#### BEFORE THE WATER RESOURCES DEPARTMENT OF THE STATE OF OREGON

)

)

In the Matter of Permit Amendment T-14146, Lane County FINAL ORDER APPROVING AN ADDITIONAL POINT OF APPROPRIATION

#### Authority

Oregon Revised Statute (ORS) 537.211 establishes the process in which a water right permit holder may submit a request to change the point of appropriation and place of use authorized under an existing water right permit.

#### Applicant

CITY OF FLORENCE ATTN: MIKE MILLER 250 HWY 101 FLORENCE, OR 97439

#### **Findings of Fact**

- On January 13, 2023, CITY OF FLORENCE, ATTN: MIKE MILLER, filed an application to add an additional point of appropriation under Permit G-16885. The Department assigned the application number T-14146.
- On January 19, 2012, the Department approved Permit Amendment T-11282, recorded as Special Order Volume 85, Page 957, approving an additional point of appropriation, identified as Well 13. The final order and superseding permit G-16885 contained a scrivener's error in the description of the QQ location, which appears in bold below:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
18 S	12 W	WM	23	NW NE	WELL 13 - 1490 FEET SOUTH AND 2080 FEET WEST FROM THE NE CORNER OF SECTION 23

The correct location of Well 13 is as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
18 S	12 W	WM	23	SW NE	WELL 13 - 1490 FEET SOUTH AND 2080 FEET WEST FROM THE NE CORNER OF SECTION 23

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

- 3. On September 29, 2020, the Department approved a Water Management and Conservation Plan (WMCP), recorded at Special Order Volume 117, Pages 607-608. The approved plan contains the following Development Limitation: The limitation of the diversion of water under Permit G-16885 established in the Final Order approving the City's previous WMCP issued on April 9, 2010, is now modified. Subject to other limitations or conditions of the permit, therefore, the City of Florence is now authorized to divert only up to 2.4 CFS (out of the total permitted 3.0 CFS) of water under Permit G-16885.
- 4. On August 11, 2023, pursuant to ORS 537.260 and OAR 690-320-0040(5), the Department approved the partial perfection of 2.4 CFS under Permit G-16885, recorded at Special Order Volume 128, Pages 831-832. Confirming Certificate 97298 was issued as a result of the approval of the partial perfection of Permit G-16885.
- Notice of the application for the permit amendment was published in the Department's weekly notice on January 24, 2023, and in the Siuslaw News newspaper on September 25 and October 2, 2024, pursuant to ORS 540.520(5).
- On October 16, 2024, the Department contacted the agent for the applicant via phone regarding a deficiency in the application map, specifically Well 13 is described and mapped in the SW NE of T18S, R12W, Section 23.
- 7. Permit Amendment Application T-14146 proposes an additional point of appropriation with the following approximate distances from the existing points of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Distance from Authorized Points of Appropriation
18 S	12 W	WM	23	SW NE	WELL 14 - 2480 FEET SOUTH AND 1500 FEET WEST FROM THE NE CORNER OF SECTION 23	Well 8- 520 FEET NORTH Well 9- 560 FEET SOUTH Well 10- 1150 FEET SOUTH Well 11- 1640 FEET SOUTH Well 12- 2100 FEET SOUTH Well 13- 1190 FEET SOUTHWEST

#### Permit Amendment Review Criteria

- 8. The change would not result in injury to other water rights.
- 9. The change does not enlarge the permit.
- 10. The change does not alter any other terms of the permit.

#### **Conclusions of Law**

The additional point of appropriation proposed by Permit Amendment Application T-14146 is consistent with the requirements of ORS 537.211.

#### Now, therefore, it is ORDERED:

- 1. The additional point of appropriation proposed by Permit Amendment Application T-14146 is approved.
- Approval of this permit amendment application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of appropriation.
- 3. Permit G-18896, in the name of CITY OF FLORENCE, is issued to replace Permit G-16885, and incorporates the amendment approved by this order and the Water Management and Conservation Plan. Permit G-16885, in the name of CITY OF FLORENCE, is no longer of any force or effect.
- 4. The combined quantity of water diverted at the new additional point of appropriation (Well 14), together with that diverted at the original points of appropriation (Wells 8, 9, 10, 11, 12, and 13), shall not exceed the quantity of water lawfully available at the original points of appropriation (Wells 8, 9, 10, 11, 12, and 13).
- 5. Water use measurement conditions:
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
  - b. The water user shall maintain the meters or measuring devices in good working order.
  - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
- Water shall be acquired from the same aquifer as the original points of appropriation (Wells 8, 9, 10, 11, 12, and 13).
- 7. All other terms and conditions of Permit G-18896 remain the same.

Water Resources Department

PERMIT G-18896

#### AUTHORIZED PLACE OF USE:

MUNICIPAL USE

WITHIN THE SERVICE AREA BOUNDARY OF THE CITY OF FLORENCE

#### Permit Amendment T-14146 Conditions:

The combined quantity of water diverted at the new additional point of appropriation (Well 14), together with that diverted at the original points of appropriation (Wells 8, 9, 10, 11, 12, and 13), shall not exceed the quantity of water lawfully available at the original points of appropriation (Wells 8, 9, 10, 11, 12, and 13).

Water use measurement conditions:

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
- b. The water user shall maintain the meters or measuring devices in good working order.
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer as the original points of appropriation (Wells 8, 9, 10, 11, 12, and 13).

