Authority

ORS 540.570 establishes the process in which a district may submit a request to temporarily transfer a water right within district boundaries. OAR Chapter 690, Division 385 implements the statutes and provides the Department's procedures and criteria for evaluating district transfer applications.

Applicant

WESTLAND IRRIGATION DISTRICT
P.O. BOX 944
HERMISTON, OR 97838

Findings of Fact

1. On April 4, 2007, Westland Irrigation District filed a district transfer application to temporarily change the place of use under Certificates 76050, 75127 and 81815. The Department assigned the application number T-10359.
2. On May 31, 2007, the Department issued a final order approving a change in place of use as proposed in Transfer Application T-10359, recorded at Special Order Volume 72, pages 233 to 237.
3. Shortly following issuance of the final order described in Finding #2, the Department recognized the need to modify Application T-10359. The application modification is needed to include Well #7 under Certificate 75127 in order to temporarily change the point of appropriation from Well #7 to Wells #4 and #8 and to allow the amount of water authorized under the certificate for Well #7 (1.8 cfs) to be used in any combination from Wells #4 and #8 at the proposed place of use.
4. The modification to Application T-10359, described in Finding #3, does not require additional public notice.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. Pursuant to OAR 137-004-0080(5), the period in which the Department may, on its own initiative, reconsider a final order has not yet closed.
6. On June 20, 2007, the Department reconsidered the order approving Application T-10359 (Special Order Volume 72, pages 233 to 237) and concluded that the order should be superseded and reissued as described in Finding #7 below.
7. The portions of the rights to be transferred are as follows:

TOTAL:						496.3	496.3	496.3	

* NOTE: The applicant has requested to diminish the above described Certificate 76050 (496.3 acres) at the new proposed place of use to supplemental irrigation to existing primary water right Certificates 76050, 76717, 76799 and 76051.

9. Application T-10359 also proposes to TEMPORARILY change the point of appropriation from Well #7 (1.8 cfs) to two wells located as follows:

TWP	RNG	MER	SEC	QTR-QTR	SURVEY COORDINATES
2 N	28 E	WM	1	SE NW	PRIOR WELL #4 – 2640 Feet South and 630 Feet West from the N ¹ / ₄ Corner of Section 1
2 N	28 E	WM	2	NE SE	PRIOR WELL #8 – 2800 Feet South and 500 Feet West from the NE Corner of Section 2

10. The use of water under Certificate 75127 for the 2007 irrigation season is subject to the order dated August 28, 2006, recorded at Special Order Volume 69, page 687, approving an allocation of groundwater within the Stage Gulch Critical Groundwater Area.

11. The diminishment and proposed use of water for supplemental irrigation under Certificate 76050 on the proposed lands together with the same existing water right Certificate 76050 on these "TO" lands is limited to an appropriation of no more than the allowable rate and duty per each acre as described within the certificate during the 2007 season.
12. The district temporary transfer application satisfies the criteria of OAR 690-385-4000, contains the information required under OAR 690-385-2000, and includes maps meeting the requirements of OAR 690-385-2200.
13. The water rights are subject to transfer as defined in OAR 690-385-0100(17).
14. Water has been used within the last five years according to the terms and conditions of the right, and no evidence is available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
15. Pumps and a pipeline system sufficient to use the full amount of water allowed under the existing rights are present.
16. The proposed changes would not result in enlargement of the rights.
17. The proposed changes would not result in injury to other water rights.

Conclusions of Law

The temporary changes in point of appropriation and place of use proposed in Application T-10359 satisfy the requirements of ORS 540.574(3) and 540.570.

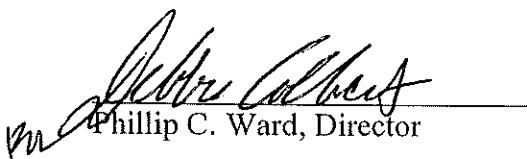

The use of water under Certificate 76050 is restricted to the limitations contained in the certificate as described in Findings of Fact #11.

Now, therefore, it is ORDERED:

1. The final order entered at Special Order Volume 72, pages 233 through 237 is void and of no further force or effect.
2. The proposed changes in point of appropriation and place of use proposed in Application T-10359 are approved.
3. The appropriation of water from Wells #4 & #8 is limited to 6.21 cfs and may be used in any combination for the 2007 irrigation season.
4. The temporary transfer is effective for the 2007 irrigation season.
5. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 76050, 75127 and 81815 and any related decree.

6. Certificate 76050 is diminished to supplemental irrigation for the 2007 irrigation season, as described in Finding of Fact #8, and, along with the other water rights for supplemental irrigation being transferred, may be used only to make up a deficiency of supply for Certificates 76050, 76051, 76799, and 76717.
7. Water for the new wells shall be acquired from the same aquifer (water source) as the original point of appropriation.
8. The use of water on the lands from which the water right is transferred and at the new temporary place of use during the same irrigation season or calendar year is prohibited and may subject the district and landowner to civil penalties.
9. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
10. At the end of the 2007 irrigation season all uses of water under this temporary transfer revert automatically to the terms and conditions of the original water right permit, certificate, or adjudication as evidenced by a court decree.

Dated at Salem, Oregon this 22nd day of June 2007.

Subject: Westland Irrigation T-10359 (Chet Prior)

Based on some discussions I have had with Chet Prior in the last week it is apparent when they submitted the application for the above transfer they intended to include well # 7 but did not. They also would like to take the Q from well # 7 and transfer it to wells 4 and 8, based on the number of acres involved in the transfer and not to exceed a total of 6.21 cfs from any combination of wells. As the transfer is in the name of Westland, I talked to Stacey Wells, as she agrees with the proposed new changes.

Because of the changes, it is my understanding Mike Zwart will have to take a look and make sure the additional POA's requested will not cause injury. Mike has indicated he will turn that review around quickly.

The order approving T-10359 was signed May 31, 2007, therefore the department can on its own motion reconsider the order. Therefore, I am requesting the department on its own motion, issue a superceding order implementing the changes above, provided no injury is identified from the additional changes.

Ken, will you please work up a new order proposing to implement these changes and forward it to Salem this week.

* NOTE: The applicant has requested to diminish the above described Certificate 76050 (496.3 acres) at the new proposed place of use to supplemental irrigation to existing primary water right Certificates 76050, 76717, 76799 and 76051.

