Dear Sirs:

It was my intention that the lands identified as supplemental north of the ditch on application map # 58217, permit # 43933, remain with the primary rights which were transferred from the area under transfer # 4389. This would be to better irrigate the area. I would like all of the primary identified north of the ditch to be blocked in an area on the west end. I'm enclosing a map showing the area.

That as to the rights claimed by Joseph R. Keep, contested by the Pacific Power & Light Company and Wapinitia Irrigation Company, it appears that said Joseph R. Keep has no right, title or interest in or to any of the waters of White River or its tributaries, but that all the right, title and interest which said Keep ever had or acquired has been either lost or acquired by the Wapinitia Irrigation Company and its privies.

10.

That as to the rights of W. J. Knox, said Knox as successor in interest to James E. Isbell shall be entitled to use 18.6 second feet of the waters of Badger Creek diverted through the McCorkle ditch, with a priority date of 1879, for power purposes at a mill and millsite located in Section 6, Township 4 South, Range 13 East, W. M.

11.

That as to the rights of the Lost and Boulder Ditch Company, a corporation, said Company shall be entitled, with a priority date of 1901, to 7 second feet of water from Lost and Boulder Creeks, to be measured at or near the division box at the head of the main laterals of said Company situated in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10, T. 5 S. R. 11 E. W. M.; and shall also be entitled, under the same date of priority, to an additional one-half second foot of water for supplying the two small laterals between said division box and the point of diversion, to be measured at the head of said laterals. That said appropriation of seven and one-half second feet may be used on any of the 574.25 acres of land which have been irrigated by the individual stockholders of said Company as shown by the tabulation hereinafter contained. That in addition to said appropriation made in 1901, an appropriation was made in 1911 for 659.2 acres of land which at the commencement of this proceeding had not yet been placed under cultivation, and said Company is therefore allowed an inchoate right for said lands with priority date of 1911; and said Company is allowed one year from the date of this decree within which to complete such appropriation. That the State Engineer shall at the expiration of said time, or such extension thereof as he may allow for good cause shown, take the proof of said Company as to the completion of said right, and file his supplemental findings with this Court showing the extent to which said appropriation has been completed. That the amount of water diverted under the appropriation of 1911 shall be governed by the provisions of Paragraph 24 hereof except that same shall be measured at the point herein above specified.

12.

That in the contest of Wapinitia Irrigation Company and Gate Creek and Rock Creek Ditch Company against W. E. Lucas, it was stipulated that the contestee should have a water right for 2.5 acres of land, with a priority