#### Permit Amendment T-11282 Conditions:

The combined quantity of water diverted at the new point of appropriation (Well 13), together with that diverted at the old points of appropriation (Wells 8, 9, 10, 11, and 12), shall not exceed the quantity of water lawfully available at the original points of appropriation (Wells 8, 9, 10, 11, and 12).

Prior to the water use from the proposed point of appropriation, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or other measuring device in good working order, and shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.

The permittee shall allow the watermaster access to the meter or measuring device; provided, however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer as the original points of appropriation (Wells 8, 9, 10, 11, and 12).

#### WMCP Conditions:

Duration of Plan Approval:

The City of Florence Water Management and Conservation Plan is approved and shall remain in effect until September 10, 2030, unless this approval is rescinded pursuant to OAR 690-086-0920.

**Development Limitation:** 

The limitation of the diversion of water under Permit G-16885 established in the Final Order approving the City's previous WMCP issued on April 9, 2010, is now modified. Subject to other limitations or conditions of the permit, therefore, the City of Florence is now authorized to divert only up to 2.4cfs (out of the total permitted 3.0 cfs) of water under Permit G-16885.

Plan Update Schedule:

The City of Florence shall submit an updated plan meeting the requirements of OAR Chapter 690, Division 086 (effective November 1, 2002) within 10 years and no later than March 10, 2030.

Progress Report Schedule:

The City of Florence shall submit a progress report containing the information required under OAR 690-086-0120(4) by September 10, 2025.

Other Requirements for Plan Submittal:

The deadline established herein for the submittal of an updated Water Management and Conservation Plan (consistent with OAR Chapter 690, Division 086) shall not relieve the City of Florence from any existing or future requirement(s) for submittal of a Water Management and Conservation Plan at an earlier date as established through other final orders of the Department.

#### **Original Permit Conditions:**

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Application G-15295/T-14146.shp

Water Resources Department

PERMIT G-18896

Within THREE years of permit issuance, the permittee shall submit a Water Management and Conservation Plan consistent with OAR Chapter 690, Division 86. The Director may approve an extension of this timeline to complete the required Water Management and Conservation Plan.

The City of Florence shall submit an updated Water Management and Conservation Plan no later than April 9, 2020, and shall submit a progress report containing the information required under OAR 690-086-0120(4) by April 9, 2015.

Mitigation Condition #1: During the period October 16 through October 31 of each year after this permit is first exercised, the City will deliver to the wetlands adjacent to Munsel Creek the equivalent of 26% of the average pumping rate under this permit for the previous June, July, August, and September.

Mitigation Condition #2: Any time this permit is being exercised, all clarified backwash water from the City's water treatment plant will be diverted to wetlands adjacent to Munsel Creek.

Nothing in this permit shall be construed to allow any person to trespass on the lands of another person.

#### STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2025. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Right Examiner (CWRE).

