NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Measurement, recording and reporting conditions:

- A. The water user shall maintain the totalizing flow meter or other suitable measuring device as approved by the Director in good working order, at each new point of appropriation.
- B. The water user shall allow the watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices is located within a private structure, the watermaster shall request access upon reasonable notice.

Water shall be acquired from the same aquifer (water source) as the original points of appropriation.

The right to the use water for the purposes aforesaid is restricted to the lands or place of use herein described.

This certificate is issued to confirm a change in POINT OF APPROPRIATION approved by an order of the Water Resources Director entered April 6, 2022, at Special Order Volume 122, Page 783, approving Transfer Application T-13371, supercedes Certificate 94834, State record of Water Right Certificates.

Changes Made

OWRD

Note: The Claim only needs to describe the changes that were authorized in the transfer final order.

Change #1

New or Additional Point of Diversion

Change in POD(s) or Additional POD(s)

Did the transfer order authorize a change in the points of diversion or additional points of diversion?

NO

Change #2

Change in POA(s) or Additional POA(s)

Did the transfer order authorize a change in the points of appropriation or additional points of appropriation?

YES

1. New or additional point of appropriation name or number:

Well A	LAKE 687	L-141587	Christmas Lake

Attach each well log available for the well (include the log for the original well and any subsequent

2. Variations:

Was the use developed differently from what was authorized by the transfer final order, or extension final?

NO

If yes, describe below.

(e.g. "The order allowed three new/additional points of appropriation. The water user only developed one of the points.")

CONDITIONS

OWRD

All conditions contained in the transfer final order, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Describe how the water user has complied with each of the development timelines established in the transfer final order and any extensions of time issued for the transfer:

	DATE FROM TRANSFER	DATE THE AUTHORIZED CHANGES WERE COMPLETED *THIS DATE MUST FALL BETWEEN THE "ISSUANCE DATE" AND THE "COMPLETENESS DATE"
ISSUANCE DATE	4/5/2022	
COMPLETENESS DATE FROM ORDER (C)	10/1/2023	7/7/2022

* MUST BE WITHIN PERIOD BETWEEN TRANSFER FINAL ORDER, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETE THE CHANGE

2. Is there an extension final order(s)?

NO

3. Measurement Conditions:

a. Does the transfer final order, or any extension final order require the installation of a meter or other approved measuring device? YES

b. Has a meter been installed?

YES NO

c. Meter Information

POD/POA NAME OR #	MANUFACTURER	SERIAL #	CONDITION (WORKING OR NOT)	CURRENT METER READING	DATE INSTALLED

4. Recording and reporting conditions

a. Is the water user required to report the water use to the Department?

NO

5. Fish Screening

a. Are any points of diversion required to be screened to prevent fish from entering the point or diversion?

NO

6. By-pass Devices

a. Are any points of diversion required to have a by-pass device to prevent fish from entering the point of diversion?

NO

7. Other conditions required by the transfer final order or extension final order:

- a. Were there special well construction standards? NO
- b. Was submittal of a ground water monitoring plan required? NO
- c. Other conditions? NO

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

CLAIM OF BENEFICIAL USE MAP

The Claim of Beneficial Use Map must be submitted with this claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on polyester film at a scale of 1" = 1320 feet, 1" = 400 feet, or the original full-size scale of the county assessor map for the location.

The changes that were authorized under the transfer final order must be mapped based on the developed locations; new or additional points of appropriation and place of use.

In cases where the order involved additional points of appropriation, the additional points should be mapped based on their developed locations. The original points of appropriation should be mapped based on the original right of record at the time the transfer final order was issued.

In cases where the order involved changing the place of use for a portion of a water right, the portion of the place of use being changed should be mapped based on the developed location. If the transfer also included portions of the place of use that were not being modified, but were receiving a new or additional point of appropriation, the place of use for those lands should be mapped based on the original right of record at the time the transfer final order was issued.

Provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

The irrigation system, wells & place of use were tied to approx.. boundaries using a Trimble GeoXT 6000 GIS data collector. Point data was imported into Trimble Pathfinder software & converted to statewide Lambert Projection and compared with recent aerial imagery for accuracy

On January 28, 2022, the Water Resources Department received the Claim of Beneficial Use (COBU) for the following Transfer(s):

T-13371

The COBU included a report and map. The Department hopes to review your submittal within approximately 2 - 4 years. At that time, we will review these items and provide a final certificate, proposed certificate, or a request for additional information.

If you are interested in having your COBU reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at:

<https://www.oregon.gov/OWRD/programs/WaterRights/RA/Pages/Certificate.aspx>

For all other questions please call our Customer Service phone: (503) 986-0900.

If you sell the property, please contact the Department, or have the new owners contact the Department about the need to file an assignment.

COUNTY OF LAKE

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CHURCH FAMILY FARMS, INC.
PO BOX 751
CHRISTMAS VALLEY, OR 97641

confirms the right to use the waters of A WELL, A TRIBUTARY OF CHRISTMAS LAKE for IRRIGATION of 73.89 ACRES.

