ORDER ON WITHDRAWN APPLICATION

Reference: Transfer Application T-14600

The above referenced transfer application was withdrawn from the record of the Water Resources Department on May 13, 2025, by Special Order Volume 134, Page 664 (copy enclosed).

The transfer application is no further force or effect.

If you have any questions related to the withdrawal of this transfer, you may contact your caseworker, Scott Grew, by telephone at (503) 986-0890 or by e-mail at Scott.a.grew@water.oregon.gov.

Sincerely,

David V. Jones Jr

OF THE
STATE OF OREGON

In the Matter of Transfer Application	)	FINAL ORDER WITHDRAWING
T-14600, Crook County, Oregon	)	AN APPLICATION FOR A TEMPORARY
	)	WATER RIGHT TRANSFER

Authority

ORS 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right.

Applicant

PHILIP AND PENELOPE KNIGHT
34645 SW CLOUDREST LANE
HILLSBORO, OR 97123

Findings of Fact

1. Temporary Transfer Application T-14600, in the name of Philip and Penelope Knight was filed on January 29, 2025.
2. On April 15, 2025, the applicant's agent submitted a written request on behalf of the applicant asking that Temporary Transfer Application T-14600 be withdrawn.

Now, therefore, it is ORDERED:

Temporary Transfer Application T-14600, in the name of Philip Knight and Penelope Knight, is withdrawn and of no further force or effect.

Dated in Salem, Oregon on **MAY 13 2025**

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
Ivan Gall, Director
Oregon Water Resources Department

Mailing date: **MAY 14 2025**

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application	)	FINAL ORDER DENYING TEMPORARY
T-14600, Crook County	)	CHANGE IN PLACE OF USE, POINTS OF
	)	APPROPRIATION <i>and</i>

Authority

Oregon Revised Statute (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to temporarily transfer the place of use and, if necessary to convey the water to the temporary place of use, the point of appropriation authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

PHILIP & PENELOPE KNIGHT
34645 SW CLOUDREST LANE
HILLSBORO, OR 97123

Findings of Fact

1. On January 29, 2025, PHILIP & PENELOPE KNIGHT filed an application to temporarily change the place of use and change the points of appropriation to serve the proposed place of use under Certificate 94893 for a period of 5 years. The Department assigned the application number T-14600.
2. Notice of the application for transfer was published on February 11, 2025, pursuant to OAR 690-380-4000.
3. The portion of the right to be transferred is as follows:

Certificate: 94893 in the name of FREUND SPENCER INVESTMENT GROUP LLC
(perfected under Permit G-18016)
Use: IRRIGATION of 100.0 ACRES
Priority Date: APRIL 7, 1997
Rate: 1.25 CUBIC FEET PER SECOND (CFS), FURTHER LIMITED TO 0.73 CFS FROM WELL 2 AND 0.58 CFS FROM WELL 4, NOT TO EXCEED 1.25 CFS, IN ANY COMBINATION

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Limit/Duty: The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

Period of Use: MAY 1 THROUGH OCTOBER 15

Source: TWO WELLS in the CROOKED RIVER BASIN

Authorized Points of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
15 S	15 E	WM	32	NE SW	WELL 2 - 1750 FEET NORTH AND 2050 FEET EAST FROM THE SW CORNER OF SECTION 32
15 S	15 E	WM	32	SW NE	WELL 4 - 3690 FEET NORTH AND 2870 FEET EAST FROM THE SW CORNER OF SECTION 32

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
15 S	15 E	WM	29	SE SW	1.5
15 S	15 E	WM	32	NW NE	11.7
15 S	15 E	WM	32	SW NE	26.8
15 S	15 E	WM	32	NE NW	30.4
15 S	15 E	WM	32	SE NW	21.8
15 S	15 E	WM	32	NE SW	7.8
Total					100.0