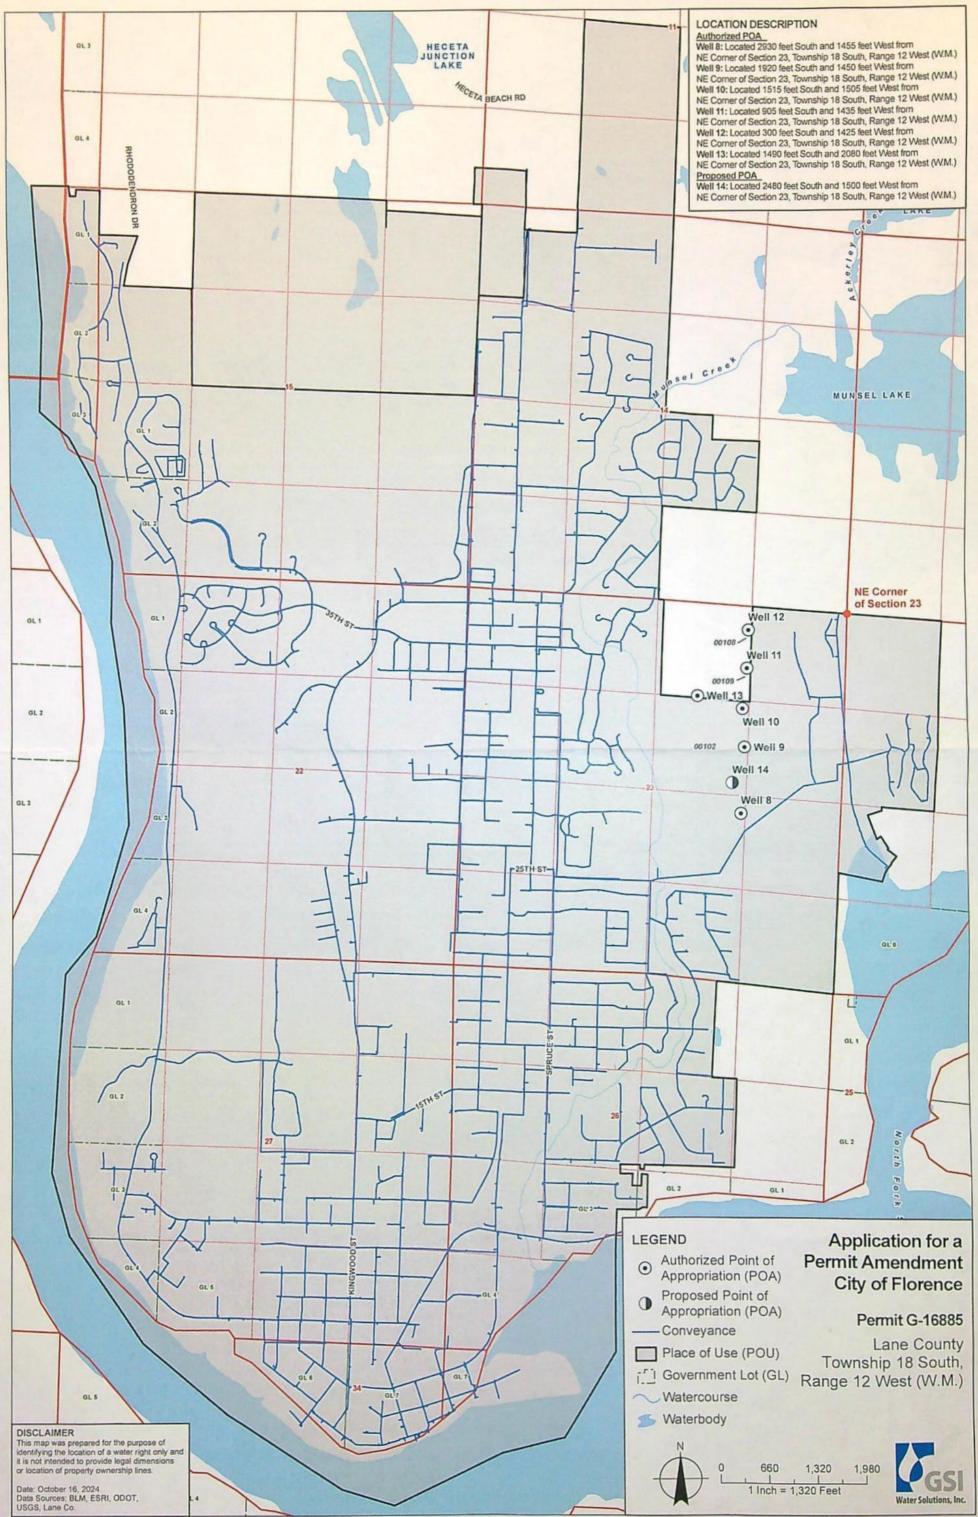

Issued JAN 2 8 2025

CITY OF FLORENCE ATTN MIKE MILLER 250 HWY 101 FLORENCE, OR 97439

SUBJECT: Permit Amendment Application T-14146

Your Permit Amendment application requires publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the permit is located. The Department will publish the notice in the Siuslaw News newspaper upon receiving your payment for the notice.

At this time you need to:

- Submit a check for \$70.06 (to cover cost\* of publication of the notice), made out to the Oregon Water Resources Department.
- 2. Write "for T-14146 NOTICE" on the front of your check, and
- 3. Submit it with the tracking stub at the bottom of this letter.

\*<u>PLEASE NOTE</u>: As outlined in OAR 690-380-4020(3), publication costs include both the direct cost of the notice and indirect processing costs (not to exceed 20% of the direct costs) for processing.

Mail the check to 725 Summer St. NE, Suite A, Salem, OR 97301-1266, no later than September 30, 2024.

Upon receipt of your check, processing will continue on the permit amendment application. If we do not receive payment for newspaper notice by September 30, 2024, a Final Order may be issued denying the application as incomplete.

### **Groundwater Transfer Review Summary Form**

#### Transfer/PA # T- 14146

GW Reviewer Phillip I. Marcy Date Review Completed: 12/06/2023

#### Summary of Same Source Review:

The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

#### Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

#### Summary of GW-SW Transfer Similarity Review:

The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

2.						he existing authorized POA? nal sand aquifer.	
3.		ore than one	e source de	eveloped und	er the right (e.g	g., basalt and alluvium)?	
	b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.):						
4.	a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another ground water right?						
	☐ Yes						
	<ul> <li>b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?</li> <li>Yes  No If yes, explain: <u>NA</u></li> </ul>						

٩

4

Ground Water Review Form

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

Yes No Comments: The proposed APOA location is not notably closer to any surface water source than any authorized well under Permit G-16885.

