FINAL ORDER ON RECONSIDERATION

Reference: T-13960

Enclosed is an Order on Reconsideration as recorded in (NEW) Special Order Vol. 134, Page 1084, issued to withdraw and supersede the final order recorded in (OLD) Special Order Vol. 134 Page 502. The final order recorded in (OLD) Special Order Vol. 134 Page 502 is of no further force or effect.

If you have any questions please contact your caseworker, Arla Davis by telephone at (503) 979-3214 or by e-mail at Arla.L.Davis@water.oregon.gov.

Sincerely,

David V. Jones Jr

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)	ORDER ON RECONSIDERATION OF A FINAL
T-13960, Harney County)	ORDER RECORDED IN SPECIAL ORDER
)	VOLUME 134, PAGES 502-512

Authority

Oregon Revised Statute (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to temporarily transfer the place of use and, if necessary to convey the water to the temporary place of use, the point of appropriation authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Under ORS 183.484 and OAR 137-004-0080, in response to a timely petition for reconsideration of a final order in other than a contested case, the Department may reconsider the final order and issue a superseding order that affirms, alters, or reverses the existing order.

Applicant

JOHN L. BAUER AND CAROLYN S. BAUER
BAUER FAMILY FARM, LLC
PO BOX 98
HINES, OR 97738

Findings of Fact

1. On March 29, 2022, JOHN L. BAUER AND CAROLYN S. BAUER, BAUER FAMILY FARM, LLC, filed an application to temporarily change the place of use under Certificate 93563, and to change the places of use and add points of appropriation to serve the proposed places of use under Certificates 47401, 75603, 91672, and 94329, and to change the place of use and point of appropriation to serve the proposed place of use under Certificate 96099 for a period of 5 years. The Department assigned the application number T-13960.
2. Notice of the application for transfer was published on April 12, 2022, pursuant to OAR 690-380-4000.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

3. Temporary Transfer Application T-13960 proposed an additional point of appropriation change to Certificate 94071; however, the proposed change did not include a change in place of use, pursuant to OAR 690-380-8000(1)(a): Any person who holds a water use subject to transfer may request that the Department approve: (1) For a period of not to exceed five years, a temporary transfer of: (a) Place of use and, if necessary to convey the water to the new temporary place of use, point of diversion or appropriation.
4. On December 5, 2024, the applicant removed Certificate 94071 from the application.
5. On April 30, 2025, the Department issued a Final Order approving Temporary Transfer Application T-13960, recorded at Special Order Volume 134, Pages 502-512.
6. On June 24, 2025, the applicant's agent submitted a petition for reconsideration of the April 30, 2025, Final Order approving Temporary Transfer Application T-13960, recorded at Special Order Volume 134, Pages 502-512. The applicant's agent requested to change the period of time that the temporary transfer is in effect from the 2022, 2023, 2024, 2025, and 2026 irrigation seasons to the 2025, 2026, 2027, 2028, and 2029 irrigation seasons; thereby allowing the temporary transfer to be in effect for a period of five (5) years as originally requested. Because the Final Order approving Temporary Transfer Application T-13960 was not issued until April 30, 2025 and term of the temporary transfer expires at the end of the 2026 irrigation season, the approval order limits the duration of time the temporary transfer is in effect to less than two (2) years.

7. The first right to be temporarily transferred is as follows:

Certificate: 47401 in the name of D. STEPHEN MCUNE (perfected under Permit G-6139)
Use: IRRIGATION of 50.0 ACRES
Priority Date: MAY 13, 1974
Rate: 0.63 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year.

10. The second right to be temporarily transferred is as follows:

Certificate: 75603 in the name of JOHN AND CAROLYN BAUER (perfected under Permit G-7838)
Use: IRRIGATION of 61.1 ACRES
Priority Date: NOVEMBER 14, 1977
Rate: 0.77 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

24 S	29 E	WM	12	NW SW	ON WELL #4 - 2667 FEET SOUTH AND 1271 FEET EAST FROM THE NW CORNER OF SECTION 12	0.50 MILE SW

13. The third right to be temporarily transferred is as follows:

Certificate: 91672 in the name of JOHN BAUER, CAROLYN BAUER (perfected under Permit G-7838)

Use: IRRIGATION of 26.4 ACRES

Priority Date: NOVEMBER 14, 1977

Rate: 0.33 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Temporary Transfer Review Criteria

24. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
25. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights are present.
26. The proposed changes would prevent the lands from which the water rights are removed during the period of the temporary transfer from receiving water under the transferred rights, as required by ORS 540.523(7).
27. The proposed changes, as conditioned, would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary changes in places of use, point of appropriation, and additional points of appropriation to serve the temporary places of use proposed in Temporary Transfer Application T-13960 are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

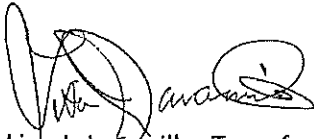

1. The Final Order approving Temporary Transfer Application T-13960, issued on April 30, 2025, recorded at Special Order Volume 134, Pages 502-512, is hereby withdrawn and superseded by this Order on Reconsideration.
2. The temporary changes in places of use, change in point of appropriation and additional points of appropriation to serve the temporary places of use proposed in Temporary Transfer Application T-13960 are approved.
3. The former places of use **shall not** be irrigated as part of these water rights during the 2025, 2026, 2027, 2028, and 2029 irrigation seasons.
4. The use shall revert to the authorized places of use at the end of the 2027 irrigation season. The authorization to use the temporary points of appropriation shall be terminated concurrently.
5. The approval of this temporary transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.

6. Under Certificate 47041, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #2, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6), together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
7. Under Certificate 75603, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #1, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6), together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
8. Under Certificate 91672, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #1, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6), together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
9. Under Certificate 94329, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #1, ON WELL #2, ON WELL #5, and ON WELL #6), together with that diverted at the original points of appropriation (Well 3 and Well 4), shall not exceed the quantity of water lawfully available at the original points of appropriation (Well 3 and Well 4).
10. Under Certificate 96099, the quantity of water diverted at the proposed temporary points of appropriation (ON WELL #1, ON WELL #2, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6) shall not exceed the quantity of water lawfully available at the original point of appropriation (WELL 1).
11. A subsequent application for permanent transfer of Certificates 47041, 75603, 91672, 94329, 93563, and 96099 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
12. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of the Certificates.
13. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.

14. Water use measurement conditions:

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
- b. The water user shall maintain the meters or measuring devices in good working order.
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

REFERENCE: District Temporary Transfer Application T-13960

Enclosed is a copy of the final order approving your TEMPORARY water right transfer application.

The temporary change shall be effective at the **beginning of the 2023 irrigation season**. The use shall revert to the original authorized place of use at the **end of the 2027 irrigation season**.

