Transfer Application: T-14244

Review Due Date:

Applicant Name: Mike Fritz

Proposed Changes: ☐ POU ☐ POD ☐ POA ☐ USE ☒ OTHER

Reviewer(s): Joel Plahn

Date of Review: 06/26/2023

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☐ Yes ☒ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
3. Have headgate notices been issued for the source that serves the transferred right(s)?
☐ Yes ☒ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☒ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☒ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☒ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☐ No If "Yes", explain:

10. For POU or USE changes: ☒ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? ☐ Yes ☐ No If "Yes", explain:

11. For POU changes that involve micro-irrigation: ☒ N/A

- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☐ Yes ☐ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No If "Yes", explain:

- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No If "No", explain:

- iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- iv. Do you have any other observations regarding the temporary transfer? ☐ Yes ☐ No If "Yes", describe:

- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- c. To the best of your knowledge, if this transfer is approved, does it appear that:

- i. "Injury" will occur to other water rights that share the same source? ☐ Yes ☐ No If "Yes", explain:

- ii. "Enlargement" of the water right being transferred will occur? ☐ Yes ☐ No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☐ Yes ☒ No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☒ No ☐ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☐ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a **totalizing flow meter***, or, with prior approval of the Director, another suitable measuring device, ☐ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install **staff gages***, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir
☐ Parshall Flume
☐ Other: ____

☐ Submerged Orifice
☐ Flow Restrictor

EXHIBIT C
Water Right Certificate 50575

STATE OF OREGON
COUNTY OF CLACKAMAS

CERTIFICATE OF WATER RIGHT

This Is to Certify, That SANDELIE GOLF CLUB, INC.

of 28333 SW Mountain Road, West Linn, State of Oregon 97068, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
two wells

a tributary of Willamette River for the purpose of
irrigation of 51.5 acres

under Permit No. G-6433 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
April 25, 1975
that the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed
0.64 cubic foot per second, being 0.32 cfs from each well

or its equivalent in case of rotation, measured at the point of diversion from the well.
The well is located in the SW 1/4 NW 1/4, NE 1/4 SW 1/4, Section 16, T3S, R1E,
WM; Well 1 - 2,050 feet South and 1,560 feet West, Well 2 - 3,780 feet South
and 360 feet West, both from N 1/4 Corner, Section 16

The amount of water used for irrigation, together with the amount secured under any other
right existing for the same lands, shall be limited in one-eightieth of one cubic foot per second
per acre, or its equivalent for each acre irrigated and shall be further limited
to a diversion of not to exceed 2 1/2 acre-feet per acre for each acre
irrigated during the irrigation season of each year

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right
is appurtenant, is as follows:

11.8 acres NE 1/4 NW 1/4
12.4 acres SW 1/4 NW 1/4
15.5 acres SE 1/4 NW 1/4
7.6 acres NE 1/4 SW 1/4

A. Grantor owns certain real property located in Clackamas County, Oregon which is more particularly described in Exhibit A attached hereto (the "Sandellie Property"). Grantee owns certain real property located in Clackamas County which is adjacent to the Sandellie Property, and which is more particularly described in Exhibit B attached hereto (the "Fritz Property").

B. A well identified in the records of the Oregon Water Resources Department ("OWRD") as CLAC 9317 (along with its associated pumping and electrical equipment) is located on the Sandellie Property (the "Well"). The Well supplies water for irrigation purposes to the Sandellie Property and the Fritz Property, pursuant to Water Right Certificate 50575 (the "Water Right") on file with OWRD and attached hereto as Exhibit C. The approximate location of the Well is shown as well # 1 on the final proof map included in Exhibit C.

C. Grantor and Grantee desire to enter into this Well Easement and Water Use Agreement ("Agreement") to establish their respective rights and obligations pertaining to the access, use, operation, and maintenance of the Well and to establish other rights and obligations as provided herein.

D. A separate well identified in the records of OWRD as CLAC 9316 and designated as well #2 in the Water Right is located at another location on the Sandellie Property. An exempt well identified in the records of OWRD as CLAC 8196 (deepened by log CLAC 52192/ID L03011) is located on the Fritz Property. CLAC 9316 and CLAC 8196 are *not* covered by this Agreement; Grantor has exclusive use of CLAC 9316 and Grantee has exclusive use of CLAC 8196.

E. CLAC 9316 and CLAC 9317 are also the designated points of appropriation for Permit G-16291, held by Grantor. The water use authorized by Permit G-16291 is *not* covered by this Agreement.

In consideration of the following mutual covenants, the parties agree as follows:

1. **Grant of Easement.** Grantor hereby grants and conveys to Grantee an easement to that portion of the Sandelie Property that is 50 feet in width from the Well to the Fritz Property (the "Easement"): (i) to use and convey water from the Well to the Fritz Property through an underground pipeline; (ii) to enter upon such portion of the Sandelie Property over the location of the pipeline to install, maintain, repair, and replace the pipeline, according to the terms of Section 4 below; and (iii) to enter upon such portion of the Sandelie Property over the location of the pipeline to operate, maintain, and repair the Well, according to the terms of Section 4 below.

