**For Place of Use or Character of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☒ Yes ☐ No

If YES, list the certificate, water use permit, or ground water registration numbers:

**C-94956 IR & C-76714 IS.**

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

- ☐ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

**Tip:** You may search for well logs on the Department's web page at:

[http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

**AND/OR**

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

BUTLER RANCH, INC.  
5294 NW LONE PINE ROAD  
TERREBONNE, OREGON 97760

confirms the right to use the waters of the CROOKED RIVER, a tributary of the DESCHUTES RIVER for IRRIGATION of 11.0 ACRES.

This right was confirmed by decree of the Circuit Court of the State of Oregon for Crook County. The decree is of record at Salem, in the Order Record of the Water Resources Director in Volume 1, at Page 449. The date of priority is 1892.

The amount of water to which this right is entitled is limited to an amount actually beneficially used, and shall not exceed 0.137 CUBIC FOOT PER SECOND if available at the original point of diversion: NW $\frac{1}{4}$  SW $\frac{1}{4}$ , SECTION 8, T 15 S, R 16 E, W.M., 744.2 FEET SOUTH AND 321 FEET EAST FROM THE WEST  $\frac{1}{4}$  CORNER OF SECTION 8, or its equivalent in case of rotation, measured at the point of diversion.

The point of diversion is located as follows:

SE  $\frac{1}{4}$  SW  $\frac{1}{4}$ , Section 20, T. 14 S., R. 14 E., W.M.;  
1896 feet South and 1717 feet East from the West  $\frac{1}{4}$  Corner of  
Section 20.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

RE: Supplement Form D for Water Right Transfer Application involving C-83732

To Whom It May Concern:

John Short and Water Rights Services, LLC prepared a draft water right transfer application on behalf of Philip H. Knight and Penelope P. Knight involving C-83732. Because the "ON" lands for the proposed transfer are located within the boundary of Central Oregon Irrigation District (COID) and already receive water delivered by COID pursuant to COID's water rights, Mr. Short notified COID of the proposed transfer and requested that COID consent to the proposed transfer and complete Supplemental Form D.

COID is conditionally consenting to the proposed transfer, and has completed the Supplemental Form D accordingly. The consent is conditioned as set forth below. We would request that this letter be included as part of the record for the proposed transfer, and be taken into consideration by the Department in determining whether to ultimately approve or deny the transfer application.

COID holds two certificates, C-94956, a 1900 primary irrigation right to use Deschutes live flow, and C-76714, a 1913 supplemental irrigation right to use storage from Crane Prairie Reservoir. Both of these certificates are appurtenant to the "ON" lands that are the subject of the transfer application, and the proposed transfer application map places water onto lands fully irrigated by the appurtenant COID water rights.

We have the following comments and concerns:

As an initial matter, the proposed transfer application proposes to change the authorized use under C-83732 from irrigation to nursery use, with the nursery use to be layered with COID's primary irrigation and supplemental irrigation rights "for use when a shortage in district supplied water occurs."

After speaking with the current farm operator for the "ON" lands, Eric Hagerty, we understand that the intention here is to only use the C-83732 water in a truly supplemental manner, in that the operator is only wanting the transferred water in early April or at the end of the irrigation season, and only when COID water is not available and COID is not otherwise delivering water. With that said, COID is not aware of any intention to convert the current farming operation to nursery stock, and absent such conversion, COID is concerned that the transfer cannot be proven up. At a more general level, COID is concerned that transfer applications seeking to change the authorized use of water from irrigation to nursery use—when there will be no bona fide nursery use—amounts to an end-run around the standard approach taken to layering primary and supplemental irrigation rights within irrigation districts.

Related to the above, COID is concerned that if the water under C-83732 is conveyed through the same irrigation system and used at the same time that COID water is also being conveyed and used, then the water will become co-mingled. If so, there will be no way to accurately document use under any transfer order for the required claim of beneficial use report. Similarly, there will be no way to document beneficial use following confirmation and certification of the transfer as well. And along these same lines, if water under C-83732 and water under COID's rights is being used at the same time, it will be impossible to know if and when the water user is exceeding COID's maximum delivery rate.

In sum, COID is consenting to the transfer on condition that if approved, the transfer order will prohibit co-mingling with COID water rights. To accomplish this, the use under the new nursery right should be limited to those times in which COID water is actually unavailable and COID is not otherwise delivering water, or to the months of November through March, when COID water would not be available to support nursery uses. We would note that these are the same conditions that COID requested to be placed on the approval of transfer application T-13793 in the event the Department decides to approve T-13793. This other application involves "ON" lands that are adjacent to the "ON" lands at issue under the immediate proposed transfer application. Finally, our consent is conditioned on the requirements that the nursery rights are limited to actual nursery use and the installation and use of totalizing flow meters to accurately track COID water use separate and apart from any use authorized under the transfer application.

Please let us know if you have any questions or would like to discuss further.

Sincerely,

## Water Right Transfers Within the Boundaries of or Served by an Irrigation District or other Water Supplier (Association, Ditch Co., etc.)

[For transfers submitted under OAR Chapter 690 Division 380]

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem, Oregon 97301-1266  
503-986-0900  
www.oregon.gov/OWRD

The Department requires non-district applicants to communicate with districts/water suppliers during the planning and preparation of transfer applications involving water rights having a point of diversion or appropriation (POD/POA) or place of use (POU) served by or located within the boundaries of an irrigation district, or other type of water supplier to which assessments are paid. In some cases consent will be required from the district or water supplier.

This form must be included with any transfer application that involves rights served by or located within the boundaries of a district or other type of water supplier.

