need supplemental water from one of the wells to cover this ground to realize its potential economic value.

Based on our last telephone conversation, it was my understanding that we could not take primary water under certificate 9137 and overlay it as supplemental on certificate 37916. With this in mind we transferred 18.3 acres covered by certificate 37916 to acreage that was previously transferred from (vacated) under certificate 91937 as part of this temporary transfer application. We then transferred primary under certificate 29965 as well as supplemental covering that same area under certificates 91937 and 57271, this providing primary and supplemental water for the 18.3 acres covered by certificate 37916.

So with this temporary transfer, hopefully we have accomplished the following three goals:

One to transfer 74 acres currently irrigated by certificate 919372 acreage at a lower elevation to save cost.

The second is to combine the two wells under certificates 91937 and 57271 to be able to pump from either well to irrigate the ground covered by those two certificates. It is our understanding that these two wells draw from the same aquifer and the pricing from the electrical company is significantly better if we draw only from one well and use the other as a back up in case of some type of failure.

The third is that we purchased 18.3 acres that is covered by certificate 37916 and that certificate only covers surface irrigation. As described above, to ensure that we can use the land effectively we need both surface and supplemental irrigation. With this in mind we transferred the irrigation rates under 37916 to an area vacated in this temporary transfer under certificate 91937. We then transferred the primary water rights for 18.3 acres under certificate 29965 and supplemental for the same acreage under certificates 91937 and 57271 to the area vacated by the transfer of certificate 37916. This gave us a primary from the stream as well as supplemental from the wells on those 18.3 acres.

As to your email below, those are all mistakes on my part. Thank you for catching them! Still at the 101 level in water right relocation classes:-)

If this is correct, I think I owe you another \$310 since this application covers one more water right than the previous application.

I would like to schedule a time to talk with you, and hopefully, to make sure that the attached document is correct before submitting the final filing or to see if this will suffice. If the attached document is correct, I will work with Ken to generate a map that reflects the same.

Thank you in advance for your help on this,.

On Tue, Feb 22, 2022 at 7:25 AM COURCHANE Corey A * WRD <Corey.A.COURCHANE@water.oregon.gov> wrote:

Good morning,

Upon initial review of Temporary Transfer application T-13912, further verification of the changes being made is required. Under Certificate 57271, Table 2 "FROM" and "TO" lands show different places of use. Certificate 57271 "FROM" lands identifies Section 33 SW NE, whereas the "TO" lands identifies Section 32 NE SE. Under Certificate 37916, "FROM" lands identifies Section 4 SE NE, whereas the "TO" lands identifies Section 33 SW SE. These areas are designated only if you are performing a change in place of use (POU). Additionally, Table 2 under Certificate 37916 identifies APOA in the center column, however, the POD/POA to be used column in the "TO" lands identifies only the NEW POD.

Please verify that a change in POU under Certificates 37916 and 57271 are not occurring, and that the NEW POD under Certificate 37916 is an additional POD rather than a change in POD. A reply by email will satisfy the response requested.

Thank you,

Corey Courchane

Groundwater Transfer Review Summary Form

Transfer/PA # T- 13912

GW Reviewer J. Hootsmans/J. Hackett Date Review Completed: 12/9/22

Summary of Same Source Review:

The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Oregon Water Resources Department

 www.wrd.state.or.us

Ground Water Review Form:

- Water Right Transfer
- Permit Amendment
- GR Modification
- Other

Application: T-13912

Applicant Name: Robert and Cathy Weatherford

Proposed Changes: POA APOA SW→GW RA
 USE POU OTHER

Reviewer(s): J. Hootsmans/J. Hackett

Date of Review: 12/9/22

Date Reviewed by GW Mgr. and Returned to WRSD: jit 2/16/23

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other _____

1. Basic description of the changes proposed in this transfer: Temporary transfer T-13912 proposes to add additional points of appropriation (APOA) for the 92.3 acres associated with Certificate 91937 and the 134.8 acres associated with Certificate 57271 to another property. The applicant proposes to use both the authorized POA 1 (Lower, GILL 59/50641) from Certificate 91937 and authorized POA 1 (Upper, GILL 60) from Certificate 57271 for irrigation on both certificates.
2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
 Yes No Comments: Yes, the proposed POA are already authorized on certificates affected by this transfer. Both GILL 60 and GILL 59/50641 access water-bearing zones (WBZs) of the Columbia River Basalt Group (CRBG) aquifer system.
 - a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
 Yes No The POAs produce from multiple WBZs in the CRBG aquifer system. b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____
3. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another ground water right?
 Yes No Comments: Both wells already are in use, and there is no change of rate, just change of application.