4. Temporary Transfer Application T-14600 proposes to temporarily change the place of use of the right to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
12 S	12 E	WM	34	NE SW	26.7
12 S	12 E	WM	34	NW SW	25.6
12 S	12 E	WM	34	SW SW	25.3
12 S	12 E	WM	34	SE SW	22.4
Total					100.0

5. A change in point of appropriation is necessary to convey the water to the proposed temporary place of use. Temporary Transfer Application T-14600 proposes to move the authorized points of appropriation with approximate distances as described below:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Distance from Authorized Wells in miles (mi.)
12 S	12 E	WM	34	NE SW	WELL 1 - 170 FEET NORTH AND 2550 FEET EAST FROM THE SW CORNER OF SECTION 34	Well 2 - 23.7 mi.
						Well 4 - 23.6 mi.

well directions

6. Temporary Transfer Application T-14600 proposes to temporarily transfer a water right within the boundaries of North Unit Irrigation District. The district was notified of the proposed temporary transfer and expressed concerns about the ability of the district to serve the right at the proposed new location. *The District did not complete a District form.*

Temporary Transfer Review Criteria

7. Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right are present.
9. The proposed changes would prevent the lands from which the water right is removed during the period of the temporary transfer from receiving water under the transferred right, as required by ORS 540.523(7).
10. The proposed change~~s~~ would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.
11. The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Conclusions of Law

The temporary change in place of use and points of appropriation to serve the temporary place of use proposed in Temporary Transfer Application T-14600 are **not** consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. Temporary Transfer Application T-14600 is denied. The application is of no further force or effect.

RE: T-14600 Comments

Regarding T-14600 North Unit Irrigation District (NUID) does not plan to sign the application as written.

- The term of the temporary ground water transfer is for five years. During that time, the Patron is not allowed to use both their District water right and the temporary groundwater transfer at the same time, as it can be considered enlargement of their water right.
- If the Patron chooses the groundwater transfer over their District rights, the five years that the Patron does not use their District water right on their lands would subject the 157.6 acres of water rights to forfeiture. In order to prevent forfeiture, the District will require the primary rights to be permanently transferred to other ground within the District. Beneficial use must be proven before a transfer will be approved.
- All water transfers will be subject to approval from the NUID Board of Directors.

Thank you,

Josh Bailey, General Manager

Groundwater Transfer Review Summary Form

Transfer/PA # T- 14600

GW Reviewer Joe Kemper Date Review Completed: 2/24/2025

Summary of Same Source Review:

☒ The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Water Level Decline Condition Review:

☐ Water levels at the original point(s) of appropriation have exceeded the allowed decline threshold defined by conditions in the originating water right.

Summary of Injury Review:

☐ The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

☐ The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Reviewer(s): Joe Kemper

Date of Review: 2/24/2025

Date Reviewed by GW Mgr. and Returned to WRSD: 2/25/2025

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- ☐ The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- ☐ The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- ☐ Other _____

-
1. Basic description of the changes proposed in this transfer: Certificate 94893 authorizes pumping 1.42 cfs of groundwater from two wells (CROO 1999 and CROO 54411) for irrigation of 113.8 acres. This temporary transfer (2025 through 2029) proposes to change the place of use for 100 acres of irrigation and move 1.25 cfs from CROO 1999 & CROO 54411 to JEFF 51763.
 2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
☐ Yes ☒ No Comments: "From" wells CROO 54411 and CROO 1999 access an aquifer hosted within the low-yielding silicic bedrock of Powell Buttes (considered part of the John Day Formation). These aquifers are recharged from precipitation falling directly onto Powell Buttes (Gannett, 1987). Groundwater levels in CROO 1999 and CROO 54411 are ~3700 feet amsl and 3300 feet amsl respectively. This is several hundred feet higher than the regional groundwater system hosted in the Deschutes Formation, which sits at approximately 2700 feet AMSL adjacent to Powell Buttes (see CROO 24). In summary, the "from" wells produce from an aquifer system hosted in geological material that is distinct from the Deschutes Formation, receives local recharge from Powell Buttes, and has higher groundwater levels than the regional groundwater system hosted in the Deschutes Formation.

