To a point to be located 480 feet south and 700 feet east from the SE corner of George Beal DLC 77 being within the SW% NW% of Section 32, Township 1 North, Range 3 West, W.M.

for the irrigation of 4.1 acres in NE% NW%, 6.9 acres in NW% NW%, 9.5 acres in SW% NW% and 8.5 acres in SE% NW%, Section 32, Township 1 North, Range 3 West, W.M., with a date of priority of June 8, 1949, is approved.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made on or before October 1, 1971.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion and shall not exceed 0.32 cubic foot per second.

That the diversion works shall include an in-line flow meter, a weir, or other suitable device for measuring the water to which the applicant is

entitled.

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that certificate of water right heretofore issued to Sylvester A. Van Loo and recorded at page 23433,

Volume 16, State Record of Water Right Certificates, is canceled

Dear Mr. Jones:

I made an investigation of the application (Transfer No. 2489) for a transfer in diversion point by Sylvester Van Loo under permit no. 18778 on March 19, 1971.

I do not believe that this transfer will injure any existing water rights and that provision number 2 should be used in the order.

Yours truly,

Clayton J. Gardner
