### **Application for**

# Groundwater Registration Modification

Part 1 of 4 - Minimum Requirements Checklist

This Groundwater Registration Modification application will be returned if Parts 1 through 4 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Received Check all included with this application (N/A = Not Applicable) OCT 0.6 2025  $\bowtie$ Part 1 – Completed Minimum Requirements Checklist.  $\boxtimes$ Part 2 – Completed Application Map Checklist. OWRD X Part 3 – Completed Applicant Information and Signature. X Part 4 - Completed Groundwater Registration Modification Application - Groundwater Registration Information. (Only one Groundwater registration per application, unless the Groundwater registrations to be modified are layered).  $\boxtimes$ Completed Groundwater Registration Modification Application Map (Does not have to be prepared by a Certified Water Right Examiner). See Attachment B  $\boxtimes$ Application Fee - payable by check to the Oregon Water Resources Department, the online fee calculator is located: The required fee of \$1,250 is enclosed. https://apps.wrd.state.or.us/apps/wr/wr transfer calculator/groundwater modification.aspx Attachments: N/A Request for Assignment Form and statutory fee. This form needs to be completed if the applicant owns the land to which the registration is appurtenant and is not the registration certificate holder of record. The Request for Assignment Form is available at https://www.oregon.gov/OWRD/Forms/Pages/default.aspx. Assignment is not needed for any person or entity who can demonstrate authorization to request recognition of a modification (e.g. legal representative, power of attorney, agent, etc.) or the applicant is named on the certificate of registration, or has been assigned to the certificate of registration. M Oregon Water Resources Department's Land Use Information Form with approval and signature from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone. See Attachment C  $\boxtimes$ Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation. See Attachment D (For Staff Use Only) WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): \_\_\_ Map not included or incomplete Application fee not enclosed/insufficient Land Use Form not enclosed or incomplete Part \_\_\_\_\_ is incomplete Additional signature(s) required Other/Explanation 503-Date:

### Part 2 of 4 - Groundwater Registration Modification Map Checklist

Your Groundwater Registration Modification application will be returned if any of the map requirements listed below are not met.

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does <u>not</u> have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

	Permanent quality printed with dark ink on good quality paper.
	The size of the map can be $8\% \times 11$ inches, $8\% \times 14$ inches, $11 \times 17$ inches, or up to $30 \times 30$ inches. For $30 \times 30$ inch maps, one extra copy is required.
$\boxtimes$	A north arrow, a legend, and scale.
	The scale of the map must be: $1$ inch = $400$ feet, $1$ inch = $1,320$ feet, the scale of the county assessor map if the scale is not smaller than $1$ inch = $1,320$ feet, or a scale that has been preapproved by the Department.
$\boxtimes$	Township, Range, Section, $\frac{1}{4}$ , DLC, Government Lot, and other recognized public land survey lines.
$\boxtimes$	Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
	Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads and railroads.
	Major water delivery system features from the point(s) of appropriation such as main pipelines, canals, and ditches.
	Existing place of use that includes hachuring, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the registration is being changed, a separate hachuring is needed for the portion of the registration left unchanged.
□ ⊠ N/A	If you are proposing a modification in place of use, show the proposed place of use with hachuring including priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
	Existing point(s) of appropriation with distance and bearing or coordinates from a recognized survey corner.
⊠ □ N/A	If you are proposing a modification in point(s) of appropriation, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example $-42^{\circ}32'15.5''$ ) or degrees-decimal with five or more digits after the decimal (example $-42.53764^{\circ}$ ).

Additional remarks: The applicant is proposing to add four additional points of appropriation (Vertical Wells A, B, C, and D) to GR-3507. The applicant is also adding the four additional points of appropriation to GRs 3502, 3509, and 3510.

