In the Matter of Transfer Application	)	FINAL ORDER APPROVING AN
T-14710, Lincoln County	)	EMERGENCY USE DROUGHT TEMPORARY
	)	CHANGE IN PLACE OF USE AND CHANGE
	)	IN POINT OF DIVERSION

**Authority**

Oregon Revised Statute (ORS) 536.750 establishes the process in which a water right holder may submit a request to temporarily transfer the use, place of use or point of diversion of water in the event of a declaration of drought, without complying with the notice and waiting requirements under ORS 540.520. Oregon Administrative Rule (OAR) Chapter 690, Division 019 implements the statutes and provides the Department's procedures and criteria for evaluating drought transfer applications.

**Applicant**

AMY GIBSON DBA GIBSON FARMS  
PO BOX 245  
SILETZ, OR 97380

**Findings of Fact**

1. On July 28, 2025, Amy Gibson DBA Gibson Farms, filed an application to temporarily change the place of use and to change the point of diversion under Certificate 21623 for the remainder of the 2025 irrigation season or the term of the Governor's declared drought, whichever is shorter. The Department assigned the application number T-14710.
2. Notice of the application for transfer was published on August 5, 2025, pursuant to OAR 690-019-0055(5).
3. On August 4, 2025, the Department contacted the applicant's agent via email regarding application deficiencies specifically the deed for the "FROM" lands was not included in the application and additional information to verify the individual who signed the application.
4. On August 5, 2025, the applicant's agent provided the required information satisfying the application deficiencies.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. The portion of the right to be temporarily transferred is as follows:

**Certificate:** 21623 in the name of E. E. COLVIN (perfected under Permit S-21904)  
**Use:** IRRIGATION of 24.6 ACRES  
**Priority Date:** NOVEMBER 24, 1952  
**Rate:** 0.19 CUBIC FOOT PER SECOND  
**Limit/Duty:** The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year and shall be still further limited to a diversion of not to exceed 0.19 cubic foot per second.  
**Source:** SILETZ RIVER, a tributary of the PACIFIC OCEAN

**Authorized Point of Diversion:**

Twp	Rng	Mer	Sec	Q-Q	GLot

**Authorized Place of Use:**

10 S	10 W	WM	4	NE SW	22	7.2
10 S	10 W	WM	4	NW SW	23	2.8
Total						24.6

6. The Department received information from the applicant that better describes the location of the authorized point of diversion for Certificate 21623 as follows:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
10 S	10 W	WM	4	SE NW	12	POD 1 (Cert 21623) – LATITUDE: 44.7322 LONGITUDE: -123.9191

7. Temporary Transfer Application T-14710 proposes to temporarily change the place of use of the right to:

***Temporary Drought Transfer Review Criteria***

9. Water has been used within the last five years according to the terms and conditions of the right. There is no evidence available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
10. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right are present.
11. The Governor issued an executive order on July 10, 2025, declaring a state of drought emergency in Lincoln County due to drought and extreme weather conditions, which is still in effect and the water right proposed for transfer is on lands included in the area covered by the drought order.
12. The proposed changes would not result in enlargement of the right.
13. The proposed changes would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under OAR 690-019-055(3) if injury to existing water rights is shown and cannot be mitigated to the satisfaction of the Director and injured parties.

**Conclusions of Law**

The temporary changes in place of use and point of diversion proposed in Temporary Drought Transfer Application T-14710 are consistent with the requirements of ORS 536.750 and OAR 690-019-0055.

**Now, therefore, it is ORDERED:**

1. The temporary changes in place of use and point of diversion proposed in Temporary Drought Transfer Application T-14710 are approved.
2. The former place of use **shall not** be irrigated as part of this water right during the remainder of the 2025 irrigation season or until the end of the Governor's declared drought, whichever occurs first.
3. The approval of this temporary drought transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.

4. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 21623. The use shall revert to the authorized place of use at the end of the 2025 irrigation season.
5. The proposed changes in place of use and point of diversion shall revert to the authorized place of use and point of diversion at the end of the 2025 irrigation season or the end of the Governor's declared drought, whichever occurs first.
6. The use of the remaining water right described by Certificate 21623 shall continue to be in accordance with the terms and conditions of Certificate 21623.

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☒ Yes ☐ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:  
Regulation on the Siletz ISWRCert #67712 happens mostly every summer. This regulates off the junior blueberry irrigation right Cert 46891
3. Have headgate notices been issued for the source that serves the transferred right(s)?  
☐ Yes ☐ No ☒ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☒ No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☒ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☒ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☐ Yes ☒ No If "Yes", explain:

10. For POU or USE changes: ☐ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? ☐ Yes ☒ No If "Yes", explain:

11. For POU changes that involve micro-irrigation: ☒ N/A

a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☒ Yes ☐ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☒ No If "Yes", explain:

- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☒ Yes ☐ No If "No", explain:

- iv. Do you have any other observations regarding the temporary transfer?

