Dear Mr. Easom:

Your application for an additional point of diversion of water from the Owyhee River received in October of 1975 was filed as transfer number 3326. The map prepared on tracing paper and fees of \$36.00 were also received.

According to the final proof made in connection with your permit No. 36110, the right was perfected for the irrigation of, among other lands, 37.8 acres in Lot 4 (SW $\frac{1}{4}$ SW $\frac{1}{4}$) and 18.8 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 30, Township 31 South, Range 42 East, W.M. instead of the 34.0 acres in Lot 4 and 14.0 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ listed in item No. 5 of your transfer application. If you will be irrigating all the lands in the S $\frac{1}{2}$ of the SW $\frac{1}{4}$ from the new point of diversion, you may amend item No. 5.

Based on the information supplied in item 20, only the new point of diversion will be used for the irrigation of the acreage listed in item 5. If so, the application should be made for a change in point of diversion for the acreage listed instead of an additional point of diversion.

The application proposes a change greater than one-quarter mile, so notice of the intended change must be published in a newspaper having general circulation in the county. For publishing notice, we require a deposit of \$45.00. Will you also advise us of your choice of newspapers published in Malheur County.