5. The use of water under Certificate 75127 for the 2007 irrigation season is subject to the order dated August 28, 2006, recorded at Special Order Volume 69, page 687, approving an allocation of groundwater within the Stage Gulch Critical Groundwater Area.
6. The diminishment and proposed use of water for supplemental irrigation under Certificate 76050 on the proposed lands together with the same existing water right Certificate 76050 on these "TO" lands is limited to an appropriation of no more than the allowable rate and duty per each acre as described within the certificate during the 2007 season.
7. The district temporary transfer application satisfies the criteria of OAR 690-385-4000, contains the information required under OAR 690-385-2000, and includes maps meeting the requirements of OAR 690-385-2200.
8. The water rights are subject to transfer as defined in OAR 690-385-0100(17).
9. The proposed change in place of use would not result in enlargement of the rights.
10. The proposed changes in place of use would not result in injury to other rights.

Conclusions of Law

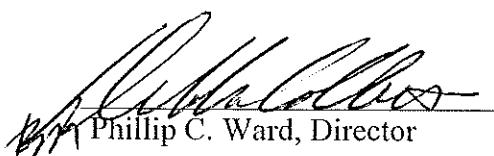

1. The proposed change in place of use in Transfer Application T-10359 satisfies the requirements of ORS 540.574(3) and 540.570.
2. The use of water under Certificate 76050 is restricted to the limitations contained in the certificate as described in Findings of Fact #6.

Now, therefore, it is ORDERED:

1. The proposed changes to the water rights evidenced by Certificates 76050, 75127 and 81815 are approved.

2. The temporary transfer is effective for the 2007 irrigation season.
3. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 76050, 75127 and 81815 and any related decree.
4. Certificate 75127 is diminished to supplemental irrigation for the 2007 irrigation season, as described in Findings of Fact #4 and #5, and may be used only to make up a deficiency of supply for Certificates 76050, 76051, 76799, and 76717.
5. The use of water on the lands from which the water right is transferred and at the new temporary place of use during the same irrigation season or calendar year is prohibited and may subject the district and landowner to civil penalties.
6. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
7. At the end of the 2007 irrigation season all uses of water under this temporary transfer revert automatically to the terms and conditions of the original water right permit, certificate, or adjudication as evidenced by a court decree.

Dated at Salem, Oregon this 31st day of May, 2007.

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

TEEL IRRIGATION DISTRICT
 32327 OREGON TRAIL ROAD
 ECHO, OREGON 97826

confirms part of the right to use the waters of the UMATILLA RIVER a tributary of the COLUMBIA RIVER, for IRRIGATION OF 5011.5 acres.

This right was perfected under Permit 25920. The date of priority is April 22, 1955. This right is limited to 60.0 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

SW $\frac{1}{4}$ NE $\frac{1}{4}$, SECTION 21, T 3 N, R 29 E, W.M.; WESTLAND CANAL - NORTH 76 DEGREES 45 MINUTES 56 SECONDS EAST, 2913.19 FEET FROM THE WEST $\frac{1}{4}$ CORNER OF SECTION 21.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second (or its equivalent), and 4.5 acre-feet for each acre irrigated during the irrigation season of each year. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

ECHO, OREGON 97826

confirms the right to use the waters of PRIOR WELLS NO. 4, 7, AND 8 in the UMATILLA RIVER BASIN, for PRIMARY IRRIGATION OF 42.6 ACRES AND SUPPLEMENTAL IRRIGATION OF 564.2 ACRES.

This right was perfected under Permit G-6069. The date of priority is SEPTEMBER 5, 1974. This right is limited to not more than 7.59 CUBIC FEET PER SECOND; BEING 2.2 CFS FROM EACH OF WELLS 7 & 8 AND 3.19 CFS FROM WELL 4, or its equivalent in case of rotation, measured at the well.

The wells are located as follows:

WELL 4 - SE $\frac{1}{4}$ NW $\frac{1}{4}$, SECTION 1, T 2 N, R 28 E, W.M.;
2640 FEET SOUTH AND 630 FEET WEST FROM NW CORNER, SECTION 1;
WELL 7 - SE $\frac{1}{4}$ NW $\frac{1}{4}$, SECTION 2, T 2 N, R 28 E, W.M.;
2500 FEET SOUTH AND 2580 FEET EAST FROM NW CORNER SECTION 2;
WELL 8 - NE $\frac{1}{4}$ SE $\frac{1}{4}$, SECTION 2, T 2 N, R 28 E, W.M.;
2800 FEET SOUTH AND 500 FEET WEST FROM NE CORNER SECTION 2.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 3 acre-feet for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein for supplemental irrigation shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

SECTION 2

TOWNSHIP 2 NORTH, RANGE 28 EAST, W.M.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate is issued to confirm a diminution from primary irrigation to supplemental irrigation approved by an order of the Water Resources Director entered September 3, 1997, and supersedes Certificate 61532, State Record of Water Right Certificates.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed September 3, 1997.

STATE OF OREGON
COUNTY OF UMATILLA
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CHESTER PRIOR, EAGLE RANCH
32327 OREGON TRAIL ROAD
ECHO, OREGON 97826

confirms part of the right to use the waters of the UMATILLA RIVER a tributary of the COLUMBIA RIVER, for PRIMARY IRRIGATION OF 72.60 ACRES and SUPPLEMENTAL IRRIGATION OF 2814.50 ACRES.

This right was perfected under Permit 48450. The date of priority is AUGUST 3, 1981. This right is limited to 72.18 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source. The use allowed herein may be made anytime between November 15 and June 15 of each year that water can be put to beneficial use by irrigation, either for immediate crop growth or for forecast requirements to raise the soil moisture to field capacity in the soil profile to be utilized by plant growth in the subsequent growing season.

The point of diversion is located as follows:

TWP	RNG	MER	SEC	LOT	1/4 1/4	LOCATION
3 N	29 E	W.M.	21		SW NE	WESTLAND CANAL - NORTH 76 DEGREES 45 MINUTES 56 SECONDS EAST 2913.19 FEET FROM THE WEST 1/4 CORNER OF SECTION 21.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second (or its equivalent), and 1.5 acre-feet for each acre irrigated during the period from November 15 to the last day of February of each year, provided further that the right allowed herein together with the amount secured under any other right existing for the same lands shall not exceed 4.5 acre-feet for each acre irrigated in any one year, provided further, that the part declared herein be for supplemental irrigation, the right allowed may, in the interest of conserving the ground water supplies, be exercised at times when water is available in the ground water supply provided the total quantity diverted from all sources of supply does not exceed the limitation allowed herein. The use of water during the period from November 15 to the last day of February of each year shall not establish priority of right as against future appropriations for beneficial uses or storage for such beneficial uses, other than similar rights for irrigation from November 15 to the last day of February.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

This certificate describes that portion of the water right confirmed by Certificate 81599, State Record of Water Right Certificates, NOT canceled by the provisions of an order of the Water Resources Director entered February 10, 2006, and recorded in Special Order Volume 67, Page 802, canceling a portion of the water right. This certificate supersedes Certificate 81599.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

Issued: February 10, 2006

 FOR Phillip C. Ward, Director
 Water Resources Department

2006

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application) F I N A L O R D E R
T-10157, Umatilla County) APPROVING A DISTRICT
) TEMPORARY TRANSFER

ORS 540.570 establishes the process in which a district may submit a request to temporarily transfer a water right within district boundaries. OAR Chapter 690, Division 385 implements the statutes and provides the Department's procedures and criteria for evaluating district transfer applications.

