Oregon Department of Fish and Wildlife Historic Point of Diversion Fish Screen Requirement Form

(ODFW provides to WRD so that WRD can make findings according to statutory requirements.)

Reference Transfer #: T-14636, Johnson Date of review: 5/6/25

Please check <u>one</u> of the following five boxes related to fish screen requirements pursuant to ORS 540.532:

[Select this option if the new Point of Diversion (POD) requires a fish screen <u>and</u> is currently equipped with an appropriate fish screen that will still be in compliance if the transferred water is diverted from this POD.]

Note: This option will yield the following:

<u>Finding of Fact:</u> The Oregon Department of Fish and Wildlife has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is currently equipped with an appropriate fish screen.

<u>Condition:</u> The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

*It is ODFW's understanding that there is an approved screen on the Weaver Johnson diversion (a 4 bay, with 10 ft by 30 inch drums) that should accommodate up to 32 CFS.

2. Screen Now

[Option 2 should generally be selected if fish species are present at the point of diversion and/or the originating water right diversion is currently screened. If Option 2 is selected, provide contact information on the "Fish Screening and Passage Information" sheet. The new diversion may be eligible for cost-share.]

Note: This option will yield the following:

<u>Finding of Fact:</u> The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

<u>Condition:</u> Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

	3. Screen 2 Year	
	[Option 3 may be checked if the change an existing POD in use for another was It should NOT be checked if fish species water right diversion is screened, costnot eligible for ODFW's cost-share processored and Passage Information" steeplain:	e is from an unscreened diversion to a HISTORIC POD or ter right, and cost-share funds are not currently available. as are present at the point of diversion, the originating share funds are currently available, or the diversion is ogram. Please provide contact information on the "Fish heet.] If extraordinary circumstances are present, please
	Note: This option will yield the following:	
	necessary at the new point of diversion to prevocurrently equipped with an appropriate fish scroriginating water right diversion is not screened diversion may be eligible for ODFW's cost-shat time as cost-share funds become available to as	sh and Wildlife (ODFW) has determined that a fish screen is ent fish from entering the diversion and that the diversion is not een. Listed fish species are not present at the point of diversion, the d, cost-share funds are not currently available, and the proposed are program. A grace period of two years is appropriate until such essist in the construction of a fish screen. If cost-share funds do not within the indicated time period regardless of the availability of cost-
	approved fish screen at the new point of divers	ars after the date of this order] the water user shall install an ion. The water user shall provide to OWRD a written statement from (W) that the installed screen meets the state's criteria, or that ODFW
	The water user shall maintain and operate the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.	
	4. Screen Future [Use this option if fish are not currently present, but might possibly be at some future time.]	
	Note : This option will yield the following:	
	<u>Finding of Fact:</u> The Oregon Department of Fish and Wildlife has determined that the diversion is not currently equipped with an appropriate fish screen, but a fish screen may be required in the future at the new point of diversion to prevent fish from entering the diversion.	
	Condition: The Oregon Department of Fish and Wildlife (ODFW) may require the water user to install an approved fish screen at the new point of diversion within one year after receiving written notification that a fish screen is required. Once installed the water user shall maintain and operate the fish screen at the new point of diversion according to ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.	
	5. No Screen Needed [Check this box if fish are not currently present, and are not expected in the future.]

Oregon Department of Fish and Wildlife Additional Fish Screening and Passage Information for the Applicant

(To be completed by ODFW for WRD to provide to the applicant.)

Transfer #: T-14636, Johnson

The applicant should be aware that fish screening and passage may be required for certain changes in point of diversion <u>if the boxes below are checked</u>.

Fish screening is required as a condition of this transfer. The fish screen must meet ODFW's design, construction, operational and maintenance standards.

Pursuant to ORS 498.306, cost-share funds may be available to assist in the installation of fish screening.

The applicant should contact the ODFW staff member below to obtain additional information on the design, construction, operational, and maintenance standards for the fish screen and to obtain information about ODFW's cost-sharing program for screening. Prior to installation, the water user must obtain written approval from ODFW that the required screen meets ODFW's criteria.

ODFW staff name: <u>Nathaniel Ashley</u> Address: <u>357 Patterson Bridge Rd</u> City/State/Zip: John Day, OR 97845

Phone: (<u>541</u>) <u>575-0561</u>

This transfer may trigger requirements for fish passage under ORS 509.585 because a new point of diversion will be constructed, an existing point of diversion's capacity will be increased, or an existing point of diversion will be abandoned. The applicant should contact the ODFW staff member below for a determination of whether native migratory fish are or were present at the applicable location, which will determine whether fish passage must be addressed.