If you have any questions related to the approval of this temporary transfer, you may contact your caseworker, Arla Davis, by telephone at (503) 979-3129 or by e-mail at Arla.L.Davis@water.oregon.gov.

Sincerely,

David V. Jones Jr

Enclosure

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)	FINAL ORDER APPROVING TEMPORARY
T-13960, Harney County)	CHANGES IN PLACES OF USE, CHANGE IN
)	POINT OF APPROPRIATION AND FOR
)	ADDITIONAL POINTS OF APPROPRIATION

Authority

Oregon Revised Statute (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to temporarily transfer the place of use and, if necessary to convey the water to the temporary place of use, the point of appropriation authorized under an existing water right. Oregon Administrative Rule (OAR) Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

JOHN L. BAUER AND CAROLYN S. BAUER
BAUER FAMILY FARM, LLC
PO BOX 98
HINES, OR 97738

Findings of Fact

1. On March 29, 2022, JOHN L. BAUER AND CAROLYN S. BAUER, BAUER FAMILY FARM, LLC, filed an application to temporarily change the place of use under Certificate 93563, and to change the places of use and add points of appropriation to serve the proposed places of use under Certificates 47401, 75603, 91672, and 94329, and to change the place of use and point of appropriation to serve the proposed place of use under Certificate 96099 for a period of 5 years. The Department assigned the application number T-13960.
2. Notice of the application for transfer was published on April 12, 2022, pursuant to OAR 690-380-4000.
3. Temporary Transfer Application T-13960 proposed an additional point of appropriation change to Certificate 94071; however, the proposed change did not include a change in place of use, pursuant to OAR 690-380-8000(1)(a): Any person who holds a water use subject to transfer may request that the Department approve: (1) For a period of not to exceed five years, a temporary transfer of: (a) Place of use and, if necessary to convey the water to the new temporary place of use, point of diversion or appropriation.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

4. On December 5, 2024, the applicant removed Certificate 94071 from the application.
5. The first right to be temporarily transferred is as follows:

Certificate: 47401 in the name of D. STEPHEN MCUNE (perfected under Permit G-6139)
Use: IRRIGATION of 50.0 ACRES
Priority Date: MAY 13, 1974
Rate: 0.63 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year.

11. The third right to be temporarily transferred is as follows:

Certificate: 91672 in the name of JOHN BAUER, CAROLYN BAUER (perfected under Permit G-7838)
Use: IRRIGATION of 26.4 ACRES
Priority Date: NOVEMBER 14, 1977
Rate: 0.33 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-

EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year.

24 S	29 E	WM	12	NW SW	ON WELL #4 - 2667 FEET SOUTH AND 1271 FEET EAST FROM THE NW CORNER OF SECTION 12	1.35 MILE SW

Temporary Transfer Review Criteria

22. Water has been used within the last five years according to the terms and conditions of the rights. There is no evidence available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
23. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights are present.
24. The proposed changes would prevent the lands from which the water rights are removed during the period of the temporary transfer from receiving water under the transferred rights, as required by ORS 540.523(7).
25. The proposed changes, as conditioned, would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(5) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

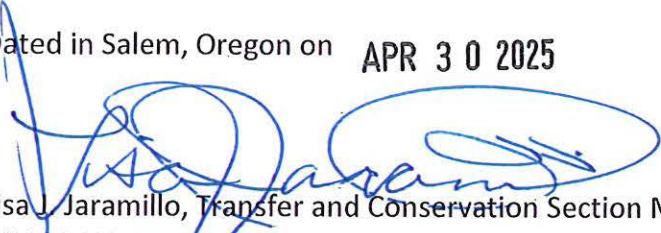

The temporary changes in places of use, point of appropriation, and additional points of appropriation to serve the temporary places of use proposed in Temporary Transfer Application T-13960 are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The temporary changes in places of use, change in point of appropriation and additional points of appropriation to serve the temporary places of use proposed in Temporary Transfer Application T-13960 are approved.
2. The former places of use **shall not** be irrigated as part of these water rights during the 2023, 2024, 2025, 2026, and 2027 irrigation seasons.
3. The use shall revert to the authorized places of use at the end of the 2027 irrigation season. The authorization to use the temporary points of appropriation shall be terminated concurrently.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
5. Under Certificate 47041, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #2, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6), together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
6. Under Certificate 75603, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #1, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6), together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
7. Under Certificate 91672, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #1, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6), together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
8. Under Certificate 94329, the quantity of water diverted at the proposed temporary additional points of appropriation (ON WELL #1, ON WELL #2, ON WELL #5, and ON WELL #6), together with that diverted at the original points of appropriation (Well 3 and Well 4), shall not exceed the quantity of water lawfully available at the original points of appropriation (Well 3 and Well 4).
9. Under Certificate 96099, the quantity of water diverted at the proposed temporary points of appropriation (ON WELL #1, ON WELL #2, ON WELL #3, ON WELL #4, ON WELL #5, and ON WELL #6) shall not exceed the quantity of water lawfully available at the original point of appropriation (WELL 1).
10. A subsequent application for permanent transfer of Certificates 47041, 75603, 91672, 94329, 93563, and 96099 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.

11. The use of water at the temporary places of use authorized by this transfer shall be in accordance with the terms and conditions of the Certificates.
12. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
13. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

DAVIS Arla L * WRD

From: Bryce Withers <brycewrs@gmail.com>
Sent: Thursday, December 5, 2024 9:45 AM
To: DAVIS Arla L * WRD
Cc: John Short
Subject: T-13960 Bauer Temporary Transfer

Hi Arla,

I spoke with Jack and Carolyn Bauer about Temporary Transfer T-13960. As we understand things, C-94071 did not include a change in place of use - so it cannot be included in a temporary transfer by rule. We would like to remove C-94071 from the transfer so that the transfer can move forward. Thank you for your work on this. Please let me know if you have any questions or need any additional information.

--

Groundwater Transfer Review Summary Form

Transfer/PA # T- 13960

GW Reviewer Darrick E. Boschmann Date Review Completed: 06/17/2022

Summary of Same Source Review:

☐ The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

Summary of Injury Review:

☐ The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

Summary of GW-SW Transfer Similarity Review:

☐ The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.