This right was perfected under Permit G-10172. The date of priority is OCTOBER 4, 1983. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.92 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
26 S	18 E	WM	29	SW SW	WELL B - 1290 FEET NORTH AND 1260 FEET EAST FROM THE SW CORNER OF SECTION 29

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year; provided further that in an event of a request for change in point of appropriation, an additional point of appropriation or repair of this well, the quantity of water allowed herein together with the right perfected under Permit G-9015 shall not exceed 2.97 cfs, the capacity of this well at the time of perfection of this right; and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
26 S	18 E	WM	29	SW SE	2	2.52

26 S	18 E	WM	32	SE NE		0.80
Total						73.89

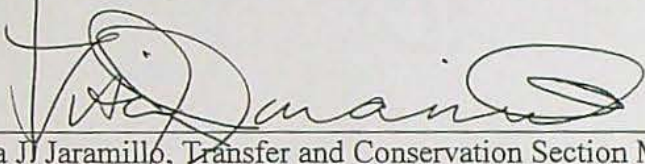

When required by the Department the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

This certificate describes that portion of water right Certificate 94835, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered APR 26 2022, approving Transfer Application T-13371.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed APR 26 2022.

A handwritten signature in black ink, appearing to read 'Lisa J Jaramillo', is written over a horizontal line.

REFERENCE: Transfer Application T-13371

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this temporary transfer, you may contact your caseworker, Corey Courchane by telephone at (503) 979-3917 or by e-mail at Corey.A.Courchane@oregon.gov.

The Department assigned the application number T-13371.
2. Notice of the application for transfer was published on February 25, 2020, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

3. On July 30, 2021, the Department contacted the applicant by written correspondence to notify the applicant and the applicant's agent of deficiencies in the application. The application proposed to make changes under Certificate 52784. On May 4, 2021, the Department issued a Final Order (Special Order Volume 120, Page 140), approving Transfer Application T-13122, cancelling Certificate 52784, and issuing superseding Certificate 95680. The acres in Table 2 under Certificate 52784 (Certificate 95680), did not match the acres on the map, and the location for Well A in Table 1 under Certificate 94835, did not match the location identified on the map. The Department requested that the deficiencies be resolved by August 30, 2021. The applicant's agent submitted revised tables and maps the same day, resolving the deficiencies.
4. On September 8, 2021, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-13371 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of October 8, 2021, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
5. On February 16, 2022, the Department issued a Preliminary Determination proposing to approve Transfer T-13371 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on February 22, 2022, and in the Lake County Examiner newspaper on _____, 2022 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
6. The first right to be transferred is as follows:

Certificate: 94834 in the name of CHURCH FAMILY FARMS, INC. (perfected under Permit G-9015)
Use: IRRIGATION of 5.1 ACRES

Transfer Review Criteria (OAR 690-380-4010)

16. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
17. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-13371.
18. The proposed changes would not result in enlargement of the rights.
19. The proposed change would not result in injury to other water rights.
20. All other application requirements are met.

Conclusions of Law

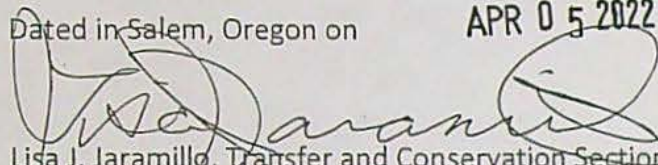

The change in points of appropriation, additional point of appropriation, and change in places of use proposed in Transfer Application T-13371 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in points of appropriation, additional point of appropriation, and change in places of use proposed in Transfer Application T-13371 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 94834, 94835, and 95680, and any related decree.
3. Water right Certificates 94834, 94835, and 95680 are cancelled. A new certificate will be issued describing that portion of Certificate 94835 not affected by this transfer.
4. The quantity of water, as authorized under Certificate 94834, diverted at the new point of appropriation (Well A), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well B).
5. The quantity of water, as authorized under Certificate 94835, diverted at the new points of appropriation (Well and Well A), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well B).
6. The quantity of water, as authorized under Certificate 95680, diverted at the new point of appropriation (Well), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well #1).
7. The quantity of water, as authorized under Certificate 95680, diverted at the new additional point of appropriation (Well #2), together with that diverted at the original point of appropriation (Well #1), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well #1).
8. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each new point of appropriation.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
9. Water shall be acquired from the same aquifer (water source) as the original points of appropriation.
10. The former places of use of the transferred rights shall no longer receive water under the rights.

11. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2023**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
12. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

Hey Corey,

Thanks so much for getting back to me. I'm so sorry, I need to a little more clarification.

Is FOF 9 and FOF 12 supposed to be the same well? If so, are both measurements supposed to be measured from the W1/4 corner of section 31?

If so, in FOF 12, that will need updating as well:

12. Transfer Application T-13371 proposes to move the authorized point of appropriation for a 10.0 acre portion approximately 1.2 miles from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	17 E	WM	31	SE SW	WELL - 1398 FEET SOUTH AND 1277 FEET EAST FROM THE SW CORNER OF SECTION 31

Let me know and I will update WRIS,
Thanks!

Good morning Sheila,

I have corrected FOF 9 to read SE SW of Section 31 for the proposed POA. FOF 13 will remain in the SE SW of Section 32 for the proposed Well #2, as this measurement was provided and verified by the applicant's agent.

Thank you,

Corey

Julie,

Data has seen this PD transfer.

