The certificate recorded at page 46361, Volume 39, State Record of Water Right Certificates, in the name of G.W. Chamberlain, describes a right which includes the use of not to exceed 0.010 cubic foot per second from Wildhorse Creek for irrigation of a certain 0.35 acre in SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 31 and 0.40 acre in SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 33 East, W.M., with a date of priority of April 20, 1915.

The authorized point of diversion for said right is located 240 feet South and 1560 feet East from the Northwest Corner of Section 32, being within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 32, Township 3 North, Range 33 East, W.M.

The applicant herein, owner of the lands above described, proposes to change the point of diversion therefrom, without loss of priority, to a point located 1140 feet North and 50 feet West from the East Quarter Corner of Section 31, being within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 31, Township 3 North, Range 33 East, W.M.

Notice of the application, pursuant to ORS 540.520(2), was published in the East Oregonian, a newspaper printed and having general circulation in Umatilla County, Oregon, for a period of three weeks in the issues of October 19, 26 and November 2, 1979.

Mr. Steven P. Applegate, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of

diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

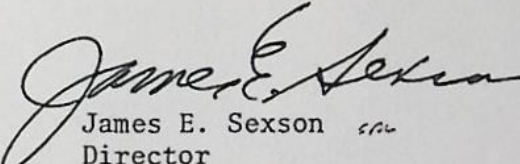

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that NO time need be fixed for completion as the change in point of diversion is completed.

It is FURTHER ORDERED that the certificate recorded at page 46361, Volume 39, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.