Applicant

Westland Irrigation District
P.O. Box 944
Hermiston, OR 97838

Findings of Fact

1. On April 27, 2006, Westland Irrigation District filed a district transfer application to temporarily change the place of use under Certificates 76050, 75127, 80652 and 81599.
2. Notice of the application for transfer was published pursuant to ORS 540.580 and OAR 690-385-3400. No comments were filed in response to the notice.
3. Pursuant to OAR 690-385-3130 the applicant applied to temporarily change the subject water rights to supplemental irrigation at the proposed place of use during the 2006 irrigation season. Certificates 76050, 76051, 76717, 76715, 76799 and 76723 are the authorized irrigation water rights at the proposed place of use of the subject water rights.
4. The portion of the FIRST right to be transferred is as follows:

TOTAL:					735.9	575.5	171.7		

*NOTE: The applicant has requested to diminish the above described water right Certificates 76050 (735.9 acres) and 75127 (11.3 acres) at the new proposed place of use to supplemental irrigation to existing primary Certificates 76050, 76051, 76717, 76715, 76799 and 76723 during the 2006 irrigation season.

6. The water rights are subject to transfer as defined in OAR 690-385-0100(17).

7. The season of use for Certificate 81599 has passed for this 2006 irrigation season and will not be used on the “FROM” lands.

8. The proposed changes in place of use would not result in enlargement of the rights.
9. The proposed changes would not result in injury to other water rights.

Conclusions of Law

The proposed changes in application T-10157 satisfy the requirements of ORS 540.574(3) and 540.570.

Now, therefore, it is ORDERED:

1. The proposed changes to the water rights evidenced by Certificates 76050, 75127 and 80652 are approved.
2. The temporary transfer is effective for the 2006 irrigation season.
3. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 76050, 75127 and 80652 and any related decree.
4. Pursuant to OAR 690-385-3130, the use of water as a supplemental irrigation right under Certificates 76050 and 76127 is restricted to the total rate and duty described by the existing primary irrigation water rights, Certificates 76050, 76051, 76717, 76715, 76799 and 76723, and may be used only to the extent of any supply deficiency for the primary water right at the proposed place of use. The use of water on the lands from which the water right is transferred and at the new temporary place of use during the same irrigation season or calendar year is prohibited and may subject the district and landowner to civil penalties.
5. The use of water under this temporary transfer may be conditioned or revoked at any time to the extent necessary to avoid injury if the Department finds the transfer causes injury to any existing water right.
6. At the end of the 2006 irrigation season all uses of water under this temporary transfer revert automatically to the terms and conditions of the original water right permit, certificate, or adjudication as evidenced by a court decree.

7. Pursuant to ORS 540.574 and ORS 540.570, in reviewing the petition submitted by Westland Irrigation District, the Department has determined the following:

See pg 4 of 5
(1.c)

- The petition contains the information required under ORS 540.574(3).
- The petition meets the requirements of ORS 540.570.
- The petition contains maps which are satisfactory to the Department and which the District certified as being accurate.
- The application includes the required statement from the District that it has on file, and available for review, written authorization from each landowner affected by the transfer.
- The rate, duty, and total number of acres proposed for transfer do not exceed that of the water right subject to transfer.
- The use authorized by the water right subject to transfer will not change; and
- The proposed change in place of use will not result in injury to other water rights.

8. The applicant has made the statement that certain rights existing on the "TO" lands during the 2005 Irrigation season will become supplemental to the incoming District rights proposed

in this transfer. They are described as Certificate 76050, District right for primary irrigation from the Umatilla River, and Certificate 79439 for supplemental irrigation from McKay Reservoir.

CONCLUSIONS OF LAW

1. The petition submitted by Westland Irrigation District proposing temporary changes in place of use within district boundaries includes the information, and satisfies the criteria, required by ORS 540.574(3).
2. The proposed transfer complies with the requirements of ORS 540.570.
3. The Director should approve the transfer because the petition satisfies the criteria and requirements of ORS 540.574(3) and ORS 540.570 resulting in no injury to other water rights.

ORDER

It is hereby ORDERED :

1. The proposed temporary changes to the water rights evidenced by Water Right Certificates 76050, 75127, 79439 and Permit 48450 may be made for the 2005 irrigation season provided the following conditions are met by the water user:
 - a) The FROM lands shall receive no water under the rights involved with this transfer for the 2005 irrigation season.
 - b) The use of water under the rights involved with this transfer on both the TO and FROM lands during the 2005 irrigation season or calendar year is prohibited and may subject both the district and landowner to civil penalties.
 - c) Certificate 76050, District right for primary irrigation from the Umatilla River, and Certificate 79439 for supplemental irrigation from McKay Reservoir, both existing on the TO lands described in Table 2, will become supplemental to the incoming District rights proposed in this transfer for the 2005 irrigation season.
 - d) All restrictions and limitations contained in the subject rights shall apply to the TO lands.
 - e) Pursuant to 540.570 (5), the Department may further condition or revoke this temporary transfer, to the extent necessary to avoid injury, at any time the department finds the transfer is causing injury to an existing water right.

- f) The Department requires the water user to install and maintain an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water discharged into Westland Canal. The type and plans of the measuring device must be approved by the Department **prior** to beginning construction and shall be installed under the general supervision of the Department.
2. Pursuant to 540.570 (6), upon expiration of the 2005 irrigation season, all uses of water for which a temporary transfer is allowed under this section shall revert automatically to the terms and conditions of the original water right permit, certificate or adjudication proceeding under ORS chapter 539 as evidenced by a court decree.

15. Pursuant to ORS 540.574 and ORS 540.570, in reviewing the petition submitted by Westland Irrigation District, the Department has determined the following:

- The petition contains the information required under ORS 540.574(3).
- The petition meets the requirements of ORS 540.570.
- The petition contains maps which are satisfactory to the Department and which the District certified as being accurate.
- The petition includes the required statement from the District that it has on file, and

available for review, written authorization from each landowner affected by the transfer.

- e) The rate, duty, and total number of acres proposed for transfer do not exceed that of the water right subject to transfer.
- f) The use authorized by the water right subject to transfer will not change; and
- g) The proposed change in place of use will not result in injury to other water rights.

