ORDER APPROVING
TRANSFER NO. 4343

On December 10, 1979, an application was filed in the office of the Water Resources Director by Jacob T. Jones for approval of changes in place of use and point of diversion of water from South Scappoose Creek, pursuant to the provisions of ORS 540.510 to 540.530.

The affected water right is described by certificate recorded at page 14132, Volume 12, State Record of Water Right Certificates, in the name of Ernest B. Church, and is for the use of not to exceed 0.11 cubic foot per second from Scappoose Creek, under a priority date of December 5, 1936, for irrigation of a certain 1.2 acres in NW $\frac{1}{4}$ NW $\frac{1}{4}$, 6.7 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$ and 0.8 acres in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 13, Township 3 North, Range 2 West, W.M.

The authorized point of diversion is located within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13, Township 3 North, Range 2 West, W.M.

The applicant proposes to change the place of use and point of diversion therefrom and to irrigate in lieu thereof a certain 8.7 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Township 3 North, Range 2 West, W.M., from a point located 940 feet North and 1700 feet West from the Southeast Corner of Section 14, being within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Township 3 North, Range 2 West, W.M.

Notice of the application, pursuant to ORS 540.520(2), was published in the Chronicle, a newspaper printed and having general circulation in Columbia County, Oregon, for a period of three weeks in the issues of December 16, 23 and 30, 1979.

Mr. Clayton Gardner, Watermaster, has filed a statement to the effect that the proposed changes in place of use and point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed changes in place of use and point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested changes in place of use and point of diversion, as described herein, without loss of priority, are

approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that the construction work shall be completed and the change in point of diversion of water made and that said water so transferred shall be applied to beneficial use on or before October 1, 1981.

It is FURTHER ORDERED that the certificate recorded at page 14132, Volume 12, State Record of Water Right Certificates, is canceled; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.
