

**BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE  
STATE OF OREGON**

In the Matter of Groundwater	)	PRELIMINARY DETERMINATION
Registration Modification Application	)	PROPOSING APPROVAL OF RECOGNITION
T-13728, Josephine County	)	OF AN ADDITIONAL POINT OF
	)	APPROPRIATION

**Authority**

Oregon Revised Statutes (ORS) 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a groundwater certificate of registration.

Oregon Administrative Rules (OAR) Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating groundwater registration modification applications.

**Applicant**

VICTOR SERGUIENKOV  
5280 DEER CREEK RD.  
SELMA, OR 97538

**Findings of Fact**

1. On June 1, 2021, Mike and Amy Anderson filed a groundwater registration modification application for additional points of appropriation under Registration Application GR-4090 (Certificate of Registration GR-3860). The Department assigned the application number T-13728.
2. On May 7, 2012, Registration Application GR-4090 (Certificate of Registration GR-3860) was partially assigned from Raymond L. and Loretta R. Frost to James R. and Leona M. Laflamme, Trustees, Laflamme Loving Trust.
3. On January 4, 2016, Registration Application GR-4090 (Certificate of Registration GR-3860) was assigned from LaFlamme Loving Trust to Michael G. and Pamela K. Pruner.

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, of this preliminary determination.
---

4. On November 4, 2021, Registration Application GR-4090 (Certificate of Registration GR-3860) was partially assigned from Raymond L. and Loretta R. Frost to Mike and Amy Anderson.
5. On June 24, 2024, Registration Application GR-4090 (Certificate of Registration GR-3860) was assigned from Mike and Amy Anderson to Victor Serguienkov.
6. Notice of the application for groundwater registration modification was published on November 16, 2021, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.
7. On March 29, 2024, the Department sent a copy of the draft Preliminary Determination proposing to deny Groundwater Registration Modification Application T-13728 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of April 29, 2024, for the applicants to respond. The applicants requested that the Department proceed with the issuance of a Preliminary Determination and provided amended application pages and maps as well as the necessary information to demonstrate that the applicant is authorized to pursue the Groundwater Registration Modification.
8. The portion of the groundwater registration to be modified is as follows:

**Registration:** Groundwater Registration GR-4090 (Certificate of Registration GR-3860), in the name of Raymond L. and Loretta R. Frost, and Michael G. and Pamela K. Pruner (*partially assigned to Victor Serguienkov*)

**Use:** IRRIGATION of 9.0 ACRES

**Tentative**

**Priority Date:** JUNE 1948

**Quantity:** 25.0 Gallons per Minute (GPM)

**Duty:** 16.7 Acre-Feet (AF) per year

**Source:** A SUMP

**Original Point of Appropriation:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
38 S	7 W	WM	9	SE SE	SUMP: 590 FEET NORTH AND 810 FEET WEST FROM THE SE CORNER OF SECTION 9

**Original Place of Use:**

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
38 S	7 W	WM	9	SE SW	3.00
38 S	7 W	WM	9	SW SE	6.00
Total					9.00

9. Groundwater Registration Modification Application T-13728 proposes an additional point of appropriation with an approximate distance in mile from the original point to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Distance from original
38 S	7 W	WM	9	NW SE	SUMP (Proposed POA): 1525 FEET NORTH AND 2360 FEET WEST FROM THE SE CORNER OF SECTION 9	Original Sump- 0.34 mile NW

***Review Criteria for Groundwater Registration Modification Applications***

***[OAR 690-382-0100(10), 690-382-0700(2), 690-382-1000(1) and 690-380-2110(2)]***

10. The proposed modifications would not result in a state Scenic Waterway not receiving previously available water during periods in which stream flows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.
11. The proposed change to add Sump would develop groundwater from the same source aquifer as the original Sump (point of appropriation) (JOSE 19409).
12. The proposed modification would not result in enlargement of the registration.
13. The proposed modification would not result in injury to other water rights.
14. The application is complete.

**Determination and Proposed Action**

The additional point of appropriation proposed in Groundwater Registration Modification T-13728 appears to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-382-0900, the modification will be approved.

*If the Groundwater Registration Modification Application T-13728 is approved, the final order will include the following:*

1. *The modification to Registration Application GR-4090 (Certificate of Registration GR-3860) proposed in Groundwater Registration Modification Application T-13728 is recognized. Recognition of the modification shall not be construed as a final determination of the right to appropriate groundwater under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*
2. *The use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Registration Application GR-4090 (Certificate of Registration GR-3860) and any related decree.*

3. *Approval of this groundwater registration modification application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new additional point of appropriation.*
4. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
5. *The combined quantity of water diverted at the proposed additional point of appropriation (SUMP Proposed APOA), together with that diverted at the original point of appropriation (SUMP (POA 1)), shall not exceed the quantity of water lawfully available at the original point of appropriation (SUMP (POA 1)).*
6. *Water use measurement conditions:*
  - a) *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each new point of appropriation, with the exception that water rights issued to the Bureau of Reclamation, or an irrigation district (or similar entity) are not subject to this condition.*
  - b) *The water user shall maintain the meters or measuring devices in good working order.*
  - c) *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. SUBJECT: Groundwater Registration Modification T-13728

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-13728. This document is an intermediate step in the approval process; water may not be used legally as proposed in the groundwater registration modification application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Grants Pass Daily Courier newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication, whichever is later.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.