2. **Location of Easement.** The Easement will be located along the most direct, practicable route from the Well to the Fritz Property, beginning at the Well, 2050 feet south and 1560 feet west from the N 1/4 corner of Section 16, and running generally northeast to the southwest corner of the Fritz Property (the NE 1/4 NW 1/4 of Section 16, T3S, R1E), approximately as shown on Exhibit D.

3. **Nature of Easement.** Subject to possible termination under Section 15, the Easement and rights granted herein shall be perpetual and non-exclusive. The Easement and the obligations described herein shall run with the land and shall bind and inure to the benefit of Grantor, Grantee, and each of their respective heirs, legal representatives, successors, and assigns. Grantor may also make any use of its property burdened by the Easement that is consistent with its current or future ownership of the Sandelie Property, as long as such use does not unreasonably interfere with Grantee's use of the Easement as provided in this Agreement.

4. **Installation, Maintenance, and Repair; Cost Allocation; Utilities.**

4.1 **Pipeline Installation, Maintenance, and Repair.** Within two years of the effective date of this Agreement, Grantee shall install a new, separate pipeline to convey water from the Well to the Fritz Property ("Fritz Pipeline"), located as described in Section 2 above. Grantee shall be solely responsible for the installation, maintenance, repair, and replacement of the Fritz Pipeline. All work performed on the Fritz Pipeline shall be completed in a workmanlike manner, free of claims and liens. Until the Fritz Pipeline is installed, Grantor and Grantee will share the existing pipeline running from the Well to the Fritz Property, including sharing equally (50-50) the costs of any maintenance or repairs of the existing pipeline. Upon completion of the installation, maintenance, repair, or replacement of the Fritz Pipeline, Grantee shall restore the surface of the Sandelie Property to its previous condition.

4.2 **Well Maintenance and Repair.** Sandelie will maintain and repair the Well in a good and safe condition and replace mechanical components of the Well as needed ("Well Maintenance"). Fritz may, upon not less than 24 hours advance written notice, perform any necessary emergency maintenance or repairs to the Well in the event Sandelie is not available to perform such repairs. All work performed on the Well shall be completed in a workmanlike manner, free of claims and liens. Each party shall pay its share of the cost of Well Maintenance in proportion to that party's irrigated acreage served by the Well (Sandelie, 77%; Fritz, 23%); provided, however, that neither party shall commence any shared Well Maintenance exceeding \$2,500.00 in cost without first obtaining the verbal consent of the other party, which consent

shall not be unreasonably withheld. A party shall pay its share of Well Maintenance costs within 10 days of receipt of a written statement setting forth the amount thereof, accompanied by a copy of the third party bills or paid receipts showing the nature of the expenses in reasonable detail.

4.4 *Utilities.* Fritz shall pay 23% of all utility charges incurred and attributable to the operation of the Well for irrigation purposes. Fritz's share of the utility charges shall be payable annually and shall be paid by Fritz within 10 days of receipt of a written statement setting forth the amount thereof.

5. *Use of Water/Measurement/Allocation of Shortage.*

5.1 *Use of Water.* The Water Right authorizes irrigation of 51.5 acres in total—39.7 acres on the Sandelie Property and 11.8 acres on the Fritz Property, withdrawn at the rate of 0.32 cfs, up to a maximum volume of 2.5 acre feet of water per acre during the irrigation season of each year. Subject to Section 5.3 below, Grantor shall be entitled to withdraw water from the Well to irrigate 39.7 acres of land on the Sandelie Property and other property owned by Grantor, up to a maximum of 99.25 acre feet annually, and Grantee shall be entitled to withdraw water from the Well to irrigate 11.8 acres of land on the Fritz Property, up to a maximum of 29.5 acre feet annually. Grantee's use of the water from the Well shall be for irrigation purposes only and only in the locations authorized by the Water Right, unless a change in character of use or change in place of use is authorized by OWRD.

5.2 *Measurement.* At its own cost, Grantee shall install a totalizing flow meter on the Fritz Pipeline to measure its separate water use, and shall maintain the meter in good working order and keep a record of the amount of water used each month. Upon request, Grantee shall share its water use records with Grantor.

5.3 *Allocation of Shortage.* If insufficient water is available from the Well to supply Grantor and Grantee with their full rate and duty of water, the available water shall be shared by Grantor and Grantee in the following percentages:

Grantor	77%
Grantee	23%

6. *Curing Defaults.* If either party hereto shall default with respect to any of its obligations set forth herein (including its maintenance obligations), the other party shall have the right to complete such work and seek reimbursement for the cost thereof plus interest thereon at the rate of 9% per annum, provided that the delinquent party shall have been given prior written notice and a reasonable opportunity not to exceed ten days to complete such repair work.

7. *Indemnity.* Each party shall at all times protect, indemnify, defend, and save and hold harmless the other party from all claims, demands, liens, charges, encumbrances, losses, costs (including attorney fees before trial, at trial, and on any appeal), and litigation arising directly or indirectly out of (i) any breach or default under this Agreement by the party; or (ii) liability for bodily injury or death or property damage resulting from any tort of the party.

8. *Noninterference.* The parties to this Agreement shall not unreasonably interfere with the use of the Well by any person entitled to do so under the terms of this Agreement, provided such use is in the manner and for the purposes contemplated under this Agreement.