The "To" well JEFF 51763 is located 24 miles to the NW of the "From" wells. It accesses the Deschutes regional aquifer hosted in the Deschutes Formation adjacent to where this aquifer discharges to the Deschutes and Crooked rivers in the "confluence area". Water level elevation in this well is approximately 2075 ft amsl, which is commensurate with the wells drilled adjacent to Opal Springs (JEFF 50418, JEFF 50654, and JEFF 50263). The ultimate source of this aquifer is precipitation in the Cascades to the southwest. The "From" wells and the "to" wells access distinct aquifers with different recharge sources, so they are considered not the same source.

3. a) Is the existing authorized POA subject to a water level decline condition?
☐ Yes ☒ No Comments: _____
- b) If yes, for each POA identify the reference level, most recent spring-high water level, and whether an applicable permit decline condition has been exceeded: _____
4. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
☐ Yes ☒ No Comments: The "From" wells access only one distinct groundwater source.
- b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____
5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?
☒ Yes ☐ No Comments: The proposed change would result in more pumpage from JEFF 51763 and thus would increase any interference with wells in the area.
- b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?
☐ Yes ☒ No If yes, explain: There is limited domestic well development in this area. The target aquifer is several hundred feet thick in this area, has a small degree of seasonal variation, and is highly permeable. It is unlikely that any well-to-well interference caused by JEFF 51763 would be large enough in magnitude to meet the standard of injury.
6. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?
☒ Yes ☐ No Comments: The "To" well is located approximately 1 mile from Opal Springs and three wells that pump from Deschutes regional aquifer adjacent to Opal Springs. Water levels in these wells are very similar, suggesting a high degree of hydraulic connection. Water pumped at the "to" well would come almost entirely from stream depletion of the Crooked River and its groundwater inflow.
- b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?
Stream: Crooked River ☒ Minimal ☐ Significant
Stream: _____ ☐ Minimal ☐ Significant
Provide context for minimal/significant impact: The interference from JEFF 51763 would be concentrated on the adjacent reaches of the Crooked River where more than 1000 cfs of groundwater flows into the Crooked. This groundwater inflow far exceeds the instream flow requirements in the Crooked. Interference with that groundwater inflow would not cause injury to instream or out of stream water rights there.

7. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?
☐ Yes ☐ No Comments: NA
8. What conditions or other changes in the application are necessary to address any potential issues identified above: _____
9. Any additional comments: The figure of summary statistics of well logs near the 'From' wells indicates a median yield of 7 gpm and a max yield of 60 gpm. CROO 54411 indicates a yield of 34 gpm. CROO 1999 indicates a yield of 50 gpm. These well log statistics, the 45-gpm rate in the pump test for permit G-18016, and the low-transmissivity, low storage fractured rock hydrogeologic setting are notable in comparison to the maximum certificated rates of 0.83 cfs (372 gpm) and 0.66 cfs (296 gpm) claimed on the water right. This parallels the comments in the Watermaster Review for this transfer.

POA Summary Table

POA #	POA Name	POA Status	OWRD LOGID	TRS	Legal Location	Permitted Rate (cfs)
1	From Well #2	Authorized	CROO 1999	15S/15E-S32 NW-SW	1750' N, 2050' E of SW cor Sec 32	0.83
2	From Well #4	Authorized	CROO 54411	15S/15E-S32 SW-NE	3690' N, 2870' E of SW cor Sec 32	0.66
3	To Well #1	Proposed	JEFF 51763	12S/12E-S34 SE-SW	170' N, 2550' E of SW cor Sec 34	1.25

Transfer Map

Hydrograph 1: CROO 1954 is an OWRD observation well drilled into the fractured rock aquifer of Powell Buttes. CROO 24 accesses the Deschutes regional aquifer 3.5 miles SW of the "From" Wells. CROO 532 and CROO 54907 show the impacts of the Prineville ASR program in a distal portion of the Deschutes Formation. The "From" wells have a much higher head and likely a different trend than the adjacent Deschutes regional aquifer.

