USE OF WATER)

ORDER APPROVING
TRANSFER NO. 4153

On February 9, 1979, an application was filed in the office of the Water Resources Director by Coos County Parks & Recreation Department for approval of a change in use heretofore made of water from South Fork Coquille River and from an unnamed stream, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 26063, Volume 17, State Record of Water Right Certificates, in the name of Coos Bay Timber Co. & Springfield Plywood Corp., describes a right for storage of not to exceed 108.0 acre feet of water from South Fork Coquille River and an unnamed stream (Morris Creek) for the purpose of a log pond in S $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 12 and N $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 13, Township 31 South, Range 12 West, W.M., with a priority date of February 11, 1955.

The certificate recorded at page 26065 of said volume, in the name of Coos Bay Timber Co., describes a right for use of not to exceed 0.25 cubic foot per second from an unnamed stream (Morris Creek) for maintenance of said log pond; and certificate recorded at page 26064 of said volume, in the name of Coos Bay Timber Co. & Springfield Plywood Corp., describes a right for use of not to exceed 0.25 cubic foot per second from South Fork Coquille River for supplemental maintenance of said log pond, both rights having a priority date of February 11, 1955.

The point of diversion from the unnamed stream (Morris Creek) is located 555 feet North and 975 feet East from the Southwest Corner of Section 12, being within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 12; and the point of diversion from South Fork Coquille River is located 1771 feet North and 1660 feet East from the Southwest Corner of Section 12, being within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section 12.

The applicant herein, owner of the above described pond site, proposes to change the use for which the 108.0 acre feet of water has been stored and the use heretofore made of 0.25 cubic foot per second from the unnamed stream (Morris Creek), supplemented by use of 0.25 cubic foot per second from South Fork Coquille River, and, without loss of priority, to hereafter store said 108.0 acre feet of water from South Fork Coquille River and the unnamed stream (Morris Creek) in said pond for

recreation and to hereafter use said 0.25 cubic foot per second from the unnamed stream (Morris Creek), supplemented by the 0.25 cubic foot per second from South Fork Coquille River, for maintaining said pond for recreation.

Notice of the application, pursuant to ORS 540.520(2), was published in the World, a newspaper printed and having general circulation in Coos County, Oregon, for a period of three weeks in the issues of March 19 and 26; and April 2, 1979.

Mr. M. John Youngquist, Watermaster, has filed a statement to the effect that the proposed changes in use heretofore made of water may be made without injury to existing rights.

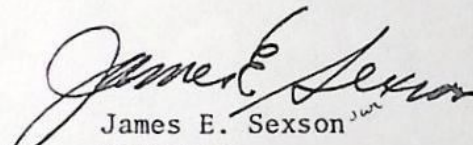

No objections having been filed and it appearing that the proposed changes in use heretofore made of water may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested changes in use heretofore made of water, as described herein, without loss of priority, are approved.

It is FURTHER ORDERED that NO time need be fixed for completion as the changes in use heretofore made of water are completed.

It is FURTHER ORDERED that the certificates of water right recorded at pages 26063, 26064 and 26065, Volume 17, State Record of Water Right Certificates, are canceled; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, confirming certificates of water right shall be issued to the applicant herein.

RE: Files Nos. T-4153, T-4155

Gentlemen:

Your water right transfer applications for approval of changes in use of water from South Fork Coquille River and from Morris Creek, together with supporting data and fees of \$170, were received February 9, 1979. Our receipts Nos. 9064, 9065 and 9066 are enclosed. The affidavit providing for cancellation of part of the right described by certificate 26062 was also received.

I am returning the three applications and a print of the supporting map to Mr. John Drolet, our representative for your area. It will be necessary to supply additional information on one of the applications and combine the proposed changes for the stored water and use of water from the streams for maintaining the pond on another application. I have discussed this with Mr. Drolet. He will contact you in regard to properly completing and returning the applications.

I have made some penciled entries in item No. 13 of application No. 4155, involving the right described by certificate 26062. If you agree with the entries, they should be done in ink or typed and then initialed. The name and title of the person signing the application should be noted in the 'affidavit of applicant' section and the application should be signed before a notary.

I am also enclosing, with the copy of this letter to Mr. Drolet, an application describing proposed changes for rights presently described by certificates 26063, 26064 and 26065. If this application properly describes your intended changes, the 'affidavit of applicant' section may be properly completed before a notary, and the application submitted as a superceding application.

Sincerely,

Wayne J. Overcash