Ground Water Review Form:

- ☒ **Water Right Temporary Transfer**
☐ **Permit Amendment**
☐ **GR Modification**
☐ **Other**

Application: T-13960

Applicant Name: Bauer Ag Enterprises LLC

Proposed Changes: ☒ POA ☒ APOA ☐ SW→GW ☐ RA
☐ USE ☒ POU ☐ OTHER

Reviewer(s): Darrick E. Boschmann

Date of Review: 06/17/2022

Date Reviewed by GW Mgr. and Returned to WRSD: jti 2/16/23

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- ☐ The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- ☐ The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- ☐ Other _____
-

1. Basic description of the changes proposed in this transfer: _____

This application is related to the following 7 certificates:

47401

75603

91672

93563*

94071

94329

96099

Certificate 47401 authorizes groundwater pumping from 1 well (POD 1 = HARN 770) for primary irrigation of 50 acres in the Malheur Lake Basin. The following changes are proposed:

1. Add 5 APOA (HARN 53011**; HARN 776; HARN 778; HARN 51977; HARN 51335).

2. Move the POU.

Certificate 75603 authorizes groundwater pumping from 1 well (POD 1 = HARN 53011**) for primary irrigation of 61.1 acres in the Malheur Lake Basin. The following changes are proposed:

1. Add 5 APOA (HARN 770; HARN 776; HARN 778; HARN 51977; HARN 51335).

2. Move the POU.

Certificate 91672 authorizes groundwater pumping from 1 well (POD 1 = HARN 53011**) for primary irrigation of 26.4 acres in the Malheur Lake Basin. The following changes are proposed:

1. Add 5 APOA (HARN 770; HARN 776; HARN 778; HARN 51977; HARN 51335).

*Certificate 93563 is a surface water right and is not considered in this review.

Certificate 94071 authorizes groundwater pumping from 1 well (POD 1 = HARN 51335) for primary irrigation of 33.3 acres in the Malheur Lake Basin. The following changes are proposed:

1. Add 5 APOA (HARN 770; HARN 53011**; HARN 776; HARN 778; HARN 51977).

2. Move the POU.

Certificate 94329 authorizes groundwater pumping from 2 wells (POD 1 = HARN 776; POD 2 = HARN 778) for primary irrigation of 172.8 acres in the Malheur Lake Basin. The following changes are proposed:

1. Add 4 APOA (HARN 770; HARN 53011**; HARN 51977; HARN 51335).

2. Move the POU.

Certificate 96099 authorizes groundwater pumping from 1 well (POD 1 = HARN 52492) for primary irrigation of 26.0 acres in the Malheur Lake Basin. The following changes are proposed:

1. Add 6 APOA (HARN 770; HARN 53011**; HARN 776; HARN 778; HARN 51977; HARN 51335).

2. Move the POU.

**There is no original driller's well log for this well. Upon review of this application a data collection sheet was compiled from information available in the water right files for this well and assigned well log ID HARN 53011. Subsequent deepening of this well is documented under well log ID HARN 3.

2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?

☒ Yes ☐ No Comments: _____

In this area the Older Basin Fill hydrostratigraphic unit occurs beneath the Younger Basin Fill hydrostratigraphic unit. Other hydrostratigraphic units may be present in this area as well. Groundwater occurs in multiple hydrostratigraphic units, and groundwater within these units is hydraulically connected, making a single groundwater system composed of multiple hydrostratigraphic units (Gingerich and others, 2022).

In general, groundwater in the Harney Basin flows from several upland recharge areas to a common discharge area near Malheur and Harney Lakes, with some apparent discharge to the Malheur Basin through one or more areas along the eastern margin. While the rocks and sediments making up the aquifer system in the Harney Basin do constitute a single groundwater flow system, sub-watersheds within the basin contribute recharge to different parts of the system depending on groundwater flow-paths from recharge to discharge areas. In general, within these sub-watersheds water within the aquifer system is sourced from a common recharge area and can therefore be considered a single source.

3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?

☐ Yes ☒ No _____

b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): _____

a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?

☒ Yes ☐ No Comments: _____

The proposed APOA are located to the up to ~1.5 miles from the currently authorized wells in several directions. This will result in an incremental increase in interference with existing wells in those areas. See below for anticipated certificate-specific changes in interference.

b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?

☐ Yes ☒ No If yes, explain: _____

•47401

The proposed APOA are located up to ~1.2 miles to the southeast of the currently authorized well. The nearest existing POA to the proposed APOA is POD 2 under certificate 89676 which is located a distance of approximately 1,400 feet from proposed APOA HARN 53011. The potential drawdown from pumping under this scenario was calculated using the Theis equation (see attachments). The range of values used for the calculation are conservative and appropriate until better values become available. The calculation used a range of storage coefficient values from 0.01 – 0.0001. The transmissivity range used in the calculation (556 – 3636 ft²/day) is the transmissivity range derived from specific capacity from nearby wells. At the full authorized pumping rate, the results indicate a median calculated drawdown of 10.17 feet. Nearly all calculated scenario results are less than 40 feet of drawdown, which would not meet the standard for substantial or undue interference.

•75603

The proposed APOA are located up to ~0.5 miles south and up to ~1-mile northwest of the currently authorized well. The nearest existing POA to the proposed APOA is POD 3 under certificate 95037 which is located a distance of approximately 2,800 feet from proposed APOA HARN 778. Based on the Theis calculation scenarios above, at this distance any increase in interference would not meet the standard for substantial or undue interference.

•91672

The proposed APOA are located up to ~0.5 miles south and up to ~1-mile northwest of the currently authorized well. The nearest existing POA to the proposed APOA is POD 3 under certificate 95037 which is located a distance of approximately 2,800 feet from proposed APOA HARN 778. Based on the Theis calculation scenarios above, at this distance any increase in interference would not meet the standard for substantial or undue interference.

•94071

The proposed APOA are located ~0.4 miles northwest and up to ~0.9 miles southeast of the currently authorized well. The nearest existing POA to the proposed APOA is POD 2 under certificate 89676 which is located a distance of approximately 1,400 feet from proposed APOA HARN 53011. Based on the Theis calculation scenarios above, at this distance any increase in interference would not meet the standard for substantial or undue interference.

•94329

The proposed APOA are located up to ~0.5 miles north and up to ~1.2 miles northwest of the currently authorized wells. The nearest existing POA to the proposed APOA is POD 2 under certificate 89676 which is located a distance of approximately 1,400 feet from proposed APOA HARN 53011. Based on the Theis calculation scenarios above, at this distance any increase in interference would not meet the standard for substantial or undue interference.

•96099

The proposed APOA are located up to ~1.5 miles southwest of the currently authorized well. The nearest existing POA to the proposed APOA is POD 2 under certificate 89676 which is located a distance of approximately 1,400 feet from proposed APOA HARN 53011. Based on the Theis calculation scenarios above, at this distance any increase in interference would not meet the standard for substantial or undue interference.

4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?

☐ Yes ☒ No Comments: There are no perennial surface water sources in the vicinity of the authorized or proposed wells.

- b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?

Stream: _____ ☐ Minimal ☐ Significant

Stream: _____ ☐ Minimal ☐ Significant

Provide context for minimal/significant impact: _____

5. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?

