Groundwater Transfer Review Summary Form

Transfer/PA # T- <u>14226</u>
GW Reviewer Darrick E. Boschmann Date Review Completed: 12/08/2023
Summary of Same Source Review:
☐ The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).
Summary of Injury Review:
☐ The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as pe 690-380-0100(3).
Summary of GW-SW Transfer Similarity Review:
☐ The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.
This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

					on of the well construction proposed to be developed.
	Other				
	Basic descri	ption of the cha	anges proposed in	this transfer:	
	from three w for primary proposed: 1. Change 2. Change	vells (POD 1 = irrigation of 12 e HARN 51069	HARN 51764; PC 6.7 acres in the Ma to HARN 52418 to HARN 50318	D 2 = HARN 51069	es groundwater pumping 9; POD 3 = HARN 51541) The following changes are

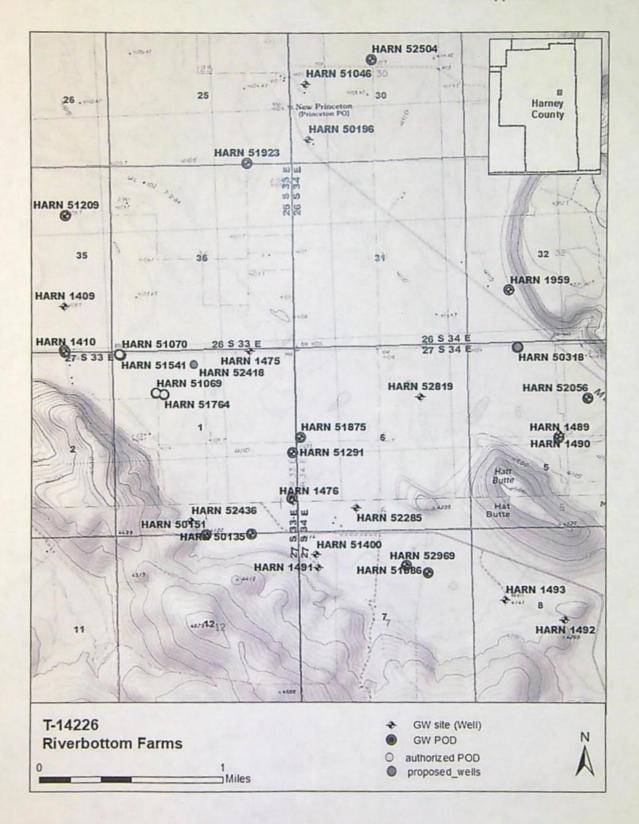

2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA? X Yes ☐ No Comments: The authorized and proposed wells develop groundwater occurring in the Younger basin fill and Voltage basalt hydrostratigraphic units. Groundwater occurs in multiple hydrostratigraphic units, and groundwater within these units is hydraulically connected, making a single groundwater system composed of multiple hydrostratigraphic units (Gingerich and others, 2022). In general, groundwater in the Harney Basin flows from several upland recharge areas to a common discharge area near Malheur and Harney Lakes, with some apparent discharge to the Malheur Basin through one area along the eastern margin. While the rocks and sediments making up the aquifer system in the Harney Basin do constitute a single groundwater flow system, sub-watersheds within the basin contribute recharge to different parts of the system depending on groundwater flow-paths from recharge to discharge areas. In general, within these sub-watersheds water within the aquifer system is sourced from a common recharge area and can therefore be considered a single source. The currently authorized wells and the proposed wells are all within the Virginia Valley area, where groundwater is flowing to the southeast toward the Malheur River basin 3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)? ☐ Yes ⊠ No b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another ground water right? X Yes ☐ No Comments: The proposed wells are located up to 2+ miles east of the currently authorized wells. This will result in an incremental increase in interference with wells to the east. b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled? ☐ Yes No If yes, explain: Any increase in interference with existing wells in these locations will not meet the standard for substantial or undue interference given the thickness of the aquifer system in the Harney Basin.

