REFERENCE: District Temporary Transfer Application T-13917

Enclosed is a copy of the final order approving your TEMPORARY water right transfer application.

The temporary change shall be effective at the **beginning of the 2023 irrigation season**. The use shall revert to the original authorized place of use at the **end of the 2023 irrigation season**.

If you have any questions related to the approval of this temporary transfer, you may contact your caseworker, Ann Reece, by telephone at (503) 979-3214 or by e-mail at

Ann.L.Reece@water.oregon.gov.

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application)	FINAL ORDER APPROVING TEMPORARY
T-13917, Umatilla County)	CHANGES IN PLACE OF USE AND POINT
)	OF APPROPRIATION

Authority

Oregon Revised Statute (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to temporarily transfer the place of use and, if necessary to convey the water to the temporary place of use, the point of diversion authorized under an existing water right.

Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

FARMLAND RESERVE, INC.

PO BOX 2308

PASCO, WA 99302

Findings of Fact

1. On February 9, 2022, FARMLAND RESERVE, INC., filed an application to temporarily change the place of use and point of appropriation to serve the proposed place of use under Certificate 87373 for a period of one year. The Department assigned the application number T-13917.
2. Notice of the application for transfer was published on February 15, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. Water uses from wells located in critical groundwater areas are subject to allocation under OAR Chapter 690, Division 507. Water use under Certificates 87373 is within the Stage Gulch Critical Groundwater area, and therefore are subject to allocation.
4. Temporary Transfer Application T-13917 proposes to temporarily transfer a water right from within the boundaries of Echo Irrigation District and East Improvement District. The applicant conferred with the districts regarding this proposed temporary transfer. Neither district objected to the transfer.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. The right to be transferred is as follows:

Certificate: 87373 in the name of VERDON LLC (perfected under Permit G-7183)

Use: IRRIGATION of 29.5 ACRES

Priority Date: FEBRUARY 25, 1977

Rate: 0.37 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Source: A WELL in the UMATILLA RIVER BASIN

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
4 N	28 E	WM	24	SE NE	WELL #4 - 660 FEET NORTH AND 670 FEET WEST FROM THE E $\frac{1}{4}$ CORNER OF SECTION 24

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
4 N	28 E	WM	24	SE NE	29.5

6. Temporary Transfer Application T-13917 proposes to temporarily change the place of use of the right to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
3 N	29 E	WM	13	SW SE	29.5

7. A change in point of appropriation is necessary to convey the water to the proposed temporary place of use. Transfer Application T-13917 proposes to change the point of appropriation under Certificate 87373, as described below, to serve the proposed place of use.

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
3 N	29 E	WM	9	SE SW	SEIBEL WELL - 380 FEET NORTH AND 3120 FEET WEST FROM THE SE CORNER OF SECTION 9

8. The Department has determined that the proposed point of appropriation (Seibel Well/UMAT 54154) is within the same Subarea A of the Stage Gulch Critical Ground Water Area and will develop the same source of water as the authorized existing Well #4 (UMAT 2515).
9. The proposed place of use described in Finding of Fact #6, above, will become layered with the same lands for which there is surface water primary irrigation authorized under

temporary Transfer T-13603 (Certificate 87111). All uses of water under temporary Transfer T-13603 shall revert automatically to the authorized place of use at the end of the 2025 irrigation season, or earlier, if requested in writing by the applicant.

10. Under Certificate 87111 up to 1861 AF of water can be used for primary irrigation to conserve the use of groundwater in a critical groundwater area. Therefore Certificate 87111 can be layered with primary groundwater irrigation under Certificate 87373 under this temporary Transfer T-13817.
11. The proposed place of use described in Finding of Fact #6, above, will also become layered with the same lands for which there is primary use Planned Irrigation Activity during the 2023 irrigation season under Permits S-55114, S-55167, S-55262, and S-55263. In addition, the proposed place of use may become layered again in subsequent years prior to the termination of this transfer. Use of water under groundwater Certificate 87373, and these permits, once layered, are subject to the following annual conditions:
 - a. In the interest of preserving groundwater, water use described under Permits S-55114, S-55167, S-55262, and S-55263 may be used as the primary supply when surface water is available for use under these permits. If water use under these permits is supplemental to a primary groundwater right, and the water under the permits is used as the primary supply, then the primary groundwater right for the same place of use cannot be transferred separately to another place of use or character of use.
 - b. If water from Permits S-55114, S-55167, S-55262, and S-55263 is used for supplemental irrigation, the pre-existing primary rights for the same place of use cannot be transferred to another place of use or character of use.
 - c. The amount of water used under these four permits, together with the amount secured under any other right existing for the same lands, including Certificate 87373, and Certificate 87111 under Temporary transfer T-13603, is limited to a diversion of not to exceed ONE-SIXTIETH of one cubic foot per second and 3.5 acre-feet for each acre irrigated during the irrigation season.
12. Pursuant to ORS 540.523(7), during the period of this temporary transfer, this transfer must be conditioned to prevent lands from which the water right is removed from receiving water under the transferred water right.