b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

Yes No If yes, explain: _____

4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

Yes No Comments: The authorized and proposed wells are developing deep basalt aquifers and are not expected to have an efficient hydraulic connection with nearby surface water sources.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: _____ Minimal Significant

Stream: _____ Minimal Significant

Provide context for minimal/significant impact: _____

5. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

Yes No Comments: _____

6. What conditions or other changes in the application are necessary to address any potential issues identified above: _____

7. Any additional comments: _____

**Application for Water Right
Temporary or Drought Temporary Transfer
Part 1 of 5 – Minimum Requirements Checklist**

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

This temporary transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.
For questions, please call (503) 986-0900, and ask for Transfer Section.

RECEIVED

FEB 04 2022

FOR ALL TEMPORARY TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Temporary Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the online fee calculator at:
http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Transferred Water Rights: **How many water rights are to be transferred? 2** List them here: **C-91937 (1977), C-57271 (1975), C-37916 (1967)**
Please include a separate Part 5 for each water right. (See instructions on page 6)
- N/A For standard Temporary Transfer (one to five years) **Begin Year: 2022 End Year: 2027-2026**
- N/A Temporary Drought Transfer (Only in counties where the Governor has declared drought)

OWRD

Attachments:

- Completed Temporary Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- Current recorded deed for the land **from** which the authorized place of use is temporarily being moved.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land upon which the water right is located.)
- N/A Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).

(For Staff Use Only)

Part 4 of 5 – Applicant Information and Signature

OWRD

Applicant Information

APPLICANT/BUSINESS NAME Robert and Cathy Weatherford			PHONE NO. (541) 454-2891	ADDITIONAL CONTACT NO. (503) 505-0080
ADDRESS 17140 Middle Rock Creek Lane			FAX NO.	
CITY Arlington	STATE OR	ZIP 97812	E-MAIL Weatherford.ranches@gmail.com	
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.				

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

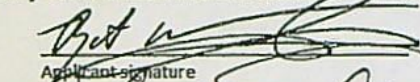

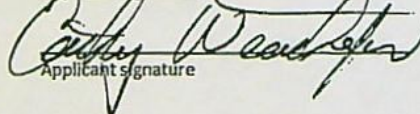

AGENT/BUSINESS NAME			PHONE NO.	ADDITIONAL CONTACT NO.
ADDRESS			FAX NO.	
CITY	STATE	ZIP	E-MAIL	
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.				

Explain in your own words what you propose to accomplish with this transfer application and why:
 We would like to be able to use the water on more available fields and irrigate the acres from either of the two wells permitted under C-91937 (GILL 60) and C-57271 (GILL 50641), and to add an APOD for C-37916 (1967) from the existing POD for C-29965, C-47505 located in The SW of the SE of Section 33 in Township 1 N Range 21E.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

I (we) affirm that the information contained in this application is true and accurate.

 Applicant signature	Robert Weatherford Print Name (and Title if applicable)	<u>2-2-2022</u> Date
 Applicant signature	Cathy Weatherford Print Name (and Title if applicable)	<u>2-2-2022</u> Date

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? Yes No

If NO, include signatures of all landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent from all landowners or individuals/entities (and mailing and/or e-mail addresses) to which the water right(s) has been conveyed.

assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

INSTRUCTIONS for editing the Application Form

To add lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**.
- OR
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;
- OR
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab; toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "Allow only this type of editing in the document: **Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

RECEIVED

FEB 04 2022

OWRD

Once the application has been unlocked, you may:

- add rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Description of Water Delivery System

FEB 04 2022

System capacity: 1.06 cubic feet per second (cfs) OR

477 gallons per minute (gpm)

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. The current system has two irrigation wells on the property supplying the irrigation to two areas on the property, one (Upper) 200HP turbine which can produce up to 1400 gpm and the (Lower) 60 HP Submersible which can produce 300 gpm and both feed into the main distribution line that is piped to the fields and distributed through irrigation circles and wheel lines

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # 1-)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)

TACS

Sec.3

Water Right Certificate # 57271

For Place of Use Changes

OWRD

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-____	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well specific rate (cfs or gpm). STATE OF OREGON
 COUNTY OF GILLIAM
 CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