Hydrograph 2: Water level elevations in the Deschutes regional aquifer near the confluence area. The “To” well has a very similar water level elevation to the wells at Opal Springs (JEFF 50263, 50418, & 50654)

Review Due Date: 03/05/2025

Applicant Name: Philip Knight

Proposed Changes: ☒ POU ☐ POD ☒ POA ☐ USE ☐ OTHER

Reviewer(s): Giffin

Date of Review: 02/04/2025

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☐ Yes ☒ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
3. Have headgate notices been issued for the source that serves the transferred right(s)?
☐ Yes ☒ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No If "Yes", describe how the rights would be affected and list the rights most affected:
I will defer to GW review on how the change in POA will affect the aquifer.

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☒ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☒ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☒ No If "Yes", explain:

10. For POU or USE changes: ☐ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

☐ Yes ☒ No If "Yes", explain:

11. For POU changes that involve micro-irrigation: ☒ N/A

- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☐ Yes ☒ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No If "Yes", explain:
- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No If "No", explain:
- iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain:
- iv. Do you have any other observations regarding the temporary transfer? ☐ Yes ☐ No If "Yes", describe:
- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- c. To the best of your knowledge, if this transfer is approved, does it appear that:

i. "Injury" will occur to other water rights that share the same source? ☐ Yes ☒ No If "Yes", explain:

ii. "Enlargement" of the water right being transferred will occur? ☐ Yes ☒ No If "Yes", explain:

I am familiar with this right and was suprised it was fully final proofed since it was my understanding that the well did not produce enough water to gain beneficial use over the whole area (as aerals generally show) but since it was final proofed and accepted within 5 years I do not have any concerns.

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☐ Yes ☒ No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☐ No ☒ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☐ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, ☒ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install staff gages, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir
☐ Parshall Flume
☐ Other: _____

☐ Submerged Orifice
☐ Flow Restrictor

Oregon Water Resources Department

Measurement Condition Information for the Applicant

(To be sent with the Draft Preliminary Determination or Final Order)

Transfer #: T- 14600

In order to avoid enlargement of the right or injury to other rights, a Totalizing flowmeter will be required to be installed prior to diversion of water, as a condition of this transfer:

at each point of diversion/appropriation (new and existing) OR

at each new point of diversion/appropriation.

For additional information, or to obtain approval of a different type of measurement device, the applicant should contact the area Watermaster:

Watermaster name: Jeremy Giffin

District: 11

Address: 231 Salehouse Ip, STE 103

City/State/Zip: Bend, OR 97702

Phone: 541-306-6885

Email: Jeremy.T.Giffin@water.oregon.gov

Note: If a device other than the one specified in the Preliminary Determination or Final Order is approved by the Watermaster, fill out and mail the form below to the Salem office.

Approval of an Alternate Measurement Device

T-

(to be filled out after consultation with the applicant, or after a site visit)

On behalf of the Director, I authorize use of the following suitable alternate measurement device:

Watermaster signature

District

Date

If this form is used for approval of an alternative measurement device, it must be mailed to:

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, OR 97301-1266

Reference: Application T-14600

On January 29, 2025, the Department received your water right Temporary Transfer Application. The application was accompanied by \$1220.00. Receipt number 144618 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

Except as provided under ORS 540.510(3) for municipalities, you may not **temporarily** use water at the new place of use or from the new point of appropriation until a final order approving the temporary transfer application has been issued by the Department. Additionally, pursuant to OAR 690-380-8010, the lands from which an irrigation water right is to be temporarily transferred and the land to which the right is to be temporarily transferred may not both receive water during the same season. If the temporary transfer is approved during an irrigation season and water has already been used at the currently authorized location during that season, then the temporary transfer will not take effect until the following season.