9. **Cooperation.** The parties to this Agreement shall cooperate with each other in good faith and shall execute such further documents and shall perform such further acts as may be reasonably necessary or appropriate to carry out and accomplish the intent of this Agreement.
10. **Notice.** Notice to any party to this Agreement shall be in writing and either personally delivered or sent by certified mail, postage prepaid, return receipt requested, addressed to the party to be notified at the addresses specified herein. Any such notice shall be deemed received on the date of personal delivery to the party (or such parties authorized representative) or three (3) business days after deposit in the U.S. Mail, as the case may be. Until any party notifies the other party as to a change of its address for notice purposes, notice to the parties shall be sent to the above addresses.
11. **Attorney Fees.** In the event legal action is commenced in connection with this Agreement, the prevailing party in such action shall be entitled to recover its reasonable attorney fees and costs incurred in the trial court and in the appeal therefrom.
12. **Severability.** If any term, provision, or condition contained in this Agreement shall, to any extent, be invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each term, provision, and condition of this Agreement shall be valid and enforceable to the fullest extent permitted by law.
13. **Applicable Law.** This Agreement shall be construed in accordance with the laws of the State of Oregon.
14. **Entire Agreement.** This Agreement shall constitute the entire agreement between the parties and any prior understanding or representation of any kind preceding the date of this Agreement shall not be binding upon either party except to the extent incorporated into this Agreement. This Agreement may be executed in counterparts.
15. **Termination by Grantee.** Grantee may terminate this Agreement upon 90 days' written notice to Grantor; provided, however, that Grantee shall remain obligated to pay its share of any costs incurred prior to the date of notice pursuant to Section 4 above, and provided further that Grantee shall record a Termination of Easement ("Termination"), having first received Grantor's approval of the language of said Termination.

ACCESS EASEMENT

THIS ACCESS EASEMENT (this "Easement Agreement"), dated and effective September 22 2022 (the "Effective Date"), is by and between JANET M. KAISER ("Grantor") and MICHAEL W. FRITZ, Trustee of the Michael W. Fritz Trust UTA DTD April 2, 2015 ("Grantee").

RECITALS

A. Pursuant to a Real Estate Sale Agreement dated August 12, 2022 (the "Sale Agreement"), Sandelie Golf Club, Inc. ("Sandelie") sold to Grantee approximately 30 acres of real property located in Clackamas County, Oregon and legally described on Exhibit A attached hereto (the "Golf Course Property").

B. Pursuant to the Sale Agreement, Sandelie agreed to provide Grantee a temporary easement over Grantor's adjacent property described on Exhibit B attached hereto (the "Easement Property") to construct a new access driveway on the Golf Course Property. Grantor and Grantee desire to establish a right-of-way for construction of the access driveway upon the terms and conditions set forth below.

AGREEMENT

NOW, THEREFORE, for valuable consideration, the parties agree as follows:

1. **Grant of Easement.** Grantor hereby grants and conveys to Grantee a temporary, non-exclusive easement in, to and over the Easement Property to facilitate the construction of a new driveway and entrance to the Golf Course Property (the "Driveway Improvements"). Following the expiration hereof (i) Grantee will repair any damage to the Easement Property caused by its use thereof, and (ii) the Driveway Improvements shall be located exclusively on the Golf Course Property.

2. **Term.** *The term of this Agreement ("Term") shall be one year from the Effective Date.*

3. **Permitted Use, Access.**

3.1 **Permitted Use.** Grantee shall use the Easement Area for the construction of the Driveway Improvements.

3.2 **Restrictions on Use.** Use of the Easement Area shall be solely for the use by Grantee and its contractors and employees.

3.3 **Compliance with Laws.** Grantee shall use the Easement Area and conduct all of its activities under this Agreement in strict compliance with all applicable federal, state and local laws, ordinances and regulations.

3.4 **Environmental Matters.** Grantee shall not allow any hazardous materials to be brought over, upon or deposited on, in or about the Easement Property by Grantee or its contractors or employees.

4. **Maintenance and Repair.** Grantee will, at its expense, repair any damage to the Easement Property caused by its use thereof.

5. **Indemnification.** Grantee shall indemnify, defend and hold Grantor harmless from any liability, damage, expense, cause of action, claim or judgment arising out of (i) any breach of this Agreement by Grantee (including, without limitation, any breach of Section 3.4 above), and (ii) the use by Grantee and its employees, agents, contractors, customers, visitors and invitees of the Easement Property.

6. **Exemption from Liability.** Grantee acknowledges and agrees that Grantor shall (i) have no obligation to provide security for the Easement Property, and (ii) not be liable for any damage, injury or loss of Grantee's property unless caused by the gross negligence or willful misconduct of Grantor or its contractors, agents, or representatives.

7. **Liability Insurance.** Grantee shall, at all times during the term of this Easement Agreement, maintain in full force and effect comprehensive public liability insurance covering its activities hereunder with a financially responsible insurance company or companies licensed to do business in the State of Oregon, including coverage for any accident resulting in bodily injury to or death of any person or consequential damages arising therefrom, and comprehensive property damage insurance, each in an amount not less than \$2,000,000 combined single-limit coverage. Grantee's liability insurance policy shall name Grantor as an additional named insured. Grantee shall, prior to the Effective Date, provide Grantor with a certificate evidencing the foregoing coverage.