Temporary Transfer Review Criteria

13. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
14. Diversion structures, district canals, pumps, pump stations, ditches, pipeline, and sprinkler systems sufficient to use the full amount of water allowed under the existing rights are present.
15. The proposed changes, as conditioned, would prevent the lands from which the water right is removed during the period of the temporary transfer from receiving water under the transferred rights, as required by ORS 540.523(7).

16. The Department finds the proposed changes, as conditioned, would not result in injury to other water rights in accordance with ORS 540.523(2). This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.
17. All other applicable requirements for a temporary water right transfer pursuant to OAR Chapter 690, Division 380, are met.

Conclusions of Law

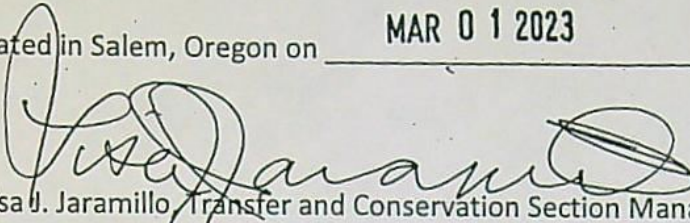

The temporary changes in place of use and point of appropriation to serve the temporary place of use proposed in Temporary Transfer Application T-13392 are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The temporary change in place of use and additional points of appropriation needed to convey water to the temporary place of use proposed in Temporary Transfer Application T-13917 is approved.
2. All water use from the proposed point of appropriation from well located within the Stage Gulch Critical Groundwater Area is subject to any 2023 annual allocation as authorized in final orders of the Department for its originating authorized point of appropriation on the same water right.
3. The land from which the water right described by Water Right Certificates 87373 is temporarily removed shall not receive any water under the rights during the 2023 irrigation season.
4. All uses of water under this temporary transfer shall revert automatically to the authorized place of use at the end of the 2023 irrigation season. The authorization to use the temporary point of appropriation shall be terminated concurrently.
5. The approval of this temporary transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
6. Any subsequent application for permanent transfer of Certificate 87373 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
7. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 87373.
8. The time during which water is used on the proposed lands under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.

9. The use of the remaining water rights described by Certificate 87373 not involved in this transfer shall continue to be in accordance with the terms and conditions of those Certificates.

Douglas E. Woodcock, Acting Director
Oregon Water Resources Department

Mailing Date: MAR 02 2023

Supplemental Form D

Water Right Transfers Within the Boundaries of or Served by an Irrigation District or other Water Supplier (Association, Ditch Co., etc.)

[For transfers submitted under OAR Chapter 690 Division 380]

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
503-986-0900
www.oregon.gov/OWRD

The Department requires non-district applicants to communicate with districts/water suppliers during the planning and preparation of transfer applications involving water rights having a point of diversion or appropriation (POD/POA) or place of use (POU) served by or located within the boundaries of an irrigation district, or other type of water supplier to which assessments are paid. In some cases consent will be required from the district or water supplier.

This form must be included with any transfer application that involves rights served by or located within the boundaries of a district or other type of water supplier.

** By providing an e-mail address, the applicant and/or the district/water supplier consents to receive all correspondence from the Department electronically. Copies of final order documents will also be mailed.

3. WATER RIGHTS ISSUED IN THE NAME OF, or LOCATED WITHIN, or SERVED BY AN IRRIGATION DISTRICT, OTHER DISTRICT, OR WATER SUPPLIER

a. List the water right(s) involved in this transfer:

	Application / Decree	Permit / Previous Transfer	Certificate	Is the water right in the name of a district, water supplier, or BOR*?
1.		-	87373	YES <input type="checkbox"/>
2.		-		YES <input type="checkbox"/>
3.		-		YES <input type="checkbox"/>
4.		-		YES <input type="checkbox"/>

Attach additional pages for additional water rights if necessary.

*Bureau of Reclamation

- b. Determine a district's/water supplier's connection to your points of diversion (POD) or appropriation (POA) and places of use (POU). [You may need to consult with your district/water supplier.]

CURRENT ASSOCIATIONS Please answer the following "yes" or "no" questions:

YES ☐ NO ☒ One or more of the current POD(s) / POA(s) involved in the transfer are served by a district/water supplier or rely on BOR water.

YES ☒ NO ☐ All or a portion of the current POU involved in this proposed transfer receives water for either primary or supplemental irrigation from the district/water supplier; i.e., the POU is currently layered with a district or BOR water supplied water right(s).

PROPOSED ASSOCIATIONS Please answer the following "yes" or "no" questions:

YES ☐ NO ☒ One or more of the proposed POD(s) / POA(s) involved in the transfer are currently served or will be served by a district/water supplier if the transfer is approved, or rely on BOR water.

YES ☒ NO ☐ All or a portion of the proposed POU involved in this proposed transfer currently receives or will receive either primary or supplemental irrigation from the district/water supplier; i.e., the POU will be layered with a district/water supplier or BOR water supplied water right(s).

COMMENTS OR ADDITIONAL INFORMATION TO AND FROM LANDS IDENTIFIED IN THIS TRANSFER ARE LOCATED WITHIN THE DISTRICT

4. APPLICANT'S SIGNATURE

- (1) I certify that I have notified the district/water supplier about the proposed water right transfer application by [check one]:

☒ email, ☐ phone, ☐ postal mail, ☐ in person, or ☐ other (please specify) _____

- (2) I certify that to the best of my knowledge the information contained in this Supplemental Form D is true and accurate.

Groundwater Transfer Review Summary Form

Transfer/PA # T- 13917

GW Reviewer J. Hootsmans/J. Hackett Date Review Completed: 12/9/2022

Summary of Same Source Review:

☐ The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Injury Review:

☐ The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

☐ The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Oregon Water Resources Department

Reviewer(s): J. Hootsmans/J. Hackett

Date of Review: 12/9/2022

Date Reviewed by GW Mgr. and Returned to WRSD: jti 2/16/23

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- ☐ The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- ☐ The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- ☐ Other _____

1. Basic description of the changes proposed in this transfer: Temporary transfer T-13392 proposes to change the place of use (29.5 acres) associated with Certificate 87373 to another property. It also proposes a change in POA; the "from" well associated with this water right is UMAT 2515 and the "to" well is UMAT 54154. The changes are proposed under 5 year transfers (allowed under the Div 380 rules), so this temporary transfer will be from 2023-2027, 5 irrigation season seasons.
2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
☒ Yes ☐ No Comments: UMAT 2515 and UMAT 54154 access water-bearing zones of the Columbia River Basalt Group aquifer system located in subarea A of the Stage Gulch Critical Groundwater Area.
3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
☐ Yes ☒ No The Department manages the basalt water-bearing zones in subarea A of Stage Gulch as a single source.
b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____
4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?
☐ Yes ☒ No Comments: Both wells are part of subarea A of the Stage Gulch Critical Groundwater Area and interfere with the same groundwater users.

b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

☐ Yes ☐ No If yes, explain: _____

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

☐ Yes ☒ No Comments: The authorized and proposed wells are developing deep basalt aquifers and are not expected to have an efficient hydraulic connection with nearby surface water sources.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: _____ ☐ Minimal ☐ Significant

Stream: _____ ☐ Minimal ☐ Significant

Provide context for minimal/significant impact: _____

6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

☐ Yes ☐ No Comments: _____

7. What conditions or other changes in the application are necessary to address any potential issues identified above: _____

8. Any additional comments: _____

T13917, Farmland Reserve

The map displays the Umatilla River and surrounding regions. Subarea A is located in the upper left, and Subarea E is in the center-right. Key locations include Hermiston, Umatilla, and Echo Meadows. Two points of interest are highlighted: 'Authorized POA UMAT 2515' and 'Proposed POA UMAT 54154'. The map is overlaid with a grid and includes a scale bar at the bottom indicating distances up to 12,000 feet. Numerous numbered points are scattered across the map, representing specific locations or data points.

Applicant Name: Farmland Reserve, Inc

Proposed Changes: ☒ POU ☐ POD ☒ POA ☐ USE ☐ OTHER

Reviewer(s): Greg Silbernagel

Date of Review: 03/10/2022

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☒ Yes ☐ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:

This area is within the State Gulch Critical Groundwater Area. Allocations are given annually. Defer to groundwater on same source ruling.
3. Have headgate notices been issued for the source that serves the transferred right(s)?
☐ Yes ☒ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☒ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☒ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☒ No If "Yes", explain:

10. For POU or USE changes: ☐ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

☐ Yes ☒ No If "Yes", explain:

11. For POU changes that involve micro-irrigation: ☒ N/A

- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☐ Yes ☐ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No If "Yes", explain:

- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No If "No", explain:

- iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- iv. Do you have any other observations regarding the temporary transfer?

☐ Yes ☐ No If "Yes", describe:

- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- c. To the best of your knowledge, if this transfer is approved, does it appear that:

- i. "Injury" will occur to other water rights that share the same source?

☐ Yes ☐ No If "Yes", explain:

- ii. "Enlargement" of the water right being transferred will occur?

