REFERENCE: Transfer Application T-14461

Enclosed is a copy of the final order approving your water right transfer application.

The time allowed to complete the transfer is specified in the final order. YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this transfer, you may contact your caseworker, Elyse Richman, by telephone at (971) 701-5485 or by e-mail at Elyse.d.richman@water.oregon.gov.

In the Matter of Transfer Application	)	FINAL ORDER APPROVING A CHANGE IN
T-14461, Lane County	)	PLACE OF USE

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

DUNN FAMILY TRUST
28394 COTTAGE GROVE LORANE RD
COTTAGE GROVE, OR 97424

Findings of Fact

1. On May 16, 2024, Dunn Family Trust, filed an application to change the place of use under Certificate 11883. The Department assigned the application number T-14461.
2. Notice of the application for transfer was published on May 28, 2024, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On March 14, 2025, the Department sent a copy of the draft Preliminary Determination to the applicant, proposing to deny Transfer Application T-14461. The draft Preliminary Determination cover letter provided a deadline of April 14, 2025, for the applicant to respond and submit the required information. The applicant requested that the Department proceed with issuance of a Preliminary Determination.
4. On April 24, 2025, the Department received an amended application which remedied any layering and enlargement.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. On May 23, 2025, the Department issued a Preliminary Determination proposing to approve Transfer T-14461 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on May 27, 2025, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

6. The portion of the right to be transferred is as follows:

Certificate: 11883 in the name of RALPH LYNCH (perfected under Permit S-8684)

Use: IRRIGATION OF 3.4 ACRES

Priority Date: SEPTEMBER 8, 1928

Rate: 0.04 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre.

Source: HAWLEY CREEK and ORVILLE CROW CREEK, a tributary of SIUSLAW RIVER

Authorized Points of Diversion:

Twp	Rng	Mer	Sec	Q-Q
20 S	4 W	WM	7	SE NW
20 S	4 W	WM	7	NW SE

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
20 S	4 W	WM	7	SW NW	3.4

7. Transfer Application T-14461 proposes to change the place of use of the right to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
20 S	4 W	WM	7	SW NE	3.4

Transfer Review Criteria [OAR 690-380-0100(14), OAR 690-380-4010(2), OAR 690-380-2200]

8. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

9. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14461.

10. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).

11. The proposed changes would not result in enlargement of the rights.

12. The proposed change would not result in injury to other existing water rights.
13. All other application requirements are met.

Conclusions of Law

The change in place of use proposed in Transfer Application T-14461 is consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The change in place of use proposed in Transfer Application T-14461 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 11883 and any related decree.
3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new place of use.
4. Water right Certificate 11883 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.
5. The former place of use of the transferred right shall no longer receive water under the right.
6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2026**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
7. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

RALPH LYNCH
COTTAGE GROVE, OR 97424

confirms the right to use the waters of HAWLEY CREEK AND ORVILLE CROW CREEK, a tributary of SIUSLAW RIVER for the purpose of IRRIGATION under Permit S-8684. The date of priority is SEPTEMBER 8, 1928. The amount of water to which such right is entitled is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.34 CUBIC FOOT PER SECOND measured at the point of diversion from the stream, or its equivalent in case of rotation.

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q
20 S	4 W	WM	7	SE NW
20 S	4 W	WM	7	NW SE

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
20 S	4 W	WM	7	SW NW	12.6
20 S	4 W	WM	7	SE NW	14.0
				Total	26.6

This certificate describes that portion of water right Certificate 11883, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered JUN 27 2025, approving Transfer Application T-14461.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

WITNESS the signature of the Water Resources Director, affixed JUN 27 2025.

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for

SUBJECT: Water Right Transfer Application T-14461

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-14461. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 971-701-5485 or at elyse.d.richman@water.oregon.gov, if I may be of assistance.

Transfer Review Criteria [OAR 690-380-0100(14), OAR 690-380-4010(2), OAR 690-380-2200]

7. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14461.
9. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
10. The proposed changes would not result in enlargement of the rights.
11. The proposed change would not result in injury to other existing water rights.
12. All other application requirements are met.

