The certificate recorded at page 26062, Volume 17, State Record of Water Right Certificates, in the name of Coos Bay Timber Company, describes a right which includes the use of not to exceed 0.02 cubic foot per second from an unnamed stream (Morris Creek) for domestic use at seven houses and six trailer locations in SW $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 12, Township 31 South, Range 12 West, W.M., with a date of priority of January 14, 1955. No objections having been filed and it appearing that the proposed changes in place of use and use heretofore made of water may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested changes in place of

use and use heretofore made of water, as described herein, without loss of priority, are approved.

It is FURTHER ORDERED that NO time need be fixed for completion as the changes in place of use and use heretofore made of water are completed.

The order of the Water Resources Director entered May 22, 1979, provided for cancellation of that portion of the right described by certificate of water right recorded at page 26062, Volume 17, State Record of Water Right Certificates, NOT involved in this transfer proceeding; therefore,

It is FURTHER ORDERED that the certificate of water right recorded at page 26062, Volume 17, State Record of Water Right Certificates, is canceled; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

RE: Files Nos. T-4153, T-4155

Gentlemen:

Your water right transfer applications for approval of changes in use of water from South Fork Coquille River and from Morris Creek, together with supporting data and fees of \$170, were received February 9, 1979. Our receipts Nos. 9064, 9065 and 9066 are enclosed. The affidavit providing for cancellation of part of the right described by certificate 26062 was also received.

I am returning the three applications and a print of the supporting map to Mr. John Drolet, our representative for your area. It will be necessary to supply additional information on one of the applications and combine the proposed changes for the stored water and use of water from the streams for maintaining the pond on another application. I have discussed this with Mr. Drolet. He will contact you in regard to properly completing and returning the applications.

I have made some penciled entries in item No. 13 of application No. 4155, involving the right described by certificate 26062. If you agree with the entries, they should be done in ink or typed and then initialed. The name and title of the person signing the application should be noted in the 'affidavit of applicant' section and the application should be signed before a notary.

I am also enclosing, with the copy of this letter to Mr. Drolet, an application describing proposed changes for rights presently described by certificates 26063, 26064 and 26065. If this application properly describes your intended changes, the 'affidavit of applicant' section may be properly completed before a notary, and the application submitted as a superceding application.

Sincerely,

Wayne J. Overcash