J EARL WEATHERFORD
 OLEX STATION
 ARLINGTON OR 97812

confirms the right to the use of water perfected under the terms of Permit G-7962. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-8511

SOURCE OF WATER: A WELL IN JOHN DAY BASIN

PURPOSE or USE: PRIMARY IRRIGATION OF 216.6 ACRES AND SUPPLEMENTAL IRRIGATION OF 54.5 ACRES

MAXIMUM RATE: 3.12 CUBIC FEET PER SECOND

DATE OF PRIORITY: OCTOBER 31, 1977

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1 N	21 E	WM	33	SW SE	70 FEET NORTH AND 2300 FEET WEST FROM SE CORNER, SECTION 33

If for irrigation, this appropriation shall be limited to ONE-EIGHTIETH of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

A description of the place of use is as follows:

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with an air line and pressure gauge or an access port for a measuring line, adequate to determine water level elevation in the well at all times.

The water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The use of water shall be subject to existing rights including the existing minimum flow policies established by the Water Policy Review Board.

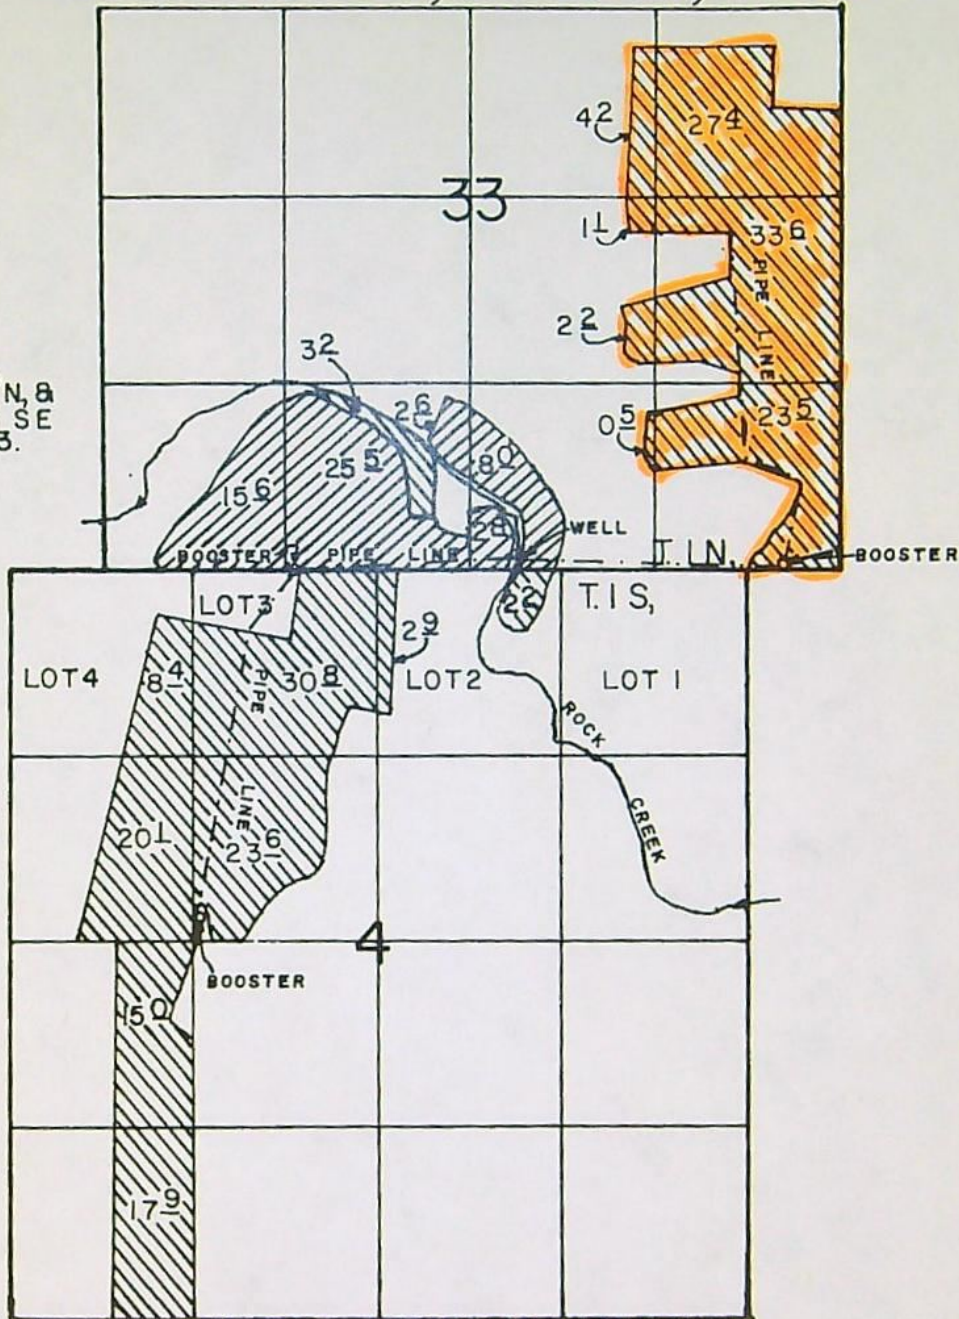

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued NOV 04 2016

 Dwight French
 Water Right Services Division Administrator, for
 Thomas M. Byler, Director
 Oregon Water Resources Department

Water Right Certificate # 37916

Description of Water Delivery System

System capacity: 0.45 cubic feet per second (cfs) OR 202 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. The current infrastructure is dilapidated as it was in a federal conservation program and not used.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Table with 8 columns: POD/POA Name or Number, Is this POD/POA Authorized on the Certificate or is it Proposed?, If POA, OWRD Well Log ID# (or Well ID Tag # L-___), Twp, Rng, Sec, X X, Tax Lot, DLC or Gov't Lot, Measured Distances (from a recognized survey corner). Rows include POD and APOD with handwritten notes like '0.1 mi. downstream'.

Check all type(s) of temporary change(s) proposed below (change "CODES" are provided in parentheses):

- Place of Use (POU), Appropriation/Well (POA), Point of Diversion (POD), Additional Point of Appropriation (APOA), Additional Point of Diversion (APOD)

Check all type(s) of temporary change(s) due to drought proposed below (change "CODES" are provided in parentheses):