**Authority**

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

**Applicant**

PHILLIP H. KNIGHT AND PENELOPE P. KNIGHT  
34645 SW CLOUDREST LANE  
HILLSBORO, OR. 97123

**Receiving Landowner**

**Findings of Fact**

1. On January 24, 2022, PHILLIP H. KNIGHT AND PENELOPE P. KNIGHT filed an application to change the point of diversion, the place of use, and to change the character of use under Certificate 83732. The Department assigned the application number T-13897.
2. Notice of the application for transfer was published on February 8, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. The place of use identified as the "to lands" in this application is a part of Central Oregon Irrigation District's (COID) place of use as described in Certificates 94956 and 76714, the district has provided conditional consent to this application.

4. The portion of the right to be transferred is as follows:

**Certificate:** 83732 in the name of BUTLER RANCH INC. (confirmed by Crooked River Decree Volume 1, at Page 449)  
**Use:** IRRIGATION of 11.0 ACRES  
**Priority Date:** 1892  
**Rate:** 0.137 CUBIC FOOT PER SECOND

**Limit/Duty:** The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

**Source:** CROOKED RIVER, a tributary of the DESCHUTES RIVER

**Authorized Point of Diversion:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
14 S	14 E	WM	20	SE SW	1896 FEET SOUTH AND 1717 FEET EAST FROM W1/4 CORNER, SECTION 20

**Authorized Place of Use:**

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
14 S	14 E	WM	20	SW SW	11.00

5. Certificate 83732 does not describe the irrigation season; however, the Crooked River Decree describes the irrigation season as February 1 through December 1.

6. Transfer Application T-13897 proposes to move the authorized point of diversion approximately 5.6 miles downstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
13 S	13 E	WM	34	SE SW	1250 FEET NORTH AND 2220 FEET EAST FROM THE SW CORNER OF SECTION 34

7. Transfer Application T-13897 also proposes to change the place of use of the right to:

SUPPLEMENTAL NURSERY USE					
Twp	Rng	Mer	Sec	Q-Q	Acres
13 S	13 E	WM	34	NE SW	2.6
13 S	13 E	WM	34	SE SW	8.4
Total					11.0

8. Transfer Application T-13897 proposes to change the character of use to Nursery uses.
9. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

***Transfer Review Criteria [OAR 690-380-4010(2)]***

10. Water has been used within the five-year period prior to submittal of the transfer application according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
11. A diversion structure and ditch sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-13897.
12. The proposed changes as conditioned would not result in enlargement of the right.
13. The proposed changes as conditioned would not result in injury to other water rights.
14. All other application requirements are met.

**Determination and Proposed Action**

*The change in point of diversion, change in place of use, and change in character of use proposed in Transfer Application T-13897 appear to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.*

*If Transfer Application T-13897 is approved, the final order will include the following:*

1. *The change in point of diversion, change in place of use, and change in character of use proposed in Transfer Application T-13897 are approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 83732 and any related decree.*
3. *Water right Certificate 83732 is cancelled.*
4. *The quantity of water diverted at the new point of diversion, together with that diverted at the original point of diversion, shall not exceed the quantity of water lawfully available at the original point of diversion.*
5. *Under Certificate 42373, the change in character of use from irrigation to the proposed nursery use shall be further limited such that:*
  - a) *The amount of water used for NURSERY OPERATIONS is limited to a diversion of 1.0 cubic foot per second per acre and 44.0 acre-feet during the irrigation season of each year.*

- b) *For the irrigation of containerized nursery plants, the amount of water diverted is limited to 1.0 cubic foot per second (or its equivalent) and 44.0 acre-feet during the irrigation season of each year.*
  - c) *For the irrigation of in-ground nursery plants, the amount of water diverted is limited to 1.0 cubic foot per second (or its equivalent) and 44.0 acre-feet during the irrigation season of each year.*
  - d) *For the irrigation of any other crop, the amount of water diverted is limited to 1.0 cubic foot per second (or its equivalent) and 44.0 acre-feet during the irrigation season of each year. The use of water for irrigation of any other crop shall be limited to 58.1 acres.*
6. *Under Certificate 89615, the rate of diversion for the change in character of use from irrigation to the proposed nursery operation use shall be limited to 0.137 cubic foot per second and shall be further limited to a total volume diverted of 44.0 acre-feet (11.0 acres X 4.0 acre-feet per acre) during the original season of use, being February 1 to December 1.*
7. *The change in character of use from irrigation to the proposed nursery use shall be further limited such that:*
- a) *The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.137 cubic foot per second per acre and 44.0 acre-feet during the irrigation season of each year.*
  - b) *For the irrigation of containerized nursery plants, the amount of water diverted is limited to 0.137 cubic foot per second (or its equivalent) and 44.0 acre-feet during the irrigation season of each year.*
  - c) *For the irrigation of in-ground nursery plants, the amount of water diverted is limited to 0.13 cubic foot per second (or its equivalent) and 44.0 acre-feet during the irrigation season of each year.*
  - d) *For the irrigation of any other crop, the amount of water diverted is limited to 0.137 cubic foot per second (or its equivalent) and 44.0 acre-feet during the irrigation season of each year. The use of water for irrigation of any other crop shall be limited to 11.0 acres.*
8. *Water use measurement conditions:*
- a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion.*
  - b. *The water user shall maintain the meters or measuring devices in good working order.*

- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
9. Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.
10. *Add - trigger ODFW - Finding here -* The former place of use of the transferred right shall no longer receive water under the right.
11. Water use is hereby conditioned and limited to use only when COID water is not available.
12. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2023**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
13. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

Please find enclosed a REVISED draft Preliminary Determination regarding Transfer Application T-13793. The draft is intended to provide you with an opportunity to provide information regarding the application, to do so and to withdraw or modify your application. The issues that are prompting our decision to deny the application, and the reasons for denial of the application.

