IN THE MATTER OF THE APPLICATION)
OF BOISE CASCADE FOR APPROVAL OF)
A CHANGE IN PLACE OF USE OF WATER)
FROM WEST FORK SUTTON CREEK AND)
RESERVOIR)

ORDER APPROVING
TRANSFER NO. 3420

On June 3, 1976, an application was filed in the office of the Water Resources Director by Boise Cascade for approval of a change in place of use of water from West Fork Sutton Creek and Nault Reservoir, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 11287, Volume 10, State Record of Water Right Certificates, in the name of Victor Nault, describes a right for the use of not to exceed 0.25 cubic foot per second from West Fork Sutton Creek and reservoir for irrigation of a certain 11.0 acres in Lot 2 (NW $\frac{1}{4}$ NE $\frac{1}{4}$) and 9.0 acres in SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 1, Township 11 South, Range 40 East, W.M., with a date of priority of December 7, 1925.

Water for the said right is diverted from a point located 2336 feet South and 335 feet East from the North Quarter Corner of Section 1, being within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1, Township 11 South, Range 40 East, W.M.

The applicant herein, owner of the lands above described, proposes to change the place of use therefrom and, without loss of priority, to irrigate in lieu thereof a certain 8.8 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$ and 9.2 acres in SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 36, Township 10 South, Range 40 East, W.M.

Mr. V. Kent Searles, Watermaster, has filed a statement to the effect that the proposed change in place of use may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in place of use may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in place of use as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that said water so transferred shall be applied to beneficial use on or before October 1, 1979.

Small Claims #94 S 52

Judgement/Orders

This matter came before the bench on 22 June, 1994 at 3:00 PM as regularly scheduled with all parties present. Both parties were sworn in and testimony given with exhibits submitted.

Plaintiff is seeking judgement of \$1507.00 plus interest for stoning water used by defendant from pond physically located on plaintiff's property.

Defendant denies all allegations and asserts as defense a water right certificate perfected 7 December, 1925 issued to Freeman Angus Ranch, a Oregon Corporation, and ORS 60.151 regards liability of individual shareholders in a corporation.

Case law on natural resources goes back to the King Bench and beyond. The theory of "First in Time" (acquisition by conquest, capture, or creation) has guided water rights *inter alia* down through the years. In this matter today we have the Nault Reservoir & West Fork of Sutton Creek water under permit # 7240 constructing the pond and perfecting these water rights on 7 December, 1925. These water rights were issued to Freeman Angus Ranch (incorporated Jan 13, 1972) on 17 October, 1990 to confirm a change in "place of use" approved by Water Resources Director 26 June, 1978.

These rights thus conferred upon the Freeman Angus Ranch who have used this water for many years under direction of the Oregon Water Resources Dept. set a precedent and they shall continue to exercise these water rights free from outside interference of any kind.

Plaintiff purchased the property where the "Nault Reservoir" is located from Boise Cascade. In the negotiation between the parties during the sale, I find it difficult to believe plaintiff was unaware of this pre-existing condition on easement regarding the pond since it would appear from the map the pond is the only asset left on the land after the forest fire came through. An examination of the water rights would have immediately alerted him to the fact the water belongs to the Freeman Angus Ranch by law, and no change of ownership of the property can change those water rights.

Plaintiff stated he did not have water rights to the pond nor did he build the pond. Plaintiff likewise does not have a written contract to support his claim as necessary under One Contract Law.

Therefore, based on the above stated facts, plaintiff does not have enough proof to sustain his cause of action and accordingly, I hereby enter this judgement of dismissal with prejudice.

Each party is to be responsible for their own costs in this action.

A right to a limited appeal exists for both parties in Circuit Court for Baker County. Contact court clerk for proper procedure.

All exhibits entered may be picked up at court clerks desk upon personal request.

It is so ordered this 27th day of June, 1994.

RE: File No. T-3420

Gentlemen:

The notice of completion of works and use of water under the provisions of the order of the Water Resources Director approving water right transfer application No. 3420, for a change in place of use of water from West Fork Sutton Creek and Nault Reservoir, was received and, in line with the general practice of this office, a survey will be made at a later date.

After the survey, proof may be made and certificate of water right issued covering the actual use of water as found by the engineer. (In case of irrigation, any lands described in the order that have not been irrigated will be automatically eliminated from the water right.)

In the meantime, the order will be evidence of the water right in question as long as the authorized beneficial use of water is continued.