16. The applicant has made the statement that certain rights will not be used during the 2004 Irrigation season to make way for the place of use changes described above, both the "FROM" and "TO" lands. They are described as follows:

- ▶ Permit 48450 will not be used on Circles E1 and E23
- ▶ Certificate 76717 and 79439 on Circle E18 within the NE $\frac{1}{4}$
- ▶ Certificates 76799, 76723, 76717, 76715 and 79439 for Circle E15

17. The applicant has secured a Limited License under the Bureau of Reclamations Temporary Service Contract (LL# 812) for the use of McKay Reservoir supplemental water on the lands described in this transfer and will finish the irrigation season with groundwater authorized in the order for supplemental irrigation.

CONCLUSIONS OF LAW

1. The petition submitted by Westland Irrigation District proposing temporary changes in place of use within district boundaries includes the information, and satisfies the criteria, required by ORS 540.574(3).
2. The proposed transfer complies with the requirements of ORS 540.570.
3. The Director should approve the transfer because the petition satisfies the criteria and requirements of ORS 540.574(3) and ORS 540.570 resulting in no injury to other water rights.

ORDER

It is hereby ORDERED :

1. The proposed temporary changes to the water rights evidenced by Water Right Certificates 76050, 75129, 61534, 75128, and 79439 may be made for the 2003 irrigation season

