Water for the said right is diverted, through the Little Williams Ditch, from a point located 4910 feet South and 2000 feet West from the NE Corner of Shoudy DLC 38, being within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, Township 38 South, Range 5 West, W. M.

The applicant herein, owner of the lands above described, proposes to establish an additional point of diversion, without loss of priority, at a point located 355 feet South and 185 feet West from the N $\frac{1}{4}$ Corner of Section 26, being within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, Township 38 South, Range 5 West, W. NOW, THEREFORE, it hereby is ORDERED that the requested additional point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion, together with that diverted at the old point of diversion, shall not exceed the quantity of water available at the original point of diversion under the subject right, located 250 feet North and 950 feet West from the SE Corner of Section 5, being within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 5, Township 39 South, Range 5 West, W. M., (Baltimore Ditch), and shall not exceed 0.59 cubic foot per second.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices;

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the additional point of diversion of water established on or before October 1, 1980.

It is FURTHER ORDERED that the certificate of water right recorded at page 47911, Volume 40, State Record of Water Right Certificates, is canceled; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.