#### Groundwater Registration # GR-3507 (Certificate # GR-3227)

For a modification in place of use or character of use:

Are there other water right certificates, water use permits, or Groundwater registrations
associated with the "from" or "to" lands?   Yes   No N/A – GR-3507 is a municipal use right, so
"layering" does not apply

If YES, list the other certificate, water use permit, or other Groundwater registration numbers:

Pursuant to OAR 690-382-0200, any "layered" water use, such as an irrigation right that is supplemental to a primary irrigation right proposed for transfer, must be concurrently transferred with the registration or be cancelled. Any change to a water right must be filed separately in a transfer application. Any change to a water use permit must be filed separately with a permit amendment. Any modification to a Groundwater registration on the "to" lands must be filed separately with a Groundwater registration modification.

#### For modifications in point(s) of appropriation (well(s) or additional point(s) of appropriation:

$\boxtimes$	Well log(s) are attached for each well that are clearly labeled and associated	d with	the	
	corresponding well(s) in Table 1 above and on the accompanying application	n map	cef	ved
	(Tip: You may search for well logs on the Department's web page at:		0.0	0005
	http://apps.wrd.state.or.us/apps/gw/well_log/)	OCT	O.P.	2025

AND/OR OWRD

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For proposed wells not yet constructed or built, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

#### Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your modification application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). <u>If</u> less than full rate of water right
Vertical Wells A, B, C, and D*	No	N/A	70' (est.)	18" (est.)	0-25' (est.)	0-20' (est.)	25-70' (est.)	15 (est.)	Sand and gravel (est.)	**

<sup>\*</sup>Construction details are anticipated to be the same for all four Vertical Wells (A-D).

<sup>\*\*</sup>The proposed wells are being added to GRs 3502, 3507, 3509, and 3510 and will be used within the allowable rates of those 4 GRs.

In the Matter of Groundwater	)	FINAL ORDER APPROVING THE
Registration Modification Application	)	RECOGNITION OF ADDITIONAL
T-13316, Marion, Polk County	)	POINTS OF APPROPRIATION AND
	)	MODIFICATION IN PLACE OF USE

### Authority

Oregon Revised Statutes (ORS) 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a groundwater certificate of registration.

Oregon Administrative Rules (OAR) Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating groundwater registration modification applications.

### **Applicant**

CITY OF SALEM ATTN: JASON PULLEY 555 LIBERTY ST SE ROOM 325 SALEM, OR 97301 Received

OCT 0.6 2025

OWRD

#### **Findings of Fact**

- On December 17, 2019, CITY OF SALEM filed a groundwater registration modification application for additional points of appropriation and to modify the place of use under Registration Application GR-3507 (Certificate of Registration GR-3227). The Department assigned the application number T-13316.
- 2. Notice of the application for groundwater registration modification was published on December 24, 2019, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Special Order Volume 120 Page 450

- 3. On January 15, 2021, the Department sent a copy of the draft Preliminary Determination proposing to approve Groundwater Registration Modification Application T-13316 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of February 14, 2021, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the Groundwater Registration Modification.
- 4. On March 17, 2021, the Department issued a Preliminary Determination proposing to approve Groundwater Registration Modification Application T-13316 and sent a copy to the applicant. Additionally, notice of the Preliminary Determination for the Groundwater Registration Modification application was published on the Department's weekly notice on March 23, 2021, and in the Statesman Journal newspaper on March 19 & 26, 2021, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
- 5. The groundwater registration to be modified is as follows:

Registration: Registration Application GR-3507 (Certificate of Registration GR-3227), in

the name of CITY WATER DEPARTMENT

Use:

MUNICIPAL WATER SUPPLY

Tentative

**Priority Date: 1940** 

Quantity:

1550 GALLONS PER MINUTE

Source:

PUMP WELL within the NORTH SANTIAM RIVER BASIN

6. Groundwater Registration Modification Application T-13316 proposes additional points of appropriation approximately 0.2 mile, 0.4 mile and 0.5 mile from the original well to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
9 S	1 W	WM	11	SE SE	COLLECTOR WELL 2 - 705 FEET NORTH AND 1200 FEET WEST FROM THE NW CORNER OF SECTION 13
9 S	1 W	WM	13	NE NW	COLLECTOR WELL 1 – 980 FEET SOUTH AND 1450 FEE EAST FROM THE NW CORNER OF SECTION 13
9 S	1 W	WM	13	SW NE	COLLECTOR WELL 3 - 1815 FEET SOUTH AND 3155 FEET EAST FROM THE NW CORNER OF SECTION 13

