STATE OF OREGON**

In the Matter of the Completion of a Change)	DETERMINATION OF SATISFACTORY PROOF
in Place of Use Under Transfer Application)	OF COMPLETION FOR A PERMANENT
T-14132, Hood River County)	DISTRICT TRANSFER

Authority

Oregon Administrative Rule (OAR) 690-385-7400 describes the documentation the district must file with the Department in order to provide proof of use.

OAR 690-385-7600 provides in pertinent part that satisfactory proof shall be (a) a determination by the Department that application of water to beneficial use under the terms of the transfer final order was completed to the extent authorized, or (b) a determination by the Department that the application of water to a beneficial use under the terms of the transfer final order was completed to an extent less than authorized.

Oregon Revised Statute (ORS) 540.530(2)(a) and OAR 690-385-7600 authorize the Department to issue or modify a certificate of water right upon satisfactory proof of completion of the change or changes authorized by a final order approving a permanent district transfer.

Applicant

EAST FORK IRRIGATION DISTRICT
PO BOX 162
ODELL, OR 97044

Findings of Fact

1. On February 13, 2023, the Department signed a final order, which was mailed on February 14, 2023, and recorded in Special Order Volume 127, Pages 413-417, approving Transfer Application T-14132 involving Certificates 92000 as modified by CW-93, 80929, and 84803. The final order established October 1, 2024, as the date for completion of the authorized changes in place of use.
2. On July 29, 2024, the Department received a Claim of Beneficial Use (CBU) and associated maps from the applicant for Transfer Application T-14132 satisfying the requirements for providing proof of use under OAR 690-385-7400.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

3. On September 5, 2024, the district submitted a revised table of the authorized place to use to correct a scrivener's error.
4. The Department reviewed the CBU and map(s) submitted by the applicant for Transfer Application T-14132.
5. The CBU did not contain a map of the point of diversion from the source. However, since the transfer involved the transfer of places of use only within an irrigation district and did not involve a change in the point of diversion, the existing maps on file with the Department are sufficient to identify the point of diversion from the source.
6. The proposed place of use for Certificate 92000 as approved the final order for Transfer Application T-14132, and as recorded in Special Order Volume 127, Pages 413-417, is shown in Table 1, below:

Table 1:

9. Based on the review of evidence submitted by the applicant, the Department finds that the application of water to beneficial use under the terms of the transfer final order for T-14132 was completed to the extent authorized in the transfer as described in Tables 1, 2, and 3, above.

Conclusions of Law

1. The Applicant has submitted proof of use pursuant to OAR 690-385-7400.
2. Application of water to a beneficial use under the terms of the transfer final order has been made to the extent shown in Tables 1, 2, and 3, above.
3. The applicant has demonstrated proof of completion under T-14132 to the satisfaction of the Department.
4. The Department is authorized to issue or modify certificates of water rights involved in transfer T-14132 consistent with this determination of satisfactory proof of completion.

Now, therefore, it is ORDERED:

Water right Certificates 92000, 80929, and 84803. are modified as shown in Tables 1, 2, and 3, above. The Department will issue superseding certificates describing these rights when it determines it is necessary for record keeping.

10. The Department finds that the district permanent transfer application was submitted according to ORS 540.580 and OAR 690-385-4000, contains the information required under OARs 690-385-4200 and 690-385-2000, and includes maps meeting the requirements of OARs 690-385-4300 and 690-385-2200.

11. The Department finds that the proposed district permanent transfer meets all the criteria set forth in ORS 540.580 and OAR 690-385-4000.
12. The water right is subject to transfer as defined in OAR 690-385-0100(17).
13. The proposed change in places of use will not result in enlargement of the right as defined in OAR 690-385-0100(4).
14. The proposed change in place of use will not result in injury to other water rights as defined in OAR 690-385-0100(6).
15. Any other applicable requirements for district permanent water right transfers are met as required in OAR 690-385-4500.

Partial Cancellation of Water Right 96704 (superseded Certificate 15039)

16. On December 19, 2022, Norman Trejo Ramirez, the owner of lands to which a portion of Certificate 96704 is appurtenant, submitted a voluntary cancellation affidavit meeting the requirements of ORS 540.621. Certain lands under Certificate 96704 will become "layered" with proposed lands under Certificate 92000 in this transfer and the affiant wishes to cancel that portion of the existing water right appurtenant to land he owns.
17. Certificate 96704 superseded Certificate 15039. Certificate 96704 was issued to describe the portion of Certificate 15039 NOT modified by provisions of a transfer final order (Transfer T-13957) of the Water Resources Director, recorded in Special Order Volume 125, Pages 943-949, approving a (different) partial cancellation of the right evidenced by Certificate 15039.