If the land is sold before the temporary transfer is approved, the buyer's consent to the temporary transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

If you have any questions, please contact the Transfer Section at (503) 986-0935.

JAN 29 2025

Part 2 of 5 – Temporary Transfer Application Map Checklist

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Salem, OR

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☐ ☒ N/A If more than three water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS			
1	Base Fee (includes temporary change to one water right for up to 1 cfs)	1	\$950.00
2	Number of water rights included in transfer: <u>1 (2a)</u> Subtract 1 from the number in 3a above: <u>0 (2b)</u> <i>If only one water right this will be 0</i> Multiply line 2b by \$310.00 and enter » » » » » » » » » » » » » »	2	0
3	Do you propose to change the place of use for a non-irrigation use? ☒ No: enter 0 on line 3 » » » » » » » » » » » » » » » » ☐ Yes: enter the cfs for the portions of the rights to be transferred: _____ (3a) Subtract 1.0 from the number in 3a above: _____ (3b) If 3b is 0, enter 0 on line 3 » » » » » » » » » » » » » » » » If 3b is greater than 0, round up to the nearest whole number: _____ (3c) and multiply 4c by \$210.00, then enter on line 3	3	0
4	Do you propose to change the place of use for an irrigation use? ☐ No: enter 0 on line 4 » » » » » » » » » » » » » » » » ☒ Yes: enter the number of acres in the footprint of the place of use for the portions of the rights to be transferred: <u>100.0 (4a)</u> Multiply the number of acres in 4a above by \$2.70 and enter on line 4 » »	4	\$270.00
5	Add entries on lines 1 through 4 above » » » » » » » » » » » Subtotal:	5	\$1,220.0
6	Is this transfer: ☐ necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932? ☐ endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat? If one or more boxes is checked, multiply line 5 by 0.5 and enter on line 6 »	6	0
7	Subtract line 6 from line 5 » » » » » » » » » » » Transfer Fee:	7	\$1,220.0

FEE WORKSHEET for TEMPORARY DROUGHT TRANSFERS			
1	Base Fee (includes drought application and recording fee for up to 1 cfs)	1	\$200.00
	Enter the cfs for the portions of the rights to be transferred (see example below*): _____ (2a) Subtract 1.0 from the number in 2a above: _____ (2b) If 2b is 0, enter 0 on line 2 » » » » » » » » » » » » » » » » If 2b is greater than 0, round up to the nearest whole number: _____ (2c) and multiply 2c by \$50, then enter on line 2 » » » » » » » » » »		
2		2	
3	Add entries on lines 1 through 2 above » » » » » » » » » » Transfer Fee:	3	

1. Divide total authorized cfs by total acres in the water right (for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$); then multiply by the number of acres to be transferred to get the transfer cfs ($\times 45 \text{ ac} = 0.56 \text{ cfs}$).
2. If the water right certificate does not list total cfs, but identifies the allowable use as $1/40$ or $1/80$ of a cfs per acre; multiply number of acres proposed for change by either 0.025 ($1/40$) or 0.0125 ($1/80$). (For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$)
3. Add cfs for the portions of water rights on all the land included in the transfer; however do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 2a would be only 0.56 cfs , since both rights serve the same 45.0 acres. Blank 2b would be 0 and Line 2 would then also become 0).

INSTRUCTIONS for editing the Application Form

To add lines to tables within the forms or to copy and paste additional Part 5 pages, please **save the application form to your computer**. Unlock the document by using one of the following instructions for your Microsoft Word software version:

Microsoft Word 2003

Unlock the document by one of the following:

- Using the Tools menu => click **Unprotect Document**;
OR
- Using the Forms toolbar => click on the **Protect/Unprotect** icon.