- Place of Use (POU), Point of Appropriation/Well (POA), Character of Use (USE), Additional Point of Appropriation (APOA), Point of Diversion (POD), Additional Point of Diversion (APOD)

Will all of the proposed changes affect the entire water right?

- Yes: Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes. No: Complete all of Table 2 to describe the portion of the water right to be changed.

RECEIVED

FEB 04 2022

OWRD

Water Right Certificate # 91937

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?

Yes No

If YES, list the certificate, water use permit, or ground water registration numbers:

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a proposed well(s) not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No.	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well-specific rate (cfs or gpm). If less than full rate of water right
Upper	Yes	GILL 60	528'	12"		25'		27'	Basalt	
Lower	Yes	GILL 50641	555'	8"		36'		115'	Basalt

STATE OF OREGON
COUNTY OF GILLIAM
CERTIFICATE OF WATER RIGHT

This Is to Certify, That **HERMAN and CAROLINE STEINKE TRUST**
c/o Steinke Bros.
of **Star Route, Arlington**, State of **Oregon**, has made proof
to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of
Rook Creek

a tributary of **John Day River** for the purpose of
irrigation of **18.3 acres**

under **Permit No. 32494** of the State Engineer, and that said right to the use of said waters
has been perfected in accordance with the laws of Oregon; that the priority of the right hereby
confirmed dates from **February 24, 1967**

that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
0.45 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream.
The point of diversion is located in the **SE $\frac{1}{4}$ NE $\frac{1}{4}$** , Section 4, T. 1 S., R. 21 E., W. M.
Diversion point located: **1440 feet South and 1480 feet West from SW Corner,**
Section 34, T. 1 N., R. 21 E., W. M.

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed **4 acre feet per acre** for each acre irrigated
during the irrigation season of each year,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is
appurtenant, is as follows:

0.4 acre SW $\frac{1}{4}$ NW $\frac{1}{4}$
Section 3

0.6 acre NE $\frac{1}{4}$ NE $\frac{1}{4}$
5.7 acres NW $\frac{1}{4}$ NE $\frac{1}{4}$
0.6 acre SW $\frac{1}{4}$ NE $\frac{1}{4}$
11.0 acres SE $\frac{1}{4}$ NE $\frac{1}{4}$
Section 4
T. 1 S., R. 21 E., W. M.

*Entirety of
right*

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of
use herein described.