18. An affidavit was submitted requesting a partial cancellation as described as follows:

Certificate: 15039 in the names of R.H. Weber (confirmed by decree of the Circuit Court of the State of Oregon for Hood River County)

Use: IRRIGATION of 3.5 acres

Rate: 0.04 CUBIC FOOT PER SECOND

Priority Date: 1875

Limit / Duty: The amount of water is limited on an amount actually beneficially used and shall not exceed ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent in case of rotation.

Source: ODELL CREEK, tributary to the HOOD RIVER

Place of Use to be cancelled:

SUPPLEMENTAL IRRIGATION							
Twp	Rng	Mer	Sec	Q-Q	Acres	Tax Lot	Water User
2 N	10 E	WM	27	NW NE	3.50	3600	RAMIREZ

19. The place of use to be cancelled under Certificate 96704 is as described in Finding of Fact #18, above.

Conclusions of Law

The proposed changes in place of use as proposed in Transfer Application T-14132 comply with and satisfy the requirements of ORS 540.580 and OAR 690-385-4500. The abandoned portion of Certificate 96704 should be cancelled.

Now, therefore, it is ORDERED:

1. The proposed changes in place of use to the water rights evidenced by Certificates 92000, 80929 and 84803 are approved.
2. The places of use from which the water rights are transferred off by Transfer T-14132 shall no longer be irrigated, and are cancelled from Certificates 92000, 80929 and 84803.
3. The right to the use of the water at the place of use NOT modified by this order is restricted to beneficial and is subject to all other conditions and limitations contained in Certificates 92000, 80929 and 84803, and any related decree.
4. The portion of water right as which was requested to be cancelled on Certificate 15039, which is now described on superseding Certificate 96704, is cancelled on the water right evidenced as Certificate 96704. A new certificate, being Certificate 96828, will be issued describing the portion of the Certificate 96704 NOT modified by this final order.
5. The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.
6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2024**. A Claim of Beneficial Use shall be submitted by EFID to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
7. Water right Certificates 92000, 80929 and 84803 are modified. After satisfactory proof of completion has been determined by the Department, superseding water right certificates will be issued when the Department determines it is necessary for record keeping.

Ok, so the little box marked on T-13957 wasn't part of the transfer, correct? There is nothing you either of us need to do. 😊

Hi Ann,

It is not a duplicate. Different tax lots and owners. I had the area marked on the earlier map from T-13957 transfer, because it was pending "off". However, it was not transferred "off" until T-14132.

In hindsight, I should have changed the symbology on that area prior to submitting T-13957. I apologize for the confusion. I will be sure it doesn't happen on future transfers.

Please let me know if there's anything that needs to be done.

Hope you have a good week!

Hi Jaylene,

Bob Wood noticed that the 0.15 on Marquez may have already been removed on T-13957. I made a PDF of both maps. I wanted to double check with you. Ann

Date of Review: 01/30/2023

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☐ Yes ☒ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:

Regulation of the East Fork Hood River has not been necessary to date.
3. Have headgate notices been issued for the source that serves the transferred right(s)?
☐ Yes ☒ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☒ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☒ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☒ No If "Yes", explain:

10. For POU or USE changes: ☐ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

☐ Yes ☒ No If "Yes", explain:

11. For POU changes that involve micro-irrigation: ☒ N/A

a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☐ Yes ☒ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No If "Yes", explain:
- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No If "No", explain:
- iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain:
- iv. Do you have any other observations regarding the temporary transfer? ☐ Yes ☐ No If "Yes", describe:
- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- c. To the best of your knowledge, if this transfer is approved, does it appear that:

- i. "Injury" will occur to other water rights that share the same source?

☐ Yes ☒ No If "Yes", explain:

- ii. "Enlargement" of the water right being transferred will occur?

☐ Yes ☒ No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☒ Yes ☐ No If "Yes", explain:

Marquez "Off"- T-13957 shows this POU already removed. Possible map error on T-13957?
Ramirez "On" C-96704 overlaps with proposed POU. Partial cancellation of C-96704 needed.

13. What alternatives may be available for addressing any issues identified above:

See Question 12, above.

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☒ No ☐ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☐ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a **totalizing flow meter***, or, with prior approval of the Director, another suitable measuring device, ☐ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install **staff gages***, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir
☐ Parshall Flume
☐ Other: _____

☐ Submerged Orifice
☐ Flow Restrictor

Affidavit of Voluntary Cancellation or Diminution of a Water Right Certificate

VOLUNTARY CANCELLATION is how the legal holder(s) of a water right certificate may cancel an abandoned water right or an abandoned portion of a water right. Abandonment means water use has or will have ceased under the cancellation. A cancellation can apply to an entire certificate or to a specific place of use and acreage. The rate of water must be proportionately cancelled to match the portion of the right being cancelled. If a certificate is partially cancelled, a remaining water right certificate will be issued describing the uncanceled portion.

