Oregon Department of Fish and Wildlife
Water Right and Diversion Transfer Comment Form
(ODFW provides to WRD so that WRD can make findings according to statutory requirements.)

Reference Transfer #: T-14463

Date of review: 6/13/24

A. Please check box if you believe there is a potential for injury to an instream water right.

☐ The Oregon Department of Fish and Wildlife (ODFW) believes this proposed transfer may injure an instream water right(s) on _____, tributary to the _____, because _____
(Please attach any available supporting information.)

Note: This will prompt WRD to make a determination whether the transfer will injure an instream water right. (OWRD makes the determination of injury to a water right, while ODFW's role is to raise concerns, and to evaluate proposed mitigation and net benefit to the resource if OWRD consents to injury of an instream water right.)

B. Please check one of the following five boxes related to fish screen requirements pursuant to ORS 540.525 or 540.532:

☐ **1. Screen Maintain**

[Select this option if the new Point of Diversion (POD) requires a fish screen and is currently equipped with an appropriate fish screen that will still be in compliance if the transferred water is diverted from this POD.]

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is currently equipped with an appropriate fish screen.

Condition: The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

☒ **2. Screen Now**

[Option 2 should generally be selected if listed fish species are present at the point of diversion and/or the originating water right diversion is currently screened. If Option 2 is selected, provide contact information on the "Fish Screening and Passage Information" sheet. The new diversion may be eligible for cost-share.]

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

Condition: Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

*Please return all 3 pages to: Transfers Section, Water Resources Department,
725 Summer St. NE, Suite A, Salem, OR 97301-1266*

☐ **3. Screen 2 Year**

[Option 3 may be checked if the change is from an unscreened diversion to a HISTORIC POD or an existing POD in use for another water right, and cost-share funds are not currently available. It should NOT be checked if listed fish species are present at the point of diversion, the originating water right diversion is screened, cost-share funds are currently available, or the diversion is not eligible for ODFW's cost-share program. Please provide contact information on the "Fish Screening and Passage Information" sheet.] If extraordinary circumstances are present, please explain: _____

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. Listed fish species are not present at the point of diversion, the originating water right diversion is not screened, cost-share funds are not currently available, and the proposed diversion may be eligible for ODFW's cost-share program. A grace period of two years is appropriate until such time as cost-share funds become available to assist in the construction of a fish screen. If cost-share funds do not become available, the water user must screen within the indicated time period regardless of the availability of cost-share funding.

Condition: By October 1, 20__ [Within two years after the date of this order] the water user shall install an approved fish screen at the new point of diversion. The water user may withdraw water at the new point of diversion without a screen until October 1, 20__. The water user shall provide to OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall maintain and operate the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

☐ **4. Screen Future**

[Use this option if fish are not currently present, but might possibly be at some future time.]

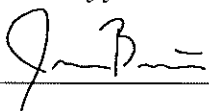

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife has determined that the diversion is not currently equipped with an appropriate fish screen, but a fish screen may be required in the future at the new point of diversion to prevent fish from entering the diversion.

Condition: The Oregon Department of Fish and Wildlife (ODFW) may require the water user to install an approved fish screen at the new point of diversion within one year after receiving written notification that a fish screen is required. Once installed the water user shall maintain and operate the fish screen at the new point of diversion according to ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

☐ **5. No Screen Needed**

[Check this box if fish are not currently present, and are not expected in the future.]

Additional Fish Screening and Passage Information for the Applicant
(To be completed by ODFW for WRD to provide to the applicant.)

Transfer #: T-14463

The applicant should be aware that fish screening and passage may be required for certain changes in point of diversion if the boxes below are checked.

- ☒ Fish screening is required as a condition of this transfer. The fish screen must meet ODFW's design, construction, operational and maintenance standards.

Pursuant to ORS 498.306, cost-share funds may be available to assist in the installation of fish screening.

The applicant should contact the ODFW staff member below to obtain additional information on the design, construction, operational, and maintenance standards for the fish screen and to obtain information about ODFW's cost-sharing program for screening. **Prior to installation, the water user must obtain written approval from ODFW that the required screen meets ODFW's criteria.**

ODFW staff name: Josh Kelsey

Address: 1495 E Gregory Rd

City/State/Zip: Central Point/OR/97502

Phone: (541) 826-8774

- ☒ This transfer may trigger requirements for fish passage under ORS 509.585 because a new point of diversion will be constructed, an existing point of diversion's capacity will be increased, or an existing point of diversion will be abandoned. The applicant should contact the ODFW staff member below for a determination of whether native migratory fish are or were present at the applicable location, which will determine whether fish passage must be addressed.

Reference: Application T-14463

On May 20, 2024, the Department received your water right Permanent Transfer Application. The application was accompanied by \$1970.00. Receipt number 142960 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to Oregon Department of Fish and Wildlife to determine if a fish screen is needed.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of diversion until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0935.

Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☒ ☐ N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- ☐ ☒ N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: GRANTS PASS DAILY COURIER.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).
- Refunds may only be granted upon request and, as set forth in ORS 536.050(4)(a), if the Director determines that a refund of all or part of a fee is appropriate in the interests of fairness to the public or necessary to correct an error of the Department.

I (we) affirm that the information contained in this application is true and accurate.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? ☒ Yes ☐ No*

*If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.

Check the following boxes that apply:

- ☒ The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- ☐ The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- ☐ Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? ☐ Yes ☒ No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see:
