**Authority**

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

**Applicant**

BANDON BIOTA LLC/BANDON DUNES GOLF RESORT  
57744 ROUND LAKE DR  
BANDON, OR 97411

**Findings of Fact**

1. On April 22, 2024, BANDON BIOTA LLC/BANDON DUNES GOLF RESORT filed an application for an additional point of diversion and to change the place of use under Certificate 73636. The Department assigned the application number T-14439.
2. Notice of the application for transfer was published on April 23, 2024, pursuant to OAR 690-380-4000. Six timely comments were filed in response to the notice and are summarized as follows:
  - a. The application for T-14439 does not have land use approval from Coos County Planning Department at time of submission;
  - b. T-14439 would change the return flows of the current Place of Use away from Twomile Creek;
  - c. T-14439 would reduce stream flows via a change in return flows, injuring Instream Water Right Certificate 76268;
  - d. T-14439 would reduce stream flows via a change in return flows, injuring other water rights.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.

3. Not all issues raised by the commenters are relevant to the criteria for review of a water right transfer as per OAR 690-380-4010 and approval of a transfer application under OAR 690-380-5000. However, many of the issues noted in Finding of Fact #3, though important to the residents and water resources of the area, do not directly relate to the transfer review criteria. Rather, the statutory basis for approving a water right transfer application is relatively narrow and confined to the Department finding or determining:
  - a) The water right proposed for transfer is a water use subject to transfer;
  - b) The portion of the water right proposed for transfer is not cancelled nor subject to forfeiture for non-use pursuant to ORS 540.610;
  - c) The water user is ready, willing and able to use the full amount of water allowed under the right;
  - d) The proposed transfer would not result in enlargement of the water right proposed for transfer; and
  - e) The proposed transfer would not result in injury to other water rights.
4. In response to the issues raised by the timely comments received relevant to the criteria for review of a water right transfer as per OAR 690-380-4010 and approval of a transfer application under OAR 690-380-5000, the Department has determined:
  - a) The land use form submitted with the application was approved based upon a withdrawn land use application submitted to the Coos County Planning Department (CCPD).
  - b) The Department has determined a positive finding of no injury to other water rights.
5. On, May 9, 2024, the Department completed review of the land use form for T-14438, and concluded that the land use form submitted with the application was approved based upon a land use application submitted to the Coos County Planning Department (CCPD) that although it was subsequently withdrawn.
6. On May 10, 2024, the Department contacted CCPD and received confirmation that the land use application used to determine transfer criteria was withdrawn on February 1, 2023.
7. On November 8, 2024, CCPD notified the Department that a new Hearings Body Conditional Use application (HBCU) was submitted and approved this year, identified as HBCU-24-001.
8. Instream lease, IL-107 currently in effects the portion of the right proposed for Transfer T-14439. The instream lease was renewed by the Department on June 7, 2021, as evidenced by Special Order Volume 120, Page 758-761. The instream lease is scheduled to terminate on October 15, 2025, and includes a condition allowing for early termination of the lease order. This lease MUST BE terminated before Transfer T-14439 may be approved.

9. On January 3, 2025, the Department sent a copy of the draft Preliminary Determination proposing to approve Transfer Application T-14439 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of February 2, 2025, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
10. The portion of the right to be transferred is as follows:

**Certificate:** 73636 in the name of BARBARA FUGATE (perfected under Permit S-17313)  
**Use:** IRRIGATION OF 53.0 ACRES  
**Priority Date:** OCTOBER 22, 1946

13. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

***Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2), 690-380-2200, and 690-380-2110(2)]***

14. Instream lease IL-107 was issued on June 7, 2021, involving a portion of Certificate 73636 within the last five years prior to the submittal of Transfer Application T-14439. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
15. A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14439.
16. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
17. The proposed additional point of diversion diverts water from the same source of surface water as the authorized point of diversion, as required by OAR 690-380-2110(2).
18. The proposed changes, as conditioned, would not result in enlargement of the right.
19. The proposed changes, as conditioned, would not result in injury to other existing water rights.
20. All other application requirements are met.

**Determination and Proposed Action**

The additional point of diversion and change in place of use proposed in Transfer Application T-14439 appears to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

*If Transfer Application T-14439 is approved, the final order will include the following:*

- 1. The additional point of diversion and change in place of use proposed in Transfer Application T-14439 are approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 73636 and any related decree.*
- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of diversion and the new place of use.*
- 4. Water right Certificate 73636 is cancelled.*
- 5. The quantity of water diverted at the new additional point of diversion (POD 2), together with that diverted at the original points of diversion (POD 1 (four Portable Pumps)), shall not exceed the quantity of water lawfully available at the original points of diversion (POD 1 (four Portable Pumps)).*
- 6. Water shall be acquired from the same source of surface water as the original points of diversion.*
- 7. The former place of use of the transferred right shall no longer receive water under the right.*
- 8. Water use measurement conditions:*
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion (new and existing).*
  - b. The water user shall maintain the meters or measuring devices in good working order.*
  - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
- 9. Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.*
- 10. The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to*

*meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.*

11. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2026**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
12. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

This Preliminary Determination was prepared by Dante Luongo. If you have questions about the information in this document, you may reach me at 971-304-5006 or [Dante.J.Luongo@water.oregon.gov](mailto:Dante.J.Luongo@water.oregon.gov).

## **Protests**

Under the provisions of ORS 540.520(6) & (7) and OAR 690-380-4030, within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, any person may file, jointly or severally, a protest expressing opposition of approval of the transfer application and disagreement with this Preliminary Determination or a standing statement in support of this Preliminary Determination. If this Preliminary Determination determines that a change in point of diversion or appropriation would result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050. Protests and standing statements must be received by the Water Resources Department within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-380-0100(9)]. The protest must include the following:

- The person's name, address, and telephone number;

- All reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue may preclude consideration of the issue during the hearing;
- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.

### **Requests for Standing**

Under the provisions of OAR 690-380-4030(5), the Department shall provide to persons who have filed standing statements as defined under OAR 690-380-0100(11) notice of any differences between the Department's Preliminary Determination and the Final Order, notice of a hearing on the application under OAR 137-003-0535, and an opportunity to request limited party status or party status in the hearing.

Requests for standing must be received in the Water Resources Department no later than 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the preliminary determination as issued.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been filed under OAR 690-380-4030. In accordance with OAR 690-380-4200, notice and conduct of the hearing shall:

- Be under the applicable provisions of ORS 183.310 to 183.550, pertaining to contested cases, and the hearing shall be held in the area where the rights are located unless all parties stipulate otherwise; and
- If a protest has asserted that a water right to be transferred has been forfeited through non-use, include the notice and procedures described in OAR 690-017-0500 to 690-017-0900.

If after hearing the Department issues a proposed Final Order finding that a change in point of diversion or appropriation will result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050 within 15 days of receipt of the proposed order. Notwithstanding 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of 690-380-5030 to 690-380-5050.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions, or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 690-137-0555, an agency representative may represent partnerships, corporations, associations, governmental subdivisions or public, or private organizations if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

SUBJECT: Water Right Transfer Application T-14439

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-14439. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Coos Bay World newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 971 304-5006 or [Dante.J.Luongo@water.oregon.gov](mailto:Dante.J.Luongo@water.oregon.gov), if I may be of assistance.

Sincerely,
