Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed <u>only</u> upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Corey Courchane, by telephone at (503) 979-3917 or by e-mail at <u>Corey.a.courchane@water.oregon.gov</u>.

In the Matter of Transfer Application T-14102, Marion County FINAL ORDER APPROVING A CHANGE IN POINT OF APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

WEISZ FAMILY, LLC ATTN: GREG WEISZ 14905 BUTTEVILLE RD NE GERVAIS, OR 97026

Receiving Landowner

SPECHT DEVELOPMENT, INC ATTN: PETER SKEI 10260 SW GREENBURG ROAD, SUITE 170 PORTLAND, OR 97223

Findings of Fact

- On October 3, 2022, WEISZ FAMILY, LLC, ATTN: GREG WEISZ filed an application to change the point of appropriation under Certificate 36320. The Department assigned the application number T-14102.
- 2. Both the receiving landowner, Specht Development, Inc., Attn: Peter Skei, and applicant, Weisz Family, LLC, Attn: Greg Weisz, will be responsible for completion of the changes.
- Notice of the application for transfer was published on October 11, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
- 4. On December 7, 2023, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-14102 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of January 8, 2023, for the applicant to respond. The applicant requested that the Department proceed with issuance

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

- On December 9, 2023, the applicant requested to extend the date to complete full beneficial use of the water to October 1, 2028, due to the drilling power schedules and cost to install the additional wells.
- 6. On March 1, 2024, the Department issued a Preliminary Determination proposing to approve Transfer T-14102 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on March 5, 2024, and in the Woodburn Independent Newspaper on April 24 and May 1, 2024 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
- 7. The portion of the right to be transferred is as follows:

Certificate:	36320 in the name of P. J. WILLARD (perfected under Permit G-3666)
Use:	IRRIGATION OF 41.7 ACRES
Priority Date:	APRIL 21, 1967

Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2) and OAR 690-380-2110(2)]

- Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14102.
- 11. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
- 12. The proposed points of appropriation develop groundwater from the same aquifer as the authorized point of appropriation, as required by OAR 690-380-2110(2).
- 13. The proposed change, as conditioned, would not result in enlargement of the right.
- 14. The proposed change would not result in injury to other existing water rights.
- 15. All other application requirements are met.

Conclusions of Law

The change in point of appropriation proposed in Transfer Application T-14102 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

- 1. The change in point of appropriation proposed in Transfer Application T-14102 is approved.
- The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 36320 and any related decree.
- Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new points of appropriation.
- 4. Water right Certificate 36320 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
- The quantity of water diverted at the new points of appropriation (New Well 1, Wells 2, 3, and 4) shall not exceed the quantity of water lawfully available at the original point of appropriation (Authorized Well 1).
- Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
- 7. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
- Full beneficial use of the water shall be made, consistent with the terms of this order, on or before October 1, 2028. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.

9. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

T-14102 filed by Weisz Family, LLC, 14905 Butteville Rd NE, Gervais, OR 97026, proposes a change in point of appropriation under Certificate 36320. The right allows the use of 0.52 cubic foot per second from a well in Sec. 14, T55, R2W, WM for irrigation in Sects. 13 and 14, T55, R2W, WM. The applicant proposes to move the point of appropriation to Sects. 14 and 23, T55, R2W, WM. The Water Resourc-

the point of appropriation to Sects. 14 and 23, T5S, R2W, WM. The Water Resources bepartment proposes to approve the transfer, based on the requirements of ORS Chapter 540 and OAR 690-380-5000. Any person may file, jointly or severally, a protest or standing statement within 30 days after the last date of newspaper publication of this notice, May 1, 2024. (503) 986-0935 to obtain additional information. If no protests are filed, the Department will issue a final order consistent with the preliminary determination. Published Mar. 6 & 13, 2024. SUBJECT: Water Right Transfer Application T-14102

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-14102. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Woodburn Independent newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me, at <u>corey.a.courchane@water.oregon.gov</u> or (503) 979-3917, if I may be of assistance.