Ground Water Review Form

a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with another surface water source? Yes No Comments: There are no perennial surface water sources in the vicinity of the authorized or proposed wells. b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any surface water sources resulting from the proposed change? Stream: ☐ Minimal ☐ Significant ☐ Minimal ☐ Significant Stream: Provide context for minimal/significant impact: For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer? Yes No Comments:

- 7. What conditions or other changes in the application are necessary to address any potential issues identified above: none.
- 8. Any additional comments: none.

	b.	same I	temporary transfer of this nature been previously filed and approved on the ands (or portions thereof) as those lands involved in this transfer? No If "Yes", answer the following:
		i.	Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? Yes No If "Yes", explain:
		ii.	Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? Yes No If "No", explain:
		iii.	Did the applicant comply with and meet all of the conditions of the temporary transfer? Yes No If "No", explain:
		iv.	Do you have any other observations regarding the temporary transfer? Yes No If "Yes", describe:
		v.	Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? Yes No If "No", explain:
	c.	To the	best of your knowledge, if this transfer is approved, does it appear that:
		i.	"Injury" will occur to other water rights that share the same source? Yes No If "Yes", explain:
		ii.	"Enlargement" of the water right being transferred will occur? Yes No If "Yes", explain:
12.	in det	ermining	er issues not identified through the above questions that should be considered whether the change "can be effected without injury to other rights"?

13.	What alternatives may be available for addressing any issues identified above:
14.	Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? No Yes, as checked and provided below:
	For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:
	A Headgate should be required prior to diverting water.
	Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)
	a. Before water use may begin under this order, the water user shall install a totalizing flow meter*, or, with prior approval of the Director, another suitable measuring device, at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.
	b. The water user shall maintain the meters or measuring devices in good working order.
	c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
	Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)
	a. Before water use may begin under this order, the water user shall install <u>staff gages</u> *, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.
	b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.
	The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:
	Weir Submerged Orifice
	Parshall Flume Flow Restrictor
	Other:
	Outer

Transfer Cover Sheet Last Revised 1/26/2023

Water Resources Department

North Mall Office Building 725 Summer St NE, Suite A Salem, OR 97301 Phone 503 986-0900 Fax 503 986-0904

April 28, 2023

JAMES AND SUE GILMOUR 30427 SW STELLMACHER DR ALBANY, OR 97320

Reference: Application T-14226

On April 24, 2023, the Department received your water right Permanent Transfer Application. The application was accompanied by \$2930.00. Receipt number 140568 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to our groundwater staff to determine whether the proposed well accesses the same source of water as the original well.

This application <u>may</u> require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water in the new place of use or from the new point of appropriation until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0935.

Cc: Watermaster Dist. #10, J R. Johnson (via email)

Scott D. Montgomery, Agent

Harney County

Enclosure

Regular Transfer Process (including "Proving Up" on the changes)

OAR 690 Division 380

Application Received (required information included)

Injury Review forms sent to Watermaster, and

Groundwater staff and ODFW, as appropriate.

Notice of Application in WRD Weekly Notice (30-day Comment Period)

Review of the status of the right and the potential for enlargement or injury to other rights.

Draft Preliminary Determination

(WRD assessment of whether application should be approved or denied, considering injury review and any comments received) sent to applicant, with request for a report of ownership for the lands where the transfer right is.

Applicant Review of

Draft Preliminary Determination

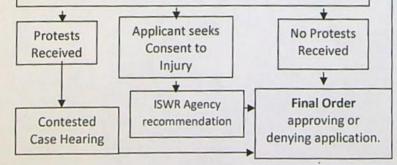

(Opportunity for applicant to submit a report of land ownership and modify or withdraw proposed transfer—at least 30 days

Preliminary Determination Issued

Notice of Preliminary Determination

in WRD Weekly Notice and, if statutorily required, in newspaper once a week for 2 or 3 consecutive weeks.

Protest Period ends 30 days after WRD notice, or 30 days after last date of newspaper publication, whichever is later.

Period for developing authorized changes begins as soon as an order is issued approving the changes. If the certificate has been cancelled the right goes into an inchoate state.

Deadline for completion of the changes.

The applicant must make full beneficial use under terms and conditions of the order by the deadline, request an extension of time, or inform the Department that the change is not intended to be completed.

If the applicant decides not to complete a change in POD/POA, the Department will issue an order reverting the right to the original POD/POA and issue a new certificate. However, if any other type of change is not completed, the transferred portion of the right is forfeited.

An order may be issued, granting an extension of time for completing the changes.

Applicant submits a Claim of Beneficial
Use prepared by a CWRE within one year
after the completion deadline or the date
of complete beneficial use. There is no
provision for extending the deadline for
submission of the Claim.

Water Right Services Division reviews the Claim, determines whether proof has been made and if so, issues a new certificate. Right is no longer inchoate, but perfected and subject to being transferred.