☐ Yes ☐ No Comments: _____

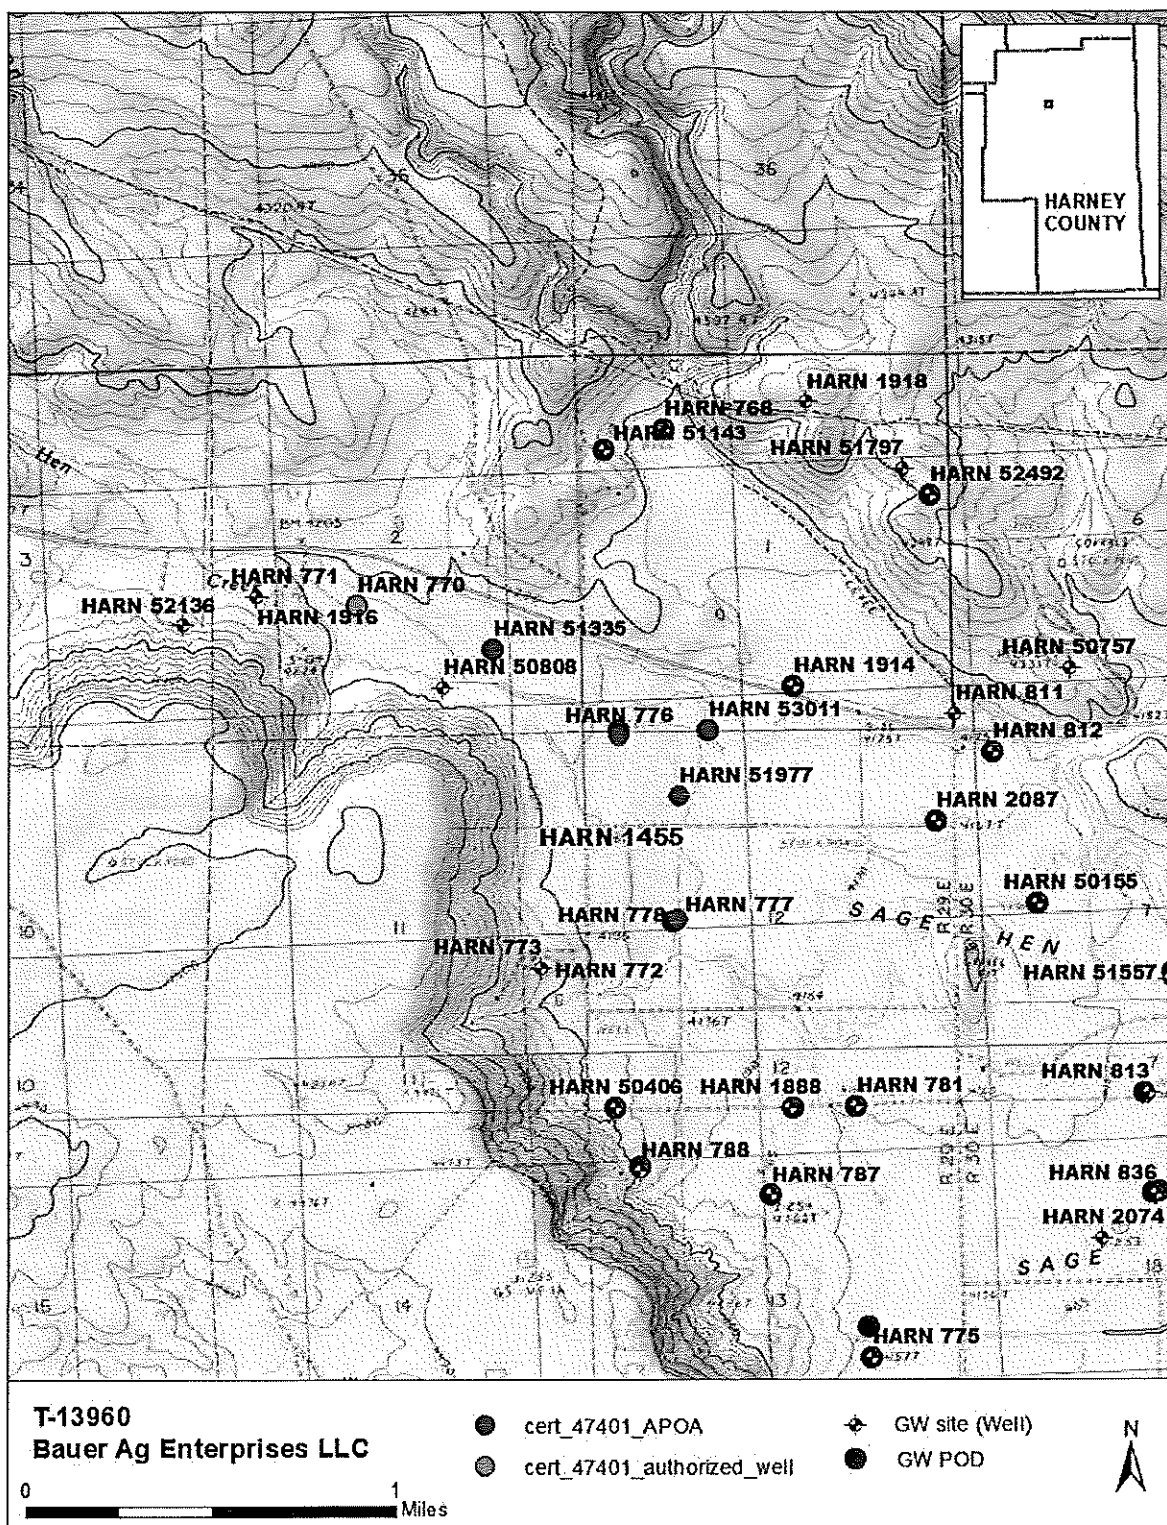

6. What conditions or other changes in the application are necessary to address any potential issues identified above: none.

