BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

JOSEPHINE COUNTY

IN THE MATTER OF THE APPLICATION)
OF MERIL B. FRITCHEY FOR APPROVAL)
OF A CHANGE IN POINT OF DIVERSION)
OF WATER)

ORDER APPROVING
TRANSFER NO. 4489

Pop 7/26
On April 28, 1980, an application was filed in the office of the Water Resources Director by Meril B. Fritchey for approval of a change in ~~place of use~~ of water from Slate Creek, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 43762, Volume 35, State Record of Water Right Certificates, in the names of Beulah Ingalls and Mary Ann Turner, describes a right which includes the use of not to exceed 0.01 cubic foot per second from Slate Creek for irrigation of a certain 0.3 acre in SW 1/4 NW 1/4, Section 1, Township 37 South, Range 7 West, W.M., with a date of priority of 1898.

Water for the said right is diverted from a point located 1070 feet South and 570 feet East from the Northwest Corner of SW 1/4 NW 1/4, Section 1, being within the SW 1/4 NW 1/4 of Section 1, Township 37 South, Range 7 West, W.M.

The applicant herein, owner of the lands above described, proposes to change the point of diversion, without loss of priority, to a point located 170 feet North and 1010 feet East from the West Quarter Corner of Section 1, being within the SW 1/4 NW 1/4 of Section 1, Township 37 South, Range 7 West, W.M.

Mr. Robert B. Steimer, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the requested change in point of diversion, as described herein, without loss of priority, is approved.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the watermaster it becomes necessary to install headgates and measuring devices:

That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;

That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said watermaster.

It is FURTHER ORDERED that NO time need be fixed for completion as the change in point of diversion is completed.

It is FURTHER ORDERED that the certificate recorded at page 43762, Volume 35, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

Dated at Salem, Oregon this 27th day of June, 1980.

Dear Mr. Fritchey:

I have been informed by our field engineer, Bruce Sund, that he surveyed property in your area in July 1978 for permit #37380. He informs me that a change in point of diversion should be made for 3/10's of an acre.

If you will stop by the office, we will be glad to help you accomplish this.

Sincerely,

(yes or no)

In my opinion, the order approving the subject transfer application should include
the following in regard to the appropriator installing suitable measuring devices
in the diversion works:

- (1) PRIOR to the diverting of water at the new point of diversion . . .
 X (2) When in the judgment of the watermaster it becomes necessary . . .

* The approval of this transfer application would result in injury to other water