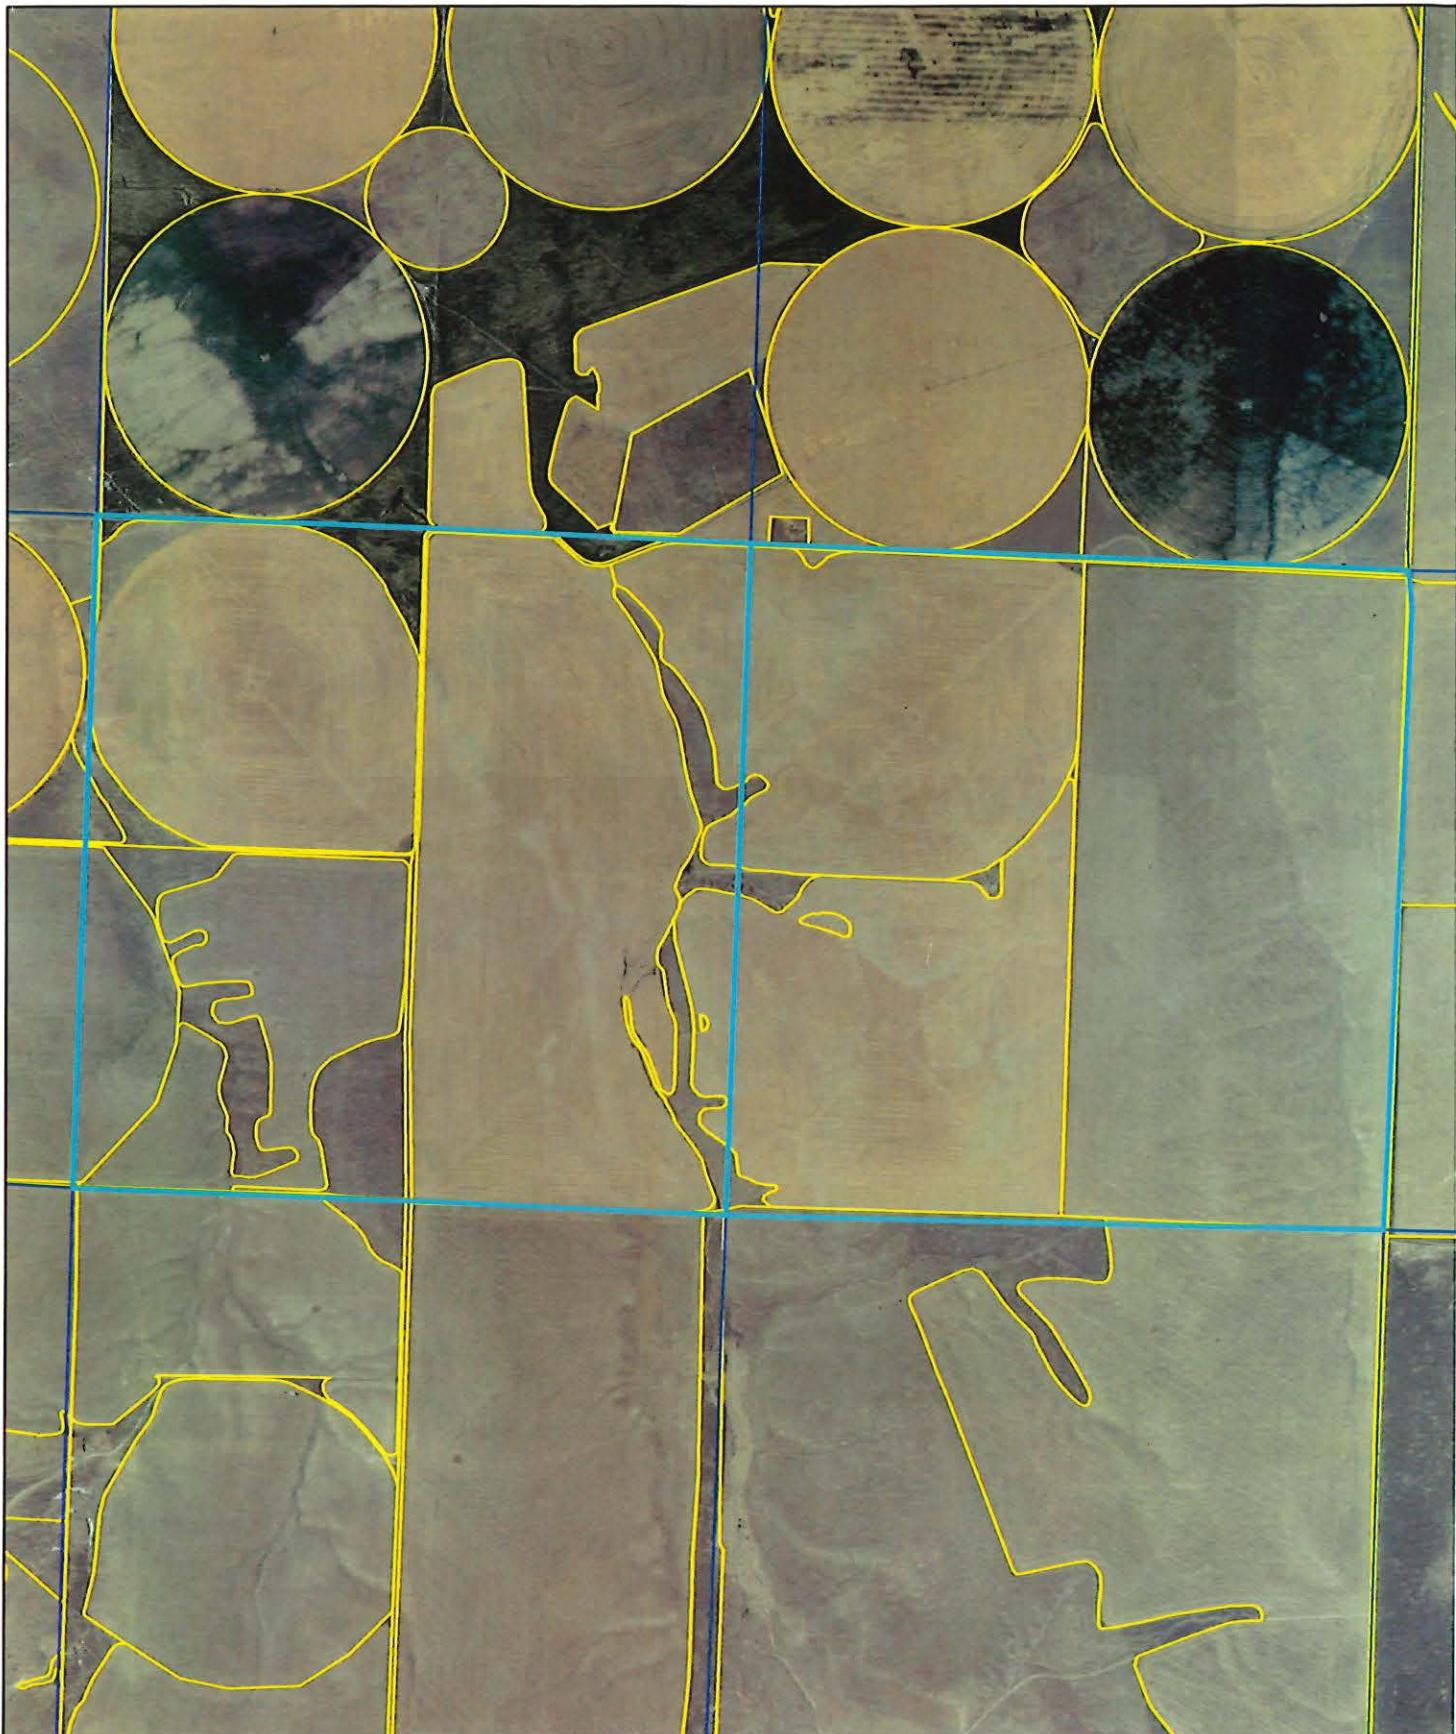

provided the following conditions are met by the water user:

- a) The FROM lands shall receive no water under the rights involved with this transfer for the 2004 irrigation season.
- b) The use of water under the rights involved with this transfer on both the TO and FROM lands during the 2004 irrigation season or calendar year is prohibited and may subject both the district and landowner to civil penalties.
- c) The applicant has made the statement that certain rights will not be used during the 2004 Irrigation season to make way for the place of use changes described above, both on the "FROM" and "TO" lands. They are described as follows:
 - ▶ Permit 48450 will not be used on Circles E1 and E23
 - ▶ Certificate 76717 and 79439 on Circle E18 within the NE $\frac{1}{4}$
 - ▶ Certificates 76799, 76723, 76717, 76715 and 79439 for Circle E15
- d) The applicant has secured a Limited License under the Bureau of Reclamations Temporary Service Contract (LL# 812) for the use of McKay Reservoir supplemental water on the lands described in this transfer and will finish the irrigation season with groundwater authorized in the order for supplemental irrigation.
- e) All restrictions and limitations contained in the subject rights shall apply to the TO lands.
- f) Pursuant to 540.570 (5), the Department may further condition or revoke this temporary transfer, to the extent necessary to avoid injury, at any time the department finds the transfer is causing injury to an existing water right.
- g) The Department requires the water user to install and maintain an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water discharged into Westland Canal. The type and plans of the measuring device must be approved by the Department **prior** to beginning construction and shall be installed under the general supervision of the Department.

2. Pursuant to 540.570 (6), upon expiration of the 2004 irrigation season, all uses of water for which a temporary transfer is allowed under this section shall revert automatically to the terms and conditions of the original water right permit, certificate or adjudication proceeding under ORS chapter 539 as evidenced by a court decree.

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Stage Gulch) FINAL ORDER APPROVING
2006 Annual Allocation of Ground Water,) ALLOCATION OF GROUND WATER
Under Water Right Certificate 75127,)
Umatilla County, Oregon)

Chester Prior, c/o Eagle Ranch
32327 Oregon Trail Road
Echo, OR 97826

ORS 537.730 and 537.735 establish the process by which the Water Resources Commission may designate an area of the state as a critical ground water area. OAR Chapter 690, Division 507 implements the statutes and provides the Department procedures and criteria for the purpose of managing the ground water resource and evaluating requests for allocation of ground water.

AUTHORITY

- 1) Oregon Administrative Rules (OAR) 690-507-0750 states in pertinent part that the Director issued an order on May 15, 1991 declaring the Stage Gulch Critical Groundwater Area. The order described the exterior boundaries and divided the area with eight subareas for the purposes of managing the groundwater resource. The response of ground-water levels to pumpage in each subarea is largely independent of pumpage within other subareas.
- 2) OAR 690-507-0770 states in pertinent part that the use of water from the basalt groundwater reservoir within the Stage Gulch Critical Groundwater Area shall be limited to the sustainable annual yield. Water from the basalt groundwater reservoir in the Stage Gulch Critical Groundwater Area shall be used for irrigation only during the irrigation season. The irrigation season shall begin on the 1st of March and end on the 30th of November. The Department shall not accept any new applications for appropriation of water from the basalt groundwater reservoir within the Stage Gulch Critical Groundwater Area.
- 3) OAR 690-507-0780 states in pertinent part that appropriation of groundwater from the Stage Gulch Critical Groundwater Area is prohibited unless the water user meets certain

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

requirements. A water user authorized by OAR 690-507-0810 to pump water from the basalt groundwater reservoir shall satisfy the following conditions:

- Wells shall have an access port with a minimum diameter of 3/4 inch. The access shall be adequate to determine the water level at any time;
- A water user may install a functioning airline with a pressure gage in addition to the access port.
- A water user shall install and maintain a totalizing flow meter on each well authorized by OAR 690-507-0810 except wells authorized for irrigation of ten acres or less. The meter shall meet the requirements of OAR 690-507-0785.