Application for Permanent Water Right Transfer

OREGON Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

RECEIVED

Part 1 of 5 – Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Check all items included with this application. (N/A = Not Applicable)APR 2 4 2023 X Part 1 – Completed Minimum Requirements Checklist. OWRD Part 2 – Completed Transfer Application Map Checklist. Part 3 - Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator. Part 4 - Completed Applicant Information and Signature. Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? 1 List them here: C 95966 Please include a separate Part 5 for each water right. (See instructions on page 6) NOTE: A separate transfer application is required for each water right unless the criteria in OAR 690-380-3220 are met. Attachments: Completed Transfer Application Map. Completed Evidence of Use Affidavit and supporting documentation. Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.) N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district. Oregon Water Resources Department's Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone. Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation. Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability. (For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Land Use Form not enclosed or incomplete Evidence of Use Form not enclosed or incomplete Additional signature(s) required _ is incomplete Other/Explanation Staff: 503-Date:

Part 2 of 5 - Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met.

	sure that the transfer application map you submit includes all the required items and ne existing water right map. Check all boxes that apply.
⊠ □ N/A	Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre-license-view/ . CWRE stamp and signature are not required for substitutions.
□ ⊠ N/A	If more than three water rights are involved, separate maps are needed for each water right
	Permanent quality printed with dark ink on good quality paper.
	The size of the map can be $8\% \times 11$ inches, $8\% \times 14$ inches, 11×17 inches, or up to 30×30 inches. For 30×30 inch maps, one extra copy is required.
	A north arrow, a legend, and scale.
	The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
	Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
	Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
	Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
ECEIVED	Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
OWRD	Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
□ □ N/A	Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
	Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
□ □ N/A	If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32'15.5''$) or degrees-decimal with five or more digits after the decimal (example -42.53764°).

	Part 3 Or 3 - ree	VVC	KSHEEL

2	Number of water rights included in transfer 1 (3a)	2	\$1,090
3	Subtract 1 from the number in 3a above: 0 (3b) If only one water right this will be 0 Multiply line 3b by \$610 and enter » » » » » » » » » » » » » » » » » » »	3	\$0
	Do you propose to add or change a well, or change from a surface water POD to a well? No: enter 0 Yes: enter \$480 for the 1 st well to be added or changed \$480 (4a)		
4	Do you propose to add or change additional wells? No: enter 0 Yes: multiply the number of additional wells by \$410 (4b) Add line 4a to line 4b and enter ** ** ** ** ** ** ** ** ** ** ** ** **	4	\$480
	Do you propose to change the place of use or character of use? No: enter 0 on line 5	RE	CEIVED
	Yes: enter the cfs for the portions of the rights to be transferred (see below*):0.14 (5a) Subtract 1.0 from the number in 5a above: -0.86 (5b)	APF	2 4 2023
	If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » » »	0	WRD
5	5c by \$410, then enter on line 5 » » » » » » » » » » » » » » » » » »	5	\$0
6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	\$2,930
	Is this transfer: necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat?		
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 »		
7	If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » » » »	7	
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » » Transfer Fee:	8	\$2,930

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs ÷100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$990.00
2	Number of wells included in substitution(2a) Subtract 1 from the number in 2a above:(2b) If only one well this will be 0 Multiply line 2b by \$480 and enter » » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above » » » » » Fee for Substitution:	3	

Part 4 of 5 - Applicant Information and Signature

Applicant Information

APPLICANT/BUSINESS NAME Riverbottom Farms/Jim & S	Sue Gilmour		PHONE NO. 541-979-4120	ADDITIONAL CONTACT NO.
ADDRESS 30427 SW Stellmacher Dr				FAX NO.
CITY	STATE OR	ZIP 97320	E-MAIL	

Agent Information – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME Scott D Montgomery/Al	Points Engr & Su	rveying, Inc	PHONE NO. 541-548-5833	ADDITIONAL CONTACT NO. 541-420-0401
ADDRESS PO Box 767				FAX NO.

Explain in your own words what you propose to accomplish with this transfer application, and why:

Propose to move corner areas, that are inconvient and inefficient to irrigate, to a new field watered by a

center pivot sprinkler only making the use of water more efficient and convenient.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check One Box

0	By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to
	Department approval of the transfer, I will be required to provide landownership information and evidence that I a
	authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR
	I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the
-	municipality or a predecessor; OR
L	I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

APR 2 4 2023

OWRD

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department
 for publication of a notice in a newspaper with general circulation in the area where the water right is located,
 once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing
 the notice in the following newspaper: <u>Burns Herald.</u>
- Amendments to the application may only be made in response to the Department's Draft Preliminary
 Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any
 issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be
 subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).

