JOSEPHINE COUNTY

IN THE MATTER OF THE APPLICATION OF)
DANIEL JAMES JESSEE FOR APPROVAL OF)
A CHANGE IN USE OF WATER)

ORDER APPROVING
TRANSFER NO. 4321

On October 31, 1979, an application was filed in the office of the Water Resources Director by Daniel James Jessee for approval of a change in use heretofore made of water from Wonder Mountain Gulch, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 20253, Volume 15, State Record of Water Right Certificates, in the name of R. Glenn & Pearl E. Rees, describes a right established under the terms of permit No. 15375 for the use of water from Wonder Mountain Gulch for irrigation of a certain 8.0 acres in SW 1/4 SW 1/4 of Section 10, Township 37 South, Range 7 West, W.M., with a date of priority of October 31, 1942.

It is noted that said certificate contains a clerical error in that it describes the quantity of water appropriated for said lands as 0.01 cubic foot per second. The correct quantity as established in the taking of proof of performance under said permit, is 0.10 cubic foot per second.

Water for the said right is diverted from a point located 60 feet South and 400 feet East from the Northwest Corner of Section 15, being within the NW 1/4 NW 1/4 of Section 15, Township 37 South, Range 7 West, W.M.

The applicant herein proposes to sever the right from 0.5 acre of said 8.0 acres and, without loss of priority, to change the use heretofore made from irrigation to domestic use, during the irrigation season only, within the SW 1/4 SW 1/4 of said Section 10.

Notice of the application, pursuant to ORS 540.520(2), was published in the Daily Courier, a newspaper printed and having general circulation in Josephine County, Oregon, for a period of three weeks in the issues of November 19 and 26 and December 3, 1979.

Mr. Robert B. Steimer, Watermaster, has filed a statement to the effect that the proposed change in use of water may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in use of water may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in use of water, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted shall not exceed 0.005 cubic foot per second.

It is FURTHER ORDERED that NO time need be fixed for completion as the change in use of water is completed.

It is FURTHER ORDERED that the certificate recorded at page 20253, Volume 15, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

This is to certify, That MICHAEL R. LARSON

of 10864 Redwood Highway, Wilderville, State of OR 97543, has made
proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of
Wonder Mountain Gulch

a tributary of Slate Creek for the purpose of
domestic use for one family during the irrigation season only

under Permit No. 15375 and that said right to the use of said waters has been perfected in
accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from
October 31, 1942
that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is
limited to an amount actually beneficially used for said purposes, and shall not exceed
0.005 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of
diversion is located in the NW 1/4 NW 1/4, Section 15, T37S, R7W, WM; 60
feet South and 400 feet East from NW corner Section 15.

The amount of water used for irrigation, together with the amount secured under any other right
existing for the same lands, shall be limited to ----- of one cubic foot per second per
acre,

and shall
conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is
appurtenant, is as follows:

NOTICE OF WATER RIGHT
TRANSFER APPLICATION
NO. 4303

The Water Resources Director of Oregon has received and filed an application by Michael R. Larson for approval, without loss of priority, of a change in use heretofore made of water under a certain water right.

The affected water right is a portion of the right described by the certificate recorded at page 20253, Volume 15, State Record of Water Right Certificates, in the names of R. Glenn and Pearl E. Rees, and is for the use of not to exceed 0.005 cubic foot per second from Wonder Mountain Gulch, under a priority date of Oct. 31, 1942, for irrigation of a certain 0.5 ac in SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec 10, T 37S, R 7W, WM.

The authorized point of diversion is located 60 ft S & 400 ft E from the NW Corner of Sec 15, being within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec 15, T 37S, R 7W, WM.

The applicant proposes to change the use heretofore made, without loss of priority, to domestic use for one family, during the irrigation season only, located in SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec 10, T 37S, R 7W, WM.

Pursuant to ORS 540.520(2), a hearing is scheduled for 9:30 a.m. on Wednesday, June 4, 1980, at the Josephine County Courthouse, Grants Pass, Oregon. Any objection to the proposed change must be prepared in writing; one copy to be served on the application at 10864 Redwood Hwy, Wilderville, OR 97543, and one copy filed in the office of the Water Resources Director, Salem, OR 97310, together with a \$10 filing fee, at least 10 days prior to the date set for hearing. Rules for filing objections will be furnished upon request.

IF NO OBJECTIONS ARE FILED, THE APPLICATION MAY BE APPROVED BY THE WATER RESOURCES DIRECTOR WITHOUT A HEARING.

Dated at Salem, Oregon this 7th day of April, 1980.

JAMES E. SEXSON,
Director

No. 178 — April 14, 21 & 28, 1980.

ADDITION No 19817
REMARKS No 15375

STATE OF OREGON

INTEROFFICE MEMO

TO: Larry Jebousek and Newt Perry

DATE: January 3, 1980

FROM: Robert B. Steimer
Watermaster, District #14 (B)

SUBJECT: Correction of Certificate #20253, Transfers 4321 and 4303

In accordance with the Watermaster's Manual 3.32 (3) I submit the following:

It appears the amount of water allowed at the time proof of certificate #20253 was made was in error--.01 being allowed for 8 acres rather than .1.

There are presently five property owners. During the last of October or the first of November, 1979 one of the present owners, Daniel J. Jessee, made a transfer of a $\frac{1}{2}$ acre portion of this right. He changed the character of use to domestic including $\frac{1}{2}$ acre of irrigation. This appears to me to be an enlargement of this right and should not be allowed unless more of the original right is sacrificed. On October 12, 1979 Michael Larson, Transfer #4303, asked for a change of use of 1.05 acres of the original 8 acres to domestic including $\frac{1}{2}$ acre of irrigation.

It appears to me that a correction of the certificate is necessary because we have less than 1 gpm for each of the five property owners if divided evenly. I would appreciate your concurrence before I proceed to spend the time necessary in contacting and explaining this to the people involved.

Permit 15375
Application 19817

1-8-80

Applied for, 0.50 cfs
permit issued 0.38 cfs for 30 acres
Tom Pearce, watermaster, inspected and approved 8 acres
with 0.10 cfs recommended.

It looks like simple staff error in lettering for certificate. I agree it is State Engineer error and suggest we correct by remaining right certificate and new certificates on Trans. 4321 and 4303.

INTEROFFICE MEMO

TO: File # 19817

DATE: January 14, 1980

FROM: Bruce A. Estes *EE**T-4303*

SUBJECT:

In processing permit number 15375 toward issuance of a certificate a clerical error was inadvertently made in limiting the rate of application to 0.01 cubic foot per second instead of 0.1 c.f.s. which should have been permitted by applying the rate of one-eightieth c.f.s. per acre to the 8 acres allowed in the proof. It should also be noted that Tom Pierce the Watermaster at that time upon an inspection approved 8 acres and 0.1 c.f.s. in his recommendation. It was further noted on the approval that the point of diversion was 60 feet South and 400 feet East from the NW Corner of Section 15. This was shown on the blue line map which accompanied the signed proof and also delineated the location of the 8 acres. The proof was received by this office November 9, 1953, and certificate 20253 was issued February 26, 1954.

They are presently awaiting two transfers numbers 4321 and 4303 orders to allow changes in points of diversion involving the subject right. Evidently there are three other potential POD transfers to be forth coming involving this water right and therefore wording of the transfers should allow the appropriate amount of water for each under the change orders along with allowing the appropriate amount under a remaining right if any lands are left in tact.
