Authority

OAR 690-385-7600 describes the process for the Water Resources Department to issue a water right certificate upon determination that an applicant has made satisfactory proof of completion of the changes authorized by a final order approving a district permanent transfer.

Applicant

Lone Pine Irrigation District
Attn- Alan Russell
7837 NW Lone Pine Lane
Terrebonne, OR 97760

Findings of Fact

1. On July 1, 2008, the Department issued a final order, recorded in Special Order Volume 75, Pages 282 - 286, approving district permanent transfer application T-10429. The order established October 1, 2009, as the date for completion of the authorized change in place of use.
2. On February 25, 2011, the Department received a claim of beneficial use for T-10429.
3. The Department reviewed the claim of beneficial use and final proof maps submitted by the applicant for district permanent transfer T-10429.
4. The claim of beneficial use did not contain map(s) of the point(s) of diversion from the source. However, since these changes are for place of use only within an irrigation district, and do not involve changes in point of diversion, the existing map(s) on file with the Department are sufficient to identify the point(s) of diversion from the source.
5. Satisfactory proof of the changes was submitted with evidence showing that water was used in the location and for the purpose as authorized by the final order approving T-10429 or as otherwise described herein.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Conclusions of Law

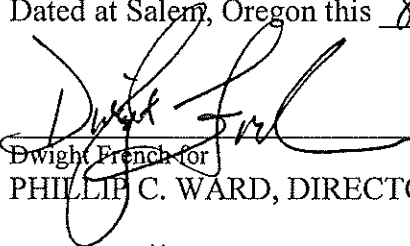

Pursuant to OAR 690-385-7600, the Department may issue a certificate, upon a determination that the application of water to beneficial use under the terms of the final order approving a permanent district transfer was completed to the extent authorized.

Now, therefore, it is ORDERED:

The Department has determined that the application of water to beneficial use under the terms of the final order approving district permanent transfer T-10429 was completed to the extent authorized.

Pursuant to OAR 690-385-7600, the Department will issue a water right certificate on a determination that it is necessary to produce a certificate describing the right.

Dated at Salem, Oregon this 8th day of March, 2011.

Dear Mr. Russell:

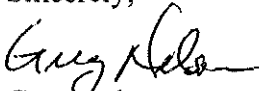

Enclosed is a draft order approving the district permanent transfer application we received on July 2, 2007. As I think you discussed with Vern Curch, the transfer processor, our review found additional water rights that were incorporated into the transfer. Those additions were identified on the amended application map dated October 1, 2007. Please review the draft order and notify me of any errors, omissions or corrections you identify.

Provided the draft requires no corrections, we are prepared to issue the final order. However, before we issue the order, you will need to sign and return the District Permanent Transfer Application Form signature page. The application you submitted included the signature page for a Notice of District Permanent Transfer. Statutes and administrative rules require the district to affirm the statements included on the the Permanent Transfer Application Form signature page. Please reference Transfer Application T-10429 on any correspondence.

We realize the district is not necessarily familiar with the transfer process. Because of that, I recommend when the district files the claim of beneficial use and final proof map upon completion of the transfer that the map clearly identify and differentiate the location of each water right.

Please feel free to contact me if you have any questions. I can be reached at 503-986-0888 or by e-mail at Greg.L.Nelson@wrdd.state.or.us.

Sincerely,

Greg Nelson

Re: T-10429

Dorothy, I have briefly peer reviewed Crook County Improvement District #1's transfer application for a permanent place of use change.

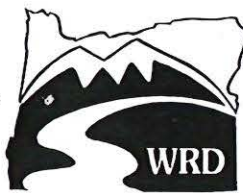

I first find that Vern Church did not forward (FTP) the electronic copy of the final order and/or any other documents supporting this proposed approval. I called and sent an e-mail to Vern to get that done.

Second, I find the following are deficient and recommend that the file be returned to Vern for further processing:

- 1) the original transfer application was generated from a mish-mash of several documents and does not contain the appropriate signature page. (*used part of Notice form*)
- 2) the application was done in pencil, and is not acceptable.
- 3) the application does not contain the statements required in ORS 540.580 (2)(a), and statements similar to latter part of (h) in ORS 540.574 (3)(h), as it relates to validity of the water right, and past water use showing that the right is valid and not subject to forfeiture.

In order to complete my review, I would recommend the also that the plat cards be marked indicating "there is" or "there is not a conflict with existing rights." In addition, the transfer specialist "file checklist" is not completed and left wondering to what extent a thorough review was completed. The amended map (not date stamped) contains to indication of government lots.

I recommend the file be sent back out to the field to Vern for a final review and re-draft of the FO, documenting research and work done.

Determination and Proposed Action

1. The district transfer application satisfies the criteria of ORS 540.580 and OAR 690-385-4000, contains the information required under OAR 690-385-2000, and includes maps meeting the requirements of OAR 690-385-2200.
2. *If application T-10429 is approved, the final order will include the following:*
3. *The changes in place of use proposed in application T-10429 are approved.*
4. *Water right certificate 72197 is cancelled. A new certificate will be issued describing that portion of the right not affected by transfer 9626 together with this transfer.