[see also Oregon Revised Statue (ORS) 540.621 and Administrative Rule (OAR) 690-017-0100.]

VOLUNTARY DIMINUTION is how the legal holder(s) of a water right certificate may diminish an entire water right or a portion of it from a primary purpose to a supplemental purpose. The overall authorized rate of water on the certificate will remain the same, but the proportions between primary use and supplemental use will change. In the diminution process, the originating water right will be cancelled, and a new water right will be issued describing the diminution. [see also Oregon Administrative Rule (OAR) 690-330-0040.]

Describe in your own words what you want to accomplish with this affidavit: I am the legal owner of property and wish to cancel a portion of creek rights appurtenant to the land in order to have East Fork Irrigation District water rights on the property. Remaining tax lots on C15039 will not be impacted.

WARNING

1. Unless Purchasers provide Seller with evidence of the insurance coverage as required by this contract, Seller may purchase insurance at Purchasers' expense to protect Seller's interest. This insurance may, but need not, also protect Purchasers' interest. If the collateral becomes damaged, the coverage Seller purchases may not pay any claim Purchasers make or any claim made against Purchasers. Purchasers may later cancel this coverage by providing evidence that Purchasers have obtained property coverage elsewhere.
2. Purchasers are responsible for the cost of any insurance purchased by Seller. The cost of this insurance may be added to Purchasers' contract balance. If the cost is added to Purchasers' contract balance, the interest rate on the underlying contract will apply to this added amount. The effective date of coverage may be the date Purchasers' prior coverage lapsed or the date Purchasers failed to provide proof of coverage.
3. The coverage Seller purchases may be considerably more expensive than insurance Purchasers can obtain on Purchasers' own and may not satisfy any need for property damage coverage or any mandatory liability insurance requirements imposed by applicable law.

Purchasers shall be entitled to possession of the premises as of the 15th day of July 2016.

all liens and encumbrances, except as above provided and those placed upon the property or suffered by Purchasers subsequent to the date of this agreement. Seller shall also forthwith deliver to AmeriTitle, Inc., as escrow agent, letter escrow instructions directing escrow agent to deliver the said Statutory Warranty Deed to Purchasers upon payment of the entire purchase price for the property, as provided herein, and performance of all other terms, conditions and provisions hereof.

Upon recordation of the declaration of forfeiture required by Oregon law, this agreement shall be extinguished and cancelled, and all right, title and interest of Purchasers shall revert to and revert in Seller without any act of re-entry or without any other act by Seller to be performed, and Purchasers shall peaceably surrender the property to Seller.

Purchasers shall not be deemed in default for failure to perform any covenant or condition of this contract, other than the failure to make payments as provided for herein, until notice of said default has been given by Seller to Purchasers and Purchasers shall have failed to remedy said default within thirty (30) days after the giving of the notice. Notice for this purpose shall be deemed to have been given by the deposit in the mails of a certified letter containing said notice and addressed to Purchasers at 1505 NE 52nd Ave, Portland, OR 97213 (MRS)
1445 Mosier Rd, Hood River, OR 97031 (JLZ). If Purchasers shall fail to make payment as herein provided and said failure shall continue for more than fifteen (15) days after the payment becomes due, Purchasers shall be deemed in default and Seller shall not be obligated to give notice to Purchasers of a declaration of said default.

In the event that a suit or action is brought to foreclose this contract or to enforce any of the covenants and conditions contained herein, the prevailing party shall receive, in addition to all other costs and disbursements provided by law, such sum of money as the Court shall adjudge reasonable as attorney's fees in said suit or action, including attorney's fees and costs on appeal.

Purchasers certify that this contract of purchase is accepted and executed on the basis of Purchasers' own examination and personal knowledge of the premises and opinion of the value thereof; that no attempt has been made to influence Purchasers' judgment; that no representations as to the condition or repair of said premises have been made by Seller or by any agent of Seller; that no agreement or promise to alter, repair, or improve said premises has been made by Seller or by any agent of Seller; and that Purchasers take said property and any improvements thereon in the condition existing at the time of this agreement, "AS IS." Purchasers acknowledge that there have been no representations made by Seller or Seller's agents as to the zoning which is presently on the above described property and that no representations have been made as to the uses which are allowable for this property.