To relock the document to enable the checkboxes to work, you will need to:

- Using the Tools menu => click **Protect Document**;
OR
- Using the Forms toolbar => click on the **Protect/Unprotect** icon.

Microsoft Word 2007

- Unlock the document by clicking the **Review** tab, then click **Protect Document**, then click **Stop Protect**
- To relock the document, click **Editing Restrictions**, then click **Allow Only This Type of Editing**, select **Filling In Forms** from the drop-down menu, then check **Yes, Start Enforcing Protection**.

Microsoft Word 2010

- Unlock the document by clicking the **Review** tab; toggle the **Restrict Editing** icon at the upper right, then click **Stop Protect** at the bottom right. Then uncheck the "Allow only this type of editing in the document: **Filling in forms**" in the "Editing restrictions" section on the right-hand list of options.
- To relock the document, check the **Editing Restrictions/Allow Only This Type of Editing/Filling In Forms** box from the drop-down menu, then check **Yes, Start Enforcing Protection**. You do not need to assign a password for the editing restrictions.

Once the application has been unlocked, you may:

- add rows to tables using the Table tools, and
- select and copy the pages of Part 5 and paste as many additional sets of Part 5 pages as needed at the end of the application.

After editing, re-lock the document to enable checkboxes to work.

Other Alternatives:

- Photocopy pages or tables in Part 5, ~~mark-through~~ any non-applicable information, insert/attach photocopied pages to document in the appropriate location, and manually amend page numbers as necessary (e.g. Page 5 6 of 9 10).
- You may refer to additional attachments that you may include, such as separately produced tables or spreadsheets to convey large numbers of rows of place of use listings, owner/property parcels, etc. You may contact the Department at 503-986-0900 and ask for Transfer Staff if you have questions.

Salem, OR

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

Water Right Certificate # 94893

Received by OWRD

Description of Water Delivery System

JAN 29 2025

System capacity: 2 cfs cubic feet per second (cfs) OR

Salem, OR

_____ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines, and sprinklers used to divert, convey, and apply the water at the authorized place of use. 150 hp pump fills pond from which 75 hp pump drives directly piped pivot.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)
(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized on the Certificate or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-___)	Twp	Rng	Sec	¼ ¼	Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
Well #2	☒ Authorized ☐ Proposed	CROO 1999	15 S	15 E	32	NE S W	100	1750' N, 2050' E OF SW COR SEC 32
Well #4	☒ Authorized ☐ Proposed	L-121059	15 S	15 E	32	S W NE	100	3690' N, 2870' E OF SW COR SEC 32

	☐ Authorized ☐ Proposed							

Check all type(s) of temporary change(s) proposed below (change "CODES" are provided in parentheses):

- | | |
|---|---|
| ☒ Place of Use (POU) | ☒ Appropriation/Well (POA) |
| ☐ Point of Diversion (POD) | ☐ Additional Point of Appropriation (APOA) |
| ☐ Additional Point of Diversion (APOD) | |

Check all type(s) of temporary change(s) due to drought proposed below (change "CODES" are provided in parentheses):

- | | |
|---|---|
| ☐ Place of Use (POU) | ☐ Point of Appropriation/Well (POA) |
| ☐ Character of Use (USE) | ☐ Additional Point of Appropriation (APOA) |
| ☐ Point of Diversion (POD) | ☐ Additional Point of Diversion (APOD) |

Will all of the proposed changes affect the entire water right?

- ☐ Yes Complete only the Proposed ("to" lands) section of Table 2 on the next page. Use the "CODES" listed above to describe the proposed changes.
- ☒ No Complete all of Table 2 to describe the portion of the water right to be changed.

Do you have questions about how to fill-out the tables?
Contact the Department at 503-986-0900 and ask for Transfer Staff.

List only the part of the right that will be changed. For the acreage in each $\frac{1}{4}$ $\frac{1}{4}$, list the change proposed. If more than one change, specify the acreage associated with each change. If more than one POD/POA, specify the acreage associated with each POD/POA.