 Groundwater Registration Modification Application T-13316 proposes to modify the place of use under the groundwater registration to:

Received

MUNICIPAL	WATER SUPPLY
CITY OF SALE	M SERVICE AREA

OCT 0.6 2025

OWRD

### Review Criteria for Groundwater Registration Modification Applications [OAR 690-382-0700(2)]

- 8. The proposed modifications would not result in enlargement of the groundwater registration.
- The proposed modifications would not result in a state Scenic Waterway not receiving
  previously available water during periods in which streamflows are less than the quantities
  determined by the Department to be necessary to meet the requirements of ORS 390,835.
- 10. The proposed modifications would not result in injury to other water rights.

#### Conclusions of Law

The additional points of appropriation and modification in place of use proposed in Groundwater Registration Modification T-13316 are consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000.

#### Now, therefore, it is ORDERED:

- The modifications to Registration GR-3507 (Certificate of Registration GR-3227) proposed in Groundwater Registration Modification Application T-13316 are recognized. Recognition of the modifications shall not be construed as a final determination of the right to appropriate groundwater under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.
- The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-3507 (Certificate of Registration GR-3227) and any related decree.
- Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

4. The quantity of water diverted at the proposed additional points of appropriation (Collector Well 1, 2, and 3), together with that diverted at the original point of appropriation (Pump Well), shall not exceed the quantity of water lawfully available at the original point of appropriation (Pump Well).

**Cc:** Zach Pike-Urlacher <zpikeurlacher@gsiws.com> **Subject:** Map scale waiver request for City of Salem

Hi Lisa.

The City of Salem is preparing three groundwater registration modifications to add four proposed points of appropriation to GR-3502, GR-3507, and GR-3510. Because of the size of the City's service area, we'd like to request a map scale waiver for the place of use map for each application (see attachments). The authorized/proposed point of appropriation maps use a standard scale of 1 inch = 1,320 feet (one of those maps is attached as an example).

Let me know if you have any questions regarding this request.

Thank you,

#### Mikaela Clarke

Land Use Information Form

Application for Groundwater Registration Modification City of Salem

# Land Use Information Form

Oregon Water Resources Department 725 Summer Street NE, Suite A Salem, Oregon 97301-1266 (503) 986-0900 www.oregon.gov/OWRD

### NOTE TO APPLICANTS

In order for your application to be processed by the Oregon Water Resources Department (OWRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be diverted, conveyed, used, and developed. The planning official may choose to complete the form while you wait or return the "Receipt Acknowledging Request for Land Use Information" to you. Applications received by OWRD without the Land Use Information Form, or the signed receipt, will be returned to you. **IMPORTANT:** Please note that while OWRD can accept a signed receipt as part of intake for an application for a new permit to use or store water, a completed Land Use Information Form is required for OWRD's acceptance of all other applications. Please be aware that your application cannot be approved without land use approval.

#### This form is NOT required if:

- 1) Water is to be diverted, conveyed, and used on federal lands only; OR
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and <u>all</u> of the following apply:
  - **a.** The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - **b.** The application involves a change in place of use only;
  - **c.** The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
  - **d.** The application involves irrigation water uses only.

### NOTE TO LOCAL GOVERNMENTS

**OWRD** 

The person presenting the attached Land Use Information Form is applying for a new water right or modifying an existing water right. The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application. **NOTE:** For new water right applications only, if you are unable to complete this form while the applicant waits, you may complete the "Receipt Acknowledging Request for Land Use Information" and return it to the applicant.

You will receive notice via OWRD's weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you previously only completed the receipt for an application for a new permit to use or store water, you will have 30 days from the Public Notice date to complete the Land Use Information Form and return it to OWRD. Your attention to this request for information is greatly appreciated. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or WRD\_DL\_customerservice@water.oregon.gov.