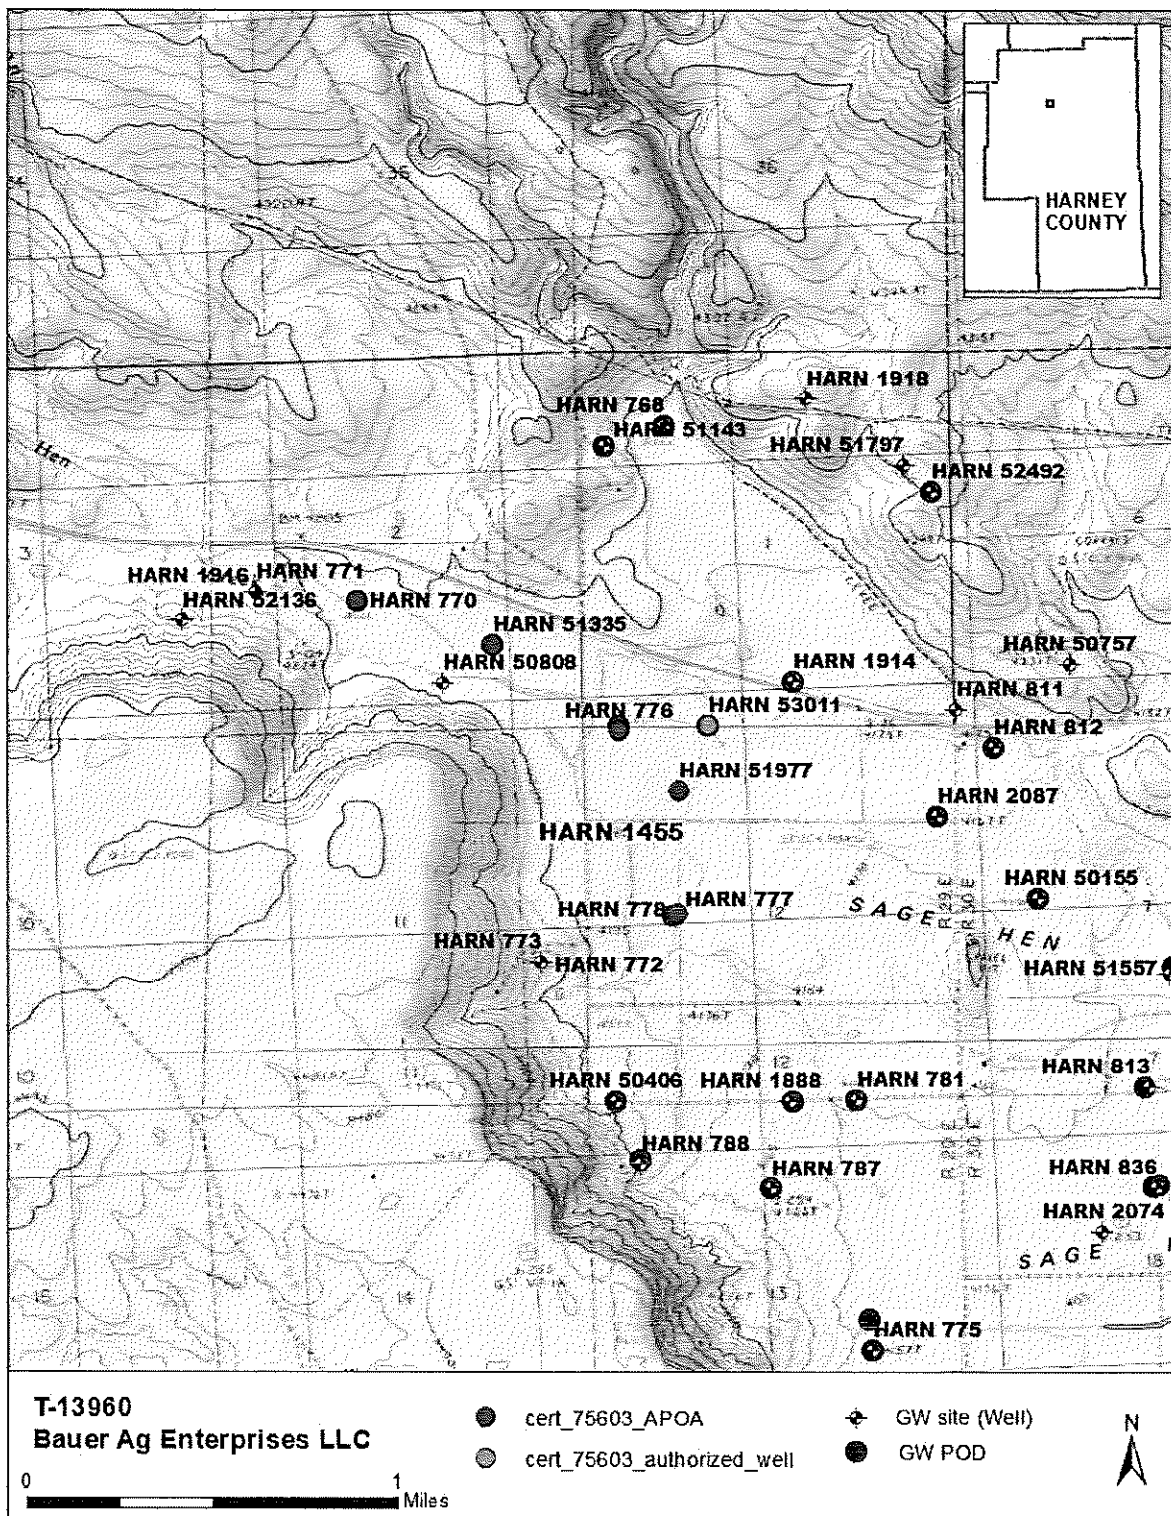

7. Any additional comments: none.

www.oregon.gov/OWRD

Transfer Application: T- 13960

Review Due Date: _____

Applicant Name: John L. Bauer & Carolyn S. Bauer/ Bauer Family Farm

Proposed Changes: ☒ POU ☐ POD ☒ POA ☐ USE ☐ OTHER

Reviewer(s): Dally Swindlehurst

Date of Review: 08/09/2022

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☐ Yes ☒ No text here
Generally characterize the frequency of any regulation or explain why regulation has not occurred: _____
3. Have headgate notices been issued for the source that serves the transferred right(s)?
☐ Yes ☒ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain: _____
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No type text here
If "Yes", describe how the rights would be affected and list the rights most affected: _____
6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most: _____. ☒ N/A
7. For POD changes and instream transfers, check here ☐ if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses: _____. ☒ N/A text here
8. For instream transfers that propose protection of a reach beyond the mouth of the source stream: ☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☒ No If "Yes", explain: _____
10. For POU or USE changes: ☒ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? ☐ Yes ☐ No If "Yes", explain: _____
11. For POU changes that involve micro-irrigation: ☒ N/A
- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement? ☐ Yes ☐ No If "Yes", explain: _____
 - b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?
☐ Yes ☐ No If "Yes", answer the following:
 - i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No
If "Yes", explain: _____
 - ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No
If "No", explain: _____
 - iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain: _____
 - iv. Do you have any other observations regarding the temporary transfer?
☐ Yes ☐ No If "Yes", describe: _____
 - v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No
If "No", explain: _____
 - c. To the best of your knowledge, if this transfer is approved, does it appear that:
 - i. "Injury" will occur to other water rights that share the same source?
☐ Yes ☐ No If "Yes", explain: _____
 - ii. "Enlargement" of the water right being transferred will occur?
☐ Yes ☐ No If "Yes", explain: _____
12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?
☐ Yes ☐ No If "Yes", explain: _____

13. What alternatives may be available for addressing any issues identified above: _____

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☐ No ☒ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement: _____

☐ A Headgate should be required prior to diverting water.

