Enclosure

BEFORE THE WATER RESOURCES DEPARTMENT OF THE STATE OF OREGON

In the Matter of Transfer Application) FINAL ORDER APPROVING A TEMPORARY CHANGE IN PLACE OF USE

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to temporarily transfer the place of use and, if necessary to convey the water to the temporary place of use, the point of diversion authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

OREGON STATE UNIVERSITY
EASTERN OREGON AGRICULTURAL RESEARCH CENTER
Attn: Tim DelCurto
PO BOX E; 372 S TENTH STREET
UNION OR 97883

Findings of Fact

- On February 22, 2007, Oregon State University, Eastern Oregon Agricultural Research Center, filed an application to temporarily change the place of use under Certificates 41056 and 6251 for a period of five years. The Department assigned the application number T-10326.
- 2. The portion of the first right to be transferred is as follows:

Certificate: 41056 in the name of EASTERN OREGON EXPERIMENT STATION

(perfected under Permit S-30419) Use: IRRIGATION of 135.8 ACRES

Priority Date: MAY 3, 1965

Rate: 2.41 CUBIC FEET PER SECOND (cfs)

Limit/Duty: ONE-FORTIETH cfs per acre, not to exceed 3 acre-feet per acre per year

Source: CATHERINE CREEK, tributary to GRANDE RONDE RIVER

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Authorized Point of Diversion:

4 S	39 E	WM	24	NW NW	31.8
4 S	39 E	WM	24	SW NW	40.0

5. Transfer Application T-10326 proposes to change the place of use of the right to:

		IRRIGA	TION		
Twp	Rng	Mer	Sec	Q-Q	Acres
4 S	39 E	WM	24	NW NE	17.0
4 S	39 E	WM	24	SW NE	40.0
4 S	39 E	WM	24	NE NW	38.3
4 S	39 E	WM	24	SE NW	40.5

- Notice of the application for temporary transfer was published on March 13, 2007, pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
- Water has been used within the last five years according to the terms and conditions of the rights, and no evidence is available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- 8. A diversion structure and ditch sufficient to use the full amount of water allowed under the existing rights are present.
- 9. The proposed change would not result in enlargement of the rights.
- 10. The proposed change would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(6) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary changes in place of use proposed in application T-10326 are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

- The changes in place of use proposed in Transfer Application T-10326 are approved.
- 2. The former place of use **shall not** be irrigated as part of this water right during the 2007, 2008, 2009, 2010 and 2011 irrigation seasons.
- 3. The use shall revert to the authorized place of use at the end of the 2011 irrigation season.
- 4. The approval of this temporary transfer may be revoked or modified if the Department finds the change causes injury to any existing water right.
- 5. A subsequent application for permanent transfer of Certificates 41056 and 6251 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
- The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 41056 and 6251.
- 7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
- 8. The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.

T-10326.smd

- The water user shall maintain the existing headgate and shall make such improvements as may be required by the Department.
- 10. The use of the remaining water right described by Certificates 41056 and 6251 shall continue to be in accordance with the terms and conditions of Certificates 41056 and 6251.

Dated at Salem, Oregon this 27th day of april 2007.

Phillip C. Ward, Director

STATE OF OREGON

COUNTY OF UNION

CERTIFICATE OF WATER RIGHT

This Is to Certify, That Eastern oregon experiment station

of Box 128, Union , State of Oregon , has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of Catherine Creek

a tributary of Grande Ronde River irrigation of 155.0 acres

for the purpose of

under Permit No. 30419 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from May 3, 1965

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 2.75 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SW\2 SW\2, Section 18, T. 4 S., R. 40 E., W. M., 40 feet North and 1120 feet East from SW Corner, Section 18.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-fortieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year,

and shall

conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

36.2 acres NWk NEt — 17
40.0 acres SWk NEt — 40
38.3 acres NEt NWt — 38.3
40.5 acres SEt NWt — 40.5
Section 24
T. 4 S., R. 39 E., W. M.

135.8

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

Oregon Department of Fish and Wildlife Water Right and Diversion Transfer Comment Form

(ODFW provides to WRD so that WRD can make findings according to statutory requirements.)