8. **Breach of Obligations.** In the event Grantee fails to perform its obligations under this Easement Agreement, Grantor shall, in addition to any other remedies afforded under Oregon law, be entitled to (i) terminate this Agreement upon ten (10) days' prior written notice to Grantee, and (ii) require such performance by suit for specific performance or, where appropriate, through injunctive relief.

9. **Attorney Fees.** In the event of any litigation arising under or in connection with this Agreement, the prevailing party shall be entitled to recover from the losing party the prevailing party's reasonable attorney fees at trial and on appeal as adjudged by the trial and appellate court.

10. **Notices.** Whenever any notice is required or sent under this Agreement, it shall be made in writing and shall be effective when served either personally or sent by U.S. first-

RECITALS

A. Grantor owns certain real property located in Clackamas County, Oregon which is more particularly described in Exhibit A attached hereto (the "Sandelie Property"). Grantee owns certain real property located in Clackamas County which is adjacent to the Sandelie Property, and which is more particularly described in Exhibit B attached hereto (the "Fritz Property").

B. A well identified in the records of the Oregon Water Resources Department ("OWRD") as CLAC 9317 (along with its associated pumping and electrical equipment) is located on the Sandelie Property (the "Well"). The Well supplies water for irrigation purposes to the Sandelie Property and the Fritz Property, pursuant to Water Right Certificate 50575 (the "Water Right") on file with OWRD and attached hereto as Exhibit C. The approximate location of the Well is shown as well # 1 on the final proof map included in Exhibit C.

C. Grantor and Grantee desire to enter into this Well Easement and Water Use Agreement ("Agreement") to establish their respective rights and obligations pertaining to the access, use, operation, and maintenance of the Well and to establish other rights and obligations as provided herein.

D. A separate well identified in the records of OWRD as CLAC 9316 and designated as well #2 in the Water Right is located at another location on the Sandelie Property. An exempt well identified in the records of OWRD as CLAC 8196 (deepened by log CLAC 52192/ID L03011) is located on the Fritz Property. CLAC 9316 and CLAC 8196 are *not* covered by this Agreement; Grantor has exclusive use of CLAC 9316 and Grantee has exclusive use of CLAC 8196.

E. CLAC 9316 and CLAC 9317 are also the designated points of appropriation for Permit G-16291, held by Grantor. The water use authorized by Permit G-16291 is *not* covered by this Agreement.

In consideration of the following mutual covenants, the parties agree as follows:

1. **Grant of Easement.** Grantor hereby grants and conveys to Grantee an easement to that portion of the Sandelie Property that is 50 feet in width from the Well to the Fritz Property (the "Easement"): (i) to use and convey water from the Well to the Fritz Property through an underground pipeline; (ii) to enter upon such portion of the Sandelie Property over the location of the pipeline to install, maintain, repair, and replace the pipeline, according to the terms of Section 4 below; and (iii) to enter upon such portion of the Sandelie Property over the location of the pipeline to operate, maintain, and repair the Well, according to the terms of Section 4 below.

2. **Location of Easement.** The Easement will be located along the most direct, practicable route from the Well to the Fritz Property, beginning at the Well, 2050 feet south and 1560 feet west from the N 1/4 corner of Section 16, and running generally northeast to the southwest corner of the Fritz Property (the NE 1/4 NW 1/4 of Section 16, T3S, R1E), approximately as shown on Exhibit D.

3. **Nature of Easement.** Subject to possible termination under Section 15, the Easement and rights granted herein shall be perpetual and non-exclusive. The Easement and the obligations described herein shall run with the land and shall bind and inure to the benefit of Grantor, Grantee, and each of their respective heirs, legal representatives, successors, and assigns. Grantor may also make any use of its property burdened by the Easement that is consistent with its current or future ownership of the Sandelie Property, as long as such use does not unreasonably interfere with Grantee's use of the Easement as provided in this Agreement.

4. **Installation, Maintenance, and Repair; Cost Allocation; Utilities.**

4.1 **Pipeline Installation, Maintenance, and Repair.** Within two years of the effective date of this Agreement, Grantee shall install a new, separate pipeline to convey water from the Well to the Fritz Property ("Fritz Pipeline"), located as described in Section 2 above. Grantee shall be solely responsible for the installation, maintenance, repair, and replacement of the Fritz Pipeline. All work performed on the Fritz Pipeline shall be completed in a workmanlike manner, free of claims and liens. Until the Fritz Pipeline is installed, Grantor and Grantee will share the existing pipeline running from the Well to the Fritz Property, including sharing equally (50-50) the costs of any maintenance or repairs of the existing pipeline. Upon completion of the installation, maintenance, repair, or replacement of the Fritz Pipeline, Grantee shall restore the surface of the Sandelie Property to its previous condition.

