To a point to be located 360 feet North and 1080 feet East from the Southwest corner of Section 21, being within the  $SW\frac{1}{4}$   $SW\frac{1}{4}$  of Section 21, Township 23 South, Range 7 West, W.M.

for the irrigation of 3.8 acres in  $SW\frac{1}{4}$   $SW\frac{1}{4}$ , Section 21, and 0.1 acre in  $NW\frac{1}{4}$   $NW\frac{1}{4}$ , Section 28, Township 23 South, Range 7 West, W.M., with a date of priority of March 12, 1951, is approved.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgement of the watermaster it becomes necessary to install head-gates and measuring devices.

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled.

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the certificate of water right heretofore issued to P. W. George and recorded at Page 40356, Volume 32, State Record of Water Right Certificates, is canceled, and in lieu thereof a new certificate be issued covering the balance of the lands not involved in this proceeding, and upon receipt of proof satisfactory to the Water Resources Director of completion of the authorized change in point of diversion, a certificate of water right shall be issued to Bruce Hetrick confirming the change in point of diversion.
