BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

DESCHUTES COUNTY

IN THE MATTER OF THE APPLICATION OF)
CLIFFORD S. ROSE (CENTRAL OREGON)
IRRIGATION DISTRICT) FOR APPROVAL)
OF A CHANGE IN PLACE OF USE OF WATER)

ORDER APPROVING
TRANSFER NO. 4366

On January 9, 1980, an application was filed in the office of the Water Resources Director by Clifford S. Rose for approval of a change in place of use of water from Deschutes River, pursuant to the provisions of ORS 540.510 to 540.530.

By Decree of the Circuit Court for Deschutes County, Oregon, entered September 30, 1958, in the Matter of the Determination of the Relative Rights to the Use of the Waters of Deschutes River and its Tributaries, a water right was allowed in the name of Central Oregon Irrigation District for the use of the waters of Deschutes River for irrigation of, among other lands, a certain 9.0 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 34, Township 17 South, Range 12 East, W.M., being tabulated in the name of Pete Klobus at Volume 16, Page 54, with dates of priority of October 31, 1900 and December 2, 1907, as evidenced by certificate recorded at Page 29052, Volume 21, State Record of Water Right Certificates. These lands also have a supplemental right under permit No. 23256 to the use of water stored in Crane Prairie Reservoir with a date of priority of February 28, 1913. These lands are irrigated by means of the Central Oregon Canal.

The applicant herein, owner of the lands above described, proposes to transfer the water right therefrom, without loss of priority, to a certain 9.0 acres in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 30, Township 17 South, Range 15 East, W.M. (Wayne Singhose).

The lands involved herein are within the boundaries of the Central Oregon Irrigation District and the Board of Directors of said District approved the proposed change in place of use of water at a regular meeting held December 4, 1979.

Mr. Robert F. Main, Jr., Watermaster, has filed a statement to the effect that the proposed change in place of use may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change

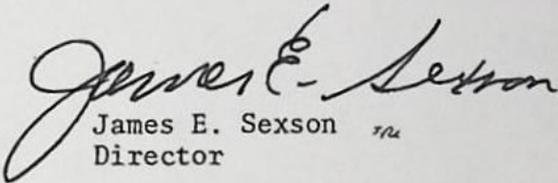

in place of use of water may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in place of use, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that said water so transferred shall be applied to beneficial use on or before October 1, 1981.

It is FURTHER ORDERED that upon receipt of proof satisfactory to the Water Resources Director of complete application of water to beneficial use on the lands to which the water is transferred hereby, a certificate of water right shall be issued to Central Oregon Irrigation District confirming this and prior changes within the District.

Dated at Salem, Oregon this 12th day of March, 1980.

In my opinion the proposed change in place of use of water from Deschutes River
MAY BE MADE WITHOUT INJURY WOULD RESULT IN INJURY* to an existing water right.

Headgate notices HAVE HAVE NOT been issued for diversion from the sources which serves this right.

If for change in point of diversion, is there any intervening point of diversion between the authorized and the proposed points of diversion? _____
(yes or no)

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

- (1) PRIOR to the diverting of water at the new point of diversion . . .
- (2) When in the judgment of the watermaster it becomes necessary . . .

* The approval of this transfer application would result in injury to other water rights because _____

Note: mostly weeds the owner told me it was last irrigated in 1975 or 76 from 1976 photo it appeared to have been irrigated.