b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: NA

Minimal 
 Significant

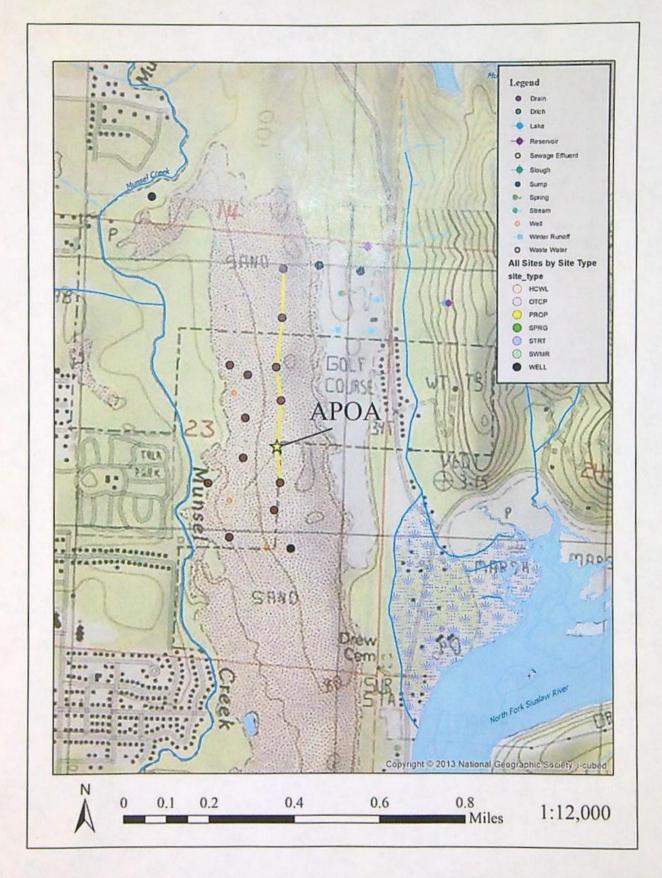

Provide context for minimal/significant impact: NA

6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

Yes No Comments: NA

- What conditions or other changes in the application are necessary to address any potential issues identified above: <u>None</u>
- 8. Any additional comments:

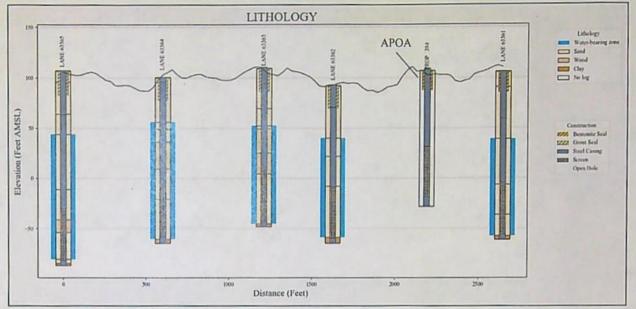

#### Ground Water Review Form

1

#### Ground Water Review Form

4

All authorized wells nearby produce from unconfined sands and wood debris above a lower permeability clay horizon. The proposed APOA well targets the same elevation range.

Transfer Application

Watermaster Review Form

#### Oregon Water Resources Department Watermaster Review Form: 725 Summer St NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 Water Right Transfer www.oregon.gov/OWRD Transfer Application: T-14146 **Review Due Date:** Applicant Name: City of Florence POU POD V POA USE OTHER Proposed Changes: Reviewer(s): L. Blakely Date of Review: 02/09/2023 Do you have evidence that the right has not been used in the last 5 years and that the presumption of 1. forfeiture would not likely be rebuttable? Yes 🖌 No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.) Is there a history of regulation on the source that serves this (or these) right(s) that has involved the 2. transferred right(s) and downstream water rights? Yes V No Generally characterize the frequency of any regulation or explain why regulation has not occurred:

Have headgate notices been issued for the source that serves the transferred right(s)?
 Yes No Records not available.

- 4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? Yes Yes No If "Yes", explain:
- 5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? Yes Voor If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

- For instream transfers that propose protection of a reach beyond the mouth of the source stream:
   N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)?
   Yes
- 9. For POU changes: N/A Is it likely the original place of use would continue to receive water from the same source? Yes No If "Yes", explain:
- 10. For POU or USE changes: N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

Yes No If "Yes", explain:

#### 11. For POU changes that involve micro-irrigation: V/A

a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer? Yes No If "Yes", answer the following: 1 i. Were there any problems with more acres being irrigated (or wetted) than No If "Yes", explain: were authorized under the temporary transfer? Yes ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? Yes No If "No", explain: iii. Did the applicant comply with and meet all of the conditions of the temporary No If "No", explain: transfer? Yes iv. Do you have any other observations regarding the temporary transfer? If "Yes", describe: No Yes v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? No If "No", explain: Yes c. To the best of your knowledge, if this transfer is approved, does it appear that: i. "Injury" will occur to other water rights that share the same source? Yes No If "Yes", explain: ii. "Enlargement" of the water right being transferred will occur?
  - Yes No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

```
Yes 🖌 No If "Yes", explain:
```

- 13. What alternatives may be available for addressing any issues identified above:
- 14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? No 🖌 Yes, as checked and provided below:
  - For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

A Headgate should be required prior to diverting water.

Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install a <u>totalizing flow meter</u>\*, or, with prior approval of the Director, another suitable measuring device, at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation

with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install <u>staff qaqes</u>\*, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.

**b.** Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

\* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

Weir
Parshall Flume
Other:

Submerged Orifice Flow Restrictor

#### **Oregon Water Resources Department**

#### Measurement Condition Information for the Applicant

(To be sent with the Draft Preliminary Determination or Final Order)

Transfer #: T- 14146

In order to avoid enlargement of the right or injury to other rights, a totalizing flowmeter will be required to be installed **prior to diversion of water**, as a condition of this transfer:

at each point of diversion/appropriation (new and existing) **OR** at each new point of diversion/appropriation.

For additional information, or to obtain approval of a different type of measurement device, the applicant should contact the area Watermaster:

Watermaster name: Lanaya Blakely

District: 2

Address: 125 E 8th Ave

City/State/Zip: Eugene, OR 97401

Phone: 541-913-1154

Email: lanaya.f.blakely@water.oregon.gov

**Note**: If a device other than the one specified in the Preliminary Determination or Final Order is approved by the Watermaster, fill out and mail the form below to the Salem office.

