By Decree of the Circuit Court for Jackson County, Oregon, entered April 26, 1919, in the Matter of the Determination of the Relative Rights to the Use of the waters of Rogue River and Its Tributaries, a water right was allowed in the name of A. E. Collins which includes the use of not to exceed 0.50 cubic foot per second from Squaw Creek and Squaw Creek Lake for stock and for irrigation of a certain 15.0 acres in SE 1/4 SW 1/4, Section 36, Township 40 South, Range 4 West, W.M., with a date of priority of 1876, as evidenced by certificate recorded at page 16451, Volume 13, State Record of Water Right Certificates.

Water for the said right is diverted, through the Thurman & Collins Ditch, from a point located 790 feet North and 1840 feet East from the West Quarter Corner of Section 6, being within the SE 1/4 NW 1/4 of Section 6, Township 41 South, Range 3 West, W.M.

The applicant herein, owner of the lands above described, proposes to sever the rights therefrom and use the water for recreation purposes within NE 1/4 NW 1/4 and NW 1/4 NE 1/4, Section 2, Township 41 South, Range 3 West, W.M.; and NE 1/4 SE 1/4, NW 1/4 SE 1/4, SW 1/4 SE 1/4 and SE 1/4 SE 1/4, Section 35, Township 40 South, Range 3 West, W.M., and to change the point of diversion to a point located 790 feet South and 2440 feet East from the Northwest Corner of Section 2, being within the NE 1/4 NW 1/4 of Section 2, Township 41 South, Range 3 West, W.M.

Mr. David C. Hendrix, Watermaster, has filed a statement to the effect that the proposed changes in place of use, point of diversion and use of water may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed changes in place of use, point of diversion and use of water may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested changes in place of use, point of diversion and use of water, as described herein, without loss of priority, are approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right, and shall not exceed 0.50 cubic foot per second.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made on or before October 1, 1981.

It is FURTHER ORDERED that said water so transferred shall be applied to beneficial use on or before October 1, 1981.

It is FURTHER ORDERED that the certificate recorded at page 16451, Volume 13, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

## INTEROFFICE MEMO

RECEIVED

WATER RESOURCES DEPT  
SALEM, OREGON

TO: TRANSFERS, WATER RIGHTS DIVISION

DATE: January 9, 1980

FROM: \*\* David C. Hendrix, Watermaster

SUBJECT: WATER RIGHT TRANSFER APPLICATION NO. 4358IN THE NAME OF Rogue River Nat'l Forest

In my opinion the proposed changes in use & POD of water from Squaw Cr & Squaw Cr. Lake  
MAY BE MADE WITHOUT INJURY ~~WOULD RESULT IN INJURY~~ to an existing water right.

*Have Not*

Headgate notices ~~have~~ HAVE NOT been issued for diversion from the sources which  
serves this right.

If for change in point of diversion, is there any intervening point of diversion  
between the authorized and the proposed points of diversion? Yes  
(yes or no)

In my opinion, the order approving the subject transfer application should include  
the following in regard to the appropriator installing suitable measuring devices  
in the diversion works:

       (1) PRIOR to the diverting of water at the new point of diversion . . .  
X (2) When in the judgment of the watermaster it becomes necessary . . .

\* The approval of this transfer application would result in injury to other water  
rights because See ~~4357~~ T-4357