The REVISED draft Preliminary Determination proposes to deny the transfer because: Land Use Form needs to be sent to all counties and Department, Form D needs to be sent to COID and Department, enlargement has been identified, as well as not same source. The issues that we have identified could be resolved by one of the following alternatives:

- Send approved Land Use forms from ALL COUNTIES involved in transfer to the Department, and;
- Send Supplemental Form D to COID and send signed Supplemental Form D to Department, and;
- Revise the proposed place of use so that enlargement is not occurring, and;
- Revise the proposed place of use so that same source is occurring, OR:
- Withdraw the application.

At this point, you may decide to continue processing the application (see below), or to send a letter requesting to withdraw the transfer application.

If you wish to proceed with your application, you must submit the following:

1. Provide a written response by March 10, 2022, that describes how you will overcome the issues identified above and submit modifications or additional information as needed, or that indicates you wish to protest a Preliminary Determination to deny the transfer.

SUBJECT: Water Right Transfer Application T-13793

Please find enclosed a REVISED draft of our Preliminary Determination regarding Transfer Application T-13793. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be DENIED. This REVISED draft is intended to provide you with an opportunity to comment on our findings and conclusions should you wish to do so and to withdraw or modify your application to resolve the issues that are prompting our decision to deny the application, as well as to correct previous errors and better describe reasons for denial of the application.

The REVISED draft Preliminary Determination proposes to deny the transfer because: Land Use Form needs to be sent to all counties and Department, Form D needs to be sent to COID and Department, enlargement has been identified, as well as not same source. The issues that we have identified could be resolved by one of the following alternatives:

- Send approved Land Use forms from ALL COUNTIES involved in transfer to the Department, and;
- Send Supplemental Form D to COID and send signed Supplemental Form D to Department, and;
- Revise the proposed place of use so that enlargement is not occurring, and;
- Revise the proposed place of use so that same source is occurring, OR:
- Withdraw the application.

At this point, you may decide to continue processing the application (see below), or to send a letter requesting to withdraw the transfer application.

If you wish to proceed with your application, you must submit the following:

1. Provide a written response by March 10, 2022, that describes how you will overcome the issues identified above and submit modifications or additional information as needed, or that indicates you wish to protest a Preliminary Determination to deny the transfer.

2. **REQUIRED:** You must submit a **Report of Ownership** for the lands where the water right(s) are currently located (i.e., the FROM lands). This report:
- a) Must be prepared by a title company;
  - b) Shall include a "prepared by" statement and the date the title company prepared the report printed on the cover sheet;
  - c) Must be:
    - i. Prepared within 3 months of the Draft Preliminary Determination showing current ownership; **OR**
    - ii. Prepared within 3 months of recording of a water right conveyance agreement; **OR**
    - iii. Have a prepared date showing ownership at the time a water right conveyance agreement was recorded.

*If water right conveyance agreements are involved, it is helpful to provide copies of those agreements along with the Report of Ownership.*

**IMPORTANT:** In order for the Department to clearly understand the date that the title company prepared the Report of Ownership, the title company must indicate/state the date that they prepared the report on the coversheet and/or first page of the report.
  - d) Must include a list of owners at the time the report was generated; **AND**
  - e) Must include a legal description of the property where the water right to be transferred is currently located (i.e., the FROM lands).
5. You must provide a notarized statement of consent signed by any landowner listed in the Report of Ownership who is not already included in the transfer application. The Department's statement of consent form (**Consent By Deeded Landowner**) is available at: [https://www.oregon.gov/OWRD/WRDFormsPDF/consent\\_to\\_transfer\\_form.pdf](https://www.oregon.gov/OWRD/WRDFormsPDF/consent_to_transfer_form.pdf)
6. Notice of this transfer will need to be published in a newspaper with general circulation in the area where the water rights are currently located. You will be responsible for the charges.

#### What happens next...

Once the Preliminary Determination is issued a publication period is required. Because there is more than ¼ mile between the new and the authorized points of diversion, the Department will publish notice of the transfer in a local newspaper having a general circulation in the area of the water right at least once per week for two consecutive weeks. You are responsible for sending a check to cover the cost of publication prior to the issuance of the Preliminary Determination and publication of notice (see below).

#### Conditions to your water right...

If you modify the application so as to allow approval, conditions may need to be added to the transfer. The Department will notify you of any required conditions prior to issuing the Preliminary Determination.

Issuance of the Preliminary Determination will occur shortly after we receive:

1. Your written response modifying the application to resolve the issues that we have identified or requesting that we proceed with processing of the application; and

2. The Report of Ownership, including affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application. The title company must indicate/state the date that they prepared the ownership report on the coversheet and/or first page of the report.

If we do not receive your response to withdraw the application or the items listed above by March 10, 2022, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me at [tamera.l.smith@oregon.gov](mailto:tamera.l.smith@oregon.gov) or 503-979-9607 if I may be of assistance.

Kindest regards,

Transfer Caseworker

- c) Conditions be placed on the transfer, limiting any irrigation under the nursery right to the months of November through March and prohibiting co-mingling with COID water rights.
  - d) Ochoco Irrigation District (OID) maintains that water rights above their project may not be transferred below their project.
  - e) With co-mingling of so many rights and the water being used so far away from authorized location, the water will not be identifiable or measurable.
4. Not all the issues raised by the commenters are relevant to the criteria for review of a water right transfer as per OAR 690-380-4010 and approval of a transfer application under OAR 690-380-5000. Many of the issues noted in Finding of Fact No. 3, though important to the water right holders and water resources of the area, do not directly relate to the transfer review criteria. Rather, the statutory basis for approving a water right transfer application is relatively narrow and confined to the Department finding or determining:
    - a) The water right proposed for transfer is a water use subject to transfer;
    - b) The portion of the water right proposed for transfer is not cancelled due to forfeiture for non-use pursuant to ORS 540.610;
    - c) The proposed transfer would not result in injury to other water rights.
  5. If approved, the Final Order for T-13793 will contain conditions retaining the current rate limitations of the original water right.
  6. The Department has not received a Land Use form from every county affected by the transfer application.
  7. COID has water rights appurtenant to the proposed TO lands. Neither the Department nor COID have received a Supplemental Form D, requesting district approval.
  8. On December 17, 2021, the Department mailed a copy of the draft Preliminary Determination proposing to deny Transfer Application T-13793 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of January 16, 2022, for the applicants to respond.
  9. On December 23, 2021, the agent for the applicant contacted the Department to point out a scrivener's error in the direction of the movement of the POD change, which should have been listed as a downstream point of diversion change of approximately 24.1 and 37.4 miles, respectively for Certificates 42373 and 89615, not an upstream point of diversion change.

