BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

UMATILLA COUNTY

IN THE MATTER OF THE APPLICATION)
OF RAYMOND FARMER FOR APPROVAL)
OF A CHANGE IN POINT OF DIVERSION)
OF WATER FROM WILDHORSE CREEK)

ORDER APPROVING
TRANSFER NO. 3922

On April 5, 1978, an application was filed in the office of the Water Resources Director by Raymond Farmer for approval of a change in point of diversion of water from Wildhorse Creek, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 2749, Volume 4, State Record of Water Right Certificates, in the name of G. W. Chamberlain, describes a right which includes the use of not to exceed 0.015 cubic foot per second from Wildhorse Creek for irrigation of 1.22 acres in NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 33 East, W.M., with a date of priority of April 20, 1915.

The authorized point of diversion for said right is located 240 feet South and 1560 feet East from the Northwest Corner of Section 32, being within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 33 East, W.M.

The applicant herein, owner of the lands above described, proposes to change the point of diversion therefrom, without loss of priority, to two points located: (1) 800 feet South and 830 feet East, and (2) 880 feet South and 920 feet East, both from the Northwest Corner of Section 32, and both being within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 33 East, W.M.

Mr. William I. Porfily, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application

should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new points of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right, and shall not exceed 0.015 cubic foot per second.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that NO time need be fixed for completion as the change in point of diversion of water is completed.

The order of the Water Resources Director entered July 27, 1978, approving transfer application No. 2393, provided for cancellation of the certificate of water right recorded at page 2749, Volume 4, State Record of Water Right Certificates, and issuance of a new certificate covering the balance of the right NOT involved in the transfer proceedings; therefore,

It is FURTHER ORDERED that upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

Dated at Salem, Oregon this 27th day of July, 1978.