Sincerely,

BEFORE THE WATER RESOURCES DEPARTMENT OF THE STATE OF OREGON

In the Matter of Transfer Application T-14102, Marion County PRELIMINARY DETERMINATION PROPOSING APPROVAL OF A CHANGE IN POINT OF APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

- On October 3, 2022, WEISZ FAMILY, LLC, ATTN: GREG WEISZ filed an application to change the point of appropriation under Certificate 36320. The Department assigned the application number T-14102.
- 2. Both the receiving landowner, Specht Development, Inc., Attn: Peter Skei, and applicant, Weisz Family, LLC, Attn: Greg Weisz, will be responsible for completion of the changes.
- Notice of the application for transfer was published on October 11, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
- 4. On December 7, 2023, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-14102 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of January 8, 2023, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.

- On December 9, 2023, the applicant requested to extend the date to complete full beneficial use of the water to October 1, 2028, due to the drilling power schedules and cost to install the additional wells.
- 6. The portion of the right to be transferred is as follows:

Certificate:	36320 in the name of P. J. WILLARD (perfected under Permit G-3666)
Use:	IRRIGATION OF 41.7 ACRES
Priority Date:	APRIL 21, 1967
Rate:	0.52 CUBIC FOOT PER SECOND
Limit/Duty:	The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE- EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2) and OAR 690-380-2110(2)]

- 8. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14102.
- 10. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
- 11. The proposed points of appropriation develop groundwater from the same aquifer as the authorized point of appropriation, as required by OAR 690-380-2110(2).
- 12. The proposed change, as conditioned, would not result in enlargement of the right.
- 13. The proposed change would not result in injury to other existing water rights.
- 14. All other application requirements are met.

Determination and Proposed Action

The change in point of appropriation proposed in Transfer Application T-14102 appears to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-14102 is approved, the final order will include the following:

- 1. The change in point of appropriation proposed in Transfer Application T-14102 is approved.
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 36320 and any related decree.
- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new points of appropriation.
- 4. Water right Certificate 36320 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
- 5. The quantity of water diverted at the new points of appropriation (New Well 1, Wells 2, 3, and 4) shall not exceed the quantity of water lawfully available at the original point of appropriation (Authorized Well 1).

- 6. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
- 7. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
- 8. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2028**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
- 9. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

Pated in Salem, Oregon on MAR 1 - 2024

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for DOUGLAS E. WOODCOCK, ACTING DIRECTOR Oregon Water Resources Department

This Preliminary Determination was prepared by Corey Courchane. If you have questions about the information in this document, you may reach me at 503-979-3917 or <u>corey.a.courchane@water.oregon.gov</u>

Protests

Under the provisions of ORS 540.520(6) & (7) and OAR 690-380-4030, within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, any person may file, jointly or severally, a protest expressing opposition of approval of the transfer application and disagreement with this Preliminary Determination or a standing statement in support of this Preliminary Determination. If this Preliminary Determination determines that a change in point of diversion or appropriation would result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050. Protests and standing statements must be received by the Water Resources Department within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-380-0100(9)]. The protest must include the following:

- The person's name, address, and telephone number;
- All reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue may preclude consideration of the issue during the hearing;
- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.

Requests for Standing

Under the provisions of OAR 690-380-4030(5), the Department shall provide to persons who have filed standing statements as defined under OAR 690-380-0100(11) notice of any differences between the Department's Preliminary Determination and the Final Order, notice of a hearing on the application under OAR 137-003-0535, and an opportunity to request limited party status or party status in the hearing.

Requests for standing must be received in the Water Resources Department no later than 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the preliminary determination as issued.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been filed under OAR 690-380-4030. In accordance with OAR 690-380-4200, notice and conduct of the hearing shall:

- Be under the applicable provisions of ORS 183.310 to 183.550, pertaining to contested cases, and the hearing shall be held in the area where the rights are located unless all parties stipulate otherwise; and
- If a protest has asserted that a water right to be transferred has been forfeited through non-use, include the notice and procedures described in OAR 690-017-0500 to 690-017-0900.

If after hearing the Department issues a proposed Final Order finding that a change in point of diversion or appropriation will result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050 within 15 days of receipt of the proposed order. Notwithstanding 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under 690-380-5030 to 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of 690-380-5030 to 690-380-5050.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions, or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 690-137-0555, an agency representative may represent partnerships, corporations, associations, governmental subdivisions or public, or private organizations if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

SUBJECT: Water Right Transfer Application T-14102

Your water right transfer will be ready for issuance of the Preliminary Determination, once the Department receives payment for publication of the newspaper notice.

Items needed before the next phase of processing...