10. On December 23, 2021, the agent for the applicant requested clarification for Finding of Fact (FOF) No. 19, which, in the draft Preliminary Determination read: "The proposed changes would result in enlargement of the rights. The current delivery system leaves the Ochoco Reservoir and travels over 20 miles where water is then distributed to the place of use. It is possible that the place of use may receive a source of water it is not authorized to receive, which would enlarge the right by watering more acres from a source than what is allowed." This revised draft Preliminary Determination is intended to further clarify the delivery system concerns.
11. FOF No. 20 in the draft Preliminary Determination listed injury to an instream water right. This was based on an upstream move of the point of diversion (POD). Since the move of the PODs is established as downstream, instead of upstream, injury to instream water right Certificate 87096 does not exist.
12. The first right to be transferred is as follows:

**Certificate:** 42373 in the name of FLOYD M. JONES (perfected under Permit S-30070)  
**Use:** IRRIGATION of 58.2 ACRES  
**Priority Date:** SEPTEMBER 29, 1964  
**Rate:** 1.0 CUBIC FOOT PER SECOND  
**Limit/Duty:** The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.0 acre feet per acre for each acre irrigated during the irrigation season of each year.

Twp	Rng	Mer	Sec	Q-Q	Acres
13 S	13 E	WM	34	SW NW	1.3
13 S	13 E	WM	34	NW SW	28.5
13 S	13 E	WM	34	SW SW	28.4
TOTAL					58.2

15. The portion of the second right to be transferred is as follows:

**Certificate:** 89615 in the name of MILL CREEK LAND LLC (confirmed by Crooked River Decree (F))  
**Use:** IRRIGATION of 9.8 ACRES  
**Priority Date:** 1880  
**Rate:** 0.13 CUBIC FOOT PER SECOND  
**Limit/Duty:** The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed a reasonable amount for stock use, the total quantity being limited to 4.0 acre feet per acre during each year if available at the original point of diversion, or its equivalent in case of rotation, measured at the point of diversion from the source:

14 S	17 E	WM	26	SE NW	0.8
TOTAL					9.8

16. Transfer Application T-13793 proposes to move the authorized point of diversion approximately 37.4 miles downstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
13 S	13 E	WM	34	SE SW	1250 FEET NORTH AND 2200 FEET EAST FROM THE SW CORNER OF SECTION 34

17. Transfer Application T-13793 also proposes to change the place of use of the right to:

NURSERY					
Twp	Rng	Mer	Sec	Q-Q	Acres
13 S	13 E	WM	34	SW SW	9.8

18. Transfer Application T-13793 proposes to change the character of use of both rights to nursery.
19. Certificates 42373 and 89165 do not specify an irrigation season; however, consistent with the Crooked River Decree, the irrigation season is February 1 to December 1.
20. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

***Transfer Review Criteria [OAR 690-380-4010(2)]***

21. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
22. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-13793.
23. The proposed change in point of diversion could result in enlargement of the rights involved unless conditioned to limit the quantity of water diverted at the new point of diversion (POD "ON") to no more than the quantity of water lawfully available at the original points of diversion (POD "OFF").

24. The proposed point of diversion change is not consistent with OAR 690-380-2110(2). Absent a formal agreement with the operators of the storage facility at Ochoco Reservoir to release McKay Creek and Ochoco Creek water in an amount equal to the transferred quantity of water, there is a potential for the proposed point of diversion to receive water from an unauthorized source.
25. The proposed changes, as conditioned, would not result in injury to other water rights.
26. The application is not complete because Land Use reviews have not been completed by all affected land use jurisdictions and Form D has not been completed by Central Oregon Irrigation District.

#### **Determination and Proposed Action**

The changes in point of diversion, changes in place of use, and change in character of use proposed in Transfer Application T-13793 appear to **NOT** be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be denied.

*If the enlargement issue, source issue, and deficiencies are resolved, and Transfer Application T-13793 is approved, the final order may include the following:*

1. *The changes in points of diversion, changes in place of use and change in character of use proposed in Transfer Application T-13793 are approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 42373 and 89615 and any related decree.*
3. *Water right Certificates 42373 and 89615 are cancelled. A new certificate will be issued describing that portion of Certificate 89615 not affected by this transfer.*
4. *Under Certificate 42373, the rate of diversion for the change in character of use from irrigation to the proposed nursery operation use shall be limited to 1.0 cubic foot per second and shall be further limited to a total volume diverted of 232.4 acre feet (58.1 acres X 4.0 acre feet per acre) during the original season of use, being February 1 to December 1.*
5. *Under Certificate 42373, the change in character of use from irrigation to the proposed nursery use shall be further limited such that:*
  - a) *The amount of water used for NURSERY OPERATIONS is limited to a diversion of 1.0 cubic foot per second per acre and 232.4 acre feet during the irrigation season of each year.*
  - b) *For the irrigation of containerized nursery plants, the amount of water diverted is limited to 1.0 cubic foot per second (or its equivalent) and 232.4 acre feet during the irrigation season of each year.*