☒ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a **totalizing flow meter***, or, with prior approval of the Director, another suitable measuring device, ☒ at each point of diversion/appropriation (new and existing)*

OR ☐ at each new point of diversion/appropriation

☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install **staff gages***, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir

☐ Submerged Orifice

☐ Parshall Flume

☐ Flow Restrictor

☐ Other: _____

Oregon Water Resources Department

Measurement Condition Information for the Applicant

(To be sent with the Draft Preliminary Determination or Final Order)

Transfer #: T- 13960

☒ In order to avoid enlargement of the right or injury to other rights, a TFM will be required to be installed **prior to diversion of water**, as a condition of this transfer:

- ☒ at each point of diversion/appropriation (new and existing) **OR**
☐ at each new point of diversion/appropriation.

For additional information, or to obtain approval of a different type of measurement device, the applicant should contact the area Watermaster:

Watermaster name: Dally SwindlehurstDistrict: 10Address: 450 N Buena VistaCity/State/Zip: Burns OR 97720Phone: 541-573-2591Email: donald.s.swindlehurst@water.oregon.gov

Note: If a device other than the one specified in the Preliminary Determination or Final Order is approved by the Watermaster, fill out and mail the form below to the Salem office.

Approval of an Alternate Measurement Device

T- _____

(to be filled out after consultation with the applicant, or after a site visit)

On behalf of the Director, I authorize use of the following suitable **alternate measurement device**:

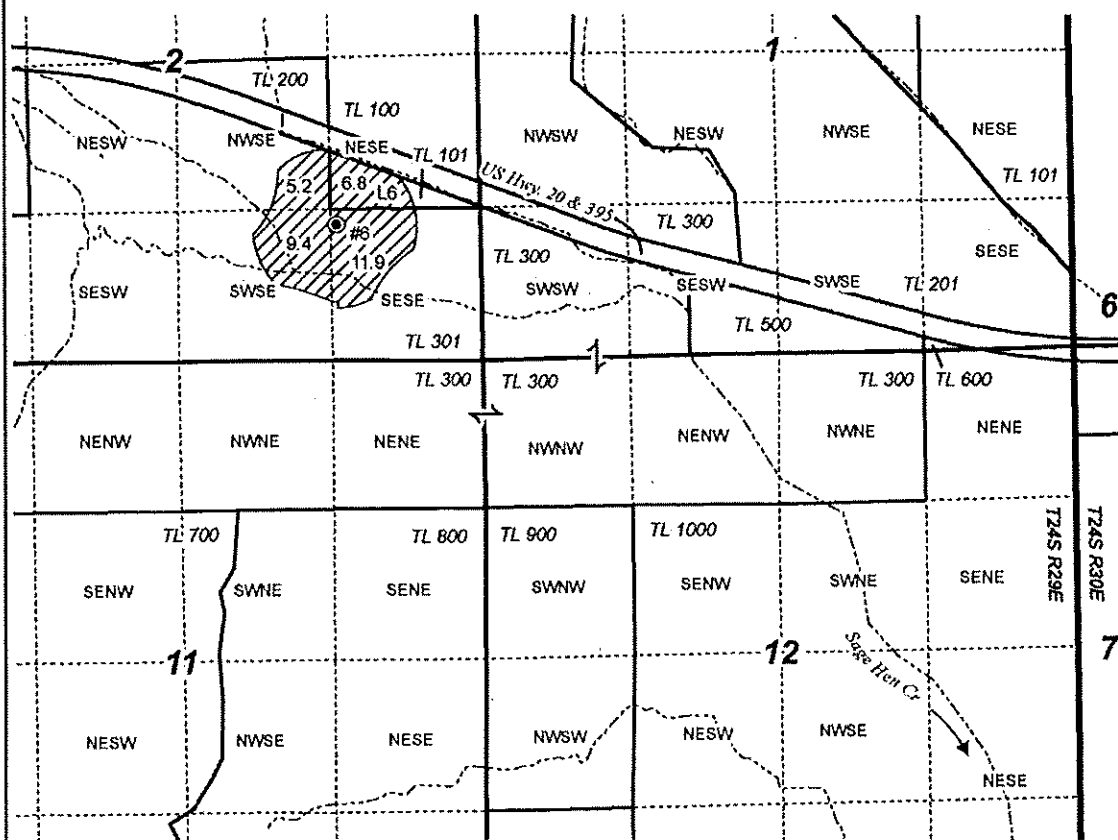

Watermaster signature_____
District_____
Date

If this form is used for approval of an alternative measurement device, it must be mailed to:

Application for Water Right
Temporary or Drought Temporary Transfer
Part 1 of 5 – Minimum Requirements Checklist

Oregon Water Resources Department
725 Summer Street NE, Suite A
Salem, Oregon 97301-1266
(503) 986-0900
www.oregon.gov/OWRD

This temporary transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

RECEIVED

MAR 29 2022

FOR ALL TEMPORARY TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

- ☒ Part 1 – Completed Minimum Requirements Checklist.
- ☒ Part 2 – Completed Temporary Transfer Application Map Checklist.
- ☒ Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the online fee calculator at:
http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator.
- ☒ Part 4 – Completed Applicant Information and Signature.
- ☒ Part 5 – Information about Transferred Water Rights: **How many water rights are to be transferred? 7** List them here: **C-47401, C-75603, C-91672, C-93563, C-94071, C-94329, & C-96099**

Please include a separate Part 5 for each water right. (See instructions on page 6)

- ☒ ☐ N/A For standard Temporary Transfer (one to five years) **Begin Year: 2022 End Year: 2027.**
- ☐ ☒ N/A Temporary Drought Transfer (Only in counties where the Governor has declared drought)

Attachments:

- ☒ Completed Temporary Transfer Application Map.
- ☒ Completed Evidence of Use Affidavit and supporting documentation.
- ☒ Current recorded deed for the land from which the authorized place of use is temporarily being moved.
- ☒ ☐ N/A Affidavit(s) of Consent from Landowner(s) (if the applicant does not own the land upon which the water right is located.)
- ☐ ☒ N/A Supplemental Form D – For water rights served by or issued in the name of a district. Complete when the temporary transfer applicant is not the district.
- ☒ ☐ N/A Oregon Water Resources Department's Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- ☒ ☐ N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation (if necessary to convey water to the proposed place of use).

