The date set for hearing in said notice was not less than thirty days after the last publication of the notice.

Mr. Robert W. DeBow, Watermaster of District No. 7, has filed a report to the effect that the proposed change in point of diversion of water may be made without injury to existing rights.

No objection having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

Dear Mr. Overcash:

On February 20, 1976, I sent you a map and an additional \$35 to cover costs. We are concerned that we have heard nothing further from this application, and wonder if perhaps it got sidetracked somewhere.

We would appreciate very much hearing from you with some idea as to when the change might be made effective.

Thank you for your cooperation and assistance.

Very truly yours,

Re: Boner Application for
Change of Point of Diversion

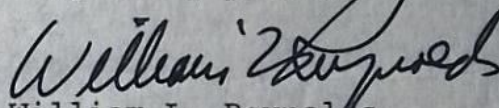

Dear Mr. Overcash:

Enclosed please find the map which you sent to this office, duly marked as to the location of the stock water and the house, and, also, a check in the amount of \$35.00 to cover the additional costs.

We have made the changes on the application which you requested, and believe this should take care of the matter.

Thank you for your cooperation and assistance.

Very truly yours,

William L. Reynolds

Dear Mr. Reynolds:

The application for a change in point of diversion of water from Hurricane Creek you submitted for Sylvia Boner received in October of 1975 was filed as transfer No. 3321. The fees in the amount of \$40.00 were also received.

The transfer application requires an examination fee of \$20.00 and a recording fee of \$15.00 for the change in point of diversion in addition to the \$40.00 deposit for publication of the notice. Therefore, an additional \$35.00 is required.

It will be necessary for you to complete Item No. 5 of the application by indicating the place of use. This may be accomplished by listing "house" and "stock facilities" with respect to the proper quarter-quarter, section, township, and range.

The application should be accompanied by a map showing the location of the stock watering facilities and house to be supplied water. I am enclosing a print of the map which supported the earlier transfer No. 2351. You may add the required information to this map. If stock will drink directly from the ditches rather than separate stock watering facilities, this may be noted.

Since the proposed change is only for stock and domestic purposes, as indicated above Item No. 1, the "irrigation" use should be deleted from Item No. 2.

I am returning the application for completion. I apologize for the long delay in responding to the application. Upon receipt of the completed application and additional fees, we will prepare the notice for publication.

Sincerely,

Wayne J. Overcash
Water Rights Engineer

Re: Application for
Transfer of Water Right
Sylvia Boner

Dear Mr. Jones:

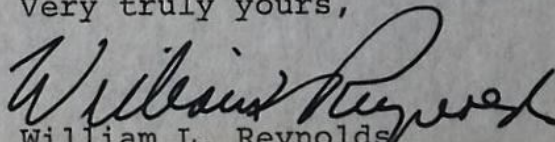

Enclosed please find the application executed by Mrs. Boner, along with her check in the amount of \$40.00, which should cover the publication in the Wallowa County Chieftain. The Watermaster indicated that you wanted to file the notice with the newspaper from your office. I'm sure \$40.00 will be more than adequate; if it is not, we will see that the balance is paid.

I believe I talked with you about this matter some time ago. We were trying to put back the stock water and the domestic water into the Castor-Page Ditch. Apparently, when Lyle Boner, now deceased, filed his application on March 26, 1970, it was not his intention to include stock and domestic water out of the Moonshine Ditch. The obvious reason is that Moonshine Ditch does not run year around.

You indicated to me that as long as we took the domestic and stock water out of the Castor-Page Ditch in the non-irrigation season, we should have no difficulty.

If there is anything further your office requires, please let me know.

Very truly yours,

William L. Reynolds
