## Application for Permanent Water Right Transfer

#### Part 1 of 5 - Minimum Requirements Checklist

attachments are not completed and included. For questions, please call (503) 986-0900, and ask for Transfer Section. Received Check all items included with this application. (N/A = Not Applicable)JAN 3 1 2024  $\boxtimes$ Part 1 – Completed Minimum Requirements Checklist. OWRD  $\boxtimes$ Part 2 – Completed Transfer Application Map Checklist. Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at: http://apps.wrd.state.or.us/apps/misc/wrd fee calculator. Part 4 – Completed Applicant Information and Signature. Part 5 – Information about Water Rights to be Transferred: How many water rights are to be transferred? 1 List them here: C 97231 Please include a separate Part 5 for each water right. (See instructions on page 6) NOTE: A separate transfer application is required for each water right unless the criteria in OAR 690-380-3220 are met. Attachments: Completed Transfer Application Map. Completed Evidence of Use Affidavit and supporting documentation. Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land the water right is on.) Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district. Oregon Water Resources Department's Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if <u>all</u> of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone. Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation. Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500' from the surface water source and more than 1000' upstream or downstream from the point of diversion. See OAR 690-380-2130 for requirements and applicability. (For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): \_\_\_ Map not included or incomplete Application fee not enclosed/insufficient \_\_\_ Land Use Form not enclosed or incomplete \_\_\_\_ Evidence of Use Form not enclosed or incomplete Additional signature(s) required \_\_\_ Part \_\_\_\_ is incomplete Other/Explanation Staff: 503-Date:

This transfer application will be returned if Parts 1 through 5 and all required

#### Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met. Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see <a href="http://apps.wrd.state.or.us/apps/wr/cwre">http://apps.wrd.state.or.us/apps/wr/cwre</a> license view/. CWRE stamp and signature are not required for substitutions. N/A If more than three water rights are involved, separate maps are needed for each water right.  $\boxtimes$ Permanent quality printed with dark ink on good quality paper. The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.  $\bowtie$ A north arrow, a legend, and scale. X The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.  $\boxtimes$ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.  $\boxtimes$ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.  $\boxtimes$ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. M Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.  $\boxtimes$ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. X N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.  $\boxtimes$ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

#### Part 3 of 5 - Fee Worksheet

	FEE WORKSHEET for PERMANENT TRANSFER (except Substitution)		
1	Base Fee (includes one type of change to one water right for up to 1 cfs)	1	\$1,360
	Types of change proposed: $\square$ Place of Use $\square$ Character of Use $\square$ Point of Diversion/Appropriation  Number of above boxes checked = $2(2a)$		
2	Subtract 1 from the number in line 2a = 1 (2b) If only one change, this will be 0  Multiply line 2b by \$1090 and enter » » » » » » » » » » » » » » » » » » »	2	\$1,090
3	Number of water rights included in transfer $\underline{1}$ (3a) Subtract 1 from the number in 3a above: $\underline{0}$ (3b) If only one water right this will be 0 Multiply line 3b by \$610 and enter $\times$	3	\$0
	Do you propose to add or change a well, or change from a surface water POD to a well? $\square$ No: enter 0 $\square$ Yes: enter \$480 for the 1 <sup>st</sup> well to be added or changed \$480 (4a)		
4	Do you propose to add or change additional wells?  No: enter 0 Yes: multiply the number of additional wells by \$410 (4b)  Add line 4a to line 4b and enter » » » » » » » » » » » » » » » »	4	\$480
	Do you propose to change the place of use or character of use?  No: enter 0 on line 5	Sandara	Received
	$\boxtimes$ Yes: enter the cfs for the portions of the rights to be transferred (see below*):0.21 (5a) Subtract 1.0 from the number in 5a above: -0.79 (5b)	JA	N 3 1 202
	If 5b is 0 or less, enter 0 on line 5 » » » » » » » » » » » » » » » » » »		OWRD
5	5c by \$410, then enter on line 5 » » » » » » » » » » » » » » » » » »	5	\$0
6	Add entries on lines 1 through 5 above » » » » » » » » » Subtotal:	6	\$2,930
	Is this transfer:  necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat?		
	If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7 $$ »		
7	If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » » » » »	7	d2 020
8	Subtract line 7 from line 6 » » » » » » » » » » » » » » » » » Transfer Fee:	8	\$2,930

\*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

- 1. For irrigation calculate cfs for each water right involved as follows:
  - a. Divide total authorized cfs by total acres in the water right (for C12345, 1.25 cfs  $\div$ 100 ac); then multiply by the number of acres to be transferred to get the transfer cfs (x 45 ac= 0.56 cfs).
  - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs)
- 2. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

	FEE WORKSHEET for SUBSTITUTION		
1	Base Fee (includes change to one well)	1	\$990.00
	Number of wells included in substitution(2a)		
	Subtract 1 from the number in 2a above:(2b) If only one well this will be 0		
2	Multiply line 2b by \$480 and enter » » » » » » » » » » » » » »	2	
3	Add entries on lines 1 through 2 above " " " " Fee for Substitution:	3	

#### Part 4 of 5 – Applicant Information and Signature

#### **Applicant Information**

APPLICANT/BUSINESS NAME  James & Sue Gilmour		(541) 979-4120									
ADDRESS			FAX NO.								
30427 Stellmacher Driv	e										
CITY	STATE	ZIP	E-MAIL								
Albany	OR	97321	riverbottomfarn	ns@gmail.com							
BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT											
ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.											

**Agent Information** – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME			PHONE NO.	ADDITIONAL CONTACT NO.							
All Points Engineering 8	& Surveying, Inc.	(541) 548-5833	(541) 420-0401

ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.											