Reference Transfer #: 10326 A. Please check box if you believe there is a potential for injury to an instream water right. The Oregon Department of Fish and Wildlife (ODFW) believes this proposed transfer may injure an instream water right(s) on , tributary to . Because, (Stream) (Please 1 determination whether the transfer will injure an Note: instre: Pou change ermination of injury to a water right, while mitigation and net benefit to the resource if WRD ODFI reque ted to requiring a fish screen and/or by-B. Pleas pass devi fish screening and/or by-pass device and is 1. T ning and/or by-pass device. curr Note life has determined that a fish screening and/or by-Find event fish from entering the diversion and/or safely pass h were diverted and that the diversion is currently tran: equipped with an appropriate fish screening unwor vy-puss device. Condition: The water user shall maintain and operate a fish screening and/or by-pass device, as appropriate, at the point of diversion consistent with the Oregon Department of Fish and Wildlife's operational and maintenance standards. 2. The new Point of Diversion (POD) requires a fish screening and/or by-pass device prior to water being diverted. The diversion may be eligible for cost share assistance under ODFW's cost share program. Option 2 should generally be selected if listed fish species are present at the point of diversion and/or the originating water right diversion is currently screened. If Option 2 is

Please return all 4 pages to: Transfers Section, Water Resources Department, 725 Summer St. NE, Suite A, Salem, OR 97301-1271

RECEIVED

The electronic version of this form is available at: http://www1.wrd.state.or.us/msword/ODFWScreen.doc.

selected, provide contact information on the "Fish Screening and Passage Information" sheet. The new diversion may be eligible for cost-share.

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

Condition: Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

3. The new Point of Diversion (POD) requires a fish screening and/or by-pass device.
However, the diversion may be used for up to two years pending a determination of whether
cost share assistance under ODFW's cost share program is available.

If Option 3 is selected, provide contact information on the "Fish Screening and Passage Information" sheet. Except in extraordinary circumstances, Option 3 should NOT be checked if listed fish species are present at the point of diversion, the originating water right diversion is screened, cost-share funds are currently available, or the diversion is not eligible for ODFW's cost-share program. If extraordinary circumstances are present, please explain:

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. Listed fish species are not present at the point of diversion, the originating water right diversion is not screened, cost-share funds are not currently available, and the proposed diversion may be eligible for ODFW's cost-share program. A grace period of two years is appropriate until such time as cost share funds become available to assist in the construction of a fish screening and/or by-pass device. If cost share funds do not become available, the water user must screen within the indicated time period regardless of the availability of cost share funding.

Condition: Within two years after the date of this order, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. The water user may withdraw water at the new point of diversion without screening or by-pass devices until two years after the date of this order. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

Oregon Department of Fish and Wildlife Additional Fish Screening and Passage Information for the Applicant (To be completed by ODFW for WRD to provide to the applicant.)

Transfer # 10326

The applicant should be aware that fish screening and passage may be required for certain changes in point of diversion if the boxes below are checked. Fish screening and/or fish by-pass devices are required as a condition of this transfer. The fish screen and/or by-pass device must meet ODFW's design, construction, operational and maintenance standards. Fish screening prevents fish from entering the diversion, while a bypass device safely transports fish back to the body of water from which the fish were diverted. Pursuant to ORS 498.306, cost share funds may be available to assist in the installation of fish screening and by-pass devices at diversions. The applicant should contact the ODFW staff below to obtain additional information on the design, construction, operational, and maintenance standards for the required fish screening and/or by-pass device and to obtain information about ODFW's cost sharing program for screening and by-pass devices. Prior to installation, the water user must obtain written approval from ODFW that the required screening and/or by-pass device meets ODFW's criteria. ODFW staff name: Address: City/State/Zip: This transfer may trigger requirements for fish passage under ORS 509.585 because a new point of diversion will be constructed, an existing point of diversion's capacity will be increased, or an existing point of diversion will be abandoned. The applicant should contact the ODFW staff below for a determination of whether native migratory fish are or were present at the applicable location, which will determine whether fish passage must be addressed. ODFW staff name: City/State/Zip:

Phone: ()

pa	The new Point of Diversion (POD) does not currently require a fish screen and/or by- ass device, however, the permittee may be required in the future to install, maintain, and perate fish screening and/or by-pass devices.
N	ote: This option will yield the following:
pa di	inding of Fact: The Oregon Department of Fish and Wildlife has determined that a fish screening and/or by- ass device may be required in the future at the new point of diversion to prevent fish from entering the iversion and/or safely transport fish back to the body of water from which the fish were diverted and that the iversion is not currently equipped with an appropriate fish screening and/or by-pass device.
y sco	ondition: Within one year after receiving written notification from the Oregon Department of Fish and Vildlife (ODFW) that a fish screening and/or by-pass device is required, the water user shall install a creening and/or by-pass device, as appropriate, at the new point of diversion. The fish screening and/or by-ass device must meet ODFW's design and construction standards. Prior to installation, the water user shall btain written approval from ODFW that the required screening and/or by-pass device meets ODFW's riteria. Once installed the water user shall maintain and operate the fish screening and/or by-pass device, as ppropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

Reference: Temporary Transfer 10326

On February 22, 2007 we received your water right transfer application requesting place of use change for use of water from CATHERINE CREEK, tributary to GRANDE RONDE RIVER. The application was accompanied by \$447. Our receipt 86358 is enclosed.

