Dear Mr. & Mrs. Blair

Enclosed are certificates confirming changes approved by transfers numbered 3985 and 4293. Please review the notice regarding certificates which is also enclosed.

Our findings regarding permits 43216 and G-8116 are enclosed in the form of proposed certificates. It is important that you read the notice pertaining to these.

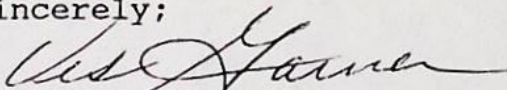

Our Field Inspector reports no land west of Wildhorse Creek irrigated as proposed under your application 58478, permit 44048. All land East of Wildhorse Creek found irrigated was included in the proposed certificate under permit 43216.

Since the water right as allowed by permit 44048 was not perfected, the permit serves no purpose and should be cancelled. Enclosed is a form to be signed and returned to the department which will authorize us to cancel the permit. This process will avoid the necessity for formal cancellation proceedings.

Our Inspector also reports finding 115.4 acres irrigated under permit G-8116 which exceeds the 105.0 acres requested by 10.4 acres. This is the unhatched area in the SW 1/4 SW 1/4, Section 13. If you intend to continue the irrigation of the 10.4 acres, a new permit should be obtained. An application and our instruction booklet is enclosed.

If you have questions, please give me a call.

Sincerely;

  
Vestal R. Garner, Manager  
Certificate Section

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

HARNEY COUNTY

IN THE MATTER OF THE APPLICATION )  
OF HENRY & BESSIE BLAIR FOR AP- )  
PROVAL OF CHANGES IN PLACE OF USE )  
AND POINT OF DIVERSION OF WATER )  
- - - - -

ORDER APPROVING  
TRANSFER NO. 4293

On September 11, 1979, an application was filed in the office of the Water Resources Director by Henry and Bessie Blair for approval of changes in place of use and point of diversion of water from Wildhorse Creek, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 20915, Volume 15, State Record of Water Right Certificates, in the name of Robert E. Blair, describes a right for the use of not to exceed 1/60th cubic foot per second per acre per year, not to exceed 2½ acre feet per year, from Wildhorse Creek for irrigation of a certain 8.9 acres in NE¼ NE¼, 10.6 acres in SW¼ NE¼ and 18.8 acres in SE¼ NE¼, Section 26, Township 35 South, Range 33 East, W.M., with a date of priority of 1902. Water for this right is diverted, through an unnamed ditch, from a point located 580 feet North and 280 feet West from the Northeast Corner of Section 26, being within the SE¼ SE¼ of Section 23, Township 35 South, Range 33 East, W.M.

The applicants herein, owners of the lands above described, propose to change the place of use and point of diversion therefrom and, without loss of priority, to irrigate in lieu thereof a certain 38.3 acres in SW¼ NW¼ of Section 13, Township 35 South, Range 33 East, W.M., with a date of priority of 1902, from a point of diversion located 1260 feet North and 1850 feet West from the Southeast Corner of Section 11, being within the SW¼ SE¼, Section 11, Township 35 South, Range 33 East, W.M. (Surplus Ditch).

Notice of the application, pursuant to ORS 540.520(2), was published in the Times-Herald, a newspaper printed and having general circulation in Harney County, Oregon, for a period of three weeks in the issues of October 4, 11 and 18, 1979.

Mr. William H. Beal, Watermaster, has filed a statement to the effect that the proposed changes in place of use and point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed changes

in place of use and point of diversion may be made without injury to existing rights, the application should be approved. '

NOW, THEREFORE, it hereby is ORDERED that the requested changes in place of use and point of diversion, as described herein, without loss of priority, are approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

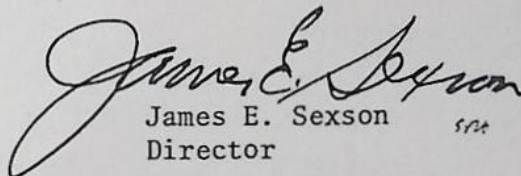

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made and that said water so transferred shall be applied to beneficial use on or before October 1, 1981.