WITNESS the signature of the State Engineer, affixed

this date. December 29, 1971

Reference: Application T-13912

On February 4, 2022, OWRD received your water right Temporary Transfer Application. The application was accompanied by \$1819.21. Our receipt number 137412 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

Except as provided under ORS 540.510(3) for municipalities, you may not **temporarily** use water at the new place of use or from the new point of diversion or appropriation until a final order approving the temporary transfer application has been issued by the Department. Additionally, pursuant to OAR 690-380-8010, the lands **from** which an irrigation water right is to be temporarily transferred and the land **to** which the right is to be temporarily transferred may not both receive water during the same season. If the temporary transfer is approved during an irrigation season and water has already been used at the currently authorized location during that season, then the temporary transfer will not take effect until the following season.

If the land is sold before the temporary transfer is approved, the buyer's consent to the temporary transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

If you have any questions, please contact the Transfer Section at (503) 979-9931.

Part 2 of 5 – Temporary Transfer Application Map Checklist

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

DWRD

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A If more than three water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

Water Right Certificate # 64243

Description of Water Delivery System

System capacity: 1.25 cubic feet per second (cfs) OR
 _____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. **PIPED FROM WELL TO PIVOT**

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)
 (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-___)	Twp		Rng		Sec	¼ ¼		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)

	<input type="checkbox"/> Authorized <input type="checkbox"/> Proposed										

Check all type(s) of temporary change(s) proposed below (change "CODES" are provided in parentheses):

- Place of Use (POU)
- Point of Diversion (POD)
- Additional Point of Diversion (APOD)
- Appropriation/Well (POA)
- Additional Point of Appropriation (APOA)

Check all type(s) of temporary change(s) due to drought proposed below (change "CODES" are provided in parentheses):

- Place of Use (POU)
- Character of Use (USE)
- Point of Diversion (POD)
- Point of Appropriation/Well (POA)
- Additional Point of Appropriation (APOA)
- Additional Point of Diversion (APOD)

Will all of the proposed changes affect the entire water right?

- Yes Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- No Complete all of Table 2 to describe the portion of the water right to be changed.

Please use and attach additional pages of Table 2 as needed.
See page 6 for instructions.

Do you have questions about how to fill-out the tables?
Contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Temporary Changes to Water Right Certificate # 64243

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

OWRD

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well-specific rate (cfs or gpm). If less than full rate of water right

(IF SPACE INSUFFICIENT, CONTINUE DESCRIPTION ON REVERSE SIDE)
To Have and to Hold the same unto the said grantee and grantee's heirs, successors and assigns forever.
The true and actual consideration paid for this transfer, stated in terms of dollars, is \$ exchange of property.
However, the actual consideration consists of or includes other property or value given or promised which is the whole consideration (indicate which). (The sentence between the symbols ©, if not applicable, should be deleted. See ORS §3.030.)
In construing this deed and where the context so requires, the singular includes the plural and all grammatical changes shall be implied to make the provisions hereof apply equally to corporations and to individuals.
In Witness Whereof, the grantor has executed this instrument this 19th day of November, 1982; if a corporate grantor, it has caused its name to be signed and seal affixed by its officers, duly authorized thereto by order of its board of directors.

Theodore J. Struck
Barbara E. Struck

RECEIVED

MAR 22 2022

OWRD

1. My knowledge of the exercise or status of the water right is based on (check one):

- Personal observation
 Professional expertise

2. I attest that:

- Water was used during the previous five years on the **entire** place of use for Certificate # 64243 & 76469; **OR**

- My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township	Range	Mer	Sec	¼ ¼	Gov't Lot or DLC	Acres (if applicable)

OR

- Confirming Certificate # _____ has been issued within the past five years; **OR**
 Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: _____ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); **OR**
 The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.
 Water has been used at the actual current point of diversion or appropriation for more than 10 years for Certificate # _____ (For Historic POD/POA Transfers)

(continues on reverse side)

3. The water right was used for: (e.g., crops, pasture, etc.): HAY

4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

**Application for Water Right
Temporary or Drought Temporary Transfer
Part 1 of 5 – Minimum Requirements Checklist**

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

This temporary transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.
For questions, please call (503) 986-0900, and ask for Transfer Section.

