The certificate recorded at page 47913, Volume 41, State Record of Water Right Certificates, in the name of Glenn Orval Lewman, describes a right for the use of not to exceed 0.72 cubic foot per second from West Fork Williams Creek for irrigation of a certain 9.2 acres in NE $\frac{1}{4}$ SE $\frac{1}{4}$, 2.7 acres in SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 23; and 17.0 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 24, Township 38 South, Range 5 West, W.M., with a date of priority of April 19, 1950.

Water for the said right is diverted, through the Little Williams Ditch, from a point located 380 feet South and 630 feet West from the Center Corner of Section 26, being within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 26, Township 38 South, Range 5 West, W.M.

The applicant herein, owner of the lands above described, proposes to establish an additional point of diversion, without loss of priority, at a point located 650 feet South and 1820 feet West from the Northeast Corner of Shoudy D.L.C. No. 38, being within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23, Township 38 South, Range 5 West, W.M.

Notice of the application, pursuant to ORS 540.520(2), was published in the Grants Pass Daily Courier, a newspaper printed and having general circulation in Josephine County, Oregon, for a period of three weeks in the issues of July 11, 18 and 25, 1979.

Mr. Robert B. Steimer, Watermaster, has filed a statement to the effect that the proposed additional point of diversion may be established without injury to existing rights.

No objections having been filed and it appearing that the proposed additional point of diversion may be established without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested additional point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion, together with that diverted at the old point of diversion, shall not exceed the quantity of water available at the old point of diversion under the subject right, and shall not exceed the amount of water available at the original points of diversion into the Baltimore Ditch.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that NO time need be fixed for completion as the additional point of diversion is established.

It is FURTHER ORDERED that the certificate recorded at page 47913, Volume 41, State Record of Water Right Certificates, is canceled; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.