4.2 **Well Maintenance and Repair.** Sandelie will maintain and repair the Well in a good and safe condition and replace mechanical components of the Well as needed ("Well Maintenance"). Fritz may, upon not less than 24 hours advance written notice, perform any necessary emergency maintenance or repairs to the Well in the event Sandelie is not available to perform such repairs. All work performed on the Well shall be completed in a workmanlike manner, free of claims and liens. Each party shall pay its share of the cost of Well Maintenance in proportion to that party's irrigated acreage served by the Well (Sandelie, 77%; Fritz, 23%); provided, however, that neither party shall commence any shared Well Maintenance exceeding \$2,500.00 in cost without first obtaining the verbal consent of the other party, which consent

shall not be unreasonably withheld. A party shall pay its share of Well Maintenance costs within 10 days of receipt of a written statement setting forth the amount thereof, accompanied by a copy of the third party bills or paid receipts showing the nature of the expenses in reasonable detail.

4.4 **Utilities.** Fritz shall pay 23% of all utility charges incurred and attributable to the operation of the Well for irrigation purposes. Fritz's share of the utility charges shall be payable annually and shall be paid by Fritz within 10 days of receipt of a written statement setting forth the amount thereof.

5. **Use of Water/Measurement/Allocation of Shortage.**

5.1 **Use of Water.** The Water Right authorizes irrigation of 51.5 acres in total—39.7 acres on the Sandelie Property and 11.8 acres on the Fritz Property, withdrawn at the rate of 0.32 cfs, up to a maximum volume of 2.5 acre feet of water per acre during the irrigation season of each year. Subject to Section 5.3 below, Grantor shall be entitled to withdraw water from the Well to irrigate 39.7 acres of land on the Sandelie Property and other property owned by Grantor, up to a maximum of 99.25 acre feet annually, and Grantee shall be entitled to withdraw water from the Well to irrigate 11.8 acres of land on the Fritz Property, up to a maximum of 29.5 acre feet annually. Grantee's use of the water from the Well shall be for irrigation purposes only and only in the locations authorized by the Water Right, unless a change in character of use or change in place of use is authorized by OWRD.

5.2 **Measurement.** At its own cost, Grantee shall install a totalizing flow meter on the Fritz Pipeline to measure its separate water use, and shall maintain the meter in good working order and keep a record of the amount of water used each month. Upon request, Grantee shall share its water use records with Grantor.

5.3 **Allocation of Shortage.** If insufficient water is available from the Well to supply Grantor and Grantee with their full rate and duty of water, the available water shall be shared by Grantor and Grantee in the following percentages:

Grantor	77%
Grantee	23%

6. **Curing Defaults.** If either party hereto shall default with respect to any of its obligations set forth herein (including its maintenance obligations), the other party shall have the right to complete such work and seek reimbursement for the cost thereof plus interest thereon at the rate of 9% per annum, provided that the delinquent party shall have been given prior written notice and a reasonable opportunity not to exceed ten days to complete such repair work.

7. **Indemnity.** Each party shall at all times protect, indemnify, defend, and save and hold harmless the other party from all claims, demands, liens, charges, encumbrances, losses, costs (including attorney fees before trial, at trial, and on any appeal), and litigation arising directly or indirectly out of (i) any breach or default under this Agreement by the party; or (ii) liability for bodily injury or death or property damage resulting from any tort of the party.

8. **Noninterference.** The parties to this Agreement shall not unreasonably interfere with the use of the Well by any person entitled to do so under the terms of this Agreement, provided such use is in the manner and for the purposes contemplated under this Agreement.

9. **Cooperation.** The parties to this Agreement shall cooperate with each other in good faith and shall execute such further documents and shall perform such further acts as may be reasonably necessary or appropriate to carry out and accomplish the intent of this Agreement.

10. **Notice.** Notice to any party to this Agreement shall be in writing and either personally delivered or sent by certified mail, postage prepaid, return receipt requested, addressed to the party to be notified at the addresses specified herein. Any such notice shall be deemed received on the date of personal delivery to the party (or such parties authorized representative) or three (3) business days after deposit in the U.S. Mail, as the case may be. Until any party notifies the other party as to a change of its address for notice purposes, notice to the parties shall be sent to the above addresses.

11. **Attorney Fees.** In the event legal action is commenced in connection with this Agreement, the prevailing party in such action shall be entitled to recover its reasonable attorney fees and costs incurred in the trial court and in the appeal therefrom.

12. **Severability.** If any term, provision, or condition contained in this Agreement shall, to any extent, be invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each term, provision, and condition of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

13. **Applicable Law.** This Agreement shall be construed in accordance with the laws of the State of Oregon.

14. **Entire Agreement.** This Agreement shall constitute the entire agreement between the parties and any prior understanding or representation of any kind preceding the date of this Agreement shall not be binding upon either party except to the extent incorporated into this Agreement. This Agreement may be executed in counterparts.

15. **Termination by Grantee.** Grantee may terminate this Agreement upon 90 days' written notice to Grantor; provided, however, that Grantee shall remain obligated to pay its share of any costs incurred prior to the date of notice pursuant to Section 4 above, and provided further that Grantee shall record a Termination of Easement ("Termination"), having first received Grantor's approval of the language of said Termination.

Executed as of the date first above written.