#### Approval of an Alternate Measurement Device T-

(to be filled out after consultation with the applicant, or after a site visit)

On behalf of the Director, I authorize use of the following suitable alternate measurement device:

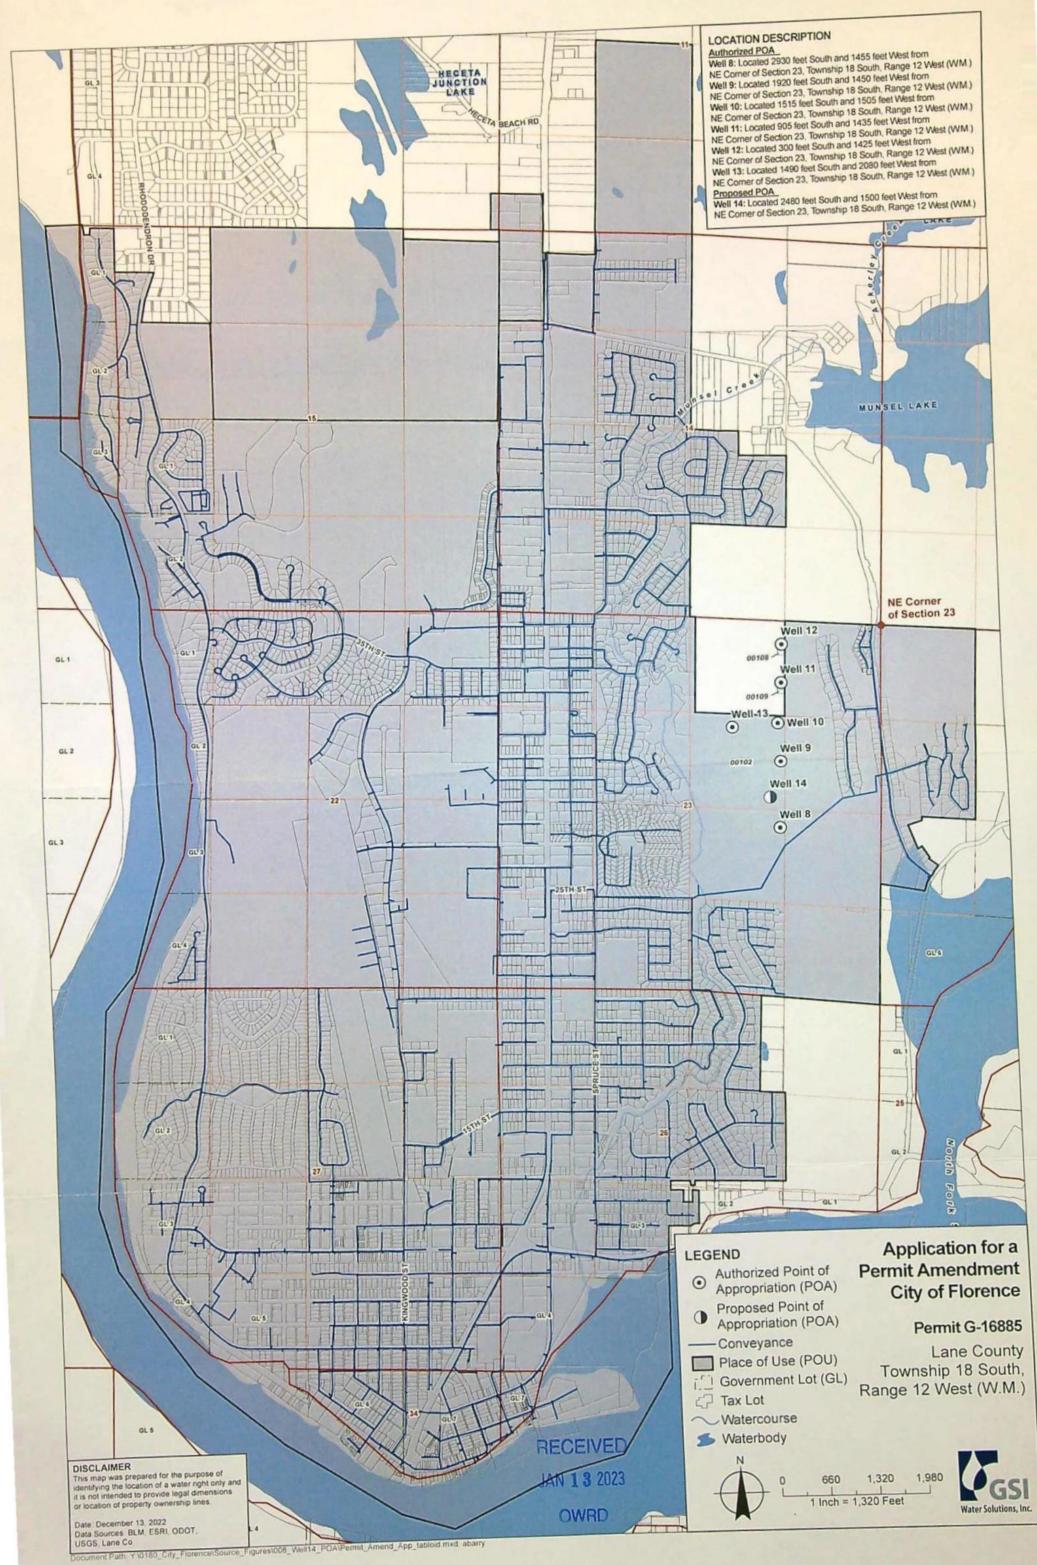

Watermaster signature

District

Date

If this form is used for approval of an alternative measurement device, it must be mailed to:

Your permit amendment application will be returned if any of the map requirements listed
below are not met.