Additional remarks:

JAN 29 2025

Water Right Certificate # 94893

For Place of Use Changes

Salem, OR

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☒ Yes ☐ No

If YES, list the certificate, water use permit, or ground water registration numbers: 72279, 93422, 72281, Permits S-54930 & S-55394, being transferred elsewhere.

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- ☒ Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
WELL #2	YES	CROO 1999	294'	6"		25'	100'-185'	42'	OPALITE	0.83 cfs
WELL #4	YES	L-121059	342'	6"		18.5'	282'-322'	157'	CLAY STONE	0.66 cfs
WELL #1	YES	L-151259	985'	10"		71'		745'	BASALT	1.25 cfs

Klamath Basin/County Drought Transfer Applications

Table 4. Klamath Basin/County Well Information (DROUGHT TRANSFER APPLICATIONS ONLY)

Is there currently a flowmeter installed on each of the POAs listed in Table 1 of this application? ☐ Yes ☐ No*

**Please note that watermaster staff will visit the well to confirm flowmeter presence. Where possible, watermaster staff will take a static water level measurement. Alterations to the well head may be required in order to make the water level measurements.*

For each well, please provide a description of the flowmeter location, the serial number, the current flowmeter reading and the date the reading was taken in the table below.

OWNER'S WELL NAME OR NUMBER.	WELL TAG NUMBER (IF AVAILABLE)	WELL LOG ID (E.G., KLAM 1234)	FLOWMETER SERIAL NUMBER	FLOWMETER READING	FLOWMETER DATE	FLOWMETER LOCATION

Salem, OR

1. My knowledge of the exercise or status of the water right is based on (check one):

☒ Personal observation

☒ Professional expertise

2. I attest that:

☐ Water was used during the previous five years on the entire place of use for
Certificate # _____; OR

☐ My knowledge is specific to the use of water at the following locations within the last five years:

Certificate #	Township	Range	Mer	Sec	¼ ¼	Gov't Lot or DLC	Acres (if applicable)

OR

☒ Confirming Certificate # 94893 has been issued within the past five years; OR

☐ Part or all of the water right was leased instream at some time within the last five years. The
instream lease number is: _____ (Note: If the entire right proposed for
transfer was not leased, additional evidence of use is needed for the portion not leased instream.); OR

☐ The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use
would be rebutted under ORS 540.610(2) is attached.

☐ Water has been used at the actual current point of diversion or appropriation for more than
10 years for Certificate # _____ (For Historic POD/POA Transfers)

(continues on reverse side)

3. The water right was used for: (e.g., crops, pasture, etc.): CROPS

4. I understand that if I do not attach one or more of the documents shown in the table below to support the above statements, my application will be considered incomplete.

MY COMMISSION EXPIRES JANUARY 21, 2022

Notary Public for Oregon

My commission expires 1-21-2022

Exhibit A

STATE OF OREGON

COUNTY OF CROOK

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

FREUND SPENCER INVESTMENT GROUP LLC
 63026 NE LOWER MEADOW DR SUITE 200
 BEND OR 97701

confirms the right to the use of water perfected under the terms of Permit G-18016. The amount of water used to which this right is entitled is limited to the amount used beneficially, and shall not exceed the amount specified, or its equivalent in the case of rotation, measured at the point of diversion from the source. The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: G-14494

SOURCE OF WATER: TWO WELLS IN THE CROOKED RIVER BASIN

PURPOSE OR USE: IRRIGATION OF 113.8 ACRES

MAXIMUM RATE: 1.42 CUBIC FEET PER SECOND (CFS), FURTHER LIMITED TO 0.83 CFS FROM WELL 2 AND 0.66 CFS FROM WELL 4, NOT TO EXCEED 1.42 CFS, IN ANY COMBINATION

PERIOD OF USE: MAY 1 THROUGH OCTOBER 15

DATE OF PRIORITY: APRIL 7, 1997

WELL LOCATIONS:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
15 S	15 E	WM	32	NE SW	WELL 2 - 1750 FEET NORTH AND 2050 FEET EAST FROM SW CORNER, SECTION 32
15 S	15 E	WM	32	SW NE	WELL 4 - 3690 FEET NORTH AND 2870 FEET EAST FROM SW CORNER, SECTION 32

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3.0 acre-feet for each acre irrigated during the irrigation season of each year.