 Refunds may only be granted refund of all or part of a fee is of the Department.

CERTIFICATE OF WATER RIGHT

APR 2 4 2023

THIS CERTIFICATE ISSUED TO

OWRD

JUSTIN BOWEN STEPHANIE BOWEN 55288 HWY 78 BURNS OR 97720

confirms the right to the use of water perfected under the terms of Permit G-8527. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the well(s). The specific limits and conditions of the use are listed below.

SOURCE OF WATER: THREE WELLS, IN THE MALHEUR SLOUGH BASIN

PURPOSE OR USE: IRRIGATION OF 126.7 ACRES

MAXIMUM RATE: 0.85 CUBIC FEET PER SECOND

DATE OF PRIORITY: MARCH 29, 1979

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	33 E	WM	1	NE NW	WELL 4 (HARN 51764) ADDITIONAL - 1230 FEET SOUTH AND 1515 FEET EAST FROM NW CORNER, SECTION 1
27 S	33 E	WM	1	NW NW	WELL 3 (HARN 51069) ORIGINAL - 1195 FEET SOUTH AND 1291 FEET EAST FROM NW CORNER, SECTION 1
27 S	33 E	WM	1	NW NW	WELL 1 (HARN 51541) ADDITIONAL - 90 FEET SOUTH AND 235 FEET EAST FROM NW CORNER, SECTION 1

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year. The right to the use of water for the above purpose is restricted to beneficial use on the lands or place of use described.

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
27 S	33 E	WM	1	NENW		29.2
27 S	33 E	WM	1	NWNW		37.6

27 S	33 E	WM	2	NE NE	1	27.8

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

T-11706-cf-88919.jls

Page 1 of 2

Certificate 95966

The quantity of water diverted at the additional points of appropriation, together with that diverted at the original points of appropriation, shall not exceed the quantity of water lawfully available from the original points of appropriation described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	33 E	WM	1	NW NW	WELL 2 (HARN 51070) – 70 FEET SOUTH AND 285 FEET EAST FROM NW CORNER, SECTION 1

Water use measurement conditions:

- A. The water user shall maintain the totalizing flow meters or measuring devices, as approved by the Director, in good working order, at each point of appropriation (new and existing).
- B. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this water right, then use of water from the wells shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The water user shall ensure that the well has been assigned an OWRD Well Identification Number (Well ID tag), which shall be permanently attached to the well. The Well ID shall be used as a reference in any correspondence regarding the well, including any reports of water use, water level, or pump test data.

Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

This certificate is issued to confirm an ADDITIONAL POINT OF APPROPRIATION approved by an order of the Water Resources Director entered July 5, 2016, at Special Order Volume 101, Page 393, approving Transfer Application T-11706, supercedes Certificate 88919, State record of Water Right Certificates.

Permanent Transfer Application Intake Checklist

Last Revised: August 19, 2022 By: Lisa Jaramillo

Decision Tree: Can Multiple Water Rights be included in a Single Transfer Application?

OAR 690-380-3220 - General Criteria / OAR 690-380-2250 - Suppl Water Right or Permit / OAR 690-380-8020 - Temp Transfer Suppl WR

FOR DIV. 380 TRANSFERS: The following series of questions outlined in the flow chart below can be used to determine if separate transfer applications are required for each water right proposed for transfer. To qualify for including multiple water rights in a single application, a proposed transfer application must meet at least one of the exceptions outlined in OAR 690-380-3220(1)-(4).

- NOTE: Only water rights that meet the criteria of a "water use subject to transfer" under ORS 540.505 may be transferred in a Div. 380 Transfer, except as otherwise noted in OAR 540.510, OAR 690-380-2240, & OAR 690-380-2250. Permit Amendments & GR Modifications are administered under ORS 537.211(4) & OAR 690-382, respectively.
- "More than one landowner" does NOT mean two individuals who are married & are both a deeded owner of the parcel(s), nor a single Trust citing more than one name.
- Other considerations: The claim of beneficial use for all the water rights involved in a transfer will be evaluated at one time. The Department does not allow sequential or
 partial perfection of the rights changed through a water right transfer. As a result, the ability of a water right holder to obtain a certificate and/or apply for a subsequent
 transfer, including a temporary transfer, will be limited if the first transfer includes rights held by other parties who have not completed the authorized changes.