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does not have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

RECEIVED

- N/A If more than three permits are involved, separate maps for each permit.
  - Permanent quality printed with dark ink on good quality paper.

OWRD

JAN 1 3 2023

- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.

 $\boxtimes$ 

 $\boxtimes$ 

- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been preapproved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water use permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the permit is being changed, a separate hachuring is needed for the portion of the permit left unchanged.
- N/A If you are proposing a change in place of use, show the proposed place of use with hachuring that includes separate hachuring for each permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
  - Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water use permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example 42.53764°).

 $\boxtimes$

	FEE WORKSHEET for PERMIT AMENDMENT					
1	Base Fee (includes one type of change to one permit for up to 1 cfs)	1	\$1,360			
	Types of change proposed: Place of Use Point of Diversion/Appropriation Number of above boxes checked = 1 (2a)					
2	Subtract 1 from the number in line 2a = 0 (2b) <i>If only one change, this will be 0</i> Multiply line 2b by \$1090 and enter » » » » » » » » » » » » » » » » » » »	2	0			
3	Number of permits included in Permit Amendment 1 (3a)         Subtract 1 from the number in 3a: 0 (3b)         If only one permit this will be 0         Multiply line 3b by \$610 and enter >>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>>	3	0			
	Do you propose to add or change a well, or change from a surface water POD to a well? No: enter 0 Yes: enter \$480 for the 1 <sup>st</sup> well to be added or changed <u>\$480 (4a)</u>					
4	Do you propose to add or change additional wells? No: enter 0 Yes: multiply the number of additional wells by \$410 (4b) Add line 4a to line 4b and enter » » » » » » » » » » » » » » » » » » »	4	\$480			
	Do you propose to change the place of use? No: enter 0 on line 5	RE	CEIVE			
	Yes: enter the cfs for the portions of the permits to be amended (see below*): (5a) Subtract 1.0 from the number in 5a above: (5b)	JA	N <b>1 3</b> 202			
-	If 5b is 0, enter 0 on line 5 » » » » » » » » » » » » » » » » » »	-	OWRD			
5	by \$350, then enter on line 5 » » » » » » » » » » » » » » » » » »	5	0 \$1,840			
0	Is this permit amendment: necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat?	0	¥1,040			
-	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7	-				
7 8	If no box is applicable, enter 0 on line 7» » » » » » » » » » » » » » » » » » »	7	0 \$1,840			

\*Example for Line 5a calculation to transfer 45.0 acres of Primary Permit S-12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Permit S-87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each permit involved as follows:

- a. Divide total authorized cfs by total acres in the permit (for S-12345, 1.25 cfs ÷100 ac); then multiply by the number of acres to be changed to get the application cfs (x 45 ac= 0.56 cfs).
- b. If the water right permit does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For S-87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of permits on all the land included in the application; however do not count cfs for supplemental permits on acreage for which you have already calculated the cfs fee for the primary permit on the same land. The fee should be assessed only once for each "on the ground" acre included in the application. (In this example, blank 5a would be only 0.56 cfs, since both permits serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):

Place of Use (POU)

Point of Diversion (POD)

Point of Appropriation/Well (POA)

1000

- Additional Point of Diversion (APOD)
- Additional Point of Appropriation (APOA)

Surface water POD to Ground Water POA (SW/GW)

#### Will all of the proposed changes affect the entire water use permit?

- Yes Complete only the proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- No Revised 7/1/2021

Complete all of Table 2 to describe the portion of the permit to be changed. Permit Amendment Application – Page 6 of 9

TACS

Please use and attach additional pages of Table 2 as needed. See page 6 for instructions.

#### Table 2. Description of Changes to Water Use Permit # G-16885

List the change proposed for the acreage in each ¼ ¼. If more than one change is proposed, specify the acreage associated with each change. If there is more than one POD/POA involved in the proposed changes, specify the acreage associated with each POD/POA.

Additional remarks: There is a partial perfection COBU pending for 2.4 cfs of the 3.0 cfs authorized under Permit G-16885.

RECEIVED JAN 1 3 2023 OWRD

### For a change in place of use:

# Does the permit holder of record own or control the land TO which the place of use is being moved?

If NO, the landowner of the land TO which the place of use is being **moved must be assigned to the permit** as a permit holder of record by submitting a completed Request for Assignment form and the required statutory fee for an assignment.

# Is the proposed place of use contiguous to the authorized place of use? Yes No -N/A

The permitted place of use can be moved only to lands that are contiguous to the authorized place of use **unless** the change to non-contiguous lands is in furtherance of mitigation or conservation efforts undertaken for the purposes of benefiting a species listed as sensitive, threatened, or endangered under ORS 496.171 to 496.192 or the federal Endangered Species Act of 1973 (16 U.S.C. 1531 to 1544), as determined by the listing agency. Contiguous land being either adjacent land or land separated from the land to which a permit is authorized by roads, utility corridors, irrigation ditches or publicly owned rights of way.

JAN 1 3 2023 OWRD Are there other water rights certificates, water use permits or ground water registrations associated with the "from" or "to" lands? 
Yes No N/A - Permit G-16885 is for municipal use so "layering" does not apply.

If YES, list the other certificate, permit, or ground water registration numbers: \_\_\_\_

If the permit(s) are for irrigation or supplemental irrigation use, other water rights existing on the same land for irrigation that are subject to transfer must either change concurrently or be cancelled. Any change to a water right certificate or ground water registration must be filed separately in a water right transfer application or ground water registration modification application, respectively.