☐ Yes ☐ No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☐ Yes ☒ No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☒ No ☐ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☐ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a **totalizing flow meter***, or, with prior approval of the Director, another suitable measuring device, ☐ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install **staff gages***, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir
☐ Parshall Flume
☐ Other: ____

☐ Submerged Orifice
☐ Flow Restrictor

Measurement Condition Information for the Applicant

(To be sent with the Draft Preliminary Determination or Final Order)

Transfer #: T-

- ☐ In order to avoid enlargement of the right or injury to other rights, a _____ will be required to be installed **prior to diversion of water**, as a condition of this transfer:
- ☐ at each point of diversion/appropriation (new and existing) **OR**
- ☐ at each new point of diversion/appropriation.

For additional information, or to obtain approval of a different type of measurement device, the applicant should contact the area Watermaster:

Watermaster name:

District:

Address:

City/State/Zip:

Phone:

Email:

Note: If a device other than the one specified in the Preliminary Determination or Final Order is approved by the Watermaster, fill out and mail the form below to the Salem office.

Approval of an Alternate Measurement Device

T-

(to be filled out after consultation with the applicant, or after a site visit)

On behalf of the Director, I authorize use of the following suitable **alternate measurement device**:

Watermaster signature

District

Date

If this form is used for approval of an alternative measurement device, it must be mailed to:

Nate,

The fees went up last year. Please see the attached work sheet. There is a balance due of \$92.80 for T-13917 (sorry about the red marker – it was all I had in front of me). The receipt number is #137434. Please include a copy of the attachment and a print out of this email when you sent in the balance due so that it can be matched up to the right file. Thanks! Ann (p.s. I have not checked your other transfers yet)

[link to fee schedule](#)

The per acre fee when filing a POU spreadsheet is \$0.70 per acre.

