Transfer Application 4496 proposed to move 0.8 acre of water right. The application showed 0.8~~ac~~ into SW¹/₄, Section 14, T27S, R6W, W11. The map showed SE¹/₄SE¹/₄, Section 14. The discrepancy was not picked up. Larry Toll found the land in SE¹/₄SE¹/₄, along with about an acre more on which no filings had been made. That part will be fixed later.

I have noted the correct location on the plat card and Special Order copies.

Issue Confirming Certificate as found by Larry Toll.

In my opinion the proposed change in POU from So. Umpqua River
MAY BE MADE WITHOUT INJURY ~~WOULD RESULT IN INJURY~~* to an existing water right.

Headgate notices HAVE ~~HAVE NOT~~ been issued for diversion from the sources which serves this right.

If for change in point of diversion, is there any intervening point of diversion between the authorized and the proposed points of diversion? N/A
(yes or no)

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

- ____ (1) PRIOR to the diverting of water at the new point of diversion . . .
X (2) When in the judgment of the watermaster it becomes necessary . . .

* The approval of this transfer application would result in injury to other water rights because _____

NOTE: IF RIGHT IS TO BE RETRANSFERRED (AS NOTED IN