## For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. <u>See Attachment D.</u>

## AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

## Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Application G-15295/T-11282.pks

Water Resources Department

**PERMIT G-16885** 

## AUTHORIZED PLACE OF USE:

MUNICIPAL USE

WITHIN THE SERVICE AREA BOUNDARY OF THE CITY OF FLORENCE

The combined quantity of water diverted at the new point of appropriation (Well 13), together with that diverted at the old points of appropriation (Wells 8, 9, 10, 11, and 12), shall not exceed the quantity of water lawfully available at the original points of appropriation (Wells 8, 9, 10, 11, and 12).

Water shall be acquired from the same aquifer as the original points of appropriation (Wells 8, 9, 10, 11, and 12).

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Within THREE years of permit issuance, the permittee shall submit a Water Management and Conservation Plan consistent with OAR Chapter 690, Division 86. The Director may approve an extension of this timeline to complete the required Water Management and Conservation Plan.

The City of Florence shall submit an updated Water Management and Conservation Plan no later than **April 9, 2020**, and shall submit a progress report containing the information required under OAR 690-086-0120(4) by **April 9, 2015**.

Mitigation Condition #1: During the period October 16 through October 31 of each year after this permit is first exercised, the City will deliver to the wetlands adjacent to Munsel Creek the equivalent of 26% of the average pumping rate under this permit for the previous June, July, August, and September.

Mitigation Condition #2: Any time this permit is being exercised, all clarified backwash water from the City's water treatment plant will be diverted to wetlands adjacent to Munsel Creek.

Nothing in this permit shall be construed to allow any person to trespass on the lands of another person.

# RECEIVED

JAN 1 3 2023

Application G-15295/T-11282.pks

Water Resources Department

OWRD

PERMIT G-16885

## STANDARD CONDITIONS

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The Director finds that the proposed use of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Complete application of the water to the use shall be made on or before October 1, 2025. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Right Examiner (CWRE).

Water Resources Department

# Land Use Information Form

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

# NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

#### This form is NOT required if:

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and <u>all</u> of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; <u>and</u>
  - d) The application involves irrigation water uses only.

# NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

#### REIMBURSEMENT AUTHORITY APPLICANT'S AGREEMENT Contract Number: R11-471-25

NOV 27 2023

OWRD

This Agreement is between the Oregon Water Resources Department, hereafter OWRD, and City of Florence, hereafter Applicant, hereafter known together as the parties.

OWRD	Information	Applica	nt's Information	Applicant	s Representative
Contact:	Kelly Starnes	Name:	City of Florence	Name:	GSI Water Solutions, Inc
Title:	Transfer Advisor	Contact:	Mike Miller	Contact:	Adam Sussman
Address:	725 Summer Street, NE, Suite A	Address:	250 HWY 101	Address:	1600 SW Western Blvd.
	Salem, OR 97301-1266		Florence, OR 97439		Corvallis, OR 97333
Phone:	503 979-3511	Phone:	(541) 997-4106	Phone:	(541) 257-9001
Fax:	503 986-0901	Fax:		Fax:	
Email:	patrick.k.starnes@water.oregon.gov	Email:	mike.miller@ci.florence.or.us	Email:	asussman@gsiws.com

Purpose The purpose of this Agreement is to expedite the processing of the Transfer Application. (Application Number: T-14146)

- Authority. The OWRD has been authorized pursuant to ORS 536.055 to enter into a voluntary agreement with any
  applicant, permittee or regulated entity (collectively Applicant) for expediting or enhancing a regulatory process. In
  making this agreement, OWRD shall require the applicant to pay the full cost of expedited process.
- Restrictions. Applicant and OWRD agree that this Agreement shall not be construed to restrict in any way the decisions and actions by OWRD. OWRD shall be free to exercise independent judgment consistent with existing laws and regulations.
- Effective Date and Duration. Unless otherwise terminated by non-deposit of funds by the Applicant, this Agreement shall become effective on the date on which both parties have signed the Agreement and the full deposit of the estimated cost of the proposed service.
- 4. Consideration.
  - a. Applicant shall pay OWRD in advance for actual costs incurred by OWRD. The estimated maximum reimbursement payable to OWRD under this Agreement is \$1,632.10. Applicant agrees to pay the full amount of \$1,632.10 to OWRD prior to commencement of any work stated in this Agreement. This payment will be placed in an account administered by OWRD and drawn upon as costs are actually incurred. If the actual cost of performing the work is less than payments received, OWRD will refund the unspent balance. If the actual cost of processing exceeds the estimate, the Applicant can either elect to terminate this Agreement or amend the Agreement to reflect the increase in cost.
  - b. The costs stated in this Agreement do not include the statutory application processing and filing fees.
- Confidentiality. Applicant agrees that any information provided to or acquired by OWRD under this Agreement will be subject to the Oregon Public Records Law and shall be considered public records.
- 6. Indemnity. Applicant shall defend, save, hold harmless, and indemnify the State of Oregon, OWRD, and their officers, employees, and agents from and against all claims, suits, actions, losses, damages, liabilities, costs, and expenses of any nature resulting from or arising out of, or relating to the activities of Applicant or its representatives, officers, employees, contractors, or agents under this Agreement or with respect to the expedited service. The Applicant acknowledges that the Oregon Water Resources Department cannot and does not guarantee a favorable review under the subject regulatory process.