- c) *For the irrigation of in-ground nursery plants, the amount of water diverted is limited to 1.0 cubic foot per second (or its equivalent) and 232.4 acre feet during the irrigation season of each year.*
  - d) *For the irrigation of any other crop, the amount of water diverted is limited to 1.0 cubic foot per second (or its equivalent) and 232.4 acre feet during the irrigation season of each year. The use of water for irrigation of any other crop shall be limited to 58.1 acres.*
- 6. *Under Certificate 89615, the rate of diversion for the change in character of use from irrigation to the proposed nursery operation use shall be limited to 0.13 cubic foot per second and shall be further limited to a total volume diverted of 39.2 acre feet (9.8 acres X 4.0 acre feet per acre) during the original season of use, being February 1 to December 1.*
- 7. *The change in character of use from irrigation to the proposed nursery use shall be further limited such that:*
  - a) *The amount of water used for NURSERY OPERATIONS is limited to a diversion of 0.13 cubic foot per second per acre and 39.2 acre feet during the irrigation season of each year.*
  - b) *For the irrigation of containerized nursery plants, the amount of water diverted is limited to 0.13 cubic foot per second (or its equivalent) and 39.2 acre feet during the irrigation season of each year.*
  - c) *For the irrigation of in-ground nursery plants, the amount of water diverted is limited to 0.13 cubic foot per second (or its equivalent) and 39.2 acre feet during the irrigation season of each year.*
  - d) *For the irrigation of any other crop, the amount of water diverted is limited to 0.13 cubic foot per second (or its equivalent) and 39.2 acre feet during the irrigation season of each year. The use of water for irrigation of any other crop shall be limited to 9.8 acres.*
- 8. *The quantity of water diverted at the new point of diversion (POD "ON"), shall not exceed the quantity of water lawfully available at the original points of diversion (PODs "OFF").*
- 9. *The diversion of water at the new point of diversion is restricted to the same source of water as authorized in Certificate 42373 and Certificate 89615, being McKay Creek and Ochoco Creek.*
- 10. *The original points of diversion shall be equipped with telemetry to measure the quantity of water available at the original points of diversion.*

11. *Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.*
12. *The former place of use of the transferred rights shall no longer receive water under the rights.*
13. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2022**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
14. *After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.*

### Check One Box

- ☒ By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to Department approval of the transfer, I will be required to provide landownership information and evidence that I am authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR
- ☐ I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the municipality or a predecessor; OR
- ☐ I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the property to which the water right proposed for transfer is appurtenant and have supporting documentation.

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: BEND BULLETIN.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).
- Refunds may only be granted upon request and, as set forth in ORS 536.050(4)(a), if the Director determines that a refund of all or part of a fee is appropriate in the interests of fairness to the public or necessary to correct an error of the Department.

I (we) affirm that the information contained in this application is true and accurate.

## For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):

☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

## Measurement Condition Information for the Applicant

(To be sent with the Draft Preliminary Determination or Final Order)

Transfer #: T- 13897

In order to avoid enlargement of the right or injury to other rights, a Totalizing flowmeter will be required to be installed prior to diversion of water, as a condition of this transfer:

at each point of diversion/appropriation (new and existing) OR

at each new point of diversion/appropriation.

For additional information, or to obtain approval of a different type of measurement device, the applicant should contact the area Watermaster:

Watermaster name: Jeremy Giffin

District: 11

Address: 231 Scalehouse Lp, STE 103

City/State/Zip: Bend, OR 97702

Phone: 541-306-6885

Email: Jeremy.T.Giffin@Oregon.gov

**Note:** If a device other than the one specified in the Preliminary Determination or Final Order is approved by the Watermaster, fill out and mail the form below to the Salem office.

\*\*\*\*\*

## Approval of an Alternate Measurement Device

T-

(to be filled out after consultation with the applicant, or after a site visit)

On behalf of the Director, I authorize use of the following suitable alternate measurement device:

\_\_\_\_\_  
District

\_\_\_\_\_  
Date

If this form is used for approval of an alternative measurement device, it must be mailed to:

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem, OR 97301-1266

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☐ Yes ☒ No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☐ No ☒ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☒ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a **totalizing flow meter**\*, or, with prior approval of the Director, another suitable measuring device, ☐ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☒ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

*b. The water user shall maintain the meters or measuring devices in good working order.*

*c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install **staff gages**\*, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

*b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.*

\* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir  
☐ Parshall Flume  
☐ Other: \_\_\_\_\_

☐ Submerged Orifice  
☐ Flow Restrictor

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☐ Yes ☒ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No If "Yes", explain:

- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No If "No", explain:

- iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- iv. Do you have any other observations regarding the temporary transfer? ☐ Yes ☐ No If "Yes", describe:

- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- c. To the best of your knowledge, if this transfer is approved, does it appear that:

- i. "Injury" will occur to other water rights that share the same source? ☐ Yes ☒ No If "Yes", explain:

- ii. "Enlargement" of the water right being transferred will occur? ☐ Yes ☒ No If "Yes", explain:

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☐ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☐ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☒ No If "Yes", explain:

10. For POU or USE changes: ☐ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

☐ Yes ☒ No If "Yes", explain:

11. For POU changes that involve micro-irrigation: ☒ N/A

- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

Proposed Changes: ☒ POU ☒ POD ☐ POA ☒ USE ☐ OTHER

Reviewer(s): Giffin

Date of Review: 04/28/2022

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☒ Yes ☐ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:  
We regulate back the instream and out of stream flows between the old and new points of diversion every day of the irrigation season. This right is senior and has not been regulated off before.
3. Have headgate notices been issued for the source that serves the transferred right(s)?  
☒ Yes ☐ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No If "Yes", describe how the rights would be affected and list the rights most affected:

**Oregon Department of Fish and Wildlife**  
**Water Right and Diversion Transfer Comment Form**  
*(ODFW provides to WRD so that WRD can make findings according to statutory requirements.)*

Reference Transfer #: T-13897, Knight

Date of review: 5-2-22

**A. Please check box if you believe there is a potential for injury to an instream water right.**

☐ The Oregon Department of Fish and Wildlife (ODFW) believes this proposed transfer may injure an instream water right(s) on stream, tributary to \_\_\_\_\_, because \_\_\_\_\_.