Determination and Proposed Action

The change in place of use proposed in Transfer Application T-14461 appears to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-14461 is approved, the final order will include the following:

- 1. The change in place of use proposed in Transfer Application T-14461 is approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 11883 and any related decree.*
- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new place of use.*
- 4. Water right Certificate 11883 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
- 5. The former place of use of the transferred right shall no longer receive water under the right.*
- 6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2026**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
- 7. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

Dated in Salem, Oregon on **MAY 23 2025**

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
IVAN GALL, DIRECTOR
Oregon Water Resources Department

This Preliminary Determination was prepared by Elyse Richman. If you have questions about the information in this document, you may reach out to her at elyse.d.richman@water.oregon.gov or at 971-701-5485.

Protests

Under the provisions of ORS 540.520(6) & (7) and OAR 690-380-4030, within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, any person may file, jointly or severally, a protest expressing opposition of approval of the transfer application and disagreement with this Preliminary Determination or a standing statement in support of this Preliminary Determination. If this Preliminary Determination determines that a change in point of diversion or appropriation would result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050. Protests and standing statements must be received by the Water Resources Department within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-380-0100(9)]. The protest must include the following:

- The person's name, address, and telephone number;
- All reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue may preclude consideration of the issue during the hearing;
- If you are the applicant, a protest fee of \$480 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$950 required by ORS 536.050 and proof of service of the protest upon the applicant.

Requests for Standing

Under the provisions of OAR 690-380-4030(5), the Department shall provide to persons who have filed standing statements as defined under OAR 690-380-0100(11) notice of any differences between the Department's Preliminary Determination and the Final Order, notice of a hearing on the application under OAR 137-003-0535, and an opportunity to request limited party status or party status in the hearing.

Requests for standing must be received in the Water Resources Department no later than 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the preliminary determination as issued.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been filed under OAR 690-380-4030. In accordance with OAR 690-380-4200, notice and conduct of the hearing shall:

- Be under the applicable provisions of ORS 183.310 to 183.550, pertaining to contested cases, and the hearing shall be held in the area where the rights are located unless all parties stipulate otherwise; and
- If a protest has asserted that a water right to be transferred has been forfeited through non-use, include the notice and procedures described in OAR 690-017-0500 to 690-017-0900.

If after hearing the Department issues a proposed Final Order finding that a change in point of diversion or appropriation will result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050 within 15 days of receipt of the proposed order. Notwithstanding 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of 690-380-5030 to 690-380-5050.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions, or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 690-137-0555, an agency representative may represent partnerships, corporations, associations, governmental subdivisions or public, or private organizations if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

SUBJECT: Water Right Transfer Application T-14461

Please find enclosed a draft of our Preliminary Determination regarding Transfer Application T-14461. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be DENIED. This draft is intended to provide you with an opportunity to comment on our findings and conclusions should you wish to do so and to withdraw or modify your application to resolve the issues that are prompting our decision to deny the application.

The draft Preliminary Determination proposes to deny the transfer for the reason highlighted below:

- The Department has identified that the acres proposed for transfer under Certificate 11883 are layered with Certificate 24385. Approval of the change in place of use would result in un-layering of these two irrigation rights.

The issue that we have identified could be resolved by one of the following alternatives:

- The rights must move together consistent with OAR 690-380-2240(1), a change in place of use of a water use subject to transfer that is layered with another water use subject to transfer, permit, or certificate of registration shall only be approved if concurrent changes to the layered water use are approved or recognized;
- The layered portion of Certificate 24385 is diminished to supplemental irrigation and moved to another primary right with similar reliability to Certificate 11883;
- Submit an Affidavit for Partial Cancellation of Water Right Certificate 24385, that is layered with Certificate 11883; or
- Withdraw the application.

At this point, you may decide to continue processing the application (see below), or to send a letter requesting to withdraw the transfer application.