RECEIVED
FEB 04 2022

FOR ALL TEMPORARY TRANSFER APPLICATIONS

OWRD

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Temporary Transfer Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator.
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Transferred Water Rights: **How many water rights are to be transferred? 2** List them here: C-91937 (1977), C-57271 (1975), C-37916 (1967)
Please include a separate Part 5 for each water right. (See instructions on page 6)
- N/A For standard Temporary Transfer (one to five years) **Begin Year: 2022 End Year: 2027.**
- N/A Temporary Drought Transfer (Only in counties where the Governor has declared drought)

Attachments:

- Completed Temporary Transfer Application Map.
- Completed Evidence of Use Affidavit and supporting documentation.
- Current recorded deed for the land **from** which the authorized place of use is temporarily being moved.
- N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land upon which the water right is located.)
- N/A Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.
- N/A Oregon Water Resources Department’s Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).

(For Staff Use Only)
WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):
 Application fee not enclosed/insufficient Map not included or incomplete
 Land Use Form not enclosed or incomplete
 Additional signature(s) required Part _____ is incomplete
 Other/Explanation _____
 Staff: _____ Phone: _____ Date: ____/____/____

assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

INSTRUCTIONS for editing the Application Form

To add lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the **Tools** menu => click **Unprotect Document**;
- OR
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the **Tools** menu => click **Protect Document**;
- OR
- Using the **Forms** toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab; toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "Allow only this type of editing in the document: **Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

RECEIVED

FEB 04 2022

OWRD

Once the application has been unlocked, you may:

- add rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

Water Right Certificate # 57271

RECEIVED

Description of Water Delivery System

FEB 04 2022

System capacity: 0.66 cubic feet per second (cfs) OR
296 gallons per minute (gpm)

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. The current system has two irrigation wells on the property supplying the irrigation to two areas on the property, one (Upper) 200HP turbine which can produce up to 1400 gpm and the (Lower) 60 HP Submersible which can produce 300 gpm and both feed into the main distribution line that is piped to the fields and distributed through irrigation circles and wheel lines.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)
(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-___)	Twp	Rng	Sec	¼	¼	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Lower	<input checked="" type="checkbox"/> Authorized <input type="checkbox"/> Proposed	GILL 50641	1 N	21 E	33	S	S	2601	80' N, 160' E from the SW Cor. Of Sec. 33

Check all type(s) of temporary change(s) proposed below (change "CODES" are provided in parentheses):

- Place of Use (POU)
- Point of Diversion (POD)
- Additional Point of Diversion (APOD)
- Appropriation/Well (POA)
- Additional Point of Appropriation (APOA)

Check all type(s) of temporary change(s) due to drought proposed below (change "CODES" are provided in parentheses):

- Place of Use (POU)
- Character of Use (USE)
- Point of Diversion (POD)
- Point of Appropriation/Well (POA)
- Additional Point of Appropriation (APOA)
- Additional Point of Diversion (APOD)

Will all of the proposed changes affect the entire water right?

- Yes Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- No Complete all of Table 2 to describe the portion of the water right to be changed.

Water Right Certificate # 57271

For Place of Use Changes

OWRD

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? confirms the right to the use of water perfected under the terms of Permit G-7962. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-8511

SOURCE OF WATER: A WELL IN JOHN DAY BASIN

PURPOSE or USE: PRIMARY IRRIGATION OF 216.6 ACRES AND SUPPLEMENTAL IRRIGATION OF 54.5 ACRES

MAXIMUM RATE: 3.12 CUBIC FEET PER SECOND

DATE OF PRIORITY: OCTOBER 31, 1977

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1 N	21 E	WM	33	SW SE	70 FEET NORTH AND 2300 FEET WEST FROM SE CORNER, SECTION 33

If for irrigation, this appropriation shall be limited to ONE-EIGHTIETH of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

A description of the place of use is as follows:

IRRIGATION

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

1 N	21 E	WM	33	SW SE		10.8

The well shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with an air line and pressure gauge or an access port for a measuring line, adequate to determine water level elevation in the well at all times.

The water user shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The use of water shall be subject to existing rights including the existing minimum flow policies established by the Water Policy Review Board.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

OWRD

THIS IS TO CERTIFY, that

J EARL WEATHERFORD
of OLEX ROUTE ARLINGTON, OR 97812
has a right to the use of the waters of A WELL in the
ROCK CREEK basin for the purpose of
SUPPLEMENTAL IRRIGATION.