Findings of Fact

Background

1. On May 15, 2023, SHORTLAND GOLF CLUB c/o MIKE FRITZ filed an application for partial assignment of Water Right Permit G-16291 and requested issuance of replacement permits. The Department assigned the application number T-14244.
2. On July 30, 2013, the Department approved an extension of time for complete application of water to October 1, 2032.
3. The Applicant identified the following landowner within the authorized place of use, who is not participating in the request for assignment: Sandelie Golf Club Inc. c/o Keith Kaiser.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. Notice of the application for the assignment of the water right permit and request for issuance of replacement water right permits was published in the Department's weekly notice on August 22, 2023, pursuant to ORS 537.325(3)(e) and OAR 690-325-0080. No comments were filed in response to the notice. In addition, the Department provided copies of the draft Proposed Final Order, draft replacement permits, the application, map, and existing water right permit to each owner of land upon which the water right permit is appurtenant.
5. On December 18, 2023, the Department issued a Proposed Final Order considering any comments received, and sent a copy to the applicant, each owner of land upon which the water right permit is appurtenant. Notice of the Proposed Final Order was published in the Department's weekly notice on December 19, 2023. No protests were filed in response to the notice.

10. The applicant affirmed the most recent water use under the permit has been exercised within the relevant terms and conditions of the water right permit.
11. The assignment and issuance of replacement permits would not result in injury to other water right holders.
12. The assignment and issuance of replacement permits would not result in enlargement of the permit.
13. The assignment and issuance of replacement permits does not alter any other terms of Permit G-16291.

Conclusions of Law

The assignment and issuance of replacement permits proposed by Application T-14244 are consistent with the requirements of ORS 537.225 and OAR Chapter 690, Division 325.

Now, therefore, it is ORDERED:

1. The assignment and issuance of replacement permits proposed by Application T-14244 are approved.

2. Permit G-18861, in the name of SHORTLAND GOLF CLUB LLC C/O MIKE FRITZ, and Permit G-18862 in the name of SANDELIE GOLF CLUB INC are issued to supersede Permit G-16291. Permit G-16291 is no longer of any force or affect.
3. All other terms and conditions under Permit G-16291, previous extensions of time are incorporated into Permits G-18861 and G-18862

Split a Permit T-14244 Conditions:

The assignment and issuance of replacement permits would not result in injury to other water right holders.

The assignment and issuance of replacement permits would not result in enlargement of the permit.

The assignment and issuance of replacement permits does not alter any other terms of Permit G-16291.

Original Permit Conditions:

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Use of water from the wells, as allowed herein, shall be controlled or shut off if the wells display:

- (a) An average water level decline of three or more feet per year for five consecutive years; or
- (b) A total water level decline of fifteen or more feet; or
- (c) A hydraulic interference decline of fifteen or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.

For the purpose of determining declines, the reference levels that shall be used are 93.03 feet below land surface for Well 1 and 99.65 feet below land surface for Well 2.

The permittee/appropriator shall be responsible for complying with each of the following requirements for measuring water levels in the wells:

- (a) A water level measurement shall be made each year during the period March 1 through March 31.
- (b) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the permittee/appropriator.
- (c) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.
- (d) The permittee/appropriator shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (3).

STANDARD CONDITIONS

If the number, location, source, or construction of any well deviates from that proposed in the permit application or required by permit conditions, this permit may not be valid, unless the Department authorizes the change in writing.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Completion of construction and complete application of the water to the use was to be made on or October 1, 2012. By Extension of Time Final Order dated July 30, 2013, the completion of construction and complete application of the water to the use was extended to October 1, 2032. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

9. The deed supplied with the application, matches the property proposed for assignment.
10. The applicant affirmed the most recent water use under the permit has been exercised within the relevant terms and conditions of the water right permit.
11. The assignment and issuance of replacement permits would not result in injury to other water right holders.
12. The assignment and issuance of replacement permits would not result in enlargement of the permit.
13. The assignment and issuance of replacement permits does not alter any other terms of Permit G-16291.

Conclusions of Law

The assignment and issuance of replacement permits proposed by Application T-14244 appear to be consistent with the requirements of ORS 537.225 and OAR Chapter 690, Division 325. If protests are not filed pursuant to OAR 690-325-0100, the application will be approved.

If Application T-14244 is approved, the final order will contain the following:

- The assignment and issuance of replacement permits proposed by Application T-14244 are approved.*

2. *Permit G-18861, in the name of SHORTLAND GOLF CLUB LLC C/O MIKE FRITZ, and Permit G-18862 in the name of SANDELIE GOLF CLUB INC are issued to supersede Permit G-16291. Permit G-16291 is no longer of any force or affect.*
3. *All other terms and conditions under Permit G-16291, previous extensions of time are incorporated into Permits G-18861 and G-18862*

This Proposed Final Order was prepared by Arla L Davis. If you have questions about the information in this document, you may reach me at (503) 979-3129 or arla.l.davis@water.oregon.gov.