4) OAR 690-507-0810 states in pertinent part that the method for distributing the sustainable annual yield from the basalt groundwater reservoir within each managed subarea in the Stage Gulch Critical Groundwater Area is as follows:

- A water user who intends to pump water for any authorized use except municipal use during any year shall make a request to the Department in Salem by July 1st of the preceding year on forms provided by the Department;
- The Department shall assume that municipal water users intend to pump a quantity of water equivalent to the average pumped for the previous three (3) years, unless the municipal water user informs the Department otherwise by July 1st;
- The distribution of groundwater for any authorized use except municipal use shall be based on the priority dates of the water rights within the individual subarea;
- In determining the amount of groundwater each water user is allocated to pump during the next calendar year or irrigation season, the Department may consider:
 - Requests for allocations received;
 - The sustainable annual yield;
 - The limits of the groundwater rights;
 - The relative dates of priority, with preference given without regard to priority date for municipal use;
 - Historical usage;
 - Whether or not a water user is physically capable of pumping and putting to a beneficial use the quantity requested; and
 - Any other factors deemed appropriate by the Department.

- If pumpage for a particular year exceeds the sustainable annual yield for a subarea, the total subarea allocation for the second year after that occurrence shall be reduced by that volume.
- If any water user requests more water than has been historically used, the Department may allocate less water than requested if, upon investigation, it appears unlikely the user will pump the volume requested.
- If any water user requests less water than has been historically used, the Department may allocate more water than requested if, upon investigation, it appears likely that the user will pump more than the volume requested.

FINDINGS OF FACT

- 1) Allocations are made to the senior water rights in Subarea G first. Chester Prior is a senior water right holder in Subarea G.
- 2) The quantity allocated is based primarily on the pumpage in recent years and shall not exceed the limits of the water rights. Once the sustainable annual yield or reduced volume is allocated for a subarea, no more water shall be allocated.
- 3) The sustainable annual yield for Subarea G is 2750 acre-feet. For the year 2005, 2750 acre-feet of water was allocated to senior water right holders in Subarea G.
- 4) Flow meter and power meter data collected by Department staff indicate that 2033 acre-feet of water was pumped from permitted wells in Subarea G in 2005.
- 5) The Subarea G allocation for 2007 is the sustainable annual yield.
- 6) On May 31, 2006, the Department sent letters requesting water users within the Stage Gulch Critical Ground Water Area to submit their 2007 requests for the volume of water needed.
- 7) Chester Prior filed a request for water use from wells 4 and 8 in 2007, Stage Gulch Critical Ground Water Area, Subarea G, authorized under Application G-6645, Water Right Certificate 75127. well #2
2033
well #3
450
- 8) Chester Prior requested 700 acre-feet for 2007, under Water Right Certificate 75127. well #8
250
well #4
450
- 9) Flow meter and power meter records indicate that annual pumpage from the permitted wells has varied. More water was pumped in 2005 than in prior years. Therefore, the 2007 allocation is for 700 acre-feet. This is consistent with OAR 690-507-0810.

DISCUSSION

The sustainable annual yield for Subarea G is 2750 acre-feet. The quantity of water allocated for 2007 for Subarea G is 2750 acre-feet. Chester Prior is a senior water right holder in Subarea G.

The allocation for Chester Prior does not exceed the limits of the water rights or the quantity allocated for Subarea G. Therefore, the 2007 allocation is for 700 acre-feet.

CONCLUSIONS OF LAW

The allocation of ground water for the State Gulch Critical Ground Water Area for the year 2007 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580, and Oregon Administrative Rules Chapter 690, Division 507.

ORDER

Now, THEREFORE, it is ORDERED that 700 acre-feet of water is allocated for the year 2007 under Certificate 75127 for Subarea G of the Stage Gulch Critical Ground Water Area.

Dated at Salem, Oregon this 28 day of August, 2006.

Barry F. Norris, Administrator
Technical Services Division

STATE OF OREGON
COUNTY OF UMATILLA
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

WESTLAND IRRIGATION DISTRICT
P.O. BOX 416
STANFIELD, OREGON 97875

confirms the right to use the waters of the UMATILLA RIVER AND MCKAY RESERVOIR constructed under PERMIT R-584, tributary of the COLUMBIA RIVER, for IRRIGATION OF 1404.5 ACRES.

This right was perfected under Permit 27583. The date of priority is APRIL 12, 1961. This right is limited to 35.12 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The points of diversion are located as follows:

WESTLAND CANAL - 2913.19 FEET NORTH 76 DEGREES 45 MINUTES 56 SECONDS EAST FROM THE W ¼ CORNER OF SECTION 21, SW ¼ NE ¼, SECTION 21, TOWNSHIP 3 NORTH, RANGE 29 EAST, W.M.;
MCKAY DAM - NW ¼ SE ¼, SECTION 34, TOWNSHIP 2 NORTH, RANGE 32 EAST, W.M.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second (or its equivalent) from direct flow, and 4½ acre-feet for each acre irrigated during the irrigation season of each year from direct flow and storage. The right to stored water is subject to the terms of contracts between the United States Bureau of Reclamation and the District.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

STATE OF OREGON
COUNTY OF UMATILLA

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CHESTER PRIOR, EAGLE RANCH
32327 OREGON TRAIL ROAD
ECHO, OREGON 97826

confirms part of the right to use the waters of the UMATILLA RIVER a tributary of the COLUMBIA RIVER, for PRIMARY IRRIGATION OF 72.6 ACRES AND SUPPLEMENTAL IRRIGATION OF 2814.7 ACRES.

This right was perfected under Permit 48450. The date of priority is AUGUST 3, 1981. This right is limited to 72.18 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source. The use allowed herein may be made anytime between November 15 and June 15 of each year that water can be put to beneficial use by irrigation, either for immediate crop growth or for forecast requirements to raise the soil moisture to field capacity in the soil profile to be utilized by plant growth in the subsequent growing season.

The point of diversion is located as follows:

WESTLAND CANAL - SW 1/4 NE 1/4, SECTION 21, TOWNSHIP 3 NORTH, RANGE 29 EAST, W.M.; NORTH 76 DEGREES 45 MINUTES 56 SECONDS EAST 2913.19 FEET FROM THE WEST 1/4 CORNER, SECTION 21.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second (or its equivalent), and 1.5 acre-feet for each acre irrigated during the period from November 15 to the last day of February of each year, provided further that the right allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed 4.5 acre-feet for each acre irrigated in any one year, provided further, that the part declared herein be for supplemental irrigation, the right allowed may, in the interest of conserving the ground water supplies, be exercised at times when water is available in the ground water supply provided the total quantity diverted from all sources of supply does not exceed the limitation allowed herein. The use of water during the period from November 15 to the last day of February of each year shall not establish priority of right as against future appropriations for beneficial uses or storage for such beneficial uses, other than similar rights for irrigation from November 15 to the last day of February.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

STATE OF OREGON
COUNTY OF UMATILLA
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

CHESTER PRIOR, EAGLE RANCH
32327 OREGON TRAIL ROAD
ECHO, OREGON 97826

confirms part of the right to use the waters of the UMATILLA RIVER a tributary of the COLUMBIA RIVER, for PRIMARY IRRIGATION OF 72.6 ACRES AND SUPPLEMENTAL IRRIGATION OF 2863.8 ACRES.