Corey,

On page 3 of the order, item 9, the "well" is in the SWSW: (this affects snap 202400)

9. Transfer Application T-13371 proposes to move the authorized point of appropriation for a 6.70 acre portion approximately 9.9 miles from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	17 E	WM	31	SW SW	WELL - 1398 FEET SOUTH AND 1277 FEET EAST FROM THE W1/4 CORNER OF SECTION 31

However, on page 4 of the order, item 12, it shows to be in the SESW: (this is for snap 210143)

12. Transfer Application T-13371 proposes to move the authorized point of appropriation for a 10.0 acre portion approximately 1.2 miles from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	17 E	WM	31	SE SW	WELL - 1398 FEET SOUTH AND 1277 FEET EAST FROM THE SW CORNER OF SECTION 31

I believe these are supposed to be the same well? If that's the case I think the correct QQ is the SESW, and it should be from the W1/4 corner of section 31. If it's NOT the case, then the 2nd measurement actually places the well in the SENW of section 6, Township 28S, 17E.

On page 5, item 13, the document indicates well 2 is in the SESW: (This affects snap 210143)

13. Transfer Application T-13371 proposes an additional point of appropriation for the remaining 195.2 acres approximately 0.3 mile from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	17 E	WM	32	SE SW	WELL #2 - 1305 FEET NORTH AND 1320 FEET EAST FROM THE SW CORNER OF SECTION 32

This one is very close and probably doesn't really matter, but I will let you know what I see anyway. The measurement (the little red x) places the well in the SWSW, while imagery clearly shows it in the NWSW, neither being the SESW.

If anything changes on these, please let me know and I will update WRIS accordingly.

Thanks so much,

Sheila Buchholz

SUBJECT: Water Right Transfer Application T-13371

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-13371. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Lake County Examiner newspaper, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the last date of newspaper publication.

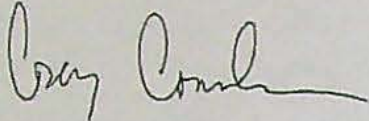

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified above.

Please do not hesitate to contact me, at corey.a.courchane@oregon.gov or (503) 979-3917, if I may be of assistance.

Sincerely,

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Findings of Fact

1. On February 14, 2020, BUCK CHURCH, CHURCH FAMILY FARMS, INC. filed an application for an additional point of appropriation, to change the point of appropriation, and to change the place of use under Certificate 52784, to change the point of appropriation under Certificate 94834, and to change the point of appropriation and place of use under Certificate 94835. The Department assigned the application number T-13371.
2. Notice of the application for transfer was published on February 25, 2020, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On July 30, 2021, the Department contacted the applicant by written correspondence to notify the applicant and the applicant's agent of deficiencies in the application. The application proposed to make changes under Certificate 52784. On May 4, 2021, the Department issued a Final Order (Special Order Volume 120, Page 140), approving Transfer

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

Application T-13122, cancelling Certificate 52784, and issuing superseding Certificate 95680. The acres in Table 2 under Certificate 52784 (Certificate 95680), did not match the acres on the map, and the location for Well A in Table 1 under Certificate 94835, did not match the location identified on the map. The Department requested that the deficiencies be resolved by August 30, 2021. The applicant's agent submitted revised tables and maps the same day, resolving the deficiencies.

4. On September 8, 2021, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-13371 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of October 8, 2021, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

5. The first right to be transferred is as follows:

Transfer Review Criteria (OAR 690-380-4010)

15. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
16. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-13371.
17. The proposed changes would not result in enlargement of the rights.
18. The proposed change would not result in injury to other water rights.
19. All other application requirements are met.

Determination and Proposed Action

The change in points of appropriation, additional point of appropriation, and change in places of use proposed in Transfer Application T-13371 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-13371 is approved, the final order will include the following:

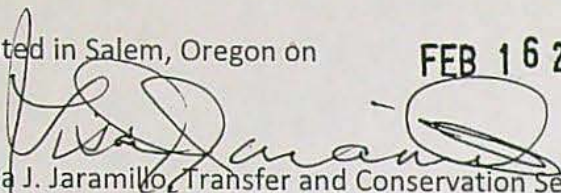

- 1. The change in points of appropriation, additional point of appropriation, and change in places of use proposed in Transfer Application T-13371 are approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificates 94834, 94835, and 95680, and any related decree.*
- 3. Water right Certificates 94834, 94835, and 95680 are cancelled. A new certificate will be issued describing that portion of Certificate 94835 not affected by this transfer.*

4. *The quantity of water, as authorized under Certificate 94834, diverted at the new point of appropriation (Well A), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well B).*
5. *The quantity of water, as authorized under Certificate 94835, diverted at the new points of appropriation (Well and Well A), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well B).*
6. *The quantity of water, as authorized under Certificate 95680, diverted at the new point of appropriation (Well), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well #1).*
7. *The quantity of water, as authorized under Certificate 95680, diverted at the new additional point of appropriation (Well #2), together with that diverted at the original point of appropriation (Well #1), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well #1).*
8. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each new point of appropriation.*
 - b. *The water user shall maintain the meters or measuring devices in good working order.*
 - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
9. *Water shall be acquired from the same aquifer (water source) as the original points of appropriation.*
10. *The former places of use of the transferred rights shall no longer receive water under the rights.*
11. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2023**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*

12. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

SUBJECT: Water Right Transfer Application T-13371

Your water right transfer is ready for issuance of the Preliminary Determination, once the Department receives payment for publication of the newspaper notice.