If you wish to proceed with your application, you must submit the following:

1. **Provide a written response** by April 14, 2025, that describes how you will overcome the issues identified above and submit modifications or additional information as needed, or that indicates you wish to protest a Preliminary Determination to deny the transfer.

2. **REQUIRED:** You must submit a **Report of Ownership** for the lands where the water right is currently located (i.e., the FROM lands). This report:
 - a) Must be prepared by a title company;
 - b) Shall include a “prepared by” statement and the date the title company prepared the report printed on the cover sheet;
 - c) Must:
 - i. Be prepared no earlier than 3 months prior to the date of issuance of the Draft Preliminary Determination showing current ownership; **OR**
 - ii. Be prepared within 3 months of the date the water right conveyance agreement was recorded; **OR**
 - iii. Show ownership for the FROM land at the time a water right conveyance agreement was recorded.

If water right conveyance agreements are involved, it is helpful to provide copies of those agreements along with the Report of Ownership.
 - d) Must include a list of owners at the time the report was generated; **AND**
 - e) Must include a legal description of the property where the water right to be transferred is currently located (i.e., the FROM lands).
5. You must provide a notarized statement of consent signed by any landowner listed in the Report of Ownership who is not already included in the transfer application. The Department’s statement of consent form (**Consent By Deeded Landowner**) is available at: [https://www.oregon.gov/OWRD/WRDFormsPDF/consent to transfer form.pdf](https://www.oregon.gov/OWRD/WRDFormsPDF/consent%20to%20transfer%20form.pdf)

What happens next...

Once the preliminary determination is issued a publication period is required. The Department will publish a notice in their weekly publication, which opens a 30-day period in which the transfer can be protested.

Conditions of your water right...

If you modify the application to allow approval, conditions may need to be added to the transfer. The Department will notify you of any required conditions prior to issuing the Preliminary Determination.

Issuance of the Preliminary Determination will occur shortly after we receive:

1. Your written response modifying the application to resolve the issues that we have identified or requesting that we proceed with processing of the application; and
2. The Report of Ownership, including affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application. The title company must indicate/state the date that they prepared the ownership report on the coversheet and/or first page of the report.

If we do not receive your response to withdraw the application or the items listed above by April 14, 2025, a Preliminary Determination may be issued denying the application as incomplete.

Please don't hesitate to contact me at elyse.d.richman@water.oregon.gov or at (971) 701-5485, if I may be of assistance.

Sincerely,

A handwritten signature in cursive script that reads "Elyse Richman".

PRELIMINARY DETERMINATION
PROPOSING DENIAL OF A CHANGE IN
PLACE OF USE

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

COTTAGE GROVE, OR 97424

Findings of Fact

1. On May 16, 2024, Dunn Family Trust, filed an application to change the place of use under Certificate 11883. The Department assigned the application number T-14461.
2. Notice of the application for transfer was published on May 28, 2024, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. The portion of the right to be transferred is as follows:

Certificate:	11883 in the name of RALPH LYNCH (perfected under Permit S-8684)
Use:	IRRIGATION
Priority Date:	SEPTEMBER 8, 1928
Rate:	0.04 CUBIC FOOT PER SECOND
Limit/Duty:	The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre.
Source:	HAWLEY CREEK and ORVILLE CROW CREEK, a tributary of SIUSLAW RIVER

Authorized Points of Diversion:

Twp	Rng	Mer	Sec	Q-Q
20 S	4 W	WM	7	SE NW
20 S	4 W	WM	7	NW SE

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
20 S	4 W	WM	7	SE NW	3.4

4. Transfer Application T-14461 proposes to change the place of use of the right to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
20 S	4 W	WM	7	SW NE	3.4

Transfer Review Criteria [OAR 690-380-0100(14), OAR 690-380-4010(2), OAR 690-380-2200]

5. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
6. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14461.
7. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
8. The lands currently irrigated under the right would continue to receive water from the same source resulting in enlargement of the right. During the review process, the Department identified that Certificate 11883 is layered with a portion of Certificate 24385. Pursuant to OAR 690-380-2240, a change in place of use that is layered with another water use subject to transfer (Certificate 24385), permit, or certificate of registration shall only be approved if concurrent changes to the layered water use are approved or recognized. "Layered" means a situation in which there are multiple water uses subject to transfer, permits, or certificates of registration that are appurtenant to the same place of use and that have been issued for the purpose of irrigation. Both Certificate 11883 and 24385 are for the purpose of irrigation. The following acres under Certificate 11883 are layered with Certificate 24385:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
20 S	4 W	WM	7	SE NW	3.4

9. The proposed change would not result in injury to other existing water rights.

10. All other application requirements are met.

Determination and Proposed Action

The change in place of use proposed in Transfer Application T-14461 appears to be not consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be denied.

If the issues identified above are resolved and Transfer Application T-14461 is approved, the final order will include the following:

- 1. The change in place of use proposed in Transfer Application T-14461 is approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 11883 and any related decree.*
- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new place of use.*
- 4. Water right Certificate 11883 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
- 5. The former place of use of the transferred right shall no longer receive water under the right.*
- 6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2026**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
- 7. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

On May 16, 2024, the Department received your water right Permanent Transfer Application. The application was accompanied by \$1360.00. Receipt number 142937 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water in the new place of use until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0935.

Proposed Changes: ☒ POU ☐ POD ☐ POA ☐ USE ☐ OTHER

Reviewer(s): L. Blakely

Date of Review: 07/10/2024

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable? ☐ Yes ☒ No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights? ☐ Yes ☒ No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
The Siuslaw river is not frequently regulated for the instream water right or senior calls.
3. Have headgate notices been issued for the source that serves the transferred right(s)?
☐ Yes ☒ No ☐ Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized? ☐ Yes ☒ No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected? ☐ Yes ☐ No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here ☐ if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

☒ N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

☒ N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

☒ N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)? ☐ Yes ☐ No

9. For POU changes: ☐ N/A Is it likely the original place of use would continue to receive water from the same source? ☒ Yes ☐ No If "Yes", explain:

10. For POU or USE changes: ☐ N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

☒ Yes ☐ No If "Yes", explain:

Separating the layered rights would result in enlargement. Both rights (C-11883 and C-24385) that cover the FROM lands need to be moved together or the overlapping portion of C-24385 must be cancelled, pursuant to ORS 540.510.

11. For POU changes that involve micro-irrigation: ☒ N/A

- a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

☐ Yes ☐ No If "Yes", explain:

- b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

☐ Yes ☐ No If "Yes", answer the following:

- i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer? ☐ Yes ☐ No If "Yes", explain:

- ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry? ☐ Yes ☐ No If "No", explain:

- iii. Did the applicant comply with and meet all of the conditions of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- iv. Do you have any other observations regarding the temporary transfer?

☐ Yes ☐ No If "Yes", describe:

- v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer? ☐ Yes ☐ No If "No", explain:

- c. To the best of your knowledge, if this transfer is approved, does it appear that:

- i. "Injury" will occur to other water rights that share the same source?

☐ Yes ☐ No If "Yes", explain:

- ii. "Enlargement" of the water right being transferred will occur?

☐ Yes ☐ No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

☐ Yes ☒ No If "Yes", explain:

13. What alternatives may be available for addressing any issues identified above:

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☒ No ☐ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

☐ Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, ☐ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

☐ Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

a. Before water use may begin under this order, the water user shall install staff gages, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.

* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

☐ Weir
☐ Parshall Flume
☐ Other: _____

☐ Submerged Orifice
☐ Flow Restrictor

Part 2 of 5 – Transfer Application Map

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☒ ☐ N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- ☐ ☒ N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☐ ☒ N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? ☒ Yes ☐ No*

*If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.

Check the following boxes that apply:

- ☒ The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- ☐ The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- ☐ Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? ☐ Yes ☒ No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see:

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☒ Yes ☐ No

If YES, list the certificate, water use permit, or ground water registration numbers: **24385**.

 Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;

Surface water primary Certificate # _____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- ☐ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