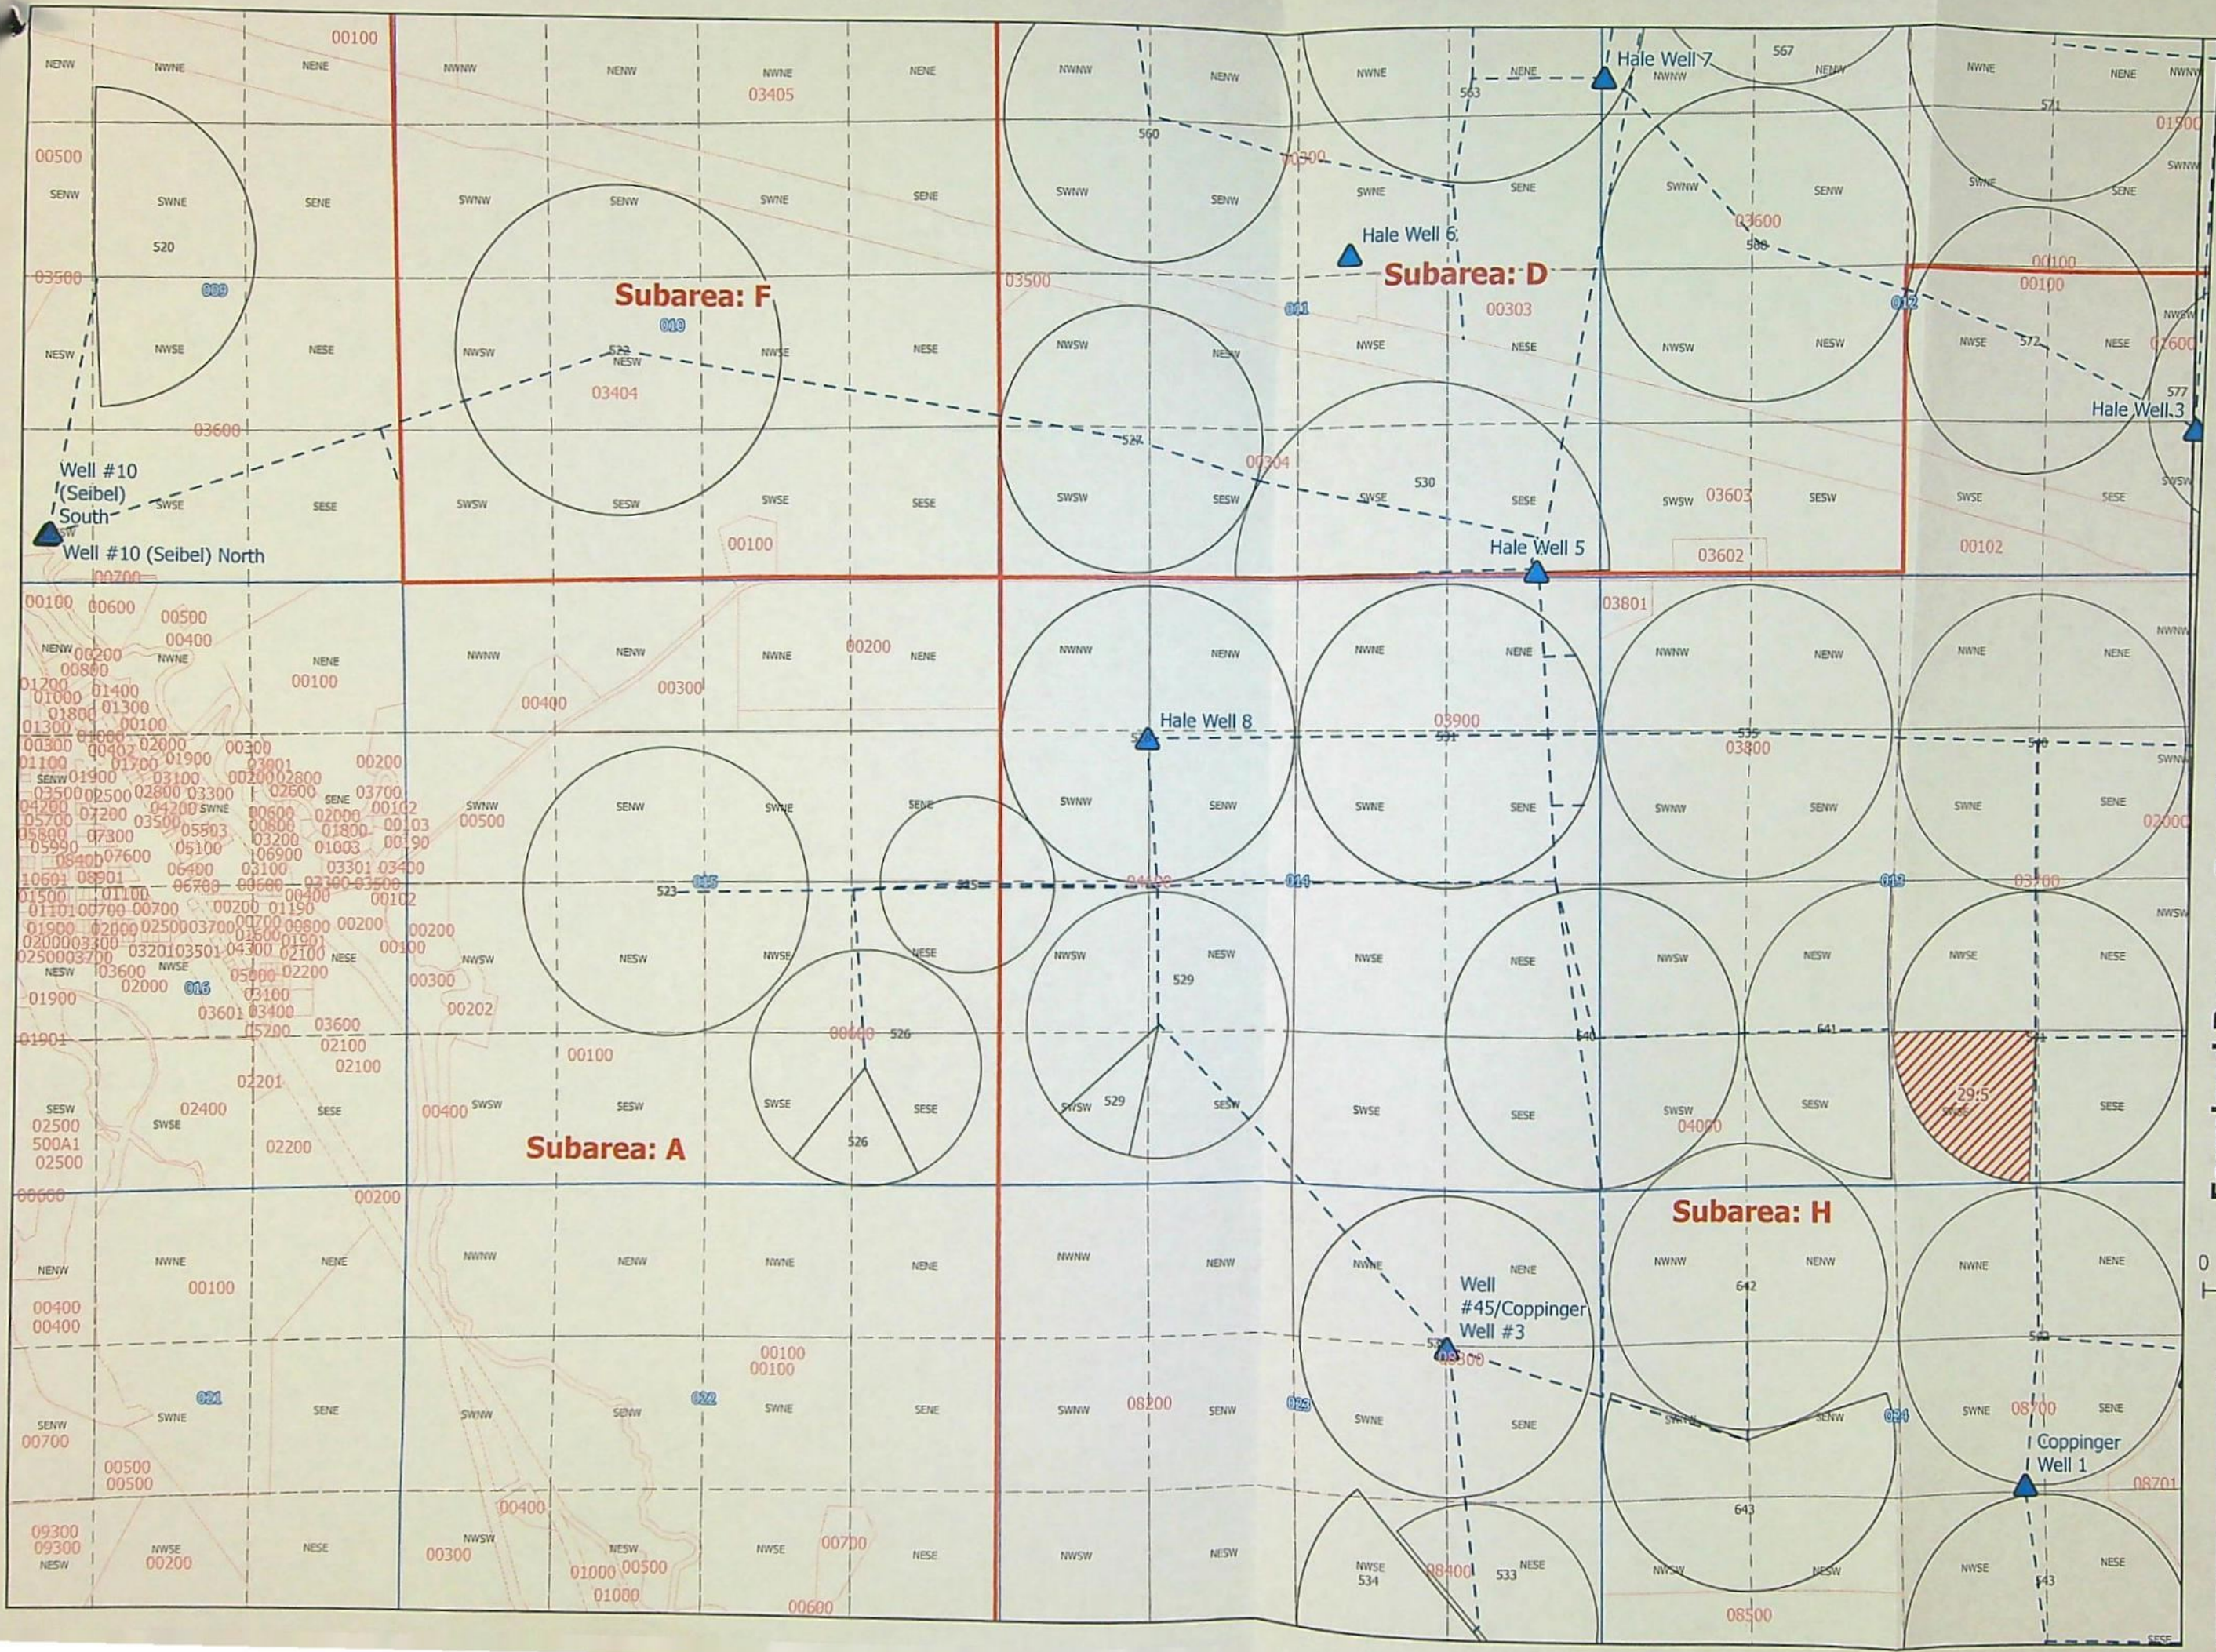

Clip from newest application Form – base fee is now \$950.

[illegible]

FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS			
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*): <div style="text-align: center;">_____ (2a)</div> Subtract 1.0 from the number in 2a above: _____ (2b) If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » » If 2b is greater than 0, round up to the nearest whole number: _____ (2c) and multiply 2c by \$50, then enter on line 2 » » » » » » » » »		
2		2	
3	Add entries on lines 1 through 2 above » » » » » » » » » » Transfer Fee:	3	

*Example for Line 2a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. Divide total authorized cfs by total acres in the water right (for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$); then multiply by the number of acres to be transferred to get the transfer cfs ($\times 45 \text{ ac} = 0.56 \text{ cfs}$).
2. If the water right certificate does not list total cfs, but identifies the allowable use as $1/40$ or $1/80$ of a cfs per acre; multiply number of acres proposed for change by either 0.025 ($1/40$) or 0.0125 ($1/80$). (For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$)
3. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

PASCO, WA 99302

Reference: Application T-13917

On February 9, 2022, OWRD received your water right Temporary Transfer Application. The application was accompanied by \$877.85. Our receipt number 137434 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

Except as provided under ORS 540.510(3) for municipalities, you may not **temporarily** use water at the new place of use or from the new point of diversion/appropriation until a final order approving the temporary transfer application has been issued by the Department. Additionally, pursuant to OAR 690-380-8010, the lands from which an irrigation water right is to be temporarily transferred and the land to which the right is to be temporarily transferred may not both receive water during the same season. If the temporary transfer is approved during an irrigation season and water has already been used at the currently authorized location during that season, then the temporary transfer will not take effect until the following season.