Items needed before the next phase of processing...

At this time you need to:

1. submit a check for \$156.79 (to cover cost of publication of the notice), made out to the Oregon Water Resources Department.
2. write **"for T-13371 NOTICE" on the front of your check**, and
3. submit it with the tracking stub at the bottom of this letter.

Mail the check to 725 Summer St. NE, Suite A, Salem, OR 97301-1266, **no later than February 18, 2022.**

What happens next...

Shortly after receiving payment, the Department will issue the Preliminary Determination, initiate publication in the Lake County Examiner newspaper, and also publish the notice on the Department's weekly notice. Publication of the notice will initiate a protest period during which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

If we do not receive payment for newspaper notice by February 18, 2022, a Preliminary Determination may be issued denying the application as incomplete.

Reference: Water Right Transfer Application T-13371

Your water right transfer is in the first of three phases of processing. Enclosed is a draft of the Department's Preliminary Determination regarding Transfer Application T-13371. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be approved. Your response and submittal of the items outlined below are required by October 8, 2021.

Required items needing your immediate attention:

1. Please carefully review the Draft Preliminary Determination to verify that it accurately reflects the changes you intend to make and to become familiar with the proposed conditions.
2. **Respond in writing** by OCTOBER 8, 2021, with acknowledgement that you agree to the proposed action and conditions.
3. If you find any errors, please let me know.
4. **REQUIRED:** You must submit a **Report of Ownership** for the lands where the water right(s) are currently located (i.e., the FROM lands). This report:
 - a) Must be prepared by a title company;
 - b) Shall include a "prepared by" statement and the date the title company prepared the report printed on the cover sheet;
 - c) Must be:
 - i. Prepared within 3 months of the Draft Preliminary Determination showing current ownership; **OR**
 - ii. Prepared within 3 months of recording of a water right conveyance agreement; **OR**
 - iii. Have a prepared date showing ownership at the time a water right conveyance agreement was recorded.

If water right conveyance agreements are involved, it is helpful to provide copies of those agreements along with the Report of Ownership.

IMPORTANT: In order for the Department to clearly understand the date that the title company prepared the Report of Ownership, the title company must

indicate/state the date that they prepared the report on the coversheet and/or first page of the report.

- d) Must include a list of owners at the time the report was generated; **AND**
 - e) Must include a legal description of the property where the water right to be transferred is currently located (i.e., the FROM lands).
5. You must provide a notarized statement of consent signed by any landowner listed in the Report of Ownership who is not already included in the transfer application. The Department's statement of consent form (**Consent By Deeded Landowner**) is available at:
[https://www.oregon.gov/OWRD/WRDFormsPDF/consent to transfer form.pdf](https://www.oregon.gov/OWRD/WRDFormsPDF/consent%20to%20transfer%20form.pdf)
6. Notice of this transfer will need to be published in a newspaper with general circulation in the area where the water rights are currently located. You will be responsible for the charges.

Conditions to your water right...

The Watermaster has required a water measurement device(s) at the new diversion point(s) prior to diversion of water. Enclosed is a contact information sheet to assist you in pursuing additional information or approval of the required (or alternate) device(s).

Please note the proposed date by which all conditions must be met: October 1, 2022. If the required completion date is insufficient to comply with any of the conditions, you may request more time, at no cost to you, during this stage of processing. **Please let me know by the comment deadline if you will need more time and explain the reasons why.**

What happens next...

Once the Preliminary Determination is issued a publication period is required. Because there is more than ¼ mile between the new and the authorized points of appropriation, the Department will publish notice of the transfer in a local newspaper having a general circulation in the area of the water right at least once per week for two consecutive weeks. You are responsible for sending a check to cover the cost of publication prior to the issuance of the Preliminary Determination and publication of notice. As outlined in OAR 690-380-4020(3), publication costs include both the direct cost of the notice and indirect processing costs (not to exceed 20% of the direct costs) for processing.

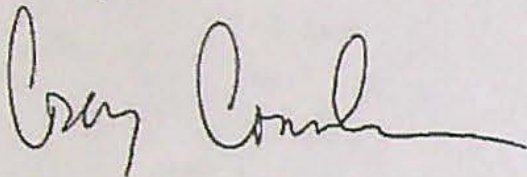

Issuance of the Preliminary Determination will occur shortly after we receive:

- 1. Your written response to the conditions and proposed action in the Draft Preliminary Determination (e-mail is acceptable); and
- 2. The Report of Ownership, including affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application. The title company must indicate/state the date that they prepared the ownership report on the coversheet and/or first page of the report.

If we do not receive the items listed above by October 8, 2021, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me, at corey.a.courchane@oregon.gov or (503) 979-3917, if I may be of assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Corey Courchane". The signature is fluid and cursive, with the first name "Corey" and last name "Courchane" clearly distinguishable.

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Corey,

Please find my replies to your bulleted items included in your deficiency letter below:

First bullet – There are 10 acres listed in both ‘before’ and ‘after’ sections of Table 2. The ‘before’ part has 2.5 acres listed in 4 different QQ sections. No changes are needed to the table or map.