*(Please attach any available supporting information.)*

**Note:** This will prompt WRD to make a determination whether the transfer will injure an instream water right. (OWRD makes the determination of injury to a water right, while ODFW's role is to raise concerns, and to evaluate proposed mitigation and net benefit to the resource if OWRD consents to injury of an instream water right.)

**B. Please check one of the following five boxes related to fish screen requirements pursuant to ORS 540.525 or 540.532:**

☐ **1. Screen Maintain**

*[Select this option if the new Point of Diversion (POD) requires a fish screen and is currently equipped with an appropriate fish screen that will still be in compliance if the transferred water is diverted from this POD.]*

**Note:** This option will yield the following:

**Finding of Fact:** The Oregon Department of Fish and Wildlife has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is currently equipped with an appropriate fish screen.

**Condition:** The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

☒ **2. Screen Now**

*[Option 2 should generally be selected if listed fish species are present at the point of diversion and/or the originating water right diversion is currently screened. If Option 2 is selected, provide contact information on the "Fish Screening and Passage Information" sheet. The new diversion may be eligible for cost-share.]*

**Note:** This option will yield the following:

**Finding of Fact:** The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

**Condition:** Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

*Please return all 3 pages to: Transfers Section, Water Resources Department,  
725 Summer St. NE, Suite A, Salem, OR 97301-1266*

☐ **3. Screen 2 Year**

*[Option 3 may be checked if the change is from an unscreened diversion to a HISTORIC POD or an existing POD in use for another water right, and cost-share funds are not currently available. It should NOT be checked if listed fish species are present at the point of diversion, the originating water right diversion is screened, cost-share funds are currently available, or the diversion is not eligible for ODFW's cost-share program. Please provide contact information on the "Fish Screening and Passage Information" sheet.] If extraordinary circumstances are present, please explain: \_\_\_\_\_*

**Note:** This option will yield the following:

**Finding of Fact:** The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. Listed fish species are not present at the point of diversion, the originating water right diversion is not screened, cost-share funds are not currently available, and the proposed diversion may be eligible for ODFW's cost-share program. A grace period of two years is appropriate until such time as cost-share funds become available to assist in the construction of a fish screen. If cost-share funds do not become available, the water user must screen within the indicated time period regardless of the availability of cost-share funding.

**Condition:** By October 1, 20\_\_ [Within two years after the date of this order] the water user shall install an approved fish screen at the new point of diversion. The water user may withdraw water at the new point of diversion without a screen until October 1, 20\_\_. The water user shall provide to OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall maintain and operate the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

☐ **4. Screen Future**

*[Use this option if fish are not currently present, but might possibly be at some future time.]*

**Note:** This option will yield the following:

**Finding of Fact:** The Oregon Department of Fish and Wildlife has determined that the diversion is not currently equipped with an appropriate fish screen, but a fish screen may be required in the future at the new point of diversion to prevent fish from entering the diversion.

**Condition:** The Oregon Department of Fish and Wildlife (ODFW) may require the water user to install an approved fish screen at the new point of diversion within one year after receiving written notification that a fish screen is required. Once installed the water user shall maintain and operate the fish screen at the new point of diversion according to ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

☐ **5. No Screen Needed**

*[Check this box if fish are not currently present, and are not expected in the future.]*

**Additional Fish Screening and Passage Information for the Applicant**  
*(To be completed by ODFW for WRD to provide to the applicant.)*

Transfer #: T-13897. Knight

**The applicant should be aware that fish screening and passage may be required for certain changes in point of diversion if the boxes below are checked.**

- ☒ Fish screening is required as a condition of this transfer. The fish screen must meet ODFW's design, construction, operational and maintenance standards.

Pursuant to ORS 498.306, cost-share funds may be available to assist in the installation of fish screening.

The applicant should contact the ODFW staff member below to obtain additional information on the design, construction, operational, and maintenance standards for the fish screen and to obtain information about ODFW's cost-sharing program for screening. **Prior to installation, the water user must obtain written approval from ODFW that the required screen meets ODFW's criteria.**

Address: 3561 Klindt Dr

City/State/Zip: The Dalles, OR 97058

Phone: (541) 296-8026

- ☒ This transfer may trigger requirements for fish passage under ORS 509.585 because a new point of diversion will be constructed, an existing point of diversion's capacity will be increased, or an existing point of diversion will be abandoned. The applicant should contact the ODFW staff member below for a determination of whether native migratory fish are or were present at the applicable location, which will determine whether fish passage must be addressed.

**For Place of Use or Character of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☒ Yes ☐ No

If YES, list the certificate, water use permit, or ground water registration numbers:

**C-94956 IR & C-76714 IS.**

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For Substitution** (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Surface water primary Certificate # \_\_\_\_\_.

**For a change from Supplemental Irrigation Use to Primary Irrigation Use**

Identify the primary certificate to be cancelled. Certificate # \_\_\_\_\_

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

- ☐ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

**Tip:** You may search for well logs on the Department's web page at:

[http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

**AND/OR**

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

**RE: Supplement Form D for Water Right Transfer Application involving C-83732**

To Whom It May Concern:

John Short and Water Rights Services, LLC prepared a draft water right transfer application on behalf of Philip H. Knight and Penelope P. Knight involving C-83732. Because the "ON" lands for the proposed transfer are located within the boundary of Central Oregon Irrigation District (COID) and already receive water delivered by COID pursuant to COID's water rights, Mr. Short notified COID of the proposed transfer and requested that COID consent to the proposed transfer and complete Supplemental Form D.