This right was perfected under Permit 48450. The date of priority is AUGUST 3, 1981. This right is limited to 73.41 CUBIC FEET PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source. The use allowed herein may be made anytime between November 15 and June 15 of each year that water can be put to beneficial use by irrigation, either for immediate crop growth or for forecast requirements to raise the soil moisture to field capacity in the soil profile to be utilized by plant growth in the subsequent growing season.

The point of diversion is located as follows:

WESTLAND CANAL - SW 1/4 NE 1/4 SECTION 21, TOWNSHIP 3 NORTH, RANGE 29 EAST, W.M.; NORTH 76 DEGREES 45 MINUTES 56 SECONDS EAST 2913.19 FEET FROM THE WEST 1/4 CORNER SECTION 21.

This is a final order in ~~other contested case~~. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period provided by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 500-007-0000, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

1859
In addition, under ORS 537.260 any person with an application, permit or water right certificate subsequent in priority may jointly or severally contest the issuance of the certificate at any time before it has issued, and after the time has expired for the completion of the appropriation under the permit, or within three months after issuance of the certificate.

Certificate Number 81529

*Superseded by
81599*

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-FORTIETH of one cubic foot per second (or its equivalent), and 1.5 acre-feet for each acre irrigated during the period from November 15 to the last day of February of each year, provided further that the right allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed 4.5 acre-feet for each acre irrigated in any one year, provided further, that the part declared herein be for supplemental irrigation, the right allowed may, in the interest of conserving the ground water supplies, be exercised at times when water is available in the ground water supply provided the total quantity diverted from all sources of supply does not exceed the limitation allowed herein. The use of water during the period from November 15 to the last day of February of each year shall not establish priority of right as against future appropriations for beneficial uses or storage for such beneficial uses, other than similar rights for irrigation from November 15 to the last day of February.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

OF THE
STATE OF OREGON

In the Matter of Transfer Application
T-9845, Umatilla County

) F I N A L O R D E R
) APPROVING A DISTRICT
) PERMANENT TRANSFER

ORS 540.570 to 540.580 establishes the process in which a district may submit a request to transfer a water right within district boundaries. OAR Chapter 690, Division 385 implements the statutes and provides the Department's procedures and criteria for evaluating district transfer applications.

Applicant

Westland Irrigation District
P.O. Box 944,
Hermiston, OR, 97838

Findings of Fact

1. On December 30, 2004, Westland Irrigation District filed a district transfer application to permanently change the place of use under Certificates 75121, 76050, 76051, 79439 and Permit 48450. The Department assigned the application number T-9845.
2. Notice of the application for transfer was published pursuant to ORS 540.580 and OAR 690-385-4400. No comments were filed in response to the notice.
3. The portion of the first right to be transferred is as follows:

Certificate: 76050 issued in the name of Teel Irrigation District

13. The district permanent transfer application satisfies the criteria of OAR 690-385-4000, contains the information required under OAR 690-385-2000, and includes maps meeting the requirements of OAR 690-385-2200.

14. The water right is subject to transfer as defined in OAR 690-385-0100(17).

15. The proposed changes in place of use would not result in enlargement of the right.

16. The proposed changes in place of use would not result in injury to other water rights.

Conclusions of Law

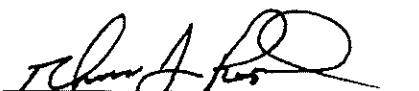

The proposed changes in place of use in application T- 9845 satisfy the requirements of ORS 540.574(3) and 540.580 .

Now, therefore, it is ORDERED:

1. The proposed changes to the water rights evidenced by Certificates 75121, 76050, 76051, 79439 and Permit 48450 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 75121, 76050, 76051, 79439 and Permit 48450 and any related decree.

3. The former place of use shall no longer be irrigated as part of this water right.
4. The proposed changes shall be completed on or before October 1, 2006.
5. A Claim of Beneficial Use shall be submitted by the applicant to the Department by October 1, 2007.
6. The Department shall issue a water right certificate on a determination that it is necessary to produce certificates describing the water rights.

Dated at Salem, Oregon this 25th day of April, 2005.

CORRECTING ORDER

Findings of Fact

1. The Department issued a final order approving Transfer application T-9845 on April 25, 2005. The order is recorded in Special Order Volume 64, page 275. The order contained several scrivener's errors. The errors and corrections are described in the subsequent findings of fact.
2. Finding of Fact #7 incorrectly lists the authorized place of use for irrigation under Certificate 75121 as:

TWP	RNG	MER	SEC	QTR-QTR	TL	AC	USER	NOTICE#
3	N	28	E	W.M	27	NE	SW	7403

The correct location of the authorized place of use for irrigation under Certificate 75121 is:

TWP	RNG	MER	SEC	QTR-QTR	TL	AC	USER	NOTICE#
3	N	28	E	W.M	27	SE	SW	7403

3. Finding of Fact # 8 incorrectly describes the nature of the transfer as a change in place of use only. The change is both a change in place of use and type of use with the right for 3.10 acres diminished from irrigation to supplemental irrigation at the new place of use. Thus, Finding of Fact #8 should read:

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Application T-9845 proposes to diminish the 3.10 acres of irrigation under Certificate 75121 listed in Finding of Fact #7 to supplemental irrigation, and change the place of use to:

5. Finding of Fact #11 incorrectly lists the priority date for Permit 48450. The correct priority date is as follows:

Priority Date: August 3, 1981

Now, therefore, it is ORDERED:

This order corrects scrivener's errors in the order approving Transfer Application T-9845 recorded in Special Order Volume 64, Page 275.

APPLICATION FOR A PERMIT

75127

To Appropriate the Ground Waters of the State of Oregon

I, Don J. Brown (Name of applicant)

of Star Route - Box 281 Moses Lake 98831, county of Grant
(Postoffice Address)

state of Washington do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Umatilla River (Name of stream)

..... tributary of Columbia River.....

2. The amount of water which the applicant intends to apply to beneficial use is 11.16 cubic
feet per second or 5000 gallons per minute.

3. The use to which the water is to be applied is irrigation.....

See attachment #1

4. The well or other source is located ft. and ft. from the
(N. or S.) (E. or W.) corner of (Section or subdivision)

Three wells may be used. (If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the of Sec. , Twp. , R. ,
W. M., in the county of Umatilla.....

5. The pipelines. (see attachment #2) to be one miles
(Canal or pipe line)
in length, terminating in the SE NW of Sec. 2 , Twp. 2N ,
R. 28E , W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Wells #1, 2 & 3.....