By copy of this letter, we are asking the Watermaster for his report regarding the potential for injury to existing water rights which may be caused by the change.

OAR 690-15-310 prohibits the temporary transfer from taking effect if water has been used on any existing proposed lands involved in the temporary transfer during the season of use. The season of use may be an irrigation season. If the land is sold before the transfer is approved, you will need to obtain consent from the buyer to complete the transfer.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0900.

cc: Watermaster #6 Nadine Craft, ODFW

The holder of a water right may apply to permanently change an existing water use subject to transfer. A transfer application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation.

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU).

Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time. The Director may presume that the transfer would be allowed by, and compatible with comprehensive plans unless an affected local government informs the Director otherwise within 30 days of this notice. Comments should be sent to the Transfers Section at the Department's Salem office.

6. EVIDENCE OF BENEFICIAL WATER USE

- Attach one or more Evidence of Use Affidavits (Supplemental Form B) demonstrating that each of the right(s) involved in the transfer have been exercised in the last five years in accordance with the terms and conditions of the right or that a presumption of forfeiture for non-use could be rebutted. The Evidence of Use Affidavit(s) must include supporting documentation such as the following:
 - Copies of receipts from sales of irrigated crops or for expenditures relating to use of water;
 - Records such as Farm Service Agency crop reports, irrigation district records, an NRCS farm management plan, or records of other water suppliers;
 - ► Dated aerial photographs of the lands or other photographs containing sufficient detail to establish location and date of the photograph; or
 - ▶ If the right has <u>not</u> been used during the past five years, documentation that the presumption of forfeiture would be rebutted under ORS 540.610(2).

WATER RESOURCES DEPT SALEM, OREGON

Description of Proposed Change(s) to a Water Right

Water Right Transfer Supplemental Form B AFFIDAVIT ATTESTING TO THE USE OF WATER

Sta	ate of Oregon
Co	ounty of <u>Union</u>) ss
I, <u>]</u>	Ronney C Slater , in my capacity as O.S.U. – Employee ,
ma	ailing address 65158 Imbler Road Cove, Oregon 97824
tel	lephone number (541) 963-3805 , being first duly sworn depose and say:
1.	I attest that:
X	Water was used during the previous five years on the entire authorized place of use of the water right proposed for transfer as described on the accompanying transfer application; or
	The water right was leased instream at some time within the last five years. The instream lease number is as follows:; or
	The water right is not subject to forfeiture and documentation that a presumption of forfeiture for non-use would be rebutted under ORS 540.610(2) is attached.
2.	My knowledge of the exercise or status of the water right is based on (check one):
	□ Professional expertise
3	My knowledge is specific to the use of water at the following locations:

Tow	nship	Ra	nge	Mer	Sec	1	¼ tion	Gov't Lot or DLC	Acres (if applicable)	
4	S	39	Е	WM	23	NE	NE	7700		
4	S	39	Е	WM	23	SE	NE	7700		
4	S	39	E	WM	24	NW	NW	7700

4	S	39	E	WM	24	SW	NE	7700		
4	S	39	E	WM	24	NE	NW	7700		RECEIVED
4	S	39	Е	WM	24	SE	NW	7700		
										FEB 2 2 2007
							mu (2.50)		VVA	TER RESOURCES DE

(continues on reverse side)

Please print legibly or type. Be as specific as possible. Attach additional pages if you need more space. Supporting documentation must be attached.

4. The water right was exercised for the authorized purpose described below (e.g., crops grown):
Grass Hay, Alfalfa Hay, Triticale Hay, Barley Hay – Also forage regrowth to pasture cattle in the fall.
5. The water delivery system used to apply water as authorized by the right is described below:
150 HP pump was used to pull water out of Godley Ditch #1. Buried water lines then carry
Water from the ditch to 8 wheel lines. Four wheel lines in Certificate #41056 and four wheel
lines in certificate #6251.
6. One or more of the following documentation supporting the above statements is attached:
Copy of a water right certificate that was issued within the last five years (not a remaining right certificate),
☐ Copies of receipts from sales of irrigated crops or for expenditures relating to the use of water,
Records such as Farm Service Agency crop reports, irrigation district records, an NRCS farm management plan, or records of other water suppliers,
Dated aerial photographs of the lands or other photographs containing sufficient detail to establish the location and date of the photograph,
□ Dedicated power usage records or receipts,
☐ Instream lease number
Other: Copy of receipts for seed bought for planting. Also copies of cattle sales which were
Produced from the hay and grazing from the irrigated acreages.