Second bullet – there are 205.2 acres total. 10 acres are going to Section 31. 120.7 acres are remaining under the larger pivot. 74.5 acres are remaining in the smaller pivot. No changes are necessary to the map or table, as they currently list and illustrate this.

Third bullet – I’ve updated Table 2 to add APOA for Well in the SW ¼ of Section 31.

Fourth bullet – I’ve updated Table 1 with the correct Township and Range.

I’ve attached my revised map and application sheets to this message. I’ll also send the hard copies today by regular mail.

Thanks,

Scott

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;

Surface water primary Certificate # _____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- ☒ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Groundwater Transfer Review Summary Form

Transfer/PA # T- 13371

GW Reviewer Gerald H. Grondin

Date Review Completed: 26 March 2021

Summary of Same Source Review:

☐ The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Injury Review:

☐ The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

☐ The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

☒ None of the Above

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- ☐ The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- ☐ The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- ☐ Other _____

1. Basic description of the changes proposed in this transfer: _____

This transfer application relates to three water right certificates 52784, 94834, and 94835. The transfer application proposes changes in POU, POA, and APOA as follows (summarized in attached table also):

Certificate 52784: Original POA well and POU acreage affected are well LAKE 1077 and 205.20 acres both in T27S/R17E-sec 32. The proposed change is to move 2.50 POU acres to T27S/R17E-sec 31 and add two APOA wells LAKE 50380 and LAKE 52371 in T27S/R17E-sec 31 & 32 respectively.

Certificate 94834: Original POA well and POU acreage affected are well LAKE 675 (LAKE 676 deepening) and 5.10 acres both in T26S/R18E-sec 29. The proposed change is to change the POA well to LAKE 687 in T26S/R18E-sec 31.

Certificate 94835: Original POA well and POU acreage affected are well LAKE 675 (LAKE 676 deepening) and 35.48 acres both in T26S/R18E-sec 29. The proposed change is to move 6.70 POU acres to T27S/R17E-sec 31 and change the POA well to LAKE 687 in T26S/R18E-sec 31.

2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?
☒ Yes ☐ No Comments: _____

Essentially yes, the "same aquifer" (source) given the same groundwater system will likely be tapped despite the authorized and proposed POA and APOA wells are constructed to varying depths and tap varying geologic units (see attached well logs). Long term groundwater level data indicates groundwater levels at wells in the vicinity of the currently authorized and proposed POA and APOA locations have similar elevations, seasonally fluctuate similarly, and show the same long-term trends (see attached hydrograph) despite being completed at varying depths and different geologic units.

Additionally, groundwater in the Fort Rock Valley-Christmas Valley area (Fort Rock Classified Area) is identified as a single groundwater system. Groundwater is found in both a shallower predominantly basin-fill sediment unit and a deeper predominantly volcanic rocks and sediments unit below. The predominantly basin fill sediment unit and the predominantly volcanic rocks and sediment unit both readily yield groundwater and the two units are hydraulically connected. The geologic unit yielding groundwater to the authorized POA (LAKE 176) is likely from the predominantly volcanic rocks and sediment unit. The proposed POA well (LAKE 745) appears to obtain groundwater from the predominantly basin fill sediment unit.

Miller (1984 and 1986) describes the groundwater source as the main groundwater reservoir. That reservoir includes groundwater in different geologic units. The reservoir has three characteristics. First, the "natural" groundwater level changes less than 1.5 feet annually, indicating the system is highly modulated. Second, the 1980s potentiometric surface was approximately 4292 feet elevation amsl basin-wide with Silver Lake an exception. Third, the reservoir consists of numerous water producing zones in several formations, all having an essentially common potentiometric level, and all being very transmissive in general.

3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?
☐ Yes ☒ No _____

Essentially no. Single hydraulically connected groundwater system. See discussion in part 2 above.

b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____

No estimate made and no limitation recommended. Single groundwater system. See item 2 and 3a above.

4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?

☒ Yes ☐ No Comments: _____

The proposed POA well change NE of Christmas Valley in T26S/R18E-sec 29 & 31 will move groundwater pumping closer to a different groundwater right POA well (LAKE 685). Initially, the interference will be greater in the first 30 days of pumping (drawdown increase less than 0.20 feet), but the interference will be less than originally by the end of the irrigation season due to a lower pumping rate and less total volume due to decreased acreage irrigated with the POU acreage change. The water right well LAKE 685 should be able to accommodate the seasonal drawdown change.

The proposed POA well change SW of Christmas Valley in T27S/R17E-sec 31 & 32 will move groundwater pumping closer to a different groundwater right POA well (unidentified). The calculated maximum additional seasonal groundwater level drawdown at the unidentified water right well is 2.50 feet or less. The change in seasonal groundwater level drawdown will be less at wells further away. All these water right wells should be able to accommodate the seasonal drawdown change.

The long-term impact on the groundwater system should be the same. That impact is to continue contributing its ongoing share to the annual Fort Rock Classified Area groundwater level decline (see the attached hydrograph...it shows an annual decline rate of about 0.25 feet per year).