Protests

Under the provisions of ORS 537.227 and OAR 690-325-0100, within 45 days after the date of publication in the Department's weekly notice as prescribed by OAR 690-325-0090, a record landowner, an assignee, an affected water right permit holder or other interested person may protest this proposed final order.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-325-0100]. The protest must include the following:

- The person's name, address, and telephone number of the person filing the protest; and;
- A detailed explanation of why the proposed order does not conform with the criteria for a water right permit assignment and a description of the changes to the order that are necessary to correct the nonconformity.
- A protest must identify all issues the person wishes to raise that are reasonably ascertainable at the time the protest is filed. The issues must directly pertain to whether the proposed replacement water right permits are authorized under and in conformance with ORS 537.225;
- If a protest is properly filed, the Department may work with the applicant and the person filing the protest to determine whether the issues raised by the protest can be resolved informally. The Department may:
 - (a) Reissue a proposed final order;
 - (b) Issue a final order; or

(c) Refer the matter for a contested case hearing.

- If the Department is unable to resolve the issues informally and refers the matter for a contested case hearing, the issues properly before the administrative law judge are limited to whether the proposed replacement water right permits are authorized under and in conformance with ORS 537.225. Any unraised issue that was reasonably ascertainable at the time the protest was filed and any argument not raised in the protest with sufficient specificity to afford the Department an opportunity for response is not subject to review at the contested case hearing.
- Notwithstanding ORS 183.310, the parties to a contested case hearing held under OAR 690-325-0100 are limited to:
 - (a) The applicant for the water right permit assignment; and
 - (b) Persons that timely filed a protest against the proposed order under OAR 690-325-0090(3)
- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.

Oregon Revised Statute 537.630 and 539.010(5), and Oregon Administrative
Rule Chapter 690, Division 315**

Application History

Permit G-16291 was issued by the Department on January 31, 2008. The permit called for completion of construction and complete application of water to beneficial use by October 1, 2012. On January 22, 2013, Sandelie Golf Club, Inc. submitted to the Department an Application for Extension of Time for Permit G-16291. In accordance with OAR 690-315-0050(2), on May 28, 2013, the Department issued a Proposed Final Order proposing to extend the time to

Appeal Rights

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. A request for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 183.485 and OAR 137-004-0080 you may either file for judicial review, or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

complete construction and the time to fully apply water to beneficial use to October 1, 2032. The protest period closed July 12, 2013, in accordance with OAR 690-315-0060(1). No protest was filed.

Findings of Fact

The Department adopts and incorporates by reference the findings of fact in the Proposed Final Order dated May 28, 2013.

At time of issuance of the Proposed Final Order the Department concluded that, based on the factors demonstrated by the applicant, any comments received, and information within the file, the permit may be extended subject to the following condition:

CONDITION

1. Checkpoint Condition

The permit holder must submit a completed Progress Report Form to the Department by **October 1, 2017, 2022, and 2027. Forms will be enclosed with your Final Order.**

- (a) At each checkpoint, the permit holder shall submit and the Department shall review evidence of the permit holder's diligence towards completion of the project and compliance with terms and conditions of the permit and extension. If, after this review, the Department determines the permit holder has not been diligent in developing and perfecting the water use permit, or complied with all terms and conditions, the Department shall modify or further condition the permit or extension to ensure future compliance, or begin cancellation proceedings on the undeveloped portion of the permit pursuant to ORS 537.260 or 537.410, or require submission of a final proof survey pursuant to ORS 537.250;
- (b) The Department shall provide notice of receipt of progress reports in its weekly notice and shall allow a 30 day comment period for each report. The Department shall provide notice of its determination to anyone who submitted comments.

CONCLUSION OF LAW

The applicant has demonstrated good cause for the permit extension pursuant to ORS 537.630, 539.010(5) and OAR 690-315-0040(2).

Order

The extension of time for Application G-16499, Permit G-16291, therefore, is approved subject to conditions contained herein. The deadline for completing construction and for applying water to full beneficial use within the terms and conditions of the permit is extended from October 1, 2012 to October 1, 2032.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Use of water from the wells, as allowed herein, shall be controlled or shut off if the wells display:

- (a) An average water level decline of three or more feet per year for five consecutive years; or
- (b) A total water level decline of fifteen or more feet; or
- (c) A hydraulic interference decline of fifteen or more feet in any neighboring well providing water for senior exempt uses or wells covered by prior rights.

For the purpose of determining declines, the reference levels that shall be used are 93.03 feet below land surface for Well 1 and 99.65 feet below land surface for Well 2.

The permittee/appropriator shall be responsible for complying with each of the following requirements for measuring water levels in the wells:

- (a) A water level measurement shall be made each year during the period March 1 through March 31.
- (b) All water level measurements shall be made by a qualified individual. Qualified individuals are certified water rights examiners, registered geologists, registered professional engineers, licensed land surveyors, licensed water well constructor, licensed pump installer, or the permittee/appropriator.
- (c) Any qualified individual measuring a well shall use standard methods of procedure and equipment designed for the purpose of

well measurement. The equipment used shall be well suited to the conditions of construction at the well. A list of standard methods of procedure and suitable equipment shall be available from the Department.

- (d) The permittee/appropriator shall submit a record of the measurement to the Department on a form available from the Department. The record of measurement shall include both measurements and calculations, shall include a certification as to their accuracy signed by the individual making the measurements, and shall be submitted to the Department within 90 days from the date of measurement. The Department shall determine when any of the declines cited in section (1) are evidenced by the well measurement required in section (3).