(For Staff Use Only)

WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):

- ☐ Application fee not enclosed/insufficient ☐ Map not included or incomplete
- ☐ Land Use Form not enclosed or incomplete
- ☐ Additional signature(s) required ☐ Part _____ is incomplete

Other/Explanation _____

Part 2 of 5 – Temporary Transfer Application Map Checklist

OWRD

Your temporary transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the temporary transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☒ ☐ N/A If more than three water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet; the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated); the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet; or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed temporary place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s) to convey water to the new temporary place of use, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

FEE WORKSHEET for TEMPORARY (not drought) TRANSFERS

RECEIVED

MAR 29 2022

OWRD

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☒ Yes ☐ No

If YES, list the certificate, water use permit, or ground water registration numbers: **C-93563**

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- ☒ Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right

Part 5 of 5 – Water Right Information

Please use a separate Part 5 for each water right being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add rows to tables within the form.

For Place of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: _____

Pursuant to ORS 540.525, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- ☒ Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx)

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right

STATUTORY WARRANTY DEED

Jesus Yuste and Johnella J. Yuste, as Tenants by the Entirety ,

Grantor(s), hereby convey and warrant to

Bauer Family Farm, LLC,

Grantee(s), the following described real property in the County of Harney and State of Oregon free of encumbrances except
 as specifically set forth herein:

Land in Harney County, Oregon, as follows:

In Twp. 24 S., R. 29 E., W.M.:

Sec. 1: That portion of the SW $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ which is described as follows:
 Beginning at the East one-sixteenth corner common to Sec. 1 and 12 of said
 Township and Range, said point being S. 89°32'00" W. 1310.8 feet from the
 Southeast corner of said Sec. 1;
 thence S. 89°32'00" W., along the South boundary of said Sec. 1, a distance of
 2084.0 feet;
 thence North 717.44 feet to the South boundary line of the Central Oregon Highway,
 as said boundary line is described in Deed recorded April 29, 1954, in Book 58, Page
 317, Deed Records;
 thence S. 74°24' E., along said boundary line, 2162.64 feet;
 thence S. 00°28' E. 118.9 feet, more or less, to the point of beginning

FOR INFORMATION PURPOSES ONLY, THE MAP/TAX ACCT #(S) ARE REFERENCED HERE:

24S29E010000500 37020

The true and actual consideration for this conveyance is \$65,000.00.

The above-described property is free of encumbrances except all those items of record, if any, as of the date of this deed and
 those shown below, if any:

24 S	29 E	WM	1	SE NE		24.5

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484 and ORS 536.075. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 183.484, ORS 536.075 and OAR 137-004-0080, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied. In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate within three months after issuance of the certificate.

MAR 29 2022

OWRD

Measurement, recording and reporting conditions:

- A. The water user shall maintain, in good working order, a totalizing flow meter or other suitable measuring device as approved by the Director at each point of appropriation.
- B. The water user shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the water user to keep and maintain a record of the amount (volume) of water used, and may require the water user to report water use on a periodic schedule as established by the Director. In addition, the Director may require the water user to report general water-use information, the periods of water use and the place and nature of use of water under the right.
- D. The Director may provide an opportunity for the water user to submit alternative measuring and reporting procedures for review and approval.

The Department requires the water user to obtain, from a qualified individual (see below), and report annual static water levels for each well on the right. The static water level shall be measured in the month of March. Reports shall be submitted to the Department within 30 days of measurement.

The water user shall report annual March static water-level measurements whether or not the well is used. The reference level against which future measurements will be compared is 165.42 feet below ground surface. The Director may require the user to obtain and report additional water levels each year if more data are needed to evaluate the aquifer system.

All measurements shall be made by a certified water rights examiner, registered professional geologist, registered professional engineer, licensed well constructor or pump installer licensed by the Construction Contractors Board. Measurements shall be submitted on forms provided by, or specified by, the Department. Measurements shall be made with equipment that is accurate to at least the standards specified in OAR 690-217-0045. The Department requires the individual performing the measurement to:

- A. Associate each measurement with an owner's well name or number and a Department well log ID; and
- B. Report water levels to at least the nearest tenth of a foot as depth-to-water below ground surface; and
- C. Specify the method of measurement; and
- D. Certify the accuracy of all measurements and calculations reported to the Department.

The water user shall discontinue use of, or reduce the rate or volume of withdrawal from, the well(s) if any of the following events occur:

- A. Annual water-level measurements reveal an average water-level decline of three or more feet per year for five consecutive years; or
- B. Annual water-level measurements reveal a water-level decline of 15 or more feet in fewer than five consecutive years; or
- C. Annual water-level measurements reveal a water-level decline of 25 or more feet; or
- D. Hydraulic interference leads to a decline of 25 or more feet in any neighboring well with senior priority.

The period of restricted use shall continue until the water level rises above the decline level which triggered the action or the Department determines, based on the water user's and/or the Department's data and analysis, that no action is necessary because the aquifer in question can sustain the observed declines without adversely impacting the resource or causing substantial interference with senior water rights. The water user shall not allow excessive decline, as defined in Commission rules, to occur within the aquifer as a result of use under this right. If more than one well is involved, the water user may submit an alternative measurement and reporting plan for review and approval by the Department.

The water user shall ensure that the well has been assigned an OWRD Well Identification Number (Well ID tag), which shall be permanently attached to the well. The Well ID shall be used as a reference in any correspondence regarding the well, including any reports of water use, water level, or pump test data.

Failure to comply with any of the provisions of this right may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the right.

If substantial interference with a senior water right occurs due to withdrawal of water from any well listed on this right, then use of water from the well(s) shall be discontinued or reduced and/or the schedule of withdrawal shall be regulated until or unless the Department approves or implements an alternative administrative action to mitigate the interference. The Department encourages junior and senior appropriators to jointly develop plans to mitigate interferences.

The well(s) shall be maintained in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works shall be equipped with a usable access port, and may also include an air line and pressure gauge adequate to determine the water level elevation in the well at all times.

The use may be restricted if the quality of downstream waters decreases to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

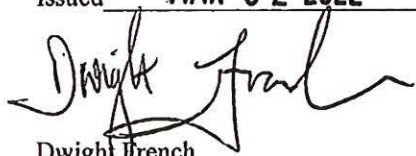

The Director may require water-level or pump-test results every ten years.

This right is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described.

Issued MAR 02 2022

Dwight French
Water Right Services Division Administrator, for
Thomas M. Byler, Director
Oregon Water Resources Department

OWRD

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): Herz 3020/EFILV-2
- ☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being Pursued <input type="checkbox"/> Not Being Pursued

Local governments are invited to express special land-use concerns or make recommendations to the Water Resources Department regarding this proposed use of water below, or on a separate sheet.

Name: Brandon McMillen Title: Planning Director

Signature: [Signature] Phone: (911) 573-6685 Date: 3/17/2022

Government Entity: Harvey County

Note to local government representative: Please complete this form or sign the receipt below and return it to the applicant. If you sign the receipt, you will have 30 days from the Water Resources Department's notice date to return the completed Land Use Information Form or WRD may presume the land use associated with the proposed use of water is compatible with local comprehensive plans.