- b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

☐ Yes ☒ No If yes, explain: _____

See discussion in part 4a above.

5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

☒ Yes ☐ No Comments: _____

Yes. The POA changes moves pumping closer to surface water particularly Silver Lake and Paulina Marsh. The seasonal drawdown at Silver lake and Paulina Marsh is calculated to be greater by about 0.35 and 0.25 feet respectively by the end of the irrigation season. The long-term interference should be the same.

- b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: Silver Lake ☒ Minimal ☐ Significant

Stream: Paulina Marsh ☒ Minimal ☐ Significant

Provide context for minimal/significant impact: _____

See comment in part 5a above.

6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

☐ Yes ☒ No Comments: _____

Not Applicable. No SW-GW transfer.

7. What conditions or other changes in the application are necessary to address any potential issues identified above: _____

Note: the proposed transfer is within the Fort Rock groundwater limited area.

The following are technical groundwater review recommendations. It is recognized that one or more technically recommended conditions may or may not be allowed under the transfer process rules and statutes. This technical groundwater review relies on other appropriate and authorized Department staff to make that determination.

"Large" flow meter condition for any proposed "To" POA and/or APOA well. Require the flow meter for any POA and/or APOA well to be properly installed and maintained. Each meter shall be either within 50 feet of the well head with a clearly visible monument adjacent to the meter or a surveyed location shall be provided and a clearly visible monument adjacent to the meter shall be installed for each meter more than 50 feet from the well head.

Condition 7P (well tag condition) for all the "To" and "From" POA wells.

Condition 7T (modified) for all "To" POA wells: "Prior to use, all POA wells shall be configured to allow a strictly clean water (no oil) static water level measurements with an electric-tape. That can include measurement access via an unobstructed vertical discharge pipe that allows the groundwater level to fluctuate freely within the discharge pipe (no valves, etc.). Otherwise, a dedicated measuring tube must be installed prior to use. The tube must be unobstructed, have a diameter of 3/4 inch (0.75 inch) or greater, and pursuant to figure 200-5 in OAR 690-200."

