ORDER APPROVING
TRANSFER NO. 4116

On December 29, 1978, an application was filed in the office of the Water Resources Director by Warren Storkman for approval of a change in point of diversion of water from Crooked River, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 404, Volume 1, State Record of Water Right Certificates, in the name of G. F. Storkman, describes a right for the use of not to exceed 0.33 cubic foot per second from Crooked River for irrigation of a certain 26.0 acres in NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, Township 16 South, Range 15 East, W.M., with a date of priority of March 26, 1910.

Water for the said right is diverted from a point located 1620 feet South and 420 feet West from the Northeast Corner of Section 29, being within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 29, Township 16 South, Range 16 East, W.M.

The applicant herein, owner of the lands above described, proposes to change the point of diversion therefrom, without loss of priority, to two points located (1) 1670 feet South and 4210 feet West from the Northeast Corner of Section 18, being within the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 18, Township 16 South, Range 16 East, W.M., and (2) 1150 feet South and 1320 feet West from the Northeast Corner of Section 13, being within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 13, Township 16 South, Range 15 East, W.M.

Notice of the application, pursuant to ORS 540.520(2), was published in the Central Oregonian, a newspaper printed and having general circulation in Crook County, Oregon, for a period of three weeks in the issues of February 19 and 26, and March 5, 1979.

Mr. Robert F. Main, Jr., Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new points of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right.

It is FURTHER ORDERED that the following provisions shall be carried out prior to the diverting of water at the new points of diversion as herein confirmed:

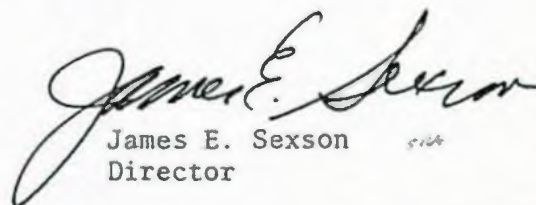

That the diversion works shall include in line flow meters for measuring the water to which the applicant is entitled;

That the type of flow meters be approved by the watermaster before the beginning of construction work and that they be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that NO time need be fixed for completion as the change in points of diversion is completed.