At this time you need to:

- submit a check in the amount of \$71.40 (to cover cost of publication of the notice), made out to the Oregon Water Resources Department.
- 2. write "for T-14102 NOTICE" on the front of your check, and
- 3. submit it with the tracking stub at the bottom of this letter.

Mail the check to 725 Summer St. NE, Suite A, Salem, OR 97301-1266, no later than February 29, 2024.

What happens next...

Shortly after receiving payment, the Department will issue the Preliminary Determination, initiate publication in the Woodburn Independent newspaper, and also publish the notice on the Department's weekly notice. Publication of the notice will initiate a protest period during which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

If we do not receive payment for newspaper notice by February 29, 2024, a Preliminary Determination may be issued denying the application as incomplete.

Reference: Water Right Transfer Application T-14102

Your water right transfer is in the first of three phases of processing. Enclosed is a draft of the Department's Preliminary Determination regarding Transfer Application T-14102. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be approved. Your response and submittal of the items outlined below are required by January 8, 2023.

Required items needing your immediate attention:

- Please carefully review the Draft Preliminary Determination to verify that it accurately reflects the changes you intend to make and to become familiar with the proposed conditions.
- Respond in writing by JANUARY 8, 2023, with acknowledgement that you agree to the proposed action and conditions.
- 3. If you find any errors, please let me know.
- REQUIRED: You must submit a Report of Ownership for the lands where the water right(s) are currently located (i.e., the FROM lands). This report:
 - a) Must be prepared by a title company;
 - b) Shall include a "prepared by" statement and the date the title company prepared the report printed on the cover sheet;
 - c) Must:
 - i. Be prepared no earlier than 3 months prior to the date of issuance of the Draft Preliminary Determination showing current ownership; OR
 - Be prepared within 3 months of the date the water right conveyance agreement was recorded; OR
 - Show ownership for the FROM land at the time a water right conveyance agreement was recorded.

If water right conveyance agreements are involved, it is helpful to provide copies of those agreements along with the Report of Ownership.

IMPORTANT: In order for the Department to clearly understand the date that the title company prepared the Report of Ownership, the title company must indicate/state the date that they prepared the report on the coversheet and/or first page of the report.

- d) Must include a list of owners at the time the report was generated; AND
- e) Must include a legal description of the property where the water right to be transferred is currently located (i.e., the FROM lands).
- 5. You must provide a notarized statement of consent signed by any landowner listed in the Report of Ownership who is <u>not</u> already included in the transfer application. The Department's statement of consent form (Consent By Deeded Landowner) is available at: <u>https://www.oregon.gov/OWRD/WRDFormsPDF/consent to transfer form.pdf</u>
- 6. Notice of this transfer will need to be published in a newspaper with general circulation in the area where the water rights are currently located. You will be responsible for the charges.

Conditions of your water right...

The Watermaster has required a water measurement devices at the new and existing diversion points prior to diversion of water. Enclosed is a contact information sheet to assist you in pursuing additional information or approval of the required (or alternate) device(s).

Please note the proposed date by which all conditions must be met: October 1, 2025. If the required completion date is insufficient to comply with any of the conditions, you may request more time, at no cost to you, during this stage of processing. Please let me know by the comment deadline if you will need more time and explain the reasons why.

What happens next...

Once the Preliminary Determination is issued a publication period is required. Because there is more than ¼ mile between the new and the authorized points of appropriation, the Department will publish notice of the transfer in a local newspaper having a general circulation in the area of the water right at least once per week for two consecutive weeks. You are responsible for sending a check to cover the cost of publication prior to the issuance of the Preliminary Determination and publication of notice. <u>As outlined in OAR 690-380-4020(3)</u>, <u>publication costs include both the direct cost of the notice and indirect processing costs (not to</u> exceed 20% of the direct costs) for processing.

Issuance of the Preliminary Determination will occur shortly after we receive:

- Your written response to the conditions and proposed action in the Draft Preliminary Determination (e-mail is acceptable); and
- The Report of Ownership, including affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application. The title company must indicate/state the date that they prepared the ownership report on the coversheet and/or first page of the report.

If we do not receive the items listed above by January 8, 2023, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me, at <u>corey.a.courchane@water.oregon.gov</u> or (503) 979-3917, if I may be of assistance.