STANDARD CONDITIONS

If the number, location, source, or construction of any well deviates from that proposed in the permit application or required by permit conditions, this permit may not be valid, unless the Department authorizes the change in writing.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this permit, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The wells shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine water level elevation in the well at all times.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

Prior to receiving a certificate of water right, the permit holder shall submit the results of a pump test meeting the department's standards, to the Water Resources Department. The Director may require water level or pump test results every ten years thereafter.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

Completion of construction and complete application of the water to the use shall be made on or before October 1, 2012. If the water is not completely applied before this date, and the permittee wishes to continue development under the permit, the permittee must submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Purpose The purpose of this Agreement is to process the Split a Permit Application. (Permit Number: G-16291)

- 1. Authority** The OWRD has been authorized pursuant to ORS 537.225 to receive and review application for assignment of all or part of the water right permit and for the issuance of a replacement water right permit that reflects that assignment. In addition OAR 690-325-0010 through 0110 establishes the requirements and procedures for evaluating the application. In making this agreement, OWRD shall require the applicant to pay the full cost of evaluating the application.
- 2. Restrictions.** Shortland Golf Club AKA Shorty's Golf Course LLC c/o Mike Fritz and OWRD agree that this Agreement shall not be construed to restrict in any way the decisions and actions by OWRD. OWRD shall be free to exercise independent judgment consistent with existing laws and regulations.
- 3. Effective Date and Duration.** Unless otherwise terminated by non-deposit of funds by the Applicant, this Agreement shall become effective on the date on which both parties have signed the Agreement and the full deposit of the estimated cost of the proposed service.
- 4. Statement of Work.** The Statement of Work is contained in Exhibit A attached hereto and incorporated by reference into this Agreement. OWRD agrees to perform this work in accordance with the terms and conditions of this Agreement.
- 5. Consideration.**
 - a. Shortland Golf Club AKA Shorty's Golf Course LLC c/o Mike Fritz** shall pay OWRD in advance for actual costs incurred by OWRD as specified in the Statement of work attached and incorporated as Exhibit A. The estimated maximum reimbursement payable to OWRD under this Agreement is \$1050.00. Shortland Golf Club AKA Shorty's Golf Course LLC c/o Mike Fritz, agrees to pay the full amount of \$1050.00 to OWRD prior to commencement of any work stated in this Agreement. This payment will be placed in an account administered by OWRD and drawn upon as costs are actually incurred. If the actual cost of performing the work is less than payments received, OWRD will refund the unspent balance. If the actual cost of processing exceeds the estimate, the Applicant can either elect to terminate this Agreement or amend the Agreement to reflect the increase in cost.
 - b.** The costs stated in this Agreement do not include the statutory application processing and filing fees.
- 6. Contract Documents.** This Agreement consists of the following documents which are listed in descending order of precedence: this Agreement and the attached Exhibit A. All attached Exhibits are incorporated into this Agreement by reference.
- 7. Confidentiality.** Shortland Golf Club AKA Shorty's Golf Course LLC c/o Mike Fritz agrees that any information provided to or acquired by OWRD under this Agreement will be subject to the Oregon Public Records Law and shall be considered public records.

8. **Indemnity.** Applicant shall defend, save, hold harmless, and indemnify the State of Oregon, OWRD and their officers, employees, and agents from and against all claims, suits, actions, losses, damages, liabilities, costs and expenses of any nature resulting from or arising out of, or relating to the activities of Applicant or its representatives, officers, employees, contractors, or agents under this Agreement or with respect to the service. The Applicant acknowledges that the Oregon Water Resources Department cannot and does not guarantee a favorable review under the subject regulatory process.
9. **Termination.** Applicant may request to terminate this agreement only in writing at anytime during the process. The Applicant agrees to pay for the work done by OWRD up until the time of the written termination request. OWRD, upon receiving such written termination request from the Applicant will refund any unspent balance after paying the contractor for the work done.
10. **Funds Authorized and Available.** By its execution of this Agreement, Applicants certify that sufficient funds are authorized and available to cover the expenditures contemplated by this Agreement.
11. **Duration of Estimate.** The Estimate of Time to complete the work in Exhibit A (Statement of Work) becomes null and void after thirty- (30) days from the date the Applicant's Agreement is mailed. If the Applicant's Agreement is not received by the Department within thirty (30) days of mailing the Agreement, the Applicant must re-apply for a new estimate.
12. **Completion Date.** OWRD, by the execution of this Agreement does not guarantee the completion date indicated in this Agreement. Completion date is only an estimate and may be affected by the Department's workload, statutory waiting periods, issues arising from the processing of the requested services and Applicant's timely response to requests for additional information.
13. **Captions.** The captions or headings in this Agreement are for the convenience only and in no way define limit or describe the scope or intent of any provision of this Agreement.
14. **Amendment and Merger.** The terms of this Agreement shall not be waived, altered, modified, supplemented or amended in any manner whatsoever, except by written instrument signed by both parties. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. There are no understandings, agreements or representations, oral or written, not specified herein regarding this Agreement.
15. **Signatures.** All parties, by the authorized representative's signature below, hereby acknowledge that they have read this Agreement, understand it and agree to be bound by its terms and conditions.