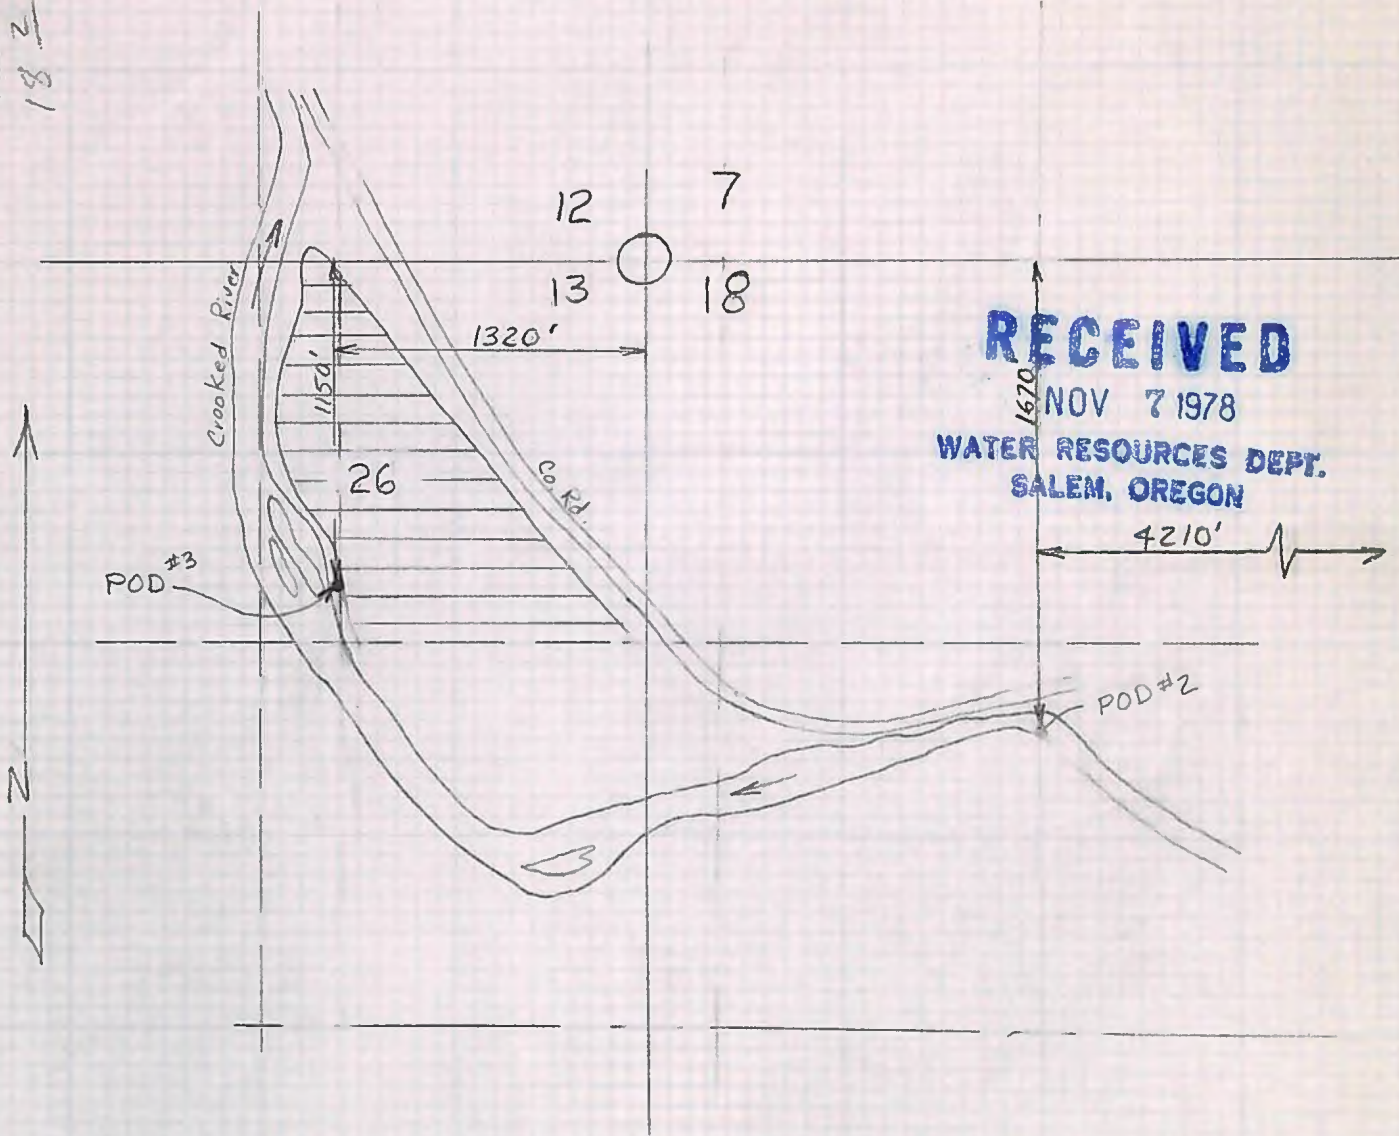

It is FURTHER ORDERED that the certificate recorded at page 404, Volume 1, State Record of Water Right Certificates, is canceled; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

I am sending your application for transfer back so that you can look at the changes that I have made:

- #6 only one point of diversion was used to divert water on the north side of the river.
- #7 distances changed with map drawn from Mrs. Barney's transfer map.
- #8 our office cannot tell at this time how much of the field is your land and which is Mrs. Barneys'.

We will leave the entire right where it shows on the 40 until the final proof survey is completed at which time we will require the cancellation of excess water right lost for none use.

If the changes that I have made are acceptable, please initial by your name and send to Water Resources Dept. 555 13th St N E Salem, Ore. 97310.