It is FURTHER ORDERED that the certificate recorded at page 20915, Volume 15, State Record of Water Right Certificates, is canceled; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicants herein.

Dated at Salem, Oregon this 20th day of December, 1979.

|                            |                                             |         |                                               |                              |
|                            |                                             |         |                                               |                              |
|                            |                                             |         |                                               |                              |

(If more space required, attach separate sheet)

14. Reasons for the proposed changes are to put water to a more  
beneficial use with less waste

15. Construction work will be completed on or before July 1979

16. The water will be completely applied to the proposed use on or before Oct 1979

Remarks

**NOTE:** THIS APPLICATION MUST BE ACCOMPANIED BY A MAP OR MAPS SHOWING THE BEFORE AND AFTER LOCATIONS OF THE POINT OF DIVERSION AND/OR PLACE OF USE, AS THE CASE MAY BE.

## INTEROFFICE MEMO

TO: TRANSFERS, WATER RIGHTS DIVISION

DATE: July 10, 1978.

FROM: William H. Beal

SUBJECT: WATER RIGHT TRANSFER APPLICATION NO. 3985  
IN THE NAME OF Henry and Bessie Blair

RECEIVED

JUL 13 1978

WATER RESOURCES DEPT.  
SALEM, OREGON

In my opinion the proposed change in POD and POU  
may be made without injury would result in injury\* to existing water rights.

Headgate notices have have not been issued for diversions from the source which serves this right.

If for change in point of diversion, is there any intervening point of diversion between the authorized and the proposed points of diversion? NO  
(yes or no)

In my opinion the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

- (1) PRIOR to the diverting of water at the new point of diversion...
- X (2) When in the judgement of the watermaster it becomes necessary...

\* The approval of this transfer application would result in injury to other water rights because

I can see no injury from this change. The East fork of Wild horse Cr. is dry except an occasional high fast run off.

The Transfer would give more efficient use of the water.

RE: File No. T-3985

Dear Mr. & Mrs. Blair:

Your water right transfer application for approval of a change in place of use and changes in points of diversion of water from Wildhorse Creek, together with the two maps, were received on June 27, 1978. Of the fees submitted, \$23.90 was credited to your transfer application. Our receipt No. 3985 is enclosed.

The changes proposed for the water right described in the certificate issued to Robert E. Blair, recorded at Page 20915, State Record of Water Right Certificates, includes a proposed change in point of diversion from Wildhorse Creek below the confluence of the East and West channels of Wildhorse Creek to a point upstream on the West channel. Since there are various diversions of water under other rights on both channels, it appears that such a change would result in a situation where there would be no reasonable way to distribute water to said right at the proposed location. Therefore, it is doubtful that the proposed changes for the right described in the certificate recorded at Page 20915 could be approved.

If you choose not to go ahead with the change for the right described in the certificate recorded at Page 20915, reference to this right may be deleted from your transfer application and supporting map. We can proceed with your application for the changes requested for the other right described in the certificate recorded at Page 20913.

The application requires additional recording fees in the amount of \$21.10 for the change involving the certificate recorded at Page 20913. It is also necessary to submit a deposit of \$50.00 to cover the cost of publication. Will you please tell us which newspaper you prefer that we use. Any difference between the fees submitted and the actual cost will be settled with you upon completion of the transfer proceeding.

By copy of this letter, we are asking the watermaster for his usual report regarding the proposed changes.

Henry and Bessie Blair  
T-3985

I am returning your transfer application and map for completion.  
Please refer any correspondence to File No. T-3985.

Sincerely,

Wayne J. Overcash  
Water Rights Engineer

Re: Henry Blair Application for Water Transfer  
T-3985

Dear Mr. Overcash:

This will confirm that Wildhorse Ranch, Inc., has no objections in connection with the above transfer. Also, the East Fork that is in the area of the subject property is not considered by us to be a major waterway.

If anything further in this connection is needed, kindly advise.

Yours very truly,

  
W. D. JOHNSON
