THESE CHANGES TO EXISTING WATER RIGHTS MAY BE MADE PROVIDED THE FOLLOWING CONDITIONS ARE MET BY THE WATER USER:

1. These changes are temporary. These changes shall be effective upon issuance of this order.
2. The former places of use shall not be irrigated as part of these water rights during the 2001, 2002, 2003, 2004 and 2005 irrigation seasons.

3. The use shall revert to the authorized places of use at the end of the 2005 irrigation season.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the changes cause injury to any existing water right.
5. The water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
6. The water user shall report monthly to the Ground Water Section both the rate and total volume of water used from each well and stream point of diversion involved in this transfer. The method for measuring and computing water use shall be consistent with ORS 690-85-015.

In addition, the water user shall measure and report monthly to the Ground Water Section both the static water levels and pumping water levels for each of the wells involved in this transfer.

CHANGE IN PLACE OF USE OF WATER )  
-----

ORDER APPROVING  
TRANSFER NO. 4269

On August 3, 1979, an application was filed in the office of the Water Resources Director by Paul R. Seaquist, Gale R. Long and John L. Short for approval of a change in place of use of water from Walla Walla River, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 12814, Volume 11, State Record of Water Right Certificates, in the name of J. E. Irons, describes a right which includes the use of not to exceed  $1\frac{1}{2}$  miner's inches per acre measured at the point of diversion from Walla Walla River for irrigation of a certain 7.5 acres in NE $\frac{1}{4}$  SW $\frac{1}{4}$  and 1.0 acre in NW $\frac{1}{4}$  SE $\frac{1}{4}$  of Section 2, Township 5 North, Range 35 East, W.M., with a date of priority of 1880.

Water for the said right is diverted, through the Milton Ditch, from a point located 415 feet North and 65 feet East from the East Quarter Corner of Section 13, being within the SE $\frac{1}{4}$  NE $\frac{1}{4}$  of Section 13, Township 5 North, Range 35 East, W.M.

The applicants herein, owners of the lands above described, propose to sever the water right therefrom and, without loss of priority, to irrigate in lieu thereof a certain 1.5 acres in NW $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 2; 4.0 acres in NE $\frac{1}{4}$  SE $\frac{1}{4}$  and 3.0 acres in SE $\frac{1}{4}$  NE $\frac{1}{4}$  of Section 3, Township 5 North, Range 35 East, W.M.

Mr. Steven Applegate, Watermaster, has filed a statement to the effect that the proposed change in place of use may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in place of use may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in place of use, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that said water so transferred shall be applied to beneficial use on or before October 1, 1981.

It is FURTHER ORDERED that the certificate recorded at page 12814, Volume 11, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicants herein.

Dated at Salem, Oregon this 27th day of September, 1979.

CERTIFICATE OF WATER RIGHT

**This Is to Certify,** *That* J. E. IRONS

of Milton-Freewater, State of Oregon 97862, has  
a right to the use of the waters of Little Walla Walla River

a tributary of Walla Walla River for the purpose of  
irrigation of 9.0 acres

and that said right has been confirmed by decree of the Circuit Court of the State of Oregon for Umatilla County, and the said decree entered of record at Salem, in the Order Record of the WATER RESOURCES DIRECTOR, in Volume 12, at page 9; that the priority of the right thereby confirmed dates from 1886

that the amount of water to which such right is entitled, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed one and one half miner's inches per acre measured at the point of diversion

The point of diversion is located in the

A description of the place of use under the right, and to which such right is appurtenant, is as follows:

9.0 acres NE $\frac{1}{4}$  SW $\frac{1}{4}$   
Section 27  
T. 6 N., R. 35 E., W.M.

being within the following described tract: Commencing at the SW Corner of the NE $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 27, T. 6 N., R. 35 E., W.M., running thence East 50 rods; thence North 48 rods; thence West 50 rods; thence South 48 rods to the place of beginning, containing 17 acres, more or less.

The certificate describes that portion of the water right confirmed by the prior certificate recorded at page 12814, Volume 11, State Record of Water Right Certificates, NOT modified by the provisions of an order of the Water Resources Director entered on September 27, 1979, approving transfer application No. 4269.

The issuance of this superseding certificate does not confirm the status of the water right in reference to ORS 540.610.

*And said right shall be subject to all other conditions and limitations contained in said decree. The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.*

Form C

**IMPORTANT**—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. Fill out, detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

SUBJECT: Transfer No. 4269

The available Assessor's maps on the lands involved would not be of any more help. There are no recent subdivision maps on the lands described by this Transfer Application, however, the L.D.'s appear okay, and there appears to be a mistake on both maps.

On the "From" map, the  $\frac{1}{4}$   $\frac{1}{4}$  Section in which the 1.0 acre is located should be the NW $\frac{1}{4}$  SE $\frac{1}{4}$ . In the application under Item 8, the 1.0 acre is also incorrectly stated as being within the NE $\frac{1}{4}$  SE $\frac{1}{4}$ , when it should be the NW $\frac{1}{4}$  SE $\frac{1}{4}$ .

On the "To" map, the  $\frac{1}{4}$   $\frac{1}{4}$  in which the 1.5 acres is located should be the NW $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 2. The rest of the map is okay and the information on the Application under Item 13 is all correct.

I made an on-sight inspection of the "To" lands on this Transfer on August 28, 1979 and it looks okay as to location of proposed place of use.

If I can be of any further assistance on this, let me know. I understand the Application and maps were made up in this office. Sorry about the mixup.

In my opinion the proposed change in place of use of water from Walla Walla River  
MAY BE MADE WITHOUT INJURY WOULD RESULT IN INJURY\* to an existing water right.

Headgate notices HAVE HAVE NOT been issued for diversion from the sources which  
serves this right.

If for change in point of diversion, is there any intervening point of diversion  
between the authorized and the proposed points of diversion? \_\_\_\_\_  
(yes or no)

In my opinion, the order approving the subject transfer application should include  
the following in regard to the appropriator installing suitable measuring devices  
in the diversion works:

- \_\_\_\_ (1) PRIOR to the diverting of water at the new point of diversion . . .  
☒ (2) When in the judgment of the watermaster it becomes necessary . . .

Please check the enclosed application vs. maps and legal descriptions. I think the "to" map has a  $\frac{1}{4}$  mislabeled. The "from" map appears to be OK.

Are there recent subdivision or city plat maps covering these properties? If so, please send me one.