If the land is sold before the temporary transfer is approved, the buyer's consent to the temporary transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

If you have any questions, please contact the Transfer Section at (503) 979-9931.

For questions, please call (503) 986-0900, and ask for Transfer Section.

FOR ALL TEMPORARY TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

RECEIVED
FEB 09 2022
OWRD

- ☒ Part 1 – Completed Minimum Requirements Checklist.
- ☒ Part 2 – Completed Temporary Transfer Application Map Checklist.
- ☒ Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. If you have questions, call Customer Service at (503) 986-0801.
- ☒ Part 4 – Completed Applicant Information and Signature.
- ☒ Part 5 – Information about Transferred Water Rights: **How many water rights are to be transferred? 1 List them here: 87373**
Please include a separate Part 5 for each water right. (See instructions on page 6)
- ☒ ☐ N/A For standard Temporary Transfer (one to five years) **Begin Year: 2022 End Year: 2022.**
- ☐ ☒ N/A Temporary Drought Transfer (Only in counties where the Governor has declared drought)

Attachments:

- ☒ Completed Temporary Transfer Application Map.
- ☒ Completed Evidence of Use Affidavit and supporting documentation.
- ☒ Current recorded deed for the land from which the authorized place of use is temporarily being moved.
- ☒ ☐ N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land upon which the water right is located.) ***See Page 4 of Application for Landowner Consent Signature**
- ☒ ☐ N/A Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.
- ☒ ☐ N/A Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- ☒ ☐ N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

☐ Application fee not enclosed/or is insufficient ☐ Map not included or incomplete
☐ Land Use Form not enclosed or incomplete
☐ Additional signature(s) required ☐ Part _____ is incomplete
Other/Explanation _____
Staff: _____ 503-986-0 _____ Date: 13917

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☐ ☒ N/A If more than three water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Water Right Certificate # 87373

Description of Water Delivery System

System capacity: 0.40 cubic feet per second (cfs) OR

_____ gallons per minute (gpm)

RECEIVED

FEB 09 2022

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Water comes from a well with a 20 hp submersible pump and is distributed using a 30 acre center pivot irrigation system

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-___)	Twp	Rng	Sec	¼ ¼	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Cook Well #4	<input checked="" type="checkbox"/> Authorized <input type="checkbox"/> Proposed	UMAT 2515	4 N	28 E	24	SE NE	107	660' N & 670' W from E1/4 cor. Sec. 24
Seibel Well	<input type="checkbox"/> Authorized <input checked="" type="checkbox"/> Proposed	UMAT 54154	3 N	29 E	9	SE S W	3600	380' N & 3120' W from SE cor., Sec. 9
	<input type="checkbox"/> Authorized <input type="checkbox"/> Proposed							
	<input type="checkbox"/> Authorized <input type="checkbox"/> Proposed							

Check all type(s) of temporary change(s) proposed below (change "CODES" are provided in parentheses):

- | | |
|---|---|
| <input checked="" type="checkbox"/> Place of Use (POU) | <input checked="" type="checkbox"/> Appropriation/Well (POA) |
| <input type="checkbox"/> Point of Diversion (POD) | <input type="checkbox"/> Additional Point of Appropriation (APOA) |
| <input type="checkbox"/> Additional Point of Diversion (APOD) | |

Check all type(s) of temporary change(s) due to drought proposed below (change "CODES" are provided in parentheses):

- | | |
|---|---|
| <input type="checkbox"/> Place of Use (POU) | <input type="checkbox"/> Point of Appropriation/Well (POA) |
| <input type="checkbox"/> Character of Use (USE) | <input type="checkbox"/> Additional Point of Appropriation (APOA) |
| <input type="checkbox"/> Point of Diversion (POD) | <input type="checkbox"/> Additional Point of Diversion (APOD) |

Will all of the proposed changes affect the entire water right?

- ☒ Yes Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- ☐ No Complete all of Table 2 to describe the portion of the water right to be changed.

13917

Please use and attach additional pages of Table 2 as needed.
See page 6 for instructions.

Do you have questions about how to fill-out the tables?
Contact the Department at 503-986-0900 and ask for Transfer Staff.

Table 2. Description of Temporary Changes to Water Right Certificate # 87373

List only the part of the right that will be changed. For the acreage in each ¼ ¼, list the change proposed. If more than one change, specify the acreage associated with each change. If more than one POD/POA, specify the acreage associated with each POD/POA.