- 7. Termination. Applicant may request to terminate this agreement only in writing at anytime during the process. The Applicant agrees to pay for the work done by OWRD up until the time of the written termination request. OWRD, upon receiving such written termination request from the Applicant, will refund any unspent balance.
- 8. Funds Authorized and Available. By its execution of this Agreement, Applicants certify that sufficient funds are authorized and available to cover the expenditures contemplated by this Agreement.
- 9. Duration of Estimate. The Estimate of Time to completion is approximately 120 days once this Agreement has been fully executed and payment of the estimated cost deposited. If the Applicant's Agreement is not received by the Department within thirty (30) days of mailing the Agreement, the Applicant may need to re-apply for a new estimate. NOTE: Any time estimate is approximate; No guarantee of Final Order issuance of a date is certain. Duration estimates do not include any statutory waiting periods.
- 10. Completion Date. OWRD, by the execution of this Agreement does not guarantee the completion date indicated in this Agreement. Completion date is only an estimate and may be affected by the Department's workload, issues arising from the processing of the requested services and Applicant's timely response to requests for additional information.
- 11. Captions. The captions or headings in this Agreement are for the convenience only and in no way define, limit, or describe the scope, or intent, of any provision of this Agreement.
- 12. Amendment and Merger. The terms of this Agreement shall not be waived, altered, modified, supplemented, or amended in any manner whatsoever, except by written instrument signed by both parties. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. There are no understandings, agreements or representations, oral or written, not specified herein regarding this Agreement.
- 13. Signatures. All parties, by the authorized representative's signature below, hereby acknowledge that they have read this Agreement, understand it and agree to be bound by its terms and conditions.

By signing this application, I understand:

- That upon receipt of my non-refundable application fee of <u>\$125.00</u>, OWRD will, within fourteen (14) days, notify me in writing of the estimate of costs and time frame for the expedited service.
- That this fee covers the reimbursement authority staff to evaluate and provide the estimate for processing of the request.
- That upon receiving the estimate, I may agree or decline to enter into a formal contract to pay the estimated cost in
  advance to initiate the expedited service.
- That an incomplete or inaccurate application may delay the process and increase the cost to process my request.
- That expedited processing does not guarantee a favorable review of my request.

I certify that I am the (check one):

CITY OF FLORENCE ATTN MIKE MILLER 250 HWY 101 FLORENCE, OR 97439

Reference: Application T-14146

On January 13, 2023, OWRD received your water right Permit Amendment Application. The application was accompanied by \$1840.00. Our receipt number 139921 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to our groundwater staff to determine whether the proposed well accesses the same source of water as the original well.

This application <u>may</u> require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of appropriation until a final order approving the application has been issued by the Department.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

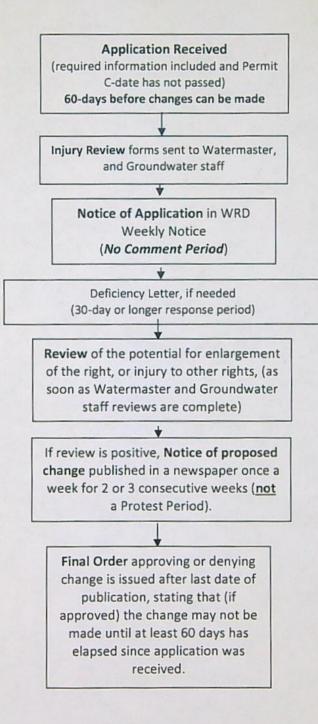

If you have any questions, please contact the Transfer Section at (503) 979-9931.

## Permit Amendment Process

ORS 537.211 Changes: POD/POA, Place of Use

RECEIVED JAN 1 3 2023 OWRD

January 11, 2022

Kelly Starnes Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, OR 97301

Dear Kelly:

GSI Water Solutions, Inc. (GSI) is submitting the enclosed permit amendment application on behalf of the City of Florence (City). The City is proposing to add an additional point of appropriation (Well 14) to Permit G-16885.

The permit amendment application and a check in the amount of \$1,840 for the application fee are enclosed. If you have any questions regarding this application, you can reach me at 541-753-0933.

Sincerely,

Good pure Usedor

Zach Pike-Urlacher Water Resources Consultant

CC: Mike Miller, City of Florence

Enclosures: Permit Amendment Application Check in amount of \$1,840

1. Is the name of the Permit Amendment applicant the same as the Water Right Permit holder(s) of record?

If not, one of the following must be included with the application:

- a) An affidavit of consent from all Permit holder(s) or the other Permit holders that have not signed the Permit Amendment application form, consenting to the proposed Permit Amendment application; OR,
- b) A completed Request for Assignment form (and statutory fee) to move all (or portion) of the permit into the Permit Amendment applicant's name.

If not, what is missing?

2. Page 1 of application: Are all attachments that have been checked actually included? If not, what is missing?

- - 4. Part 4 of application: Have all the applicants listed at the top of the page signed at the bottom?/ If not, whose signature is missing?
  - 5. Are the Permit completion date(s) current? If the Permit completion date has expired, we CANNOT accept the application.
  - 6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.

If #1, #2, #3, #4 or #5 on this checklist is deficient, the application CANNOT be accepted. It should be returned and the **deficiencies listed in the "staff" section at the bottom of** Application Page 1, unless the applicant or agent can resolve the deficiencies within 2-3 days.
