Re: Olson/Honig water right dispute
DOJ File No. 690-303-NR028-93

Dear Mr. Marbut:

You asked for advice regarding the Olson(Cullum)/Honig water right dispute. I conclude that the transfer was valid and that the Water Resources Department (department) has no jurisdiction over the continuing dispute among these neighbors.

As I understand it, Mr. Cullum sold certain land to Ms. Honig on August 30, 1976. On August 24, 1976, Mr. Cullum had applied for a water right transfer. He wished to change the place of use from the parcel he later sold to Ms. Honig to a nearby parcel Mr. Olson later purchased. The department approved the transfer on September 26, 1976. On September 6, 1979, Mr. Cullum assigned his water right to Mr. Olson. In 1992, the deputy watermaster for District 14 cut off Ms. Honig's water supply.

Ms. Honig alleges that Mr. Cullum agreed to assign her half of his water right as part of the original sale, and therefore Mr. Cullum acted fraudulently and, as a result, the department should not have approved the transfer. Therefore, she reasons that the department should revoke Mr. Olson's right and give it to Ms. Honig.

As far as applying for a water right transfer, Mr. Cullum legally applied for the change in place of use. The law at the time of the transfer provided:

Whenever the owner of a water right for * * * domestic use * * * for any reason desires to change the place of use * * *, an application to make such change * * * shall be filed with the Water Resources Director. The application shall state the name of the owner, the use theretofore made of the water, a description of the premises upon which it is proposed to use the water, the use which is proposed to be made of the water, and the reasons for making the proposed change.

ORS 540.520(1) (1975). Mr. Cullum did all that the statute required. At the time of the application, he still owned the land to which the right was appurtenant, and consequently, the water right.

The department properly processed and approved Mr. Cullum's application for the transfer. Ms. Honig claims that the department did not publish notice of the proposed transfer, and thus the department's processing of the transfer was invalid. However, the department was not required to publish notice of a transfer request for a change in place of use. ORS 540.520(2) (1975). Further, the law provided that "[i]f, after hearing or examination, the Water Resources Director finds that the proposed change can be effected without injury to existing rights, he shall make an order approving the transfer and fixing a time limit within which the application of water may be made to the new use." ORS 540.530(1) (1975). The department properly approved the transfer, because based on the materials and information provided, there would be no injury to any existing water rights (Ms. Honig had no legal water right); approval was mandated by the language of the statute, which provided that the department "shall make an order approving the transfer." Id. (Emphasis added.)

Neither Ms. Honig nor anyone else filed an appeal to the transfer order within the statutory appeal period. Therefore, the department was not authorized to do anything but approve the transfer under these facts. The department would have been acting outside its statutory authority to disapprove a transfer for which an application had been properly completed and which would not injure existing water rights, unless the purchasers had asked that the transfer application be withdrawn. In addition, Mr. Cullum followed the proper procedure to assign the water right to Mr. Olson, in 1979, and the department had no authority to disapprove this assignment. Whether Mr. Cullum's dealings with Ms. Honig were fraudulent or violated other provisions of law is not within the jurisdiction of the department.

We believe the transfer was properly initiated and processed and was not appealed; therefore, the department is without authority to rescind the transfer.

Sincerely,

Stephen E.A. Sanders