Explain in your own words what you propose to accomplish with this transfer application, and why: Propose to move corner areas to a new 1/2 center pivot 1 mile south.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

#### **Check One Box**

$\boxtimes$	By signing this application, I understand that, upon receipt of the draft preliminary determination and prior to
	Department approval of the transfer, I will be required to provide landownership information and evidence that I am
	authorized to pursue the transfer as identified in OAR 690-380-4010(5); OR
	I affirm the applicant is a municipality as defined in ORS 540.510(3)(b) and that the right is in the name of the
	municipality or a predecessor; <b>OR</b>
	I affirm the applicant is an entity with the authority to condemn property and is acquiring by condemnation the
	property to which the water right proposed for transfer is appurtenant and have supporting documentation.

**OWRD** 

#### By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Burns Herald Times.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).
- Refunds may only be granted upon request and, as set forth in ORS 536 050(4)(a), if the Director determines that a

refund of all or part of a fee is of the Department.

#### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well: OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well -specific rate (cfs or gpm). If less than full rate of water right

#### CERTIFICATE OF WATER RIGHT

**OWRD** 

THIS CERTIFICATE ISSUED TO

JAMES GILMOUR SUE GILMOUR 30427 SW STELLMACHER DR ALBANY OR 97320

CARL NEUMANN 57053 LAVA BED RD PRINCETON OR 97721

confirms the right to the use of water perfected under the terms of Permit G-12961. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the well(s). The specific limits and conditions of the use are listed below.

SOURCE OF WATER: FOUR WELLS IN HOT SPRINGS SLOUGH BASIN

PURPOSE OR USE: IRRIGATION OF 161.5 ACRES

 $MAXIMUM\ RATE:\ 2.02\ CUBIC\ FEET\ PER\ SECOND\ (CFS);\ FURTHER\ LIMITED\ TO\ 0.92\ CFS\ FROM\ WELL\ 1,\ 2.02$ 

CFS EACH FROM WELLS 2 AND 3B, AND 1.48 CFS FROM WELL 3, OR IN ANY COMBINATION NOT TO

EXCEED 2.02 CFS TOTAL

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: APRIL 13, 1992

The wells are located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
26 S	33 E	WM	25	SE SE	WELL 2 - 30 FEET NORTH AND 1320 FEET WEST FROM SE CORNER, SECTION 25
26 S	34 E	WM	7	NE NW	WELL 3B - 1295 FEET SOUTH AND 960 FEET EAST FROM NW CORNER, SECTION 7
27 S	34 E	WM	5	SW NE	WELL 3 - 1138 FEET NORTH AND 3471 FEET EAST FROM W1/4 CORNER, SECTION 5
27 S	34 E	WM	5	NE SW	WELL 1 - 2 FEET SOUTH AND 2621 FEET EAST FROM W1/4 CORNER, SECTION 5

The amount of water used for irrigation, together with amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

#### NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

T-12354-cf-91150.jls

Page 1 of 4

Certificate 97231

OWRD

A description of the place of use is as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
26 S	33 E	WM	25	SW NE		40.0
26 S	33 E	WM	25	SE NE		40.0
26 S	33 E	WM	36	NE NE		30.0
26 S	34 E	WM	6	SE SW		6.3
26 S	34 E	WM	7	NE NW		6.4
27 S	34 E	WM	5	NW NE	2	2.4
27 S	34 E	WM	5	SW NE		8.8
27 S	34 E	WM	5	SE NE		27.6

The quantity of water diverted at the new points of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
24 S	33 E	WM	35	NW SE	2598 FEET NORTH AND 1356 FEET WEST FROM SE CORNER, SECTION 35

Measurement, recording and reporting conditions:

- A. The water user shall maintain the totalizing flow meters or other suitable measuring device approved by the Director in good working order, at each point of appropriation (new and existing) and shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the water user to report general water-use information, including the place and nature of use of water under the right.
- B. The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices is located within a private structure, the watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

If at any time the well or its use:

- a. acts as a conduit for groundwater contamination,
- b. allows loss of artesian pressure,
- c. allow waste of groundwater,
- d. interferes with senior groundwater users, or
- e. interferes with nearby surface water sources,

the Department may require that the well be repaired in accordance with current well construction standards.

Access to the well for water level measurements must be provided.

#### Limited Water Level Decline/Interference Condition

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

To monitor the effect of water use from the well authorized under this right, the Department requires the water user to make and report annual static water level measurements. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

The user shall submit seven consecutive annual reports of static water level measurements. Based on an analysis of the data collected, the Director may require that the user obtain and report additional annual static water level measurements beyond the seven year minimum reporting period. The additional measurements may be required in a different month. If the measurement requirement is stopped, the Director may restart it at any time.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board and be submitted to the Department on forms provided by the Department. The Department requires the individual performing the measurement to:

- (A) Identify each well with its associated measurement; and
- (B) Measure and report water levels to the nearest tenth of a foot as depth-to-water below ground surface; and
- (C) Specify the method used to obtain each well measurement; and
- (D) Certify the accuracy of all measurements and calculations submitted to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if annual water level measurements reveal any of the following events:

- (A) An average water level decline of three or more feet per year for five consecutive years; or
- (B) A water level decline of 15 or more feet in fewer than five consecutive years; or
- (C) A water level decline of 25 or more feet; or
- (D) Hydraulic interference leading to a decline of 25 or more feet in any neighboring well with senior priority.

The reference level against which any future measurements will be compared is 49.16 feet below land surface.

The period of non-use or restricted use shall continue until the water level rises above the decline level which triggered the action or until the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or senior water rights. The water user shall in no instance allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

The well(s) shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.