COID is conditionally consenting to the proposed transfer, and has completed the Supplemental Form D accordingly. The consent is conditioned as set forth below. We would request that this letter be included as part of the record for the proposed transfer, and be taken into consideration by the Department in determining whether to ultimately approve or deny the transfer application.

COID holds two certificates, C-94956, a 1900 primary irrigation right to use Deschutes live flow, and C-76714, a 1913 supplemental irrigation right to use storage from Crane Prairie Reservoir. Both of these certificates are appurtenant to the "ON" lands that are the subject of the transfer application, and the proposed transfer application map places water onto lands fully irrigated by the appurtenant COID water rights.

We have the following comments and concerns:

As an initial matter, the proposed transfer application proposes to change the authorized use under C-83732 from irrigation to nursery use, with the nursery use to be layered with COID's primary irrigation and supplemental irrigation rights "for use when a shortage in district supplied water occurs."

After speaking with the current farm operator for the "ON" lands, Eric Hagerty, we understand that the intention here is to only use the C-83732 water in a truly supplemental manner, in that the operator is only wanting the transferred water in early April or at the end of the irrigation season, and only when COID water is not available and COID is not otherwise delivering water. With that said, COID is not aware of any intention to convert the current farming operation to nursery stock, and absent such conversion, COID is concerned that the transfer cannot be proven up. At a more general level, COID is concerned that transfer applications seeking to change the authorized use of water from irrigation to nursery use—when there will be no bona fide nursery use—amounts to an end-run around the standard approach taken to layering primary and supplemental irrigation rights within irrigation districts.

Related to the above, COID is concerned that if the water under C-83732 is conveyed through the same irrigation system and used at the same time that COID water is also being conveyed and used, then the water will become co-mingled. If so, there will be no way to accurately document use under any transfer order for the required claim of beneficial use report. Similarly, there will be no way to document beneficial use following confirmation and certification of the transfer as well. And along these same lines, if water under C-83732 and water under COID's rights is being used at the same time, it will be impossible to know if and when the water user is exceeding COID's maximum delivery rate.

In sum, COID is consenting to the transfer on condition that if approved, the transfer order will prohibit co-mingling with COID water rights. To accomplish this, the use under the new nursery right should be limited to those times in which COID water is actually unavailable and COID is not otherwise delivering water, or to the months of November through March, when COID water would not be available to support nursery uses. We would note that these are the same conditions that COID requested to be placed on the approval of transfer application T-13793 in the event the Department decides to approve T-13793. This other application involves "ON" lands that are adjacent to the "ON" lands at issue under the immediate proposed transfer application. Finally, our consent is conditioned on the requirements that the nursery rights are limited to actual nursery use and the installation and use of totalizing flow meters to accurately track COID water use separate and apart from any use authorized under the transfer application.

Please let us know if you have any questions or would like to discuss further.

Sincerely,

A handwritten signature in blue ink, appearing to read "Craig Horrell".

CERTIFICATE OF WATER RIGHT

Exhibit A

THIS CERTIFICATE ISSUED TO

BUTLER RANCH, INC.  
5294 NW LONE PINE ROAD  
TERREBONNE, OREGON 97760

confirms the right to use the waters of the CROOKED RIVER, a tributary of the DESCHUTES RIVER for IRRIGATION of 11.0 ACRES.

This right was confirmed by decree of the Circuit Court of the State of Oregon for Crook County. The decree is of record at Salem, in the Order Record of the Water Resources Director in Volume 1, at Page 449. The date of priority is 1892.

The amount of water to which this right is entitled is limited to an amount actually beneficially used, and shall not exceed 0.137 CUBIC FOOT PER SECOND if available at the original point of diversion: NW $\frac{1}{4}$  SW $\frac{1}{4}$ , SECTION 8, T 15 S, R 16 E, W.M., 744.2 FEET SOUTH AND 321 FEET EAST FROM THE WEST  $\frac{1}{4}$  CORNER OF SECTION 8, or its equivalent in case of rotation, measured at the point of diversion.

The point of diversion is located as follows:

SE  $\frac{1}{4}$  SW  $\frac{1}{4}$ , Section 20, T. 14 S., R. 14 E., W.M.;  
1896 feet South and 1717 feet East from the West  $\frac{1}{4}$  Corner of Section 20.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 4.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

TOWNSHIP 14 SOUTH, RANGE 14 EAST, W.M.

This certificate is issued to confirm a change in POINT OF DIVERSION approved by an order of the Water Resources Director entered July 9, 1997, approving Transfer Application T-7248, and together with certificates 72947, 74199, and 74200 supersedes Certificate 52183, State Record of Water Right Certificates.

The following conditions apply to this right:

1. The quantity of water diverted at the new point of diversion, together with that diverted at the old diversion, shall not exceed the quantity of water lawfully available at the original point of diversion.
2. When required by the Department, the water user shall install and maintain a headgate, an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the headgate and measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described and is subject to all other conditions and limitations contained in the decree.

## For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s):

☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

## NOTE TO APPLICANTS

In order for your application to be processed by the Water Resources Department (WRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be used and developed. The planning official may choose to complete the form while you wait, or return the receipt stub to you. Applications received by WRD without the Land Use Form or the receipt stub will be returned to you. Please be aware that your application will not be approved without land use approval.

**This form is NOT required if:**

- 1) Water is to be diverted, conveyed, and/or used only on federal lands; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
  - a) The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b) The application involves a change in place of use only;
  - c) The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
  - d) The application involves irrigation water uses only.

## NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for or modifying a water right. The Water Resources Department (WRD) requires its applicants to obtain land-use information to be sure the water rights do not result in land uses that are incompatible with your comprehensive plan. Please complete the form or detach the receipt stub and return it to the applicant for inclusion in their water right application. You will receive notice once the applicant formally submits his or her request to the WRD. The notice will give more information about WRD's water rights process and provide additional comment opportunities. You will have 30 days from the date of the notice to complete the land-use form and return it to the WRD. If no land-use information is received from you within that 30-day period, the WRD may presume the land use associated with the proposed water right is compatible with your comprehensive plan. Your attention to this request for information is greatly appreciated by the Water Resources Department. If you have any questions concerning this form, please contact the WRD's Customer Service Group at 503-986-0801.