The right has been perfected under Permit G 6673. The
date of priority is SEPTEMBER 26, 1975. The right is limited to not
more than 0.660 CUBIC FOOT PER SECOND or its equivalent in case
of rotation, measured at the well. The well is located as follows:

SW 1/4 SW 1/4, Section 33, T 01 N, R 21 E, WM;
820 FEET NORTH & 160 FEET EAST FROM SW CORNER, SECTION 33

The amount of water used for irrigation, together with the
amount secured under any other right existing for the same lands,
shall be limited to ONE-EIGHTIETH of one cubic foot per second per
acre, or its equivalent for each acre irrigated and shall be further
limited to a diversion of not to exceed 3.0 acre-feet per acre for
each acre irrigated during the irrigation season of each year. The
right shall be limited to any deficiency in the available supply of
any prior right for the same land and shall not exceed the
limitation allowed herein.

The right shall conform to such reasonable rotation system
as may be ordered by the proper state officer.

A description of the place of use under the right, and to
which such right is appurtenant, is as follows:

	ACRES	1/4	1/4	SECTION	TOWNSHIP	RANGE,	WM	
supplemental	8.00	SE	NE	32	01	N 21	E	
supplemental	26.40	NE	SE	32	01	N 21	E

supplemental	29.80	SE	SW	33	01	N 21	E	
supplemental	12.40	SW	SE	33	01	N 21	E	

Total: 134.80 supplemental acres.

The right to the use of the water for the above purpose is
restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director,
affixed this date, JULY 14, 1988.

NOTE TO APPLICANTS

OWRD

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Gilliam County

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water
 Water Right Transfer
 Permit Amendment or Ground Water Registration Modification
 Limited Water Use License
 Allocation of Conserved Water
 Exchange of Water

Source of water: Reservoir/Pond Ground Water Surface Water (name) _____

Estimated quantity of water needed: 0.66+0.925 = 1.585 cubic feet per second gallons per minute acre-feet

Intended use of water: Irrigation Commercial Industrial Domestic for _____ household(s)
 Municipal Quasi-Municipal Instream Other _____

Briefly describe:

Change some irrigated fields and tie the two wells together for redundancy to better serve the property.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): _____
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

Note: Irrigation for ordinary farm use is compliant, but if the water is proposed to support a use subject to administrative review or conditional use approval then such approval will be required by Gilliam County Planning Dept.
 This approval is specific for Bob & Cathy Weatherford 1N 21E Sec. 33 TL 2601 and 1S 21E Sec. 4 TL 600
 Gilliam County Comp Plan Goal 3: To preserve and maintain agricultural lands; Goal 6: To maintain and improve the quality of the air, water and land resources of the state.

Name: Michelle L. Colby Title: Planning Director
 Signature: *Michelle L. Colby* Phone: 541-351-9517 Date: 11/03/2021
 Government Entity: Gilliam County

Note to local government representative: Please complete this form or sign the receipt below and return it to the applicant. If you sign the receipt, you will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.

Original Temporary Water Right Transfer Application Checklist

Checked by Jean

Date 2/7/22 T-13912

5 year temp

A temporary transfer must be for a change in place of use. A temporary change in POD/POA or APOD/APOA cannot be accepted as a stand-alone change.

cents
91937-^{POA/APOA}
57271 - APOA
37916 - ~~POA~~
APOD

A change in POD/POA can accompany the temporary change in place of use, only if the proposed temporary POD/POA is supplying water to the proposed temporary place of use.

If OK, check box to left; if not, fill in the blank)

- 1. Page 1 of application: Are all attachments that have been checked actually included?
If not, what is missing? _____
- 2. Are fees included and correct?
If not, the correct fee would be: 1819,21 ✓, so the amount missing is: _____
- 3. Part 4 of application: Have all the applicants listed at the top of the page signed at the bottom?
If not, whose signature is missing? _____
- 4. Are all listed certificates shown by WRIS as non-cancelled?
If not, which are cancelled? _____
For each cancelled certificate, if there has been a remaining right certificate issued that covers the lands in the left side of Table 2, list its number _____ and check the #4 box at left on this checklist.
- 5. If any certificate is in the name of a "district", is a Supplemental Form D from that district enclosed?
 N/A Form D needed from _____ (district)
- 6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.

If #1, #2, #3, #4 or #5 on this checklist is deficient, the application cannot be accepted. It should be returned and the deficiencies listed in the "staff" section at the bottom of Application Page 1, unless the applicant or agent can resolve the deficiencies within 2-3 days.