Sincerely,

•

BEFORE THE WATER RESOURCES DEPARTMENT OF THE STATE OF OREGON

In the Matter of Transfer Application T-14102, Marion County

DRAFT PRELIMINARY

DETERMINATION PROPOSING APPROVAL A CHANGE IN POINT OF APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

WEISZ FAMILY, LLC ATTN: GREG WEISZ 14905 BUTTEVILLE RD NE GERVAIS, OR 97026

Receiving Landowner

SPECHT DEVELOPMENT, INC ATTN: PETER SKEI 10260 SW GREENBURG ROAD, SUITE 170 PORTLAND, OR 97223

Findings of Fact

- On October 3, 2022, WEISZ FAMILY, LLC, ATTN: GREG WEISZ filed an application to change the point of appropriation under Certificate 36320. The Department assigned the application number T-14102.
- Both the receiving landowner, Specht Development, Inc., Attn: Peter Skei, and applicant, Weisz Family, LLC, Attn: Greg Weisz, will be responsible for completion of the changes.
- Notice of the application for transfer was published on October 11, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
- 4. The portion of the right to be transferred is as follows:

Certificate:	36320 in the name of P. J. WILLARD (perfected under Permit G-3666)
Use:	IRRIGATION OF 41.7 ACRES
Priority Date:	APRIL 21, 1967
Rate:	0.52 CUBIC FOOT PER SECOND
Limit/Duty:	The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-
	EIGHTIETH of one cubic foot per second per acre, or its equivalent for each

acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2) and OAR 690-380-2110(2)]

- Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
- A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14102.
- The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).

- 9. The proposed points of appropriation develop groundwater from the same aquifer as the authorized point of appropriation, as required by OAR 690-380-2110(2).
- 10. The proposed change, as conditioned, would not result in enlargement of the right.
- 11. The proposed change would not result in injury to other existing water rights.
- 12. All other application requirements are met.

Determination and Proposed Action

...

The change in point of appropriation proposed in Transfer Application T-14102 appears to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-14102 is approved, the final order will include the following:

- 1. The change in point of appropriation proposed in Transfer Application T-14102 is approved.
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 36320 and any related decree.
- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new points of appropriation.
- 4. Water right Certificate 36320 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
- 5. The quantity of water diverted at the new points of appropriation (New Well 1, Wells 2, 3, and 4) shall not exceed the quantity of water lawfully available at the original point of appropriation (Authorized Well 1).
- 6. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

- 7. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
- 8. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2025**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
- 9. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

Groundwater Transfer Review Summary Form

Transfer/PA # T- 14102 (RA)

GW Reviewer Travis Brown Date Review Completed: 7/11/2023

Summary of Same Source Review:

The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

The water well reports provided with the application do not correspond to the water rights affected by the transfer.

The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.

- Other ____
- Basic description of the changes proposed in this transfer: <u>Applicant proposes to replace the sole authorized From-POA (Well 1 / MARI 2461) for 41.7 acres under Certificate 36320</u> with 4 To-POA, 2 of which already exist (Well 2 / MARI 2629 and Well 3 / MARI 2464) and 2 of which have yet to be built (New Well 1 and Well 4). Certificate 36320 authorizes Irrigation of 84.0 acres at a maximum rate of 1.05 cfs.

<u>Proposed Well 2 (MARI 2629) has overlapping rights: 49.6 acres of Irrigation at 0.62 cfs</u> <u>under Certificate 39793, for which Well 2 is the sole authorized POA; and 193.4 acres of</u> <u>Irrigation at 2.42 cfs under Permit G-11853, for which Well 2 is 1 of 3 authorized POA.</u>

Proposed Well 3 (MARI 2464) has overlapping rights: 193.4 acres of Irrigation at 2.42 cfs under Permit G-11853, for which Well 3 is 1 of 3 authorized POA.

NOTE: In Additional Remarks on Page 8 of the application, the applicant indicates that "[t]he authorized well...will be decommissioned." It is not clear how or whether the applicant intends to continue irrigating the remaining 42.3 acres authorized in **Certificate 36320** that are not covered by this transfer.

 Will the proposed POA develop the same aquifer (source) as the existing authorized POA?

 ∑ Yes □ No Comments: Both the From-POA and To-POA produce groundwater from the alluvial aquifer system.

b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): N/A

4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another ground water right?