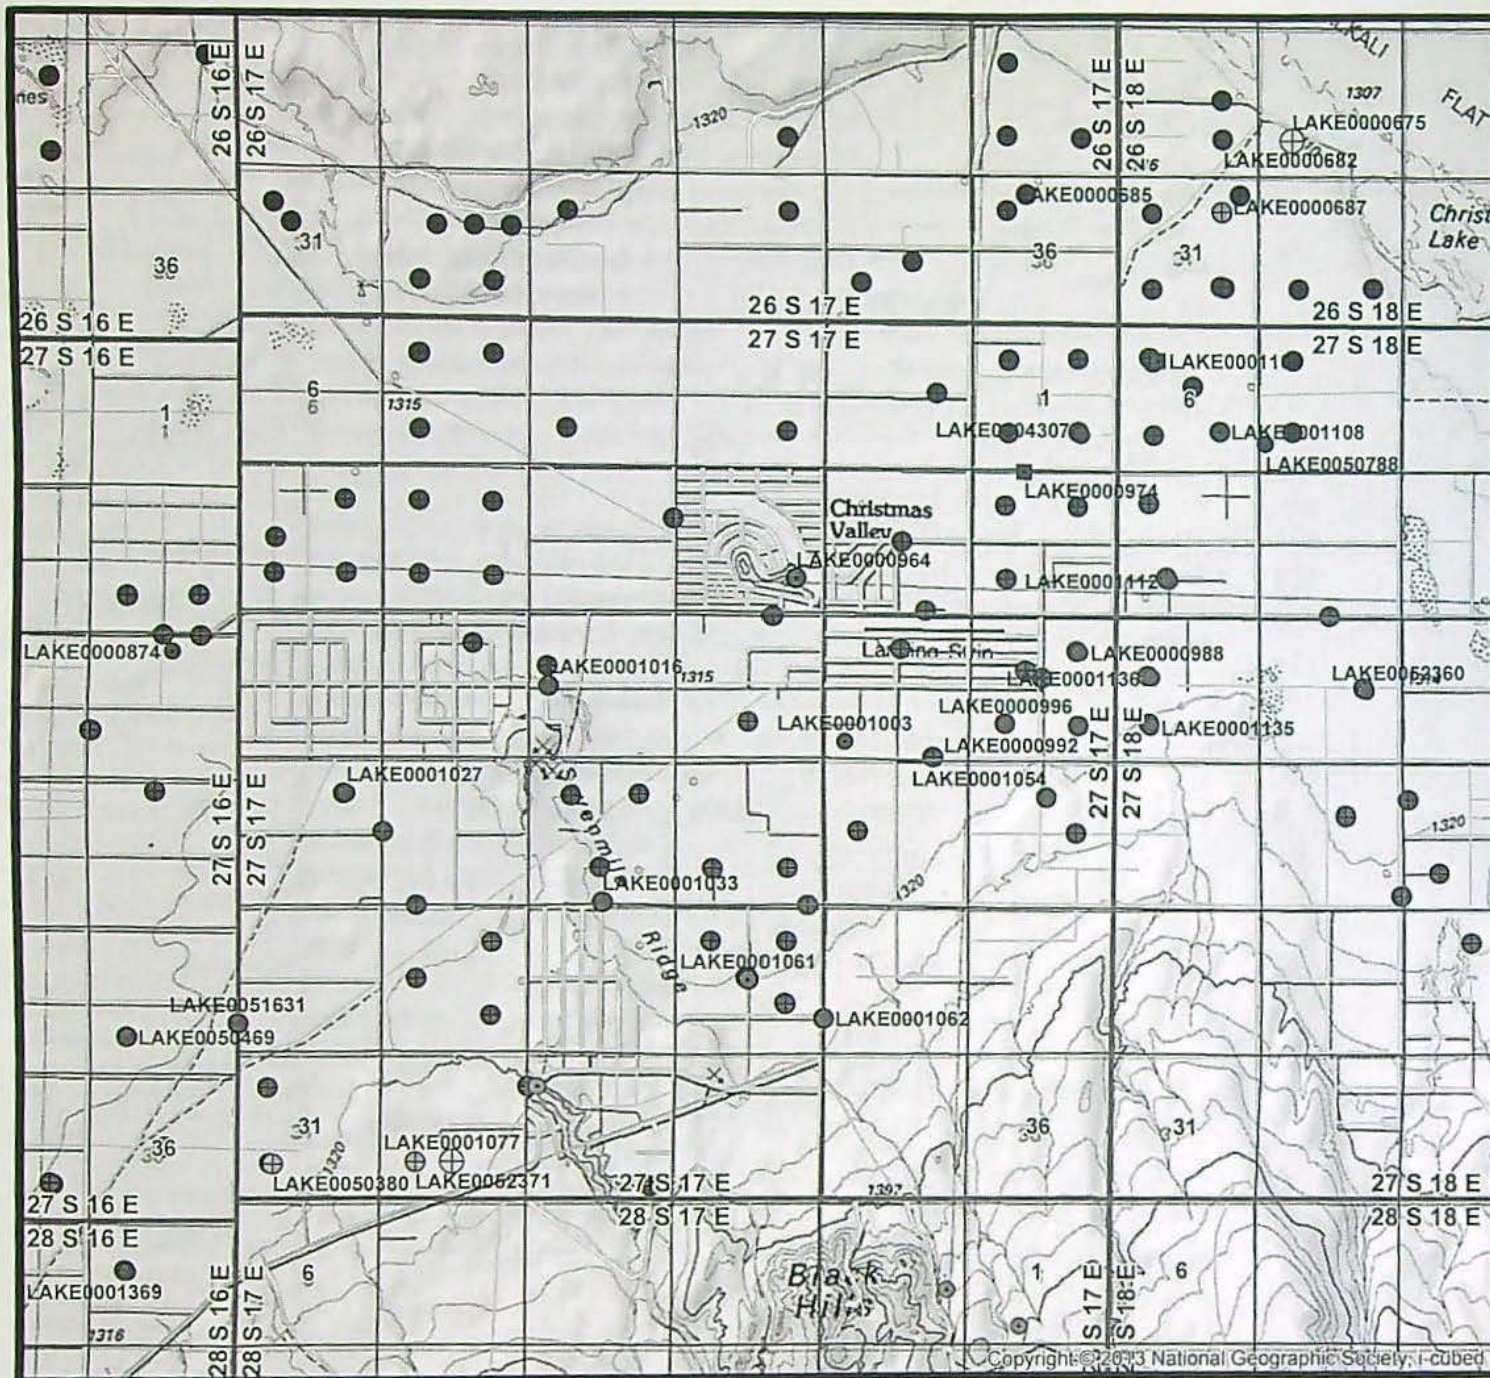

8. Any additional comments: _____

No additional comments.

Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

Transfer Application: T-13371

Review Due Date: 03/21/2020

Applicant Name: Buck Church

Proposed Changes: ☒ POU ☐ POD ☒ POA ☐ USE ☐ OTHER

Reviewer(s): Giffin

Date of Review: 02/21/2020

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☐ Yes ☒ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
3. Have headgate notices been issued for the source that serves the transferred right(s)?
☐ Yes ☒ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☒ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☒ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☒ No If "Yes", explain:

10. For POU or USE changes: ☐ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

☐ Yes ☒ No If "Yes", explain:

11. For POU changes that involve micro-irrigation: ☒ N/A

- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☐ Yes ☒ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No If "Yes", explain:
- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No If "No", explain:
- iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain:
- iv. Do you have any other observations regarding the temporary transfer? ☐ Yes ☐ No If "Yes", describe:
- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- c. To the best of your knowledge, if this transfer is approved, does it appear that:

i. "Injury" will occur to other water rights that share the same source? ☐ Yes ☒ No If "Yes", explain:

ii. "Enlargement" of the water right being transferred will occur? ☐ Yes ☒ No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☐ Yes ☒ No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☐ No ☒ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☒ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, ☐ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☒ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install staff gages, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir
☐ Parshall Flume
☐ Other: _____

☐ Submerged Orifice
☐ Flow Restrictor

Measurement Condition Information for the Applicant

(To be sent with the Draft Preliminary Determination or Final Order)

Transfer #: T- 13371

In order to avoid enlargement of the right or injury to other rights, a Totalizing flowmeter will be required to be installed prior to diversion of water, as a condition of this transfer:

at each point of diversion/appropriation (new and existing) **OR**

at each new point of diversion/appropriation.