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

It is planned to test each well as it is drilled. If 5000 gpm can be secured from
wells 1 & 2, No. 3 will not be drilled. The required wells will be pumped into a
common pipeline and the water delivered to 5-126 acre circular sprinkler systems.

8. The development will consist of 3 wells having a
(Give number of wells, tunnels, etc.)
diameter of 16" inches and an estimated depth of 10000 feet. It is estimated that 100 ...
each
feet of the well will require standard casing. Depth to water table is estimated 200'
(Kind) feet

9. Other conditions and requirements, if any, are as follows: 1. The wells will be drilled to a depth of 10000 feet. 2. The casing will be standard 16" diameter. 3. The water table is estimated at 200' below the surface. 4. The wells will be pumped into a common pipeline and delivered to 5-126 acre circular sprinkler systems.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ~~see attached~~ ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type deep well turbine pumpa..... if used.

Give horsepower and type of motor or engine to be used 300 h.p. electrically driven... motors on each of wells 1 & 2 or 200 h.p. on each of 1, 2 and 3 if 13 is required i.e. a total of 600 h.p.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use Sections 1 & 2, T2N, R28E, W.M.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 10.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 3 wells.

The use to which this water is to be applied is for irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 5, 1974.

Actual construction work shall begin on or before November 18, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977.

Complete application of the water to the proposed use shall be made on or before October 1, 1978.

WITNESS my hand this 18th day of November, 1975.

Good Morning Ken,

Thank you for bringing that to my attention. I will get an corrected copy of the application and the map (that includes well #7) e-mailed to you in a few minutes. I will also correct the place on the application and the map that refer to cancelled certificate 81599 and list the superseding certificate number 81815. Do you want me to fax you a copy of the signed corrected signature page? Do want me to refer to this an amended transfer? I will wait to hear back from you.

Subject: cfs limitation

Hi Stacey, just wondering on the authorized wells description on the T-10359 (Chester Prior)

--> you have listed only Prior Wells# 4 & 8 for Certificate 75127, which would limit him to:

5.39 Cubic Feet Per Second, being 2.2 cfs from Well#8 and 3.19 cfs from Well#4.

The total number of acres on the "TO" lands is 496.3. That number divided by 80 [1/80] is 6.20 cfs.

But, the order will most likely be limited to the use of groundwater under this supplemental right to 5.39 cfs.

Will that be enough?

Watermaster Review Form: Water Right Transfer

Transfer Application: T-10359

Review Due Date: 5-10-07

Applicant Name: Westland Irrigation District

Proposed Changes: POU POD POA USE OTHER

Reviewer(s): Tony Justus

Date of Review: Apr. 24, 2007

1. Do you have information suggesting that the water rights may be subject to forfeiture?
 Yes No If "Yes", describe the information and indicate if you intend to file a cancellation affidavit or if you need additional time to determine if a cancellation affidavit should be filed: _____
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights? Yes No Generally characterize the frequency of any regulation or explain why regulation has not occurred: The Umatilla River is regulated each year for insufficient flows and distribution of supplemental Mckay storage water.
3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most: Don't know.
4. Are there upstream water rights that would be affected by the proposed change?
 Yes No If "Yes", describe how the rights would be affected and list the rights most affected: _____
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses: _____
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?
 Yes No If "Yes", explain: _____
7. For POU changes, would the original place of use continue to receive water from the same source? Yes No N/A If "Yes", explain: _____
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? Yes No If "Yes", explain: _____

9. Are there other issues not identified through the above questions? Yes No If "Yes", explain: Proposed transfer would move Umatilla River primary onto other lands with Umatilla River primaries. Purpose stated is to get supplemental well right authorized on to lands for this year. Should be clear can not add primaries and deliver more water to land.

10. What alternatives may be available for addressing any issues identified above: A statement that the primary rights on the from lands will not be used this season in either the two or from acres. There would be no expansion of the supplemental groundwater right as the priority dates of conflicting primaries are either equal or older on the to lands.

11. Have headgate notices been issued for the source that serves the right? Yes No

12. What water control and measurement conditions should be included in the transfer:

Measurement Devices	<input checked="" type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.
Headgates	<input checked="" type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.

- IV. Enclosed is a map for each proposed change in place of use meeting the standards of OAR Chapter 690, Division 385.
- V. The water right proposed for transfer is a water right subject to transfer and has not been forfeited for nonuse under ORS 540.610.
- VI. Each user affected by the proposed transfer has provided written authorization for the transfer and such authorization is on file with the district.
- VII. The district has notified each affected user that the Department may condition or reject the transfer at any time to the extent necessary to avoid injury to an existing water right, and that the use of water on lands from which the water right is transferred (authorized place of use) and at the proposed place of use during the same irrigation season or calendar year may subject both the user and district to civil penalties.
- VIII. Primary certificate 76050 on from ground will be diminished to supplemental to existing primary certificates 76717, 76799, 76050 & 76051 on the to grounds for this season only. Certificates 76050 & 81599 on the from ground will not be used during the 2007 season, only moving on paper, as they are tied to supplemental well rights on certificate 75127 that are needed on the to ground this season.
- IX. Enclosed is the application fee in the amount of: \$299.08.

I certify that the information contained in this district temporary transfer application is true and accurate.

Reference: District Temporary Transfer 10359

On April 4, 2007 we received your district transfer application requesting a change in place of use for use of water from A WELL, tributary to UMATILLA RIVER. The application was accompanied by \$299.08. Our receipt 86968 is enclosed.

By copy of this letter, we are asking the Watermaster for his report regarding the potential for injury to existing water rights which may be caused by the change.

The district may begin delivering water to the proposed place of use immediately provided that water has not been delivered to the existing, authorized place of use during this season. Pursuant to OAR 690-385-3000(4), the district and water user may be subject to civil penalties and the loss of use of the water if deliveries are made to both the existing and proposed places of use during any one season.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0900.

Notice of Application for Water Right Transfer, Temporary Transfer, or Permit Amendment 04/10/2007

The Department seeks comment on the recently-filed application listed below. Any person may comment on the application. Comments must be received by the Department within 30 days of the date of this notice.

County: UMATILLA
Transfer: 10359
Water Right: CERT 76050, 75127, 81815
Priority Date: 1955, 1974, 1981
Name: WESTLAND IRRIGATION DISTRICT
Address: PO BOX 944; HERMISTON OR 97838
Change: POU
Source: UMATILLA RIVER/WELL
Authorized POU: T2N R28E 1, 2
Proposed POU: T3N R28E 20, 21, 29, 30

The holder of a water right may apply to permanently change an existing water use subject to transfer. A transfer application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation.

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU).

Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time. The Director may presume that the transfer would be allowed by, and compatible with comprehensive plans unless an affected local government informs the Director otherwise within 30 days of this notice. Comments should be sent to the Transfers Section at the Department's Salem office.