Yes No Comments: The proposed To-POA will be closer to neighboring groundwater rights, which will likely increase interference with those neighboring rights.

b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

☐ Yes ⊠ No If yes, explain: <u>The proposed To-POA Well 2 (MARI 2629) is ~1,250 ft</u> from the sole POA (MARI 2648) location for neighboring groundwater Claim GR-909, whereas the authorized From-POA Well 1 (MARI 2461) is ~3,720 ft from the Claim GR-909 POA. Claim GR-909 has priority date of 2/10/1953, which is senior to Certificate 36320's priority date of 4/21/1967. To assess the potential for the proposed transfer to injure Claim GR-909, a Theis (1935) analysis of drawdown was used (see Theis Interference Analysis, attached). Hydraulic parameters used for the analysis were derived from regional data and studies (Pumping Test Reports; Conlon et al., 2005). Results of the analysis indicate that the proposed transfer is unlikely to injure Claim GR-909 or similarly located rights.

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another surface water source?

Yes No Comments: <u>The proposed To-POA will be closer to Sam Brown Creek</u> <u>than the authorized From-POA. The closer proximity will likely increase interference with</u> <u>Sam Brown Creek</u>.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: <u>Sam Brown Creek</u> Minimal Significant Provide context for minimal/significant impact: <u>The thick layer of fine-grained sediments</u> that underlie Sam Brown Creek and other streams in the area that are minimally incised will diffuse depletion of surface water such that the expected change in degree of interference with surface due to the proposed change will likely be minimal.

6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

Yes No Comments: N/A

Purpose The purpose of this Agreement is to expedite the processing of the Transfer Application. (Application Number: T-14102)

- Authority. The OWRD has been authorized pursuant to ORS 536.055 to enter into a voluntary agreement with any
 applicant, permittee or regulated entity (collectively Applicant) for expediting or enhancing a regulatory process. In
 making this agreement, OWRD shall require the applicant to pay the full cost of expedited process.
- Restrictions. Applicant and OWRD agree that this Agreement shall not be construed to restrict in any way the decisions and actions by OWRD. OWRD shall be free to exercise independent judgment consistent with existing laws and regulations.
- Effective Date and Duration. Unless otherwise terminated by non-deposit of funds by the Applicant, this Agreement shall become effective on the date on which both parties have signed the Agreement and the full deposit of the estimated cost of the proposed service.
- 4. Consideration.
 - a. Applicant shall pay OWRD in advance for actual costs incurred by OWRD. The estimated maximum reimbursement payable to OWRD under this Agreement is <u>\$2,131.82</u>. Applicant agrees to pay the full amount of <u>\$2,131.82</u> to OWRD prior to commencement of any work stated in this Agreement. This payment will be placed in an account administered by OWRD and drawn upon as costs are actually incurred. If the actual cost of performing the work is less than payments received, OWRD will refund the unspent balance. If the actual cost of processing exceeds the estimate, the Applicant can either elect to terminate this Agreement or amend the Agreement to reflect the increase in cost.
 - b. The costs stated in this Agreement do not include the statutory application processing and filing fees.
- Confidentiality. Applicant agrees that any information provided to or acquired by OWRD under this Agreement will be subject to the Oregon Public Records Law and shall be considered public records.
- 6. Indemnity. Applicant shall defend, save, hold harmless, and indemnify the State of Oregon, OWRD, and their officers, employees, and agents from and against all claims, suits, actions, losses, damages, liabilities, costs, and expenses of any nature resulting from or arising out of, or relating to the activities of Applicant or its representatives, officers, employees, contractors, or agents under this Agreement or with respect to the expedited service. The Applicant acknowledges that the Oregon Water Resources Department cannot and does not guarantee a favorable review under the subject regulatory process.