Salem, OR

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

Twp	Rng	Mer	Sec	Q-Q	Acres
15 S	15 E	WM	29	SE SW	1.5
15 S	15 E	WM	32	NW NE	12.3
15 S	15 E	WM	32	SW NE	30.8
15 S	15 E	WM	32	NE NW	30.4
15 S	15 E	WM	32	SE NW	29.8
15 S	15 E	WM	32	NE SW	9.0

Received by OWRD

JAN 29 2025

Salem, OR

The combined quantity of water diverted at the new points of appropriation, together with that diverted at the old point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation, located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
15 S	15 E	WM	32	NE SW	WELL 1 (ORIGINAL) - 2435 FEET NORTH AND 2385 FEET EAST FROM SW CORNER, SECTION 32

Water use measurement conditions:

- The water user shall maintain the totalizing flow meter or other suitable measuring device as approved by the Director in good working order at each point of appropriation (new and existing).
- The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the watermaster shall request access upon reasonable notice.
- The Director may require the water user to keep and maintain a record of the amount (volume) of water used and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water use information, the periods of water use and the place and nature of use of water under the right. The Director may provide an opportunity for the water user to submit alternative reporting procedures for review and approval.

Use of water under authority of this right may be regulated if analysis of data available after the right is issued discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may be subsequently reduced.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

STANDARD CONDITIONS

The wells shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The Director may require water level or pump test results every ten years.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water shall be limited when it interferes with any prior surface or ground water rights.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Supplemental Form D

Water Right Transfers Within the Boundaries of or Served by an Irrigation District or other Water Supplier (Association, Ditch Co., etc.)

[For transfers submitted under OAR Chapter 690 Division 380]

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
503-986-0900
www.oregon.gov/OWRD

The Department requires non-district applicants to communicate with districts/water suppliers during the planning and preparation of transfer applications involving water rights having a point of diversion or appropriation (POD/POA), or place of use (POU) for irrigation, served by or located within the boundaries of an irrigation district, or other type of water supplier to which assessments are paid. In some cases, consent will be required from the district or water supplier.

This form must be included with any permanent or temporary transfer application that involves rights served by or located within the boundaries of a district or other type of water supplier.

Hi Julia,

Just to verify, I only need an emailed copy of the signed consent though I'm happy to come meet with Josh face to face on my way to Salem if that's helpful in explaining things.

It's for the Knight water. I'm still mulling over it. (Below)

On Two Brothers, I did meet with the DEQ caseworker and he marked NO on mitigation as none is required Nov-Mar. They're good with Keyes Creek Reservoir

Hi Lisa -

Almost the weekend!!

I'm just checking - is there any problem doing a Temp Transfer of a groundwater primary over weak district rights with district approval? I'm assuming they don't lock together like in a permanent transfer.

Thanks a ton!

John

Hello again!

Thank you for answering my questions over the phone today. We are still in the process of reviewing the application and I am unsure if we will have it back to you by tomorrow. Does this need to be submitted by a certain date?

Thank you!

Hi Julia,

Just checking back. I need to include that signature page in a package I'm planning to hand deliver to OWRD tomorrow. How's it looking?

Thanks a ton and enjoy the sun!

Sincerely,
John

Hello Julia!

I am hoping you can sign this or get it to the correct person. We're simply needing District Consent for a Temporary Transfer of groundwater for use after North Unit's water is regulated off for Matt DerStine.

Thanks a ton for your help!

Sincerely,
John