☐ Yes ☒ No If "Yes", describe:

- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☒ No If "No", explain:

- i. "Injury" will occur to other water rights that share the same source?

☐ Yes ☒ No If "Yes", explain:

- ii. "Enlargement" of the water right being transferred will occur?

☐ Yes ☒ No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☒ Yes ☐ No If "Yes", explain:

**This temporary transfer only happens during drought conditions and when the river reaches critical instream flows and is regulated to senior ISWR.**

13. What alternatives may be available for addressing any issues identified above:

**Applying for a permanent transfer.**

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☒ No ☐ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☐ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a **totalizing flow meter**\*, or, with prior approval of the Director, another suitable measuring device, ☐ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

*b. The water user shall maintain the meters or measuring devices in good working order.*

*c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Staff gages shall be United States Geological Survey style.*

*b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.*

\* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐

Weir

☐

Submerged Orifice

☐

Parshall Flume

☐

Flow Restrictor

Hi Arla,

Thank you for your message and the quick chat on the phone this afternoon.

1. Please find the Deeds attached for the FROM property and apologies I missed printing these out for our application submission. One ownership is solely in Amy's name, while the other ownership is under Gibson Farms Gruchow Acres LLC. I have also attached a clipping of the Gibson Farms Gruchow Acres LLC showing Amelia and Lorissa as managers. They are co-owners with Amelia owning the majority interest.
2. I am writing to confirm that Amelia Gibson commonly goes by Amy Gibson. I have also attached a signature page with Amelia, Brenton, and Lorissa's signatures along with Lorissa's mailing and email address. This seems to meet your request while also providing Lorissa's signature to satisfy the non-sole owner component in the print below the signatures.

Please let me know if I can help provide any further information.

Best,

Good Morning,

I am the caseworker assigned to Drought Temporary Transfer Application T-14710 for Gibson Farms. In my review of the application there are deficiencies that must be addressed before the application processing can be completed:

1. The Drought Temporary Transfer Application requires the applicant to submit deeds for any of the "FROM" lands involved in the transfer. Attached please find the records the Department believes are for the lands appurtenant to Certificate 21623. A copy of a current recorded deed with the county is

required upon submittal of the application in order for the application to be considered complete. Please ensure the deeds for all of the lands that are proposed for transfer when resubmitting the application.

2. The Secretary of State Business Registry lists Gibson Farms as having authorized representatives for the business as "Brenton Gibson" or "Amelia Gibson". The person who signed the application is "Amy Gibson" and "Lorissa Fujishin". The Department will need a signed application that includes Amelia Gibson and/or Brenton Gibson to sign as being authorized to make changes to the Water Right.

I am setting a deadline of August 11, 2025 for you to submit these items to the Department or your application may be denied as incomplete. Please feel free to reach out to me if you have any questions.

ATTN: Transfer Section  
Oregon Water Resources Department  
725 Summer St NE, Suite A  
Salem, OR 97301

Dear Transfer Section Team,

Gibson Farms would like to request a Temporary Drought Transfer for the duration of the Governor-Declared Drought Emergency Declaration in Lincoln County invoked by Executive Order No. 25-13. We would like to change Place of Use (POU) and Point of Diversion (POD) from a portion of Certificate #21623 (Priority Date 1952), which we own and operate, to a portion of Certificate #46891 (Priority Date 1971), which we own and operate.

Due to low summer streamflows in the Siletz Basin, OWRD has regulated off junior water rights in our reach of the Siletz River, including Certificate #46891.

This Drought Temporary Transfer would allow us to provide the minimum irrigation necessary to sustain approximately 20 acres of cultivated perennial blueberry plants that have been established since 1948.

Thank you for your consideration in this matter,

Brenton Gibson, Authorized Representative

**For Place of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: \_\_\_\_\_

Pursuant to ORS 540.523, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for temporary transfer can be included in the transfer or remain unused on the authorized place of use. If the primary water right does not revert soon enough to allow use of the supplemental right within five years, the supplemental right shall become subject to cancellation for nonuse under ORS 540.610.

If a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation is necessary to convey the water to the new temporary place of use you must provide:

- ☐ Well log(s) for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**AND/OR**

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 below for any well that does not have a well log. For a *proposed well(s) not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the Department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