- Termination. Applicant may request to terminate this agreement only in writing at anytime during the process. The Applicant agrees to pay for the work done by OWRD up until the time of the written termination request. OWRD, upon receiving such written termination request from the Applicant, will refund any unspent balance.
- Funds Authorized and Available. By its execution of this Agreement, Applicants certify that sufficient funds are authorized and available to cover the expenditures contemplated by this Agreement.
- 9. Duration of Estimate. The Estimate of Time to completion is approximately 120 days once this Agreement has been fully executed and payment of the estimated cost deposited. If the Applicant's Agreement is not received by the Department within thirty (30) days of mailing the Agreement, the Applicant may need to re-apply for a new estimate. NOTE: Any time estimate is approximate; No guarantee of Final Order issuance of a date is certain. Duration estimates do not include any statutory waiting periods.
- 10. Completion Date. OWRD, by the execution of this Agreement does not guarantee the completion date indicated in this Agreement. Completion date is only an estimate and may be affected by the Department's workload, issues arising from the processing of the requested services and Applicant's timely response to requests for additional information. IMPORTANT: Due to COVID-19 and actions taken by the State of Oregon to facilitate teleworking as a tool to help prevent the spread of the disease, Department processes for Reimbursement Authority may be unavoidably delayed.
- Captions. The captions or headings in this Agreement are for the convenience only and in no way define, limit, or describe the scope, or intent, of any provision of this Agreement.
- 12. Amendment and Merger. The terms of this Agreement shall not be waived, altered, modified, supplemented, or amended in any manner whatsoever, except by written instrument signed by both parties. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. There are no understandings, agreements or representations, oral or written, not specified herein regarding this Agreement.
- Signatures. All parties, by the authorized representative's signature below, hereby acknowledge that they have read this Agreement, understand it and agree to be bound by its terms and conditions.

GREG WEISZ 14905 BUTTEVILLE RD NE GERVAIS, OR 97026

Reference: Application T-14102

On October 3, 2022, OWRD received your water right Permanent Transfer Application. The application was accompanied by \$3070.00. Our receipt number 139270 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to our groundwater staff to determine whether the proposed well accesses the same source of water as the original well.

This application <u>may</u> require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of appropriation until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 979-9931.

Part 2 of 5 – Transfer Application Map

OCT 0 3 2022

Yo	our trans	ofer application will be returned if any of the map requirements listed below are not met.
		sure that the transfer application map you submit includes all the required items and he existing water right map. Check all boxes that apply.
	□ N/A	Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see <u>http://apps.wrd.state.or.us/apps/wr/cwre_license_view/</u> . CWRE stamp and signature are not required for substitutions.
	N/A	If more than three water rights are involved, separate maps are needed for each water right.
\boxtimes		Permanent quality printed with dark ink on good quality paper.
		The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
\boxtimes		A north arrow, a legend, and scale.
		The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
		Township, Range, Section, ¼¼, DLC, Government Lot, and other recognized public land survey lines.
\boxtimes		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
	⊠ N/#	A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
	□ N//	A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32′15.5″) or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

1. For irrigation calculate cfs for each water right involved as follows:

a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).

b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)

2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

Explain in your own words what you propose to accomplish with this transfer application, and why: The Applicant is proposing to change the point of appropriation of Certificate 36320.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check One Box

- By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR
- I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; OR
- I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department
 for publication of a notice in a newspaper with general circulation in the area where the water right is located,
 once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing
 the notice in the following newspaper: <u>Woodburn Independent</u>.
- Amendments to the application may only be made in response to the Department's Draft Preliminary
 Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any
 issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be
 subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).
- Refunds may only be granted upon request and, as set forth in ORS 536.050(4)(a), if the Director determines that a
 refund of all or part of a fee is appropriate in the interests of fairness to the public or necessary to correct an error
 of the Department.
- I (we) affirm that the information contained in this application is true and accurate.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? X Yes No*

*If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.

Check the following boxes that apply:

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? Xes No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see: <u>https://www.oregon.gov/owrd/WRDFormsPDF/Transfer_Property_Transactions.pdf</u>

CERTIFICATE # 36320

Description of Water Delivery System

System capacity: 1.05 cubic feet per second (cfs) OR

gallons per minute (gpm)

RECEIVED

OCT 03 2022

OWRD

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. Water is discharged from the well using a 40 Hp pump, conveyed to the place of use through above-ground mainlines and laterals, and applied using handlines equipped with high pressure impact sprinklers or a hard hose traveling sprinkler.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Revised 7/1/2021

Certificate # 36320

For Place of Use or Character of Use Changes – Not Applicable

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?
Yes X No

If YES, list the certificate, water use permit, or ground water registration numbers:_____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # <u>N/A;</u> Surface water primary Certificate # _____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # N/A

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. Tip: You may search for well logs on the Department's web page at: (See Attachment E)

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