STATUTORY WARRANTY DEED

Jesus Yuste and Johnella J. Yuste, as Tenants by the Entirety ,

Grantor(s), hereby convey and warrant to

Bauer Family Farm, LLC,

Grantee(s), the following described real property in the County of Harney and State of Oregon free of encumbrances except as specifically set forth herein:

Land in Harney County, Oregon, as follows:

In Twp. 24 S., R. 29 E., W.M.:

Sec. 1: That portion of the SW $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ which is described as follows:
 Beginning at the East one-sixteenth corner common to Sec. 1 and 12 of said Township and Range, said point being S. 89°32'00" W. 1310.8 feet from the Southeast corner of said Sec. 1;
 thence S. 89°32'00" W., along the South boundary of said Sec. 1, a distance of 2084.0 feet;
 thence North 717.44 feet to the South boundary line of the Central Oregon Highway, as said boundary line is described in Deed recorded April 29, 1954, in Book 58, Page 317, Deed Records;
 thence S. 74°24' E., along said boundary line, 2162.64 feet;
 thence S. 00°28' E. 118.9 feet, more or less, to the point of beginning

FOR INFORMATION PURPOSES ONLY, THE MAP/TAX ACCT #(S) ARE REFERENCED HERE:

24S29E010000500 37020

The true and actual consideration for this conveyance is \$65,000.00.

The above-described property is free of encumbrances except all those items of record, if any, as of the date of this deed and those shown below, if any:

BARGAIN AND SALE DEED

KNOW ALL BY THESE PRESENTS that Bauer Farms, LLC

hereinafter called grantor, for the consideration hereinafter stated, does hereby grant, bargain, sell and convey unto

Bauer Family Farm, LLC
 hereinafter called grantee, and unto grantee's heirs, successors and assigns, all of that certain real property, with the tenements, hereditaments and appurtenances thereunto belonging or in any way appertaining, situated in Harney County, State of Oregon, described as follows (legal description of property):

please see attachment

(IF SPACE INSUFFICIENT, CONTINUE DESCRIPTION ON REVERSE)

To Have and to Hold the same unto grantee and grantee's heirs, successors and assigns forever.

The true and actual consideration paid for this transfer, stated in terms of dollars, is \$ 0. However, the actual consideration consists of or includes other property or value given or promised which is ☐ part of the ☐ the whole (indicate which) consideration. (The sentence between the symbols ®, if not applicable, should be deleted. See ORS 93.030.)

In construing this instrument, where the context so requires, the singular includes the plural, and all grammatical changes shall be made so that this instrument shall apply equally to businesses, other entities and to individuals.

IN WITNESS WHEREOF, grantor has executed this instrument on April 22, 2020; any signature on behalf of a business or other entity is made with the authority of that entity.

BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON TRANSFERRING FEE TITLE SHOULD INQUIRE ABOUT THE PERSON'S RIGHTS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010. THIS INSTRUMENT DOES NOT ALLOW USE OF THE PROPERTY DESCRIBED IN THIS INSTRUMENT IN VIOLATION OF APPLICABLE LAND USE LAWS AND REGULATIONS. BEFORE SIGNING OR ACCEPTING THIS INSTRUMENT, THE PERSON ACQUIRING FEE TITLE TO THE PROPERTY SHOULD CHECK WITH THE APPROPRIATE CITY OR COUNTY PLANNING DEPARTMENT TO VERIFY THAT THE UNIT OF LAND BEING TRANSFERRED IS A LAWFULLY ESTABLISHED LOT OR PARCEL, AS DEFINED IN ORS 92.010 OR 215.010, TO VERIFY THE APPROVED USES OF THE LOT OR PARCEL, TO DETERMINE ANY LIMITS ON LAWSUITS AGAINST FARMING OR FOREST PRACTICES, AS DEFINED IN ORS 30.930, AND TO INQUIRE ABOUT THE RIGHTS OF NEIGHBORING PROPERTY OWNERS, IF ANY, UNDER ORS 195.300, 195.301 AND 195.305 TO 195.336 AND SECTIONS 5 TO 11, CHAPTER 424, OREGON LAWS 2007, SECTIONS 2 TO 9 AND 17, CHAPTER 855, OREGON LAWS 2009, AND SECTIONS 2 TO 7, CHAPTER 8, OREGON LAWS 2010.

Reference: Application T-13960

On March 29, 2022, OWRD received your water right Temporary Transfer Application. The application was accompanied by \$3848.42. Our receipt number 137785 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

Except as provided under ORS 540.510(3) for municipalities, you may not **temporarily** use water at the new place of use or from the new point of diversion/appropriation until a final order approving the temporary transfer application has been issued by the Department. Additionally, pursuant to OAR 690-380-8010, the lands from which an irrigation water right is to be temporarily transferred and the land to which the right is to be temporarily transferred may not both receive water during the same season. If the temporary transfer is approved during an irrigation season and water has already been used at the currently authorized location during that season, then the temporary transfer will not take effect until the following season.

If the land is sold before the temporary transfer is approved, the buyer's consent to the temporary transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

If you have any questions, please contact the Transfer Section at (503) 979-9931.

Regular Temporary Water Right Transfer Application Checklist

Checked by Stott

Date 4/4/22

A temporary transfer must be for a change in place of use. A temporary change in POD/POA or APOD/APOA cannot be accepted as a stand-alone change.

A change in POD/POA can accompany the temporary change in place of use, only if the proposed temporary POD/POA is supplying water to the proposed temporary place of use.

(If OK, check box to left; if not, fill in the blank)

- ☒ 1. Page 1 of application: Are all attachments that have been checked actually included?
If not, what is missing? _____
- ☒ 2. Are fees included and correct? 3848.42
If not, the correct fee would be: _____, so the amount missing is: _____
- ☒ 3. Part 4 of application: Have all the applicants listed at the top of the page signed at the bottom?
If not, whose signature is missing? _____
- ☒ 4. Are all listed certificates shown by WRIS as non-cancelled?
If not, which are cancelled? _____
For each cancelled certificate, if there has been a remaining right certificate issued that covers the lands in the left side of Table 2, list its number _____ and check the #4 box at left on this checklist.
- ☒ 5. If any certificate is in the name of a "district", is a Supplemental Form D from that district enclosed?
☒ N/A ☐ Form D needed from _____ (district)
- 6. If all #1-#5 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.

If #1, #2, #3, #4 or #5 on this checklist is deficient, the application cannot be accepted. It should be returned and the deficiencies listed in the "staff" section at the bottom of Application Page 1, unless the applicant or agent can resolve the deficiencies within 2-3 days.