AUTHORIZED (the "from" or "off" lands) The listing that appears on the Certificate BEFORE PROPOSED CHANGES List only that part or portion of the water right that will be changed.											Proposed Changes (see "CODES" from previous page)	PROPOSED (the "to" or "on" lands) The listing as it would appear AFTER PROPOSED CHANGES are made.									
Twp	Rng	Sec	¼ ¼	Tax Lot	Gvt Lot or DLC	Acres	Type of USE listed on Certificate	POD(s) or POA(s) (name or number from Table 1)	Priority Date	Twp		Rng	Sec	¼ ¼	Tax Lot	Gvt Lot or DLC	Acres	New Type of USE	POD(s)/ POA(s) to be used (from Table 1)	Priority Date

Additional remarks: _____

RECEIVED

Water Right Certificate # 87373

For Place of Use Changes

FEB 09 2022

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☒ Yes ☐ No

If YES, list the certificate, water use permit, or ground water registration numbers: (1) Mitigation Permits: S-55114, S-55263, and S-55262 are mitigation permits and will be used on the "TO" lands. (3) Certificate 87111 is temporarily transferred to the "TO" lands under T-13603. Certificate 87111 will be used on these lands in addition to this transfer.

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- ☒ Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right

RECEIVED

FEB 09 2022

OWRD

1. My knowledge of the exercise or status of the water right is based on (check one):

☒ Personal observation ☐ Professional expertise

2. I attest that:

☐ Water was used during the previous five years on the **entire** place of use for
Certificate # ____; **OR**

☒ My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township		Range		Mer	Sec	¼ ¼		Gov't Lot or DLC	Acres (if applicable)
87373	3	N	29	E	W M	13	SE	N W		29.5

OR

- ☐ Confirming Certificate # ____ has been issued within the past five years; **OR**
- ☐ Part or all of the water right was leased instream at some time within the last five years. The instream lease number is: ____ (Note: If the entire right proposed for transfer was not leased, additional evidence of use is needed for the portion not leased instream.); **OR**
- ☐ The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.
- ☐ Water has been used at the actual current point of diversion or appropriation for more than 10 years for Certificate # ____ (For Historic POD/POA Transfers)

(continues on reverse side)

13917

3. The water right was used for: (e.g., crops, pasture, etc.): _____
4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

Supplemental Form D

Water Right Transfers Within the Boundaries of or Served by an Irrigation District or other Water Supplier (Association, Ditch Co., etc.)

[For transfers submitted under OAR Chapter 690 Division 380]

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
503-986-0900
www.oregon.gov/OWRD

The Department requires non-district applicants to communicate with districts/water suppliers during the planning and preparation of transfer applications involving water rights having a point of diversion or appropriation (POD/POA) or place of use (POU) served by or located within the boundaries of an irrigation district, or other type of water supplier to which assessments are paid. In some cases consent will be required from the district or water supplier.

This form must be included with any transfer application that involves rights served by or located within the boundaries of a district or other type of water supplier.

Re: Temporary Water Right Transfer for Certificate 87373

Ann,

Pleased find the enclosed an Application for Water Right Temporary Transfer for AgriNorthwest and Farmland Reserve, Inc (FRI). The purpose of this transfer is to temporarily change the place of use and point of appropriation for certificate 87373, which FRI leases from Verdon, LLC (Vernon Cook), to irrigate lands within the Echo Irrigation District. The TO lands are also covered by Mid-Columbia

All required application documents and the filing fee are included in this packet and Mr. Cook has signed the application.

If you have any questions regarding this application, please contact Nathan Rau by phone at (509) 820-3231 or by email at nrau@agrinw.com.

Sincerely,

Jens Rasmussen

NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b) The application involves a change in place of use only;
 - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d) The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

B. Description of Proposed Use

OWRD

Type of application to be filed with the Water Resources Department:

- ☐ Permit to Use or Store Water ☒ Water Right Transfer ☐ Permit Amendment or Ground Water Registration Modification
☐ Limited Water Use License ☐ Allocation of Conserved Water ☐ Exchange of Water

Source of water: ☐ Reservoir/Pond ☒ Ground Water ☐ Surface Water (name) _____

Estimated quantity of water needed: 0.37 ☒ cubic feet per second ☐ gallons per minute ☐ acre-feet

Intended use of water: ☒ Irrigation ☐ Commercial ☐ Industrial ☐ Domestic for _____ household(s)
☐ Municipal ☐ Quasi-Municipal ☐ Instream ☐ Other _____

Briefly describe:

This application proposes to temporarily transfer 29.5 acres of groundwater right to irrigate lands without sufficient rights

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt at the bottom of the next page and include it with the application filed with the Water Resources Department.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☐ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):
- ☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