## Part 2 of 5 – Transfer Application Map

**Your transfer application will be returned if any of the map requirements listed below are not met.**

**Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.**

- ☒ ☐ N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see [http://apps.wrd.state.or.us/apps/wr/cwre\\_license\\_view/](http://apps.wrd.state.or.us/apps/wr/cwre_license_view/). CWRE stamp and signature are not required for substitutions.
- ☐ ☒ N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

## FFF WORKSHEET for PERMANENT TRANSFER (except Substitution)

1. For irrigation calculate cfs for each water right involved as follows:
  - a. Divide total authorized cfs by total acres in the water right (for C12345,  $1.25 \text{ cfs} \div 100 \text{ ac}$ ); then multiply by the number of acres to be transferred to get the transfer cfs ( $\times 45 \text{ ac} = 0.56 \text{ cfs}$ ).
  - b. If the water right certificate does not list total cfs, but identifies the allowable use as  $1/40$  or  $1/80$  of a cfs per acre; multiply number of acres proposed for change by either  $0.025$  ( $1/40$ ) or  $0.0125$  ( $1/80$ ). (For C87654,  $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$ )
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land**. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

Reference: Application T-13897

On January 24, 2022, OWRD received your water right Permanent Transfer Application. The application was accompanied by \$3540.00. Our receipt number 137305 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to Oregon Department of Fish and Wildlife to determine if a fish screen is needed

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water for the new use, in the new place of use or from the new point of diversion until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 979-9931.

**Purpose** The purpose of this Agreement is to expedite the processing of the Transfer Application. (Application Number: T-13897)

1. **Authority.** The OWRD has been authorized pursuant to ORS 536.055 to enter into a voluntary agreement with any applicant, permittee or regulated entity (collectively Applicant) for expediting or enhancing a regulatory process. In making this agreement, OWRD shall require the applicant to pay the full cost of expedited process.
2. **Restrictions.** Applicant and OWRD agree that this Agreement shall not be construed to restrict in any way the decisions and actions by OWRD. OWRD shall be free to exercise independent judgment consistent with existing laws and regulations.
3. **Effective Date and Duration.** Unless otherwise terminated by non-deposit of funds by the Applicant, this Agreement shall become effective on the date on which both parties have signed the Agreement and the full deposit of the estimated cost of the proposed service.
4. **Consideration.**
  - a. Applicant shall pay OWRD in advance for actual costs incurred by OWRD. The estimated maximum reimbursement payable to OWRD under this Agreement is \$1,549.89. Applicant agrees to pay the full amount of \$1,549.89 to OWRD prior to commencement of any work stated in this Agreement. This payment will be placed in an account administered by OWRD and drawn upon as costs are actually incurred. If the actual cost of performing the work is less than payments received, OWRD will refund the unspent balance. If the actual cost of processing exceeds the estimate, the Applicant can either elect to terminate this Agreement or amend the Agreement to reflect the increase in cost.
  - b. The costs stated in this Agreement do not include the statutory application processing and filing fees.
5. **Confidentiality.** Applicant agrees that any information provided to or acquired by OWRD under this Agreement will be subject to the Oregon Public Records Law and shall be considered public records.
6. **Indemnity.** Applicant shall defend, save, hold harmless, and indemnify the State of Oregon, OWRD, and their officers, employees, and agents from and against all claims, suits, actions, losses, damages, liabilities, costs, and expenses of any nature resulting from or arising out of, or relating to the activities of Applicant or its representatives, officers, employees, contractors, or agents under this Agreement or with respect to the expedited service. The Applicant acknowledges that the Oregon Water Resources Department cannot and does not guarantee a favorable review under the subject regulatory process.

7. **Termination.** Applicant may request to terminate this agreement only in writing at anytime during the process. The Applicant agrees to pay for the work done by OWRD up until the time of the written termination request. OWRD, upon receiving such written termination request from the Applicant, will refund any unspent balance.
8. **Funds Authorized and Available.** By its execution of this Agreement, Applicants certify that sufficient funds are authorized and available to cover the expenditures contemplated by this Agreement.
9. **Duration of Estimate.** The Estimate of Time to completion is **approximately 120 days** once this Agreement has been fully executed and payment of the estimated cost deposited. If the Applicant's Agreement is not received by the Department within thirty (30) days of mailing the Agreement, the Applicant may need to re-apply for a new estimate. **NOTE:** Any time estimate is approximate; No guarantee of Final Order issuance of a date is certain. Duration estimates do not include any statutory waiting periods.
10. **Completion Date.** OWRD, by the execution of this Agreement does not guarantee the completion date indicated in this Agreement. Completion date is only an estimate and may be affected by the Department's workload, issues arising from the processing of the requested services and Applicant's timely response to requests for additional information. **IMPORTANT:** Due to COVID-19 and actions taken by the State of Oregon to facilitate teleworking as a tool to help prevent the spread of the disease, Department processes for Reimbursement Authority may be unavoidably delayed.
11. **Captions.** The captions or headings in this Agreement are for the convenience only and in no way define, limit, or describe the scope, or intent, of any provision of this Agreement.
12. **Amendment and Merger.** The terms of this Agreement shall not be waived, altered, modified, supplemented, or amended in any manner whatsoever, except by written instrument signed by both parties. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. There are no understandings, agreements or representations, oral or written, not specified herein regarding this Agreement.
13. **Signatures.** All parties, by the authorized representative's signature below, hereby acknowledge that they have read this Agreement, understand it and agree to be bound by its terms and conditions.