For additional information, or to obtain approval of a different type of measurement device, the applicant should contact the area Watermaster:

Reference: Application T- 13371

On February 14, 2020, we received your water right Transfer application. The application was accompanied by \$3540.00. Our receipt number 131940 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to our groundwater staff to determine whether the proposed well accesses the same source of water as the original well or as the original POD.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water, in the new place of use or from the new point of appropriation until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0815.

Part 2 of 5 – Transfer Application Map

OWRD

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☒ ☐ N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- ☐ ☒ N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☐ ☒ N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Lake County Examiner.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).

I (we) affirm that the information contained in this application is true and accurate.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? ☒ Yes ☐ No If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.

Check the following boxes that apply:

- ☒ The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- ☐ The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- ☐ Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? ☐ Yes ☒ No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see:

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- ☒ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

THIS CERTIFICATE ISSUED TO

CHURCH FAMILY FARMS, INC.
PO BOX 751
CHRISTMAS VALLEY OR 97641

confirms the right to use the waters of A WELL, A TRIBUTARY OF CHRISTMAS LAKE for IRRIGATION of 5.1 ACRES.

This right was perfected under Permit G-9015. The date of priority is AUGUST 7, 1980. The amount of water to which this right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.06 cubic foot per second or its equivalent in case of rotation, measured at the point of diversion from the well.

The well is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
26 S	18 E	WM	29	SW SW	WELL B - 1290 FEET NORTH AND 1260 FEET EAST FROM SW CORNER, SECTION 29

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year; and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

Twp	Rng	Mer	Sec	Q-Q	Acres
26 S	18 E	WM	32	NW NW	5.1

When required by the Department the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

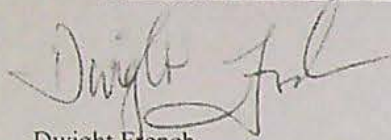

The right to use water for the purposes aforesaid is restricted to the lands or place of use herein described.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This certificate is issued to confirm a change in PLACE OF USE approved by an order of the Water Resources Director entered NOVEMBER 9, 2001, at Special Order Volume 55, Page 1248, approving Transfer Application 8735, and together with Certificate 77758, supersedes Certificate 55702, State Record of Water Right Certificates.

Subject: Buck Church, Church Family Farms Transfer Application

Good morning,

On February 14, 2020, the Department received an Application for Permanent Water Right Transfer, which includes Certificate 52784. The Evidence of Use Affidavit indicates Certificate 52784 is a remaining right certificate issued within the last 5 years, so no other supporting documentation was attached. Certificate 52784 was issued February 14, 1985, which does not make it eligible for this category indicated on the affidavit. Supporting documentation showing beneficial use of water as authorized under Certificate 52784 within the last 5 years, needs to be submitted in order for the Department to accept the application.

If the Department does not receive the above requested materials by February 24, 2020, the application will be returned for being incomplete pursuant to OAR 690-380-3000(12).

Thank you,

Corey Courchane

Subject: Recently Submitted Transfer Application

Good Afternoon Lisa and Joan,

In the last week or so I mailed an application to transfer water rights for Church Family Farms, Inc. A part of this transfer involves what will be remaining rights from the existing transfer, T-13122. I've listed this right as "C-52784 RR" on the application, because the transfer hasn't processed to a point where the remaining rights are recorded. When I spoke with Lisa before sending the application in, she asked that I include a memo or letter for the file informing the department of this issue. Unfortunately, I forgot to do that. So would you please include this message as a replacement for the file. Please let me know if you have any additional concerns or questions.

Sincerely,

Scott

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information:

- ☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): Local Ordinance Chapter 17.00 - General Ordinance Section 17.02.010
- ☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) If approvals have been obtained but all appeal periods have not ended, check "Being pursued."

Regular Permanent Water Right Transfer Application Checklist

Checked by Corey C Date 2/19/20

(If OK, check box to left; if not, fill in the blank)

☒ 1. Page 1 of application: Are all attachments that have been checked actually included?
If not, what is missing? _____

☒ 2. Are fees included and correct? Fee paid: \$ 3,540.00
If not, the correct fee would be: _____, so the amount missing is: _____

► If a Government Action POD change (see: Page 5): NO CHARGE

*NOTE: [POD/APOD, POA/APOA, SW to GW, Gov Action] are all counted as one type
POU is counted as one type
[USE or (Supplemental to Primary)] are counted as one type

☒ 3. Page 3 of application: Have all the applicants listed at the top of the page signed?
If no, whose signature is missing? _____

☒ 4. Are all listed certificates or permits shown by WRIS as non-cancelled?
If no, which are cancelled? _____
For each cancelled certificate, if there has been a remaining right certificate issued that covers the lands in the left side of Table 2, list its number _____ and check the #4 box at left on this checklist.

☐ 5. If any certificate is in the name of a "district", is a Supplemental Form D from that district enclosed?
☒ N/A ☐ Form D needed from _____ (district)

6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder. If #1, #2, #3, #4 or #5 on this checklist is deficient, the application cannot be accepted. It should be returned and the deficiencies listed in the "staff" section at the bottom of Application Page 1, unless the applicant or agent can resolve the deficiencies within 2-3 days.
